

FLAME  
UNIVERSITY

# Visual Identity Guidelines

Version 1 August 2015

Developed by

**ABRAND  
NEWDAY**

The founding of FLAME University is based on the vision that envisages **seamless linking of seemingly disparate subject areas**, and provides a unique platform for true diversity. The University strives to inculcate a culture of openness of thought by breaking the barriers that tend to bind us to uni-dimensional learning.

FLAME University's central concept is thus known as the 'Diversity of the Mind', a state that all members of the FLAME family are encouraged to live. **It is this diversity of the mind that inspires and stimulates creativity and innovation.**

**Formed out of a dynamic 'F'**, it reiterates the concept of education at FLAME being inter-disciplinary, diverse, and having the ability to view the world with a unique perspective.

The FLAME Crest takes lead from the University's central concept. Multidimensional in form, it comprises planes that give **a sense of openness to different perspectives**, exuding the foundational underpinnings of a multi-faceted liberal education.

Appropriately contemporary, the FLAME University Crest bears a distinct visual relation with the University's core values and ideas, and augments their diffusion and dissemination.

Ultimately, for all the stakeholders of FLAME, the crest resonates their passion and devotion to the journey of constant learning- that is rich in diversity, unique in variety, and spirited in its dynamism.

# 1 LOGO

Our Logo is a form that visually represents what we stand for. It is often the first touch point any individual has with us. They begin to decide who we are from there on, so it is critical that it communicates effectively and consistently.

## 1.1 Logo Units

There are two permitted versions of the FLAME University logo. These have been carefully worked out keeping in mind the proportions of different applications and what would work best for each.

### Aligned Logo Unit

---

The aligned version of the logo is the preferred logo unit. It should be used for most applications unless specified otherwise.

### Stacked Logo Unit

---

The stacked version of the logo should only be used for applications where the aligned unit might become too small. Examples of such applications are very long vertical banners, narrow pylon signs, etc.

## 1.2 Crest + Logotype Lockup

The FLAME University logo is composed of a crest and the logotype, both of which have to be used together and never individually.

### 1.3 Exclusion Zone

Leaving free space around the logo ensures that extraneous elements do not intrude on it and dilute its visibility. Leave a uniform area equal to the height of the letter “E” from FLAME around the edge of the logo. This is the Exclusion Zone of our logo. This should not be violated – do not place anything else in this area.

## 1.4 The Strapline

“Igniting Minds” is the strapline that accompanies the logo for certain applications. Typically the logo is positioned at the top left corner and the strapline at bottom right corner for most applications. The width of “Igniting Minds” has to be same as the width of the logotype.

**Igniting Minds.**

## 1.5 The Do's and the Don'ts

Visual consistency of the brand is extremely important. Shown here are examples of visual actions that ruin the logo and damage the brand. These are not permissible.

Do not skew, tilt or scale the logo out of proportion.

Always expand the logo proportionately.

## 1.5 The Do's and the Don'ts

Visual consistency of the brand is extremely important. Shown here are examples of visual actions that ruin the logo and damage the brand. These are not permissible.

Do not change the colour of the symbol or the logotype.

## 1.5 The Do's and the Don'ts

Visual consistency of the brand is extremely important. Shown here are examples of visual actions that ruin the logo and damage the brand. These are not permissible.

Do not add drop shadows, bevel or emboss to the logo. Do not use to mask images or use heavy images as a backdrop.

## 1.6 How to use the logo on images?

The logo has to be placed over a white tag to ensure that the visibility of the logo is not compromised.

The height of the tag has to be of 1/10 of the shorter side of the image.

## 1.6 How to use the logo on images?

Do not stretch, enlarge or change the tag under any circumstances.

## 1.7 Association

FLAME University, at times, develops associations with other institutions. These associations should not develop a special logo but should display both logos without any alteration or additional branding elements. In the case where FLAME University is the senior or equal associate, the FLAME logo should appear first (left position in a side-by-side format). All logos must be used in approximately the same size, weight, and proportion.

For associate logo with symbol/logomark

For associate logo without symbol/logomark

# 2 COLOURS

Our colours are what gives us our personality. We are bright, bold and confident.

## 2.1 Gradient Version

The Gradient version of the logo is the most preferred version. This version of the logo is to be used for all digital, web, presentation and offset print applications.

## 2.4 Single Colour

In print applications, the single colour version of the logo should be used only in black or in white with a dark coloured background and no other colour. The typical applications where a single colour logo would be used are b/w laser prints, forms, fax sheets etc.

The logo can also be applied on materials like glass, wood, metal, plastics etc. by processes like embossing or etching, in which case it would take on the colour of the material.

# 3 TYPOGRAPHY

A good typographic style, used well, is one of the most important ways of expressing the tone as much as the content of our communication. Typography is an art and a science. While it requires aesthetics and flair, there are also well-defined and time-honoured rules that should be adhered to in its usage. We have a distinctive brand typographic style.

## 3.1 House Font

Significant visual equity can be built by consistent use of the brand font, Cambria. Select Regular for body text, and headlines. Bold may be used in headlines as well, but never for long paragraphs of body copy. Use the italic versions to emphasize something in a sentence. However avoid the italic version for any headline.

### Primary Font: Cambria

***abcdefghijklmnopqrstuvwxyz***  
***(,;?!E\$&@\*) 0123456789***

## 3.2 Supporting Font

We recommend Avenir Next LT Pro as the secondary typeface for print and digital applications.

Do not use Avenir Next LT Pro for headlines, or for text that will have primary focus. It is only to be used in combination with Cambria as a secondary typeface.

### Secondary Font: Avenir Next LT Pro

### 3.3 Usage of Type

Do not change the fonts for the headline and the body text. Only use the typefaces specified.

# 4 IMAGERY

Images are a critical part of our communication. As a brand, FLAME only uses actual images. These images when used effectively clearly highlight our offerings and our strengths.

## 4.1 FLAME Images

Use images from the FLAME image bank. There are images which showcase the campus, the lifestyle, activities, etc. Use these images for relevant communication.

## 4.2 Images not to use

Do not use any gimmicky stock images or clip-art.

### 4.3 Supporting Visual Device

Use of the design style to compliment images and communication material is permissible. These visual device templates are available upon request.

# 5 BRAND IDENTITY
