

OPEN CANVAS

An event named "Open Canvas" was held on 22nd September, 2009 on FLAME Campus where a group of musicians including Milind Date [flute], Nilesh Randive [tabla], drums and guitarists (students of Flame) played melodic music. On the rhythm of this music, the artists Milind Mulick, Aditya Shirke, Mukta Awchat, Aditi Dev and Ketaki Pimpalkhare danced on the floor named canvas with colours. The musicians enjoyed the painters swinging to their music, and the painters enjoyed the peak of the mood achieved while painting simultaneously on the beats of music.

This beautiful blend of two arts became an attraction for the viewers. The music pacified the ears of the audience and the colours appealed to the eyes. This combination made the mind of the audience take a break from the hustle and bustle of the life and relax. People enjoyed the increase in the beauty of painting with the addition of each colour stroke, making them curious for every next stroke and adding to the beauty further.

is a planned co curricular student run activity that aims to provide members with skills to help them bridge theory with practice. .

FIL believes that students pursuing all career paths need to make investment decisions all along even though they would not consider it "investments" In the traditional sense. The aim of FIL is to arm the participating students with the knowledge and information about the real business world, how it operates & to familiarize them with the process of building blocks from theory to practice. Since this will be an initiative run by students, there will be Elections for different posts.

Speaking on the occasion, FLAME's President Prof. Indira Parikh said " FLAME has always tried to make difference in the education environment to give the students an edge to live differently and to make the best out of life. This initiative will make students stand out in life since they are being equipped with the thinking processes by the best people in the country".
