

Sakaal Edugain 2007

The Exhibition from 4th Jan to 7th Jan 2007, was inaugurated with much fanfare by the Chief of the GEM group's international cooperation, from France - Mr Pascal, our Chairman Parag & our President Indira. The light of Knowledge was lit on day one & it was followed by four days of hectic activity for everyone. FLAME's stall was arguably the best designed, most admired and clearly in a league by itself.

Kudos to Achyut, Suniti, Kishore, Ashish (the architect) & Amol for their dedication and whole hearted efforts. They burned the midnight oil for 3 consecutive days, to have the stall ready in time. The main stall had 5000 visitors keeping our counselors and faculty busy with all kinds of queries. The concept of Liberal Education in India excited students and parents equally. There were some parents who were so impressed they wanted to enroll for short-term courses. The Personality Test Veena conducted was taken by 134 students. A number of these students did come to our office for personal counseling with Veena in the following week.

The lectures in Gurukul Hall attracted huge crowds. Indira created quite a stir by her lecture on "Management Education with a Difference" and even received a standing ovation by a cheering audience.

Prasad's Theatre Workshop was attended by 25 students and also evoked a good response. All these efforts paid off well and FLAME logged 401 enquiries for ungrad and postgrad programs.

A special thanks to Ajey for keeping everyone well fed throughout the event.

Northeast Conference

A delegation of dignitaries from the Northeast visited Pune from 12th to 14th of Jan. The visitors were introduced to FLAME and brought upto speed on what we have achieved to date. They were suitably impressed and will be working with FLAME on various projects including our ongoing megaproject ofgetting students!

A big THANK YOU! to Mr. Das and Amol for flawless arrangements for the conference. We know we can always count on you, guys.

Happy Birthday ...

Santosh Tamhankar!!!

On 5th Feb 2007

Many happy returns & best wishes for this year!

Something to chew on this week

"If you see in your wine the reflection of a person not in your range of vision, Don't drink it." Chinese Proverb.

And in other news.....

Wishing Amol a speedy recovery.....
Next time please look before you leap!
