

List of Course Outcomes for all courses A.Y. 2022-23

Code	CO	Code-CO	Course Outcome
ACCT201	CO1	ACCT201CO1	Prepare multi-step income statements, classified balance sheets, statements of retained earnings and statements of cash flows.
ACCT201	CO2	ACCT201CO2	Demonstrate knowledge of each step in the accounting cycle.
ACCT201	CO3	ACCT201CO3	Use Generally Accepted Accounting Principles (GAAP) to record common business transactions involving long-term assets, investments, liabilities and stockholders' equity.
ACCT201	CO4	ACCT201CO4	Use basic financial statement ratio analysis to evaluate financial performance.
ACCT201	CO5	ACCT201CO5	Incorporate and use basic managerial accounting terminology and concepts in a business environment and communicate effectively
ACCT201	CO6	ACCT201CO6	Use an understanding of cost concepts for product costing and to analyze relevant costs.
ACCT201	CO7	ACCT201CO7	Understand the nature of costs and apply to cost-volume-profit relationships and activity based costing.
ACCT201	CO8	ACCT201CO8	Apply budgeting for business planning and standard costs to perform variance analysis.
ACCT201	CO9	ACCT201CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ACCT201	CO10	ACCT201CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
ACCT201	CO11	ACCT201CO11	Demonstrate ability to work in a team effectively
ACCT201	CO12	ACCT201CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ACDW101	CO1	ACDW101CO1	Identify and recognize the characteristics of academic writing
ACDW101	CO2	ACDW101CO2	Describe and interpret personal narrative structure
ACDW101	CO3	ACDW101CO3	Identify, explain, and demonstrate examples of argumentative writing
ACDW101	CO4	ACDW101CO4	Discuss and determine strong research topics and the research paper format
ACDW101	CO5	ACDW101CO5	Label and model citation and referencing best practice
ADBR101	CO1	ADBR101CO1	Understand a marketing situation in communication terms.
ADBR101	CO2	ADBR101CO2	Interpret how advertising could influence consumer decision making.
ADBR101	CO3	ADBR101CO3	Compare the evolution of global and Indian perspectives of advertising.
ADBR101	CO4	ADBR101CO4	Apply new and better ways beyond traditional media to communicate with the target audience.
ADBR101	CO5	ADBR101CO5	Identify a promotion plan which may help target short term boosts in sales without hurting long term image.
ADBR101	CO6	ADBR101CO6	Identify the behavioural aspects of how customers behave and link the same to advertising and promotions.
ADBR101	CO7	ADBR101CO7	Apply theory and concepts learned in developing advertising and promotional ideas for a brand.
ADBR201	CO1	ADBR201CO1	Apply concepts of Marketing
ADBR201	CO2	ADBR201CO2	Understand Marketing Mix
ADBR201	CO3	ADBR201CO3	Understand role of Consumers and other stakeholders
ADBR201	CO4	ADBR201CO4	Understanding Integration of various marketing communication tools
ADBR201	CO5	ADBR201CO5	Apply tools of Marketing Communications
ADBR201	CO6	ADBR201CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR201	CO7	ADBR201CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR201	CO8	ADBR201CO8	Demonstrate ability to work in a team effectively
ADBR201	CO9	ADBR201CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR204	CO1	ADBR204CO1	Understand the key elements of sports marketing and Management
ADBR204	CO2	ADBR204CO2	Understand franchise model in sports industry
ADBR204	CO3	ADBR204CO3	Understand and evaluate various business and revenue models in the industry
ADBR204	CO4	ADBR204CO4	Understand role of sponsorship programs in sports industry
ADBR204	CO5	ADBR204CO5	Analyse and evaluate sports audience engagement and draw insights
ADBR204	CO6	ADBR204CO6	Develop sports marketing plans
ADBR204	CO7	ADBR204CO7	Interactive games and fantasy sports
ADBR204	CO8	ADBR204CO8	Artist and Brand management in sports
ADBR204	CO9	ADBR204CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR204	CO10	ADBR204CO10	Demonstrate knowledge of relevant concepts and its application in employment settings

List of Course Outcomes for all courses A.Y. 2022-23

ADBR204	CO11	ADBR204CO11	Demonstrate ability to work in a team effectively
ADBR204	CO12	ADBR204CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR301	CO1	ADBR301CO1	Students must be able to understand the concepts in consumer behavior
ADBR301	CO2	ADBR301CO2	Students must be able to examine and apply research in consumer and audience behavior
ADBR301	CO3	ADBR301CO3	Students must be able to assess, evaluate and create customer decision making plans for given situations
ADBR301	CO4	ADBR301CO4	Students must be able to construct and plan diverse marketing solutions with the help of the knowledge of consumer behaviour
ADBR301	CO5	ADBR301CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR301	CO6	ADBR301CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR301	CO7	ADBR301CO7	Demonstrate ability to work in a team effectively
ADBR301	CO8	ADBR301CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR302	CO1	ADBR302CO1	Identify what makes great/failed campaigns
ADBR302	CO2	ADBR302CO2	Internalize and imbue the principles of great campaigns
ADBR302	CO3	ADBR302CO3	Begin the practice of identifying ONE big idea and ideating its execution across imperative and innovative media
ADBR302	CO4	ADBR302CO4	Demonstrate beginner-level proficiency in producing ads using vector graphics software
ADBR302	CO5	ADBR302CO5	Generate one's own individual Creative Portfolio that will compete with the best in the industry
ADBR302	CO6	ADBR302CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR302	CO7	ADBR302CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR302	CO8	ADBR302CO8	Demonstrate ability to work in a team effectively
ADBR302	CO9	ADBR302CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR303	CO1	ADBR303CO1	Understand the importance of brand building in creating business value
ADBR303	CO2	ADBR303CO2	Outline the process that companies follow before launching a new product
ADBR303	CO3	ADBR303CO3	Be able to explain the concept of consumer based brand equity and how it is built by brands
ADBR303	CO4	ADBR303CO4	Summarize the key considerations while creating brand architecture
ADBR303	CO5	ADBR303CO5	Summarize how brand portfolio is structured and maintained
ADBR303	CO6	ADBR303CO6	Be able to explain how a go to market strategy is constructed for a new launch
ADBR303	CO7	ADBR303CO7	Demonstrate how a marketing plan is built by brand managers
ADBR303	CO8	ADBR303CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR303	CO9	ADBR303CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR303	CO10	ADBR303CO10	Demonstrate ability to work in a team effectively
ADBR303	CO11	ADBR303CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR304	CO1	ADBR304CO1	Develop a basic understanding of what PR is, what corporate communication is, and how events add value to a Brand.
ADBR304	CO2	ADBR304CO2	Compare and contrast the role of Events, PR and Corporate Communications in organisations and understand the different views of PR and corporate communication and the influence they have on various stakeholders.
ADBR304	CO3	ADBR304CO3	Evaluate the key constructs of corporate communications and public relations to better understand how they fit in with a Brand's strategy.
ADBR304	CO4	ADBR304CO4	Identify how public relations can empower organisations to accomplish marketing and corporate objectives.
ADBR304	CO5	ADBR304CO5	Construct and understand the ethical and societal framework in which public relations functions. CSR initiatives and doing good
ADBR304	CO6	ADBR304CO6	Analyse and critique the attitude used by corporations and organizations to communicate externally and internally, based on the understanding of theories of PR and corporate communication
ADBR304	CO7	ADBR304CO7	Build and curate events for brands keeping in mind the image and positioning of the brand.
ADBR304	CO8	ADBR304CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR304	CO9	ADBR304CO9	Demonstrate knowledge of relevant concepts and its application in employment settings

List of Course Outcomes for all courses A.Y. 2022-23

ADBR304	CO10	ADBR304CO10	Demonstrate ability to work in a team effectively
ADBR304	CO11	ADBR304CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR305	CO1	ADBR305CO1	Students must be able to understand the concepts in retail marketing and communication
ADBR305	CO2	ADBR305CO2	Students must be able to examine and apply research in retail marketing
ADBR305	CO3	ADBR305CO3	Students must be able to assess and evaluate plans for store selection
ADBR305	CO4	ADBR305CO4	Students must be able to create strategic decision making plans for merchandising and product assortment
ADBR305	CO5	ADBR305CO5	Students must be able to construct and implement diverse solutions with the help of the knowledge of retail marketing and communication
ADBR305	CO6	ADBR305CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR305	CO7	ADBR305CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR305	CO8	ADBR305CO8	Demonstrate ability to work in a team effectively
ADBR305	CO9	ADBR305CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR307	CO1	ADBR307CO1	Understand and learn use and relevance Qualitative research Methodology
ADBR307	CO2	ADBR307CO2	Formulate Research Design
ADBR307	CO3	ADBR307CO3	Learn and Apply Data collection methods
ADBR307	CO4	ADBR307CO4	Conduct data analysis and draw inferences
ADBR307	CO5	ADBR307CO5	Presentation of data
ADBR307	CO6	ADBR307CO6	Knowledge Softwares and computer programs
ADBR307	CO7	ADBR307CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR307	CO8	ADBR307CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR307	CO9	ADBR307CO9	Demonstrate ability to work in a team effectively
ADBR307	CO10	ADBR307CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ANTH151	CO1	ANTH151CO1	Understand the psychological and political aspects of the body across cultures
ANTH151	CO2	ANTH151CO2	Become familiar with the various debates on the cultural construction of the body across space and time
ANTH151	CO3	ANTH151CO3	Gain an ability to critically analyse and reflect on scholarly work on the body
ANTH151	CO4	ANTH151CO4	Become proficient in speaking critically and effectively about the body and body politics
ANTH152	CO1	ANTH152CO1	Analyse the ways in which gender interacts with other identities such as race, ethnicity and religion
ANTH152	CO2	ANTH152CO2	Demonstrate an understanding of key feminist theories that have shaped the understanding of gender and sexuality over the years.
ANTH152	CO3	ANTH152CO3	Explain the role and significance of women's movements in India
ANTH152	CO4	ANTH152CO4	Display an understanding of gendered experiences of abuse and violence in different contexts
ANTH152	CO5	ANTH152CO5	Critically analyse the way in which gender interacts with caste and class in the Indian context.
ANTH152	CO6	ANTH152CO6	Understand the role and significance of the LGBTQ movements in India and the West
ARCH101	CO1	ARCH101CO1	Understand the concepts, theories and methods of archaeology
ARCH101	CO2	ARCH101CO2	Explain evolution of the discipline of archaeology in relation to contemporary intellectual developments
ARCH101	CO3	ARCH101CO3	Understand and analyse multiple interpretations of human past based on changing theoretical models and field techniques
ARCH101	CO4	ARCH101CO4	Apply theoretical models and knowledge of field techniques to interpret real archaeological artefacts
ARCH101	CO5	ARCH101CO5	Explain why and how do cultures change
ARTS102	CO1	ARTS102CO1	identify key historical monuments, sculpture and paintings from various historical periods
ARTS102	CO2	ARTS102CO2	critique and analyze works of art through art historical periods such Mauryans, Shungas, Sathavanas, Rashtrakutas, Chalukyans and learn different types of architectural styles
ARTS102	CO3	ARTS102CO3	Knowledge of different styles of cave architecture, and structural temple architecture, styles of painting, sculptural styles from various periods Mauryans, Sathavanas, Rashtrakutas
ARTS103	CO1	ARTS103CO1	appreciate art through historical periods and contemporary art in India
ARTS103	CO2	ARTS103CO2	critique and analyze works of art from the Mughal to Contemporary art in India

List of Course Outcomes for all courses A.Y. 2022-23

ARTS103	CO3	ARTS103CO3	Appreciate contemporary art and various styles of painting, and other contemporary art forms
ARTS103	CO4	ARTS103CO4	Identify important artists and their works
ARTS105	CO1	ARTS105CO1	Develop and demonstrate ability to discuss varied art and architectural forms in the Indian Subcontinent in the framework of their historical and cultural developments.
ARTS105	CO2	ARTS105CO2	Identify and analyse the characteristics Indian art, and critically appraise them as expressions of their time's social, political, economic, technological forces.
ARTS105	CO3	ARTS105CO3	Acquire and demonstrate familiarity in recognizing the major themes that pervade the artistic traditions of the Indian Subcontinent, and use its formal terminology to describe it
ARTS105	CO4	ARTS105CO4	Express an understanding of Indian art as it integrally relates to other domains such as politics, economics, gender and so on.
ARTS105	CO5	ARTS105CO5	Use effective oral and writing skills to engage in informed discussions on Indian art and relate it to its context.
ARTS121	CO1	ARTS121CO1	Develop an in-depth understanding and appreciation for one of cinema's most popular and controversial genres
ARTS121	CO2	ARTS121CO2	Discern new trends, transmutations, and derivatives of the horror film within varied historical and geographic contexts
ARTS121	CO3	ARTS121CO3	Demonstrate the ability to conduct independent research and write critically about a particular film genre in which they must analyze moving images and sounds, interpret information, evaluate research and historical data, and/or perform other activities appropriate to the discipline of film studies
ARTS152	CO1	ARTS152CO1	Appreciate the works of important artists and their works through historical periods such as Romanticism, Realism, Impressionism, Post Impressionism
ARTS152	CO2	ARTS152CO2	Appreciate and critically analyze work of art
ARTS152	CO3	ARTS152CO3	Broaden their knowledge in the field of art
ARTS153	CO1	ARTS153CO1	Develop and demonstrate ability to discuss diverse art and architectural forms in the framework of their historical and cultural developments.
ARTS153	CO2	ARTS153CO2	Identify and apply analytical approaches to art forms, and appraise them as expressions of concurrent social, political, economic, technological forces.
ARTS153	CO3	ARTS153CO3	Acquire and demonstrate a familiarity with some major themes that inform art historical inquiry, and become familiar with its vocabulary.
ARTS153	CO4	ARTS153CO4	Express an understanding of art as it integrally relates to other domains such as politics, economics, gender and so on.
ARTS153	CO5	ARTS153CO5	Use effective oral and writing skills to engage in informed discussions on art, and to explain why it matters.
ARTS202	CO1	ARTS202CO1	Demonstrate understanding of key figures, institutions, and cultural and historical contexts within canonical tendencies in world cinema history
ARTS202	CO2	ARTS202CO2	Understand the intellectual ramifications of an international approach to film history that de-centers the dominance of Hollywood and Euro-centric cinematic models
ARTS202	CO3	ARTS202CO3	Develop a refined grasp of vocabulary and method in the analysis of international film style across its major phases
ARTS202	CO4	ARTS202CO4	Develop knowledge, understanding, and appreciation of global cinema, while building tolerance and empathy for diverse peoples, societies and cultures
ARTS202	CO5	ARTS202CO5	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ARTS202	CO6	ARTS202CO6	Demonstrate skills to conduct critical enquiry
ARTS221	CO1	ARTS221CO1	Understand dramatic theories
ARTS221	CO2	ARTS221CO2	Understand social theories
ARTS221	CO3	ARTS221CO3	Familiarity with critical debates on caste and gender within literary theory and cultural studies;
ARTS221	CO4	ARTS221CO4	Apply dramatic and social theories to interpret plays
ARTS221	CO5	ARTS221CO5	Evaluate plays to understand social and cultural aspects
ARTS221	CO6	ARTS221CO6	Build writing abilities to analyse and critique the plays
ARTS221	CO7	ARTS221CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ARTS221	CO8	ARTS221CO8	Demonstrate skills to conduct critical enquiry
ARTS331	CO1	ARTS331CO1	Understand how the Indian film industry and culture always corresponds to the historical and political changes in the nation
ARTS331	CO2	ARTS331CO2	Engage with the plethora of film making cultures of India
ARTS331	CO3	ARTS331CO3	Explore and critically analyse the thematic concerns of Indian cinema
ARTS331	CO4	ARTS331CO4	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ARTS331	CO5	ARTS331CO5	Demonstrate skills to conduct critical enquiry

List of Course Outcomes for all courses A.Y. 2022-23

ATMS231	CO1	ATMS231CO1	Describe the basic physical principles that govern the human, built and urban environment.
ATMS231	CO2	ATMS231CO2	Understand at an elementary level the role of the sun in determining the earth's weather and the physics of the atmosphere.
ATMS231	CO3	ATMS231CO3	Apply these principles in analysing various systems concerning the atmosphere and its motion, transport of pollution and radioactivity using quantitative methods.
ATMS231	CO4	ATMS231CO4	Illustrate and explain example scenarios pertaining to energy balance, atmospheric stability, pollutant dispersion, radioactivity and meteorological measurements
ATMS231	CO5	ATMS231CO5	Be able to describe the chemical composition (and the main elements' occurrence forms) of the geosphere, the atmosphere, the hydrosphere, and the biosphere and to explain how interactions between these spheres and the technosphere affects the environment
ATMS231	CO6	ATMS231CO6	Know how different types of chemical reactions affect the element cycles and transport in nature, including writing correct reaction formulas, classifying reactions and from a chemical formula distinguish the dominant form of binding (e.g. covalent or ionic) and, where relevant, predict the oxidation number of elements in a chemical compound and the shapes of molecules
ATMS231	CO7	ATMS231CO7	Be able to solve primarily inorganic environmental chemistry problems using chemical equilibrium, stoichiometry, and relations from the chemical thermodynamics;
ATMS231	CO8	ATMS231CO8	Be able to describe the dominant features in the hydrological and the biogeochemical cycles and to make calculations for individual elements and draw conclusion with implications for the pollution situation and to account for the coupling to energy flows in nature
ATMS231	CO9	ATMS231CO9	Demonstrate interest and commitment by actively participating in the learning process in class
BIOL101	CO1	BIOL101CO1	Name , describe and distinguish between different life forms
BIOL101	CO2	BIOL101CO2	Explain the composition and physiology of the two cell types
BIOL101	CO3	BIOL101CO3	Acquire a basic understanding of handling a microscope
BIOL101	CO4	BIOL101CO4	Describe and discuss features till phyla level of Plantae and Animalia kingdom members
BIOL101	CO5	BIOL101CO5	Illustrate fair understanding of some of the human organ systems
BIOL101	CO6	BIOL101CO6	Observe, understand , interpret and explain the concepts through the experimental set up
BIOL101	CO7	BIOL101CO7	Appreciate , engage in discussions and describe overall understanding of the contents
BIOL151	CO1	BIOL151CO1	Have fair understanding on the diversity of microbes
BIOL151	CO2	BIOL151CO2	Acquire a good grasp on the structure and function of bacteria and fungi
BIOL151	CO3	BIOL151CO3	Summarise the critical differences between a prokaryotic and eukaryotic cell
BIOL151	CO4	BIOL151CO4	Illustrate their habitat and interactions with the surrounding environment
BIOL151	CO5	BIOL151CO5	Gather a good understanding of their nutrition and growth
BIOL151	CO6	BIOL151CO6	Understand and analyse the applications of these microbes in agriculture, pharmaceutical, food industries and environment as well
BIOL151	CO7	BIOL151CO7	Demonstrate knowledge acquired for growing, handling and working with bacteria and fungi through experimental set up
BIOL151	CO8	BIOL151CO8	Appreciate , engage in discussions and describe overall understanding of the contents
BIOL152	CO1	BIOL152CO1	Explain historical background and scope of genetics
BIOL152	CO2	BIOL152CO2	Describe and solve problems on the patterns of inheritance
BIOL152	CO3	BIOL152CO3	Able to explain the detailed structure of DNA and RNA molecules
BIOL152	CO4	BIOL152CO4	Illustrate fair understanding of genes and the protein synthesis
BIOL152	CO5	BIOL152CO5	Understand mutation process and types
BIOL152	CO6	BIOL152CO6	Comprehend and apply the concepts in enhancing the understanding in applications of genetics
BIOL152	CO7	BIOL152CO7	Demonstrate some of the concepts through experimental setup
BIOL152	CO8	BIOL152CO8	Appreciate , engage in discussions and describe overall understanding of the contents
CETH101	CO1	CETH101CO1	Discuss Ethical Theories and Concepts
CETH101	CO2	CETH101CO2	Recognise and explain relevant ethical and social concerns regarding the issue at hand
CETH101	CO3	CETH101CO3	Classify the moral complexity of situations
CETH101	CO4	CETH101CO4	Explain important ethical components and recognise concerns common to various situations
CETH101	CO5	CETH101CO5	Demonstrate reasoning for ethical judgments
CEVS151	CO1	CEVS151CO1	Explain the relevance of environmental studies at an individual, national, and global scale.
CEVS151	CO2	CEVS151CO2	Reflect on their environmental identity, ecological footprint, and the potential for behavioural change.

List of Course Outcomes for all courses A.Y. 2022-23

CEVS151	CO3	CEVS151CO3	Interpret information about environmental issues in India and worldwide.
CEVS151	CO4	CEVS151CO4	Discuss the relationship among environmental, sociocultural, economic, and political factors contributing to topics of discussion in Indian and worldwide.
CEVS151	CO5	CEVS151CO5	Conduct research on a local environmental issue and present findings.
CFIL101	CO1	CFIL101CO1	Savings - Understand the overall role finances play in one's personal life.
CFIL101	CO2	CFIL101CO2	Understand the importance of risk
CFIL101	CO3	CFIL101CO3	Be aware of different frameworks for financial planning
CFIL101	CO4	CFIL101CO4	Identify different investment options available
CFIL101	CO5	CFIL101CO5	Apply financial principles to demonstrate sound, practical decision-making in personal financial situations
CFIL101	CO6	CFIL101CO6	Communicate effectively in dealing with personal business matters.
CHEM101	CO1	CHEM101CO1	Identify different elements and understand their fundamental properties
CHEM101	CO2	CHEM101CO2	Identify, name and draw structures of different organic compounds
CHEM101	CO3	CHEM101CO3	Illustrate fair understanding of different types of reactions
CHEM101	CO4	CHEM101CO4	Acquire basic understanding of physical, inorganic and organic chemistry
CHEM101	CO5	CHEM101CO5	Observe, understand, calculate and explain basic concepts through experimental set up
CHEM101	CO6	CHEM101CO6	Develop oral and written communication skills of explaining concepts in chemistry in scientific manner
CHEM101	CO7	CHEM101CO7	Demonstrate interest and commitment by actively participating in learning process in class
CMEN101	CO1	CMEN101CO1	Understand the importance and apply various types of thinking frameworks
CMEN101	CO2	CMEN101CO2	Understand and follow thinking from first principles
CMEN101	CO3	CMEN101CO3	Predict the consequences of actions at second and higher order levels
CMEN101	CO4	CMEN101CO4	Apply probabilistic thinking principles in uncertain situations
CMEN101	CO5	CMEN101CO5	Distinguish between correlation and causality
CMEN101	CO6	CMEN101CO6	Paraphrase the principles scientific reasoning
CMEN101	CO7	CMEN101CO7	Paraphrase some important principles underlying some of the fundamental scientific disciplines such as Physics, Chemistry, Biology
CMEN101	CO8	CMEN101CO8	Paraphrase some important principles underlying the Social Sciences such as those of Economics, Sociology, and Psychology
CMEN101	CO9	CMEN101CO9	Paraphrase some important elements of the Humanities such as Literature, Philosophy, History
CMEN101	CO10	CMEN101CO10	Paraphrase some important elements of business disciplines
CMEN101	CO11	CMEN101CO11	Recall some important design thinking principles
CMEN101	CO12	CMEN101CO12	Recall important principles enunciated by important people in business and industry
COMS101	CO1	COMS101CO1	Outline a brief history of evolution of mass media and communication theories
COMS101	CO2	COMS101CO2	Understand the how media perpetuates structures of social hegemony, and explain how conditioning of ideas around gender, class, caste, etc are constructed
COMS101	CO3	COMS101CO3	Describe the processes of Media Deconstruction and Representation
COMS101	CO4	COMS101CO4	Explain the basic principles of political economy of media
COMS101	CO5	COMS101CO5	Illustrate a given communication situation with an appropriate theory
COMS101	CO6	COMS101CO6	Develop a critical lens to analyze Media
COMS101	CO7	COMS101CO7	Discuss and deliberate on contemporary issues in Communication
COMS201	CO1	COMS201CO1	Develop a deep awareness of political, social and corporate issues influenced by communication sensitivity and skills.
COMS201	CO2	COMS201CO2	Develop a critical lens to examine culture as it influences ourselves, our relations, our media, and our understanding of society
COMS201	CO3	COMS201CO3	Identify the social implications of consumerism and advertising as an economic and cultural force
COMS201	CO4	COMS201CO4	Examine and evaluate advertisements and their fine print; issues related to representation, identity, and inequality; roles and stereotypes and the reinforcement of stereotypes.
COMS201	CO5	COMS201CO5	Develop a nuanced understanding of cultural situations in an organizational setup
COMS201	CO6	COMS201CO6	Examine the deeper structural issues and identify plausible solutions for cultural problems
COMS201	CO7	COMS201CO7	Extend the ability to identify and critique the dominant narratives in Culture and Communication
COMS281	CO1	COMS281CO1	Understand the broad contours of Communication Research

List of Course Outcomes for all courses A.Y. 2022-23

COMS281	CO2	COMS281CO2	Read and comprehend research articles from the Communication Discipline
COMS281	CO3	COMS281CO3	Prepare a comprehensive literature review for a given communication topic
COMS281	CO4	COMS281CO4	Formulate a research design using the research methods discussed in the course
COMS281	CO5	COMS281CO5	Design and develop a basic research project
COMS281	CO6	COMS281CO6	Describe ethical dilemmas in the research process
COMS281	CO7	COMS281CO7	Understand the process of academic publishing
COMS281	CO8	COMS281CO8	Apply the learnings from the course to projects outside of academic research like Film and Television, Journalism
COMS301	CO1	COMS301CO1	Understand business of media and convergence of technologies
COMS301	CO2	COMS301CO2	Understand organizational and economic structures in media landscape
COMS301	CO3	COMS301CO3	Understand convergence, new technologies, and their impact on the electronic media landscape
COMS301	CO4	COMS301CO4	The purposes and activities of most aspects of media organizations including advertising, production and programming.
COMS301	CO5	COMS301CO5	To gain perspective on the history and evolution of media and on key current trends.
COMS301	CO6	COMS301CO6	Understand media buying and selling
COMS301	CO7	COMS301CO7	Understand media distribution, research, and consumption
COMS301	CO8	COMS301CO8	Understand media measurement metrics
COMS301	CO9	COMS301CO9	To develop an integrated marketing plan using a wide variety of media that will take a comprehensive approach to a marketing challenge.
COMS301	CO10	COMS301CO10	Controversies and issues affecting electronic media organizations
COMS301	CO11	COMS301CO11	Introduction to Legal, ethical and other regulatory challenges in media.
COMS302	CO1	COMS302CO1	Understand theory and history of the role of communication in development
COMS302	CO2	COMS302CO2	Understand strategic use of communication and media tools in development goals
COMS302	CO3	COMS302CO3	To generate case studies on contemporary perspectives on development communication
COMS302	CO4	COMS302CO4	Debate social, political, economic and cultural aspects of media's role in Development in India
COMS302	CO5	COMS302CO5	Design communication material for voluntary organizations and Government
COMS302	CO6	COMS302CO6	Frame relevant and appropriate questions about the role participatory media in development
COMS302	CO7	COMS302CO7	Demonstrate analytical, interpretative skills through well-researched Media advocacy plans
COMS303	CO1	COMS303CO1	Define concepts such as signification, signifier, signified, denotation, and connotation in relation to images, narratives, and texts
COMS303	CO2	COMS303CO2	Understanding and interpretation of societal / cultural coding and encoding,
COMS303	CO3	COMS303CO3	Explain the denotative and connotative levels of information in various media
COMS303	CO4	COMS303CO4	Improve critical thinking skills, and learn to use semiotics to think logically and to analyse communication, meaning, and culture.
COMS303	CO5	COMS303CO5	Perform a semiotic analysis of a creative work
CRTL101	CO1	CRTL101CO1	Identify premises and conclusions in an argument
CRTL101	CO2	CRTL101CO2	Distinguish between arguments and explanations
CRTL101	CO3	CRTL101CO3	Recognize an argument by its type
CRTL101	CO4	CRTL101CO4	Apply different logical tools in argument formation
CRTL101	CO5	CRTL101CO5	Recognize fallacies in an argument
CRTL101	CO6	CRTL101CO6	Summarize complex arguments, explaining their different components
CSIT101	CO1	CSIT101CO1	Understand the problem and implement a corresponding program model
CSIT101	CO2	CSIT101CO2	Recognise, Interpret, explain programs, and also implement models in a programming language.
CSIT101	CO3	CSIT101CO3	Explain and carry out execution of programs
CSIT101	CO4	CSIT101CO4	Predict what a segment of code will produce (tracing)
CSIT101	CO5	CSIT101CO5	Recognise aspects of programs like syntax, structures, cost, meanings
CSIT101	CO6	CSIT101CO6	Understand basics of ComputerProgram organisation and representation
CSIT121	CO1	CSIT121CO1	Recall and understand fundamental ideas of agents
CSIT121	CO2	CSIT121CO2	Recognize, interpret and model deterministic natural phenomena as algorithms.
CSIT121	CO3	CSIT121CO3	Show how to identify, describe and model natural and social phenomena using agent models

List of Course Outcomes for all courses A.Y. 2022-23

CSIT121	CO4	CSIT121CO4	Know about variations such as cellular automata and L-systems
CSIT121	CO5	CSIT121CO5	List, describe and model derivative free evolutionary algorithms
CSIT121	CO6	CSIT121CO6	Understand and apply various derivative free algorithms to real life phenomena
CSIT122	CO1	CSIT122CO1	Remember how to set up microcontroller programming environment and understand basics of microcontrollers
CSIT122	CO2	CSIT122CO2	Understand and implement communication between microcontroller and various types of hardware
CSIT122	CO3	CSIT122CO3	Applying debugging techniques to analyse program or hardware failure
CSIT122	CO4	CSIT122CO4	Recall rule-based vs adaptive approaches to control systems and understand their pros and cons
CSIT122	CO5	CSIT122CO5	Understand how to design for uncertainty and apply this in particular contexts
CSIT201	CO1	CSIT201CO1	Remember basic data structures used in programming
CSIT201	CO2	CSIT201CO2	Understand and apply search algorithms in arrays
CSIT201	CO3	CSIT201CO3	Apply insertion and deletion operations on different data structures
CSIT201	CO4	CSIT201CO4	Use stacks and queues to solve problems efficiently
CSIT201	CO5	CSIT201CO5	Apply appropriate hashing techniques for different applications
CSIT201	CO6	CSIT201CO6	Understand traversal techniques in binary trees
CSIT201	CO7	CSIT201CO7	Understand different examples of using files as a persistent data structure
CSIT201	CO8	CSIT201CO8	Apply their knowledge of data structures in developing sample software applications
CSIT201	CO9	CSIT201CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT201	CO10	CSIT201CO10	Demonstrate knowledge of solving real-world problems
CSIT201	CO11	CSIT201CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT201	CO12	CSIT201CO12	Demonstrate ability to work in a team effectively
CSIT205	CO1	CSIT205CO1	Understand how to create and use libraries
CSIT205	CO2	CSIT205CO2	Understand different kinds of software architectures
CSIT205	CO3	CSIT205CO3	Use modern software tools fluently
CSIT205	CO4	CSIT205CO4	Understand the role of software development processes in organizations
CSIT205	CO5	CSIT205CO5	Understand how economic elements affect evolution, legacy code, startup code, and open source
CSIT205	CO6	CSIT205CO6	Understanding of software career paths
CSIT205	CO7	CSIT205CO7	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT205	CO8	CSIT205CO8	Demonstrate knowledge of solving real-world problems
CSIT205	CO9	CSIT205CO9	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT205	CO10	CSIT205CO10	Demonstrate ability to work in a team effectively
CULS101	CO1	CULS101CO1	Understand basic terms and concepts associated with Cultural Studies
CULS101	CO2	CULS101CO2	Recognise different philosophical approaches of cultural studies
CULS101	CO3	CULS101CO3	Understand what constitutes a 'text'
CULS101	CO4	CULS101CO4	Identify ways to deconstruct a text
CULS101	CO5	CULS101CO5	Recognize Indian 'themes' pertaining to cultural studies
CULS101	CO6	CULS101CO6	Learn to effectively write and express ideas pertaining to reading & deconstructing of texts
CULS102	CO1	CULS102CO1	Understand the position of media in society and understand the relationship between popular culture, socio-economic and political power.
CULS102	CO2	CULS102CO2	Identify significance and power of popular culture and media in everyday life.
CULS102	CO3	CULS102CO3	Understand relevance of Popular Culture and how it embodies a changing environment and its relationship with the world around.
CULS102	CO4	CULS102CO4	Identify and understand ways to engage with, critique and translate media.
CULS102	CO5	CULS102CO5	Understand the ways in which popular Culture and media change contemporary ideas in society and definitions of a community.
CULS103	CO1	CULS103CO1	Name and Describe iconographic representations of Hindu, Buddhist and Jania deities
CULS103	CO2	CULS103CO2	State and Interpret the attributes, symbols, myths and varied meanings of Hindu, Buddhist and Jania icons
CULS103	CO3	CULS103CO3	Interpret, discuss and write on the historical development of the Hindu, Buddhist and Jania deities

List of Course Outcomes for all courses A.Y. 2022-23

CULS103	CO4	CULS103CO4	Interpret religious study through the understanding of icons
CULS103	CO5	CULS103CO5	Examine the evolution of deities in the contemporary world
CULS103	CO6	CULS103CO6	Understand and explain cultural adaptations and linkages between apparently distinct cultural traditions
CULS104	CO1	CULS104CO1	To identify the unique qualities of digitalisation
CULS104	CO2	CULS104CO2	To describe art movements in India
CULS104	CO3	CULS104CO3	To outline a digital project
CULS104	CO4	CULS104CO4	To review, annotate and execute a DH project
CULS104	CO5	CULS104CO5	To apply research in a digital environment
CULS104	CO6	CULS104CO6	To specify the challenges for creative authorship in the Indian context of intellectual property
CULS151	CO1	CULS151CO1	Summarize and explain various stories of the Mahabharata Epic and their multiple interpretations
CULS151	CO2	CULS151CO2	Understand social, economic and religious trends of the ancient Indian society
CULS151	CO3	CULS151CO3	Explain the norms, values, ideals and concerns of the ancient Indian society as reflected in Mahabharata
CULS151	CO4	CULS151CO4	Deconstruct a text
CULS151	CO5	CULS151CO5	Interpret text as a cultural form, reflecting the norms of a society
CULS152	CO1	CULS152CO1	Read and recognize types/strategies of comedy including satire, parody, farce, and irony
CULS152	CO2	CULS152CO2	Unpack the politics of a comic text
CULS152	CO3	CULS152CO3	Read and recognize comedy/comic devices in use as part of certain specific traditions
CULS152	CO4	CULS152CO4	Formulate arguments on how literary texts may influence/be influenced by their context, both as they are written and when/by whom they are read
CULS231	CO1	CULS231CO1	Understand a range of foreign writings on India from the 5th-4th century BCE Greek period to the 19th century British period
CULS231	CO2	CULS231CO2	Evaluate a variety of texts such as travelogues, historical and geographical narratives, biographies, religious accounts and fiction
CULS231	CO3	CULS231CO3	Analyse and evaluate trends and patterns in foreign depiction of India during different periods over two millennia
CULS231	CO4	CULS231CO4	Evaluate the ethnographic trends in the study of the 'other'
CULS231	CO5	CULS231CO5	Implement the ethnographic approaches to interpret contemporary images of India in the various media
CULS231	CO6	CULS231CO6	Evaluate and analyse a wide range of different types of primary texts and interpret texts as cultural forms
CULS231	CO7	CULS231CO7	Explain and argue changing perceptions of India in foreign writings to interpret the idea of India
CULS231	CO8	CULS231CO8	Critique various academic approaches to the study of the 'other'
CULS231	CO9	CULS231CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
CULS231	CO10	CULS231CO10	Demonstrate skills to conduct critical enquiry
CULS232	CO1	CULS232CO1	UNDERSTAND history and key issues of feminism
CULS232	CO2	CULS232CO2	DESIGN and IMPLEMENT teaching and activist interventions
CULS232	CO3	CULS232CO3	RELATE key issues regarding gender to each other in an intersectional way
CULS232	CO4	CULS232CO4	INTERPRET feminist texts and strategies of cultural production
CULS232	CO5	CULS232CO5	SELECT relevant material for discussion
CULS232	CO6	CULS232CO6	BREAK DOWN an issue independently
CULS232	CO7	CULS232CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
CULS232	CO8	CULS232CO8	Demonstrate skills to conduct critical enquiry
CULS281	CO1	CULS281CO1	Discuss good research practice, critical method, research ethics and the writing process
CULS281	CO2	CULS281CO2	Respond to academic debates verbally and in writing
CULS281	CO3	CULS281CO3	Analyze a text in a classroom-led close-reading exercise
CULS281	CO4	CULS281CO4	Develop an appropriate research plan for a research essay
CULS281	CO5	CULS281CO5	Generate and build upon a reading list towards students' research interest
CULS281	CO6	CULS281CO6	Carry out, modify, and justify changes in research plan as appropriate while in process
CULS281	CO7	CULS281CO7	Evaluate and apply appropriate methods for a research project in this course
CULS281	CO8	CULS281CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.

List of Course Outcomes for all courses A.Y. 2022-23

CULS281	CO9	CULS281CO9	Demonstrate skills to conduct critical enquiry
CULS301	CO1	CULS301CO1	Analyse myths through various theoretical models
CULS301	CO2	CULS301CO2	Understand and evaluate universal as well as culture specific themes, metaphors in myths of different regions
CULS301	CO3	CULS301CO3	Outline and differentiate patterns in myths within and across cultures
CULS301	CO4	CULS301CO4	Deconstruct myths in their multiple layers of meanings
CULS301	CO5	CULS301CO5	Evaluate the role of myth in any society
CULS301	CO6	CULS301CO6	Implement a theoretical model to analyse any given myth
CULS301	CO7	CULS301CO7	Explain and argue varied theoretical models in their specific contexts
CULS301	CO8	CULS301CO8	Critique various academic approaches to the study of myths over time
CULS301	CO9	CULS301CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
CULS301	CO10	CULS301CO10	Demonstrate skills to conduct critical enquiry
CULS331	CO1	CULS331CO1	Recognize the differences between nations and states
CULS331	CO2	CULS331CO2	Clarify the common antecedents of South Asia
CULS331	CO3	CULS331CO3	Summarize distinct historical periods
CULS331	CO4	CULS331CO4	Differentiate social categories extant in South Asia
CULS331	CO5	CULS331CO5	Integrate cultural history across genres
CULS331	CO6	CULS331CO6	Deconstruct the long histories of the Sub-continent
CULS331	CO7	CULS331CO7	Determine historical implication
CULS331	CO8	CULS331CO8	Reflect on the historical variance across nations
CULS331	CO9	CULS331CO9	Judge the impact of historical events on culture
CULS331	CO10	CULS331CO10	Narrate across time periods the impact of history on the contemporary
CULS331	CO11	CULS331CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
CULS331	CO12	CULS331CO12	Demonstrate skills to conduct critical enquiry
CULS334	CO1	CULS334CO1	Identify environmental concerns around us
CULS334	CO2	CULS334CO2	Examine different literary forms
CULS334	CO3	CULS334CO3	Application of ecocritical theories to understand literature
CULS334	CO4	CULS334CO4	Focus on certain environmental concerns to analyse literature
CULS334	CO5	CULS334CO5	Demonstrate abilities to communicate with stakeholders
CULS334	CO6	CULS334CO6	Integrate oral history methodology principles in the field work
CULS334	CO7	CULS334CO7	Evaluate field work data
CULS334	CO8	CULS334CO8	Build critical abilities to evaluate literature
CULS334	CO9	CULS334CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
CULS334	CO10	CULS334CO10	Demonstrate skills to conduct critical enquiry
DANC101	CO1	DANC101CO1	Identify the strengths and weaknesses of one's body with respect to movement and dance.
DANC101	CO2	DANC101CO2	Identify and recognise different rhythm patterns involved in dance.
DANC101	CO3	DANC101CO3	Memorize the melodic aspect and relate the expression to the movement and dance.
DANC101	CO4	DANC101CO4	Recognise and relate to the concept of space in the context of dance and movement.
DANC101	CO5	DANC101CO5	Reproduce the movement vocabulary
DANC101	CO6	DANC101CO6	Describe and distinguish between different Indian dance forms.
DANC101	CO7	DANC101CO7	Explain and interpret the text or poetry used in dance.
DANC101	CO8	DANC101CO8	Memorise , express and demonstrate a reasonable performance skill.
DANC102	CO1	DANC102CO1	Reproduce a competent movement to arrive at a desired expression indicating awareness and understanding of different components of dance i.e. Rhythm, melody, space and energy.
DANC102	CO2	DANC102CO2	Arrange and reproduce movement vocabulary
DANC102	CO3	DANC102CO3	Explain their awareness of the performance process
DANC102	CO4	DANC102CO4	Distinguish and recognise between Indian and Western Dance Forms
DANC102	CO5	DANC102CO5	Identify and describe about strengths and weaknesses of one's body in the context of movement and dance
DANC102	CO6	DANC102CO6	Describe and distinguish between different Indian dance forms

List of Course Outcomes for all courses A.Y. 2022-23

DANC102	CO7	DANC102CO7	Memorise , express and demonstrate a reasonable performance skill
DANC102	CO8	DANC102CO8	Distinguish and recognise between Ballet and Contemporary Dance
DANC102	CO9	DANC102CO9	Discuss the movement in the context of Text and interpretation.
DANC102	CO10	DANC102CO10	Recall and review the process of Improvisation.
DANC103	CO1	DANC103CO1	Understand and respond to any dance happening with enhanced perceptual skills
DANC103	CO2	DANC103CO2	Explain, interpret, demonstrate enhanced sensitivity towards the dance expression
DANC103	CO3	DANC103CO3	Describe and distinguish between tools like skills, proficiency levels and expressive accomplishments
DANC103	CO4	DANC103CO4	Understand, explain and interpret dance as a 'culturally rooted phenomenon'
DANC105	CO1	DANC105CO1	Identify and explain how different limbs are put to use in movement in Contemporary Dance
DANC105	CO2	DANC105CO2	Distinguish and demonstrate various components and techniques of contemporary dance
DANC105	CO3	DANC105CO3	Reproduce different movements and recognise aspects of movement
DANC105	CO4	DANC105CO4	Show development of movement vocabulary and demonstrate a dance composition
DANC105	CO5	DANC105CO5	Describe, Discuss and explain Dance Terminology in Ballet and concepts in Contemporary Dance
DANC105	CO6	DANC105CO6	Identify, discuss or explain different components of Contemporary dance
DANC106	CO1	DANC106CO1	Describe, explain how human body functions as an instrument of expression
DANC106	CO2	DANC106CO2	Identify, Memorize, review and reproduce technical ability in the areas of Flexibility, endurance and coordination
DANC106	CO3	DANC106CO3	Discuss, recall, reproduce components like Phrasing, Total Body connectivity and body alignment for enhanced performance ability
DANC106	CO4	DANC106CO4	Distinguish between different techniques of contemporary dance and describe, discuss, reproduce Horton techniques
DANC202	CO1	DANC202CO1	Recognise and explain the structure of the composition
DANC202	CO2	DANC202CO2	Memorise, Practice and demonstrate the whole composition
DANC202	CO3	DANC202CO3	Convert, explain, breakdown, calculate, practice and produce the notation of the composition
DANC202	CO4	DANC202CO4	Identify, memorise, convert, explain, breakdown, calculate, practice the recitation of the composition with 'taal'
DANC202	CO5	DANC202CO5	Practice and demonstrate the basic steps (Adavus)
DANC202	CO6	DANC202CO6	Discuss, distinguish, explain, practice and demonstrate the 'viniyoga's of given single hand gestures and selected shlokas from 'Abhinay Darpan'
DANC203	CO1	DANC203CO1	Explain and discuss various components and techniques of contemporary dance
DANC203	CO2	DANC203CO2	Identify, analyse, compare certain concepts from Ballet and Contemporary Dance
DANC203	CO3	DANC203CO3	Demonstrate ability to appreciate & understand Contemporary dance
DANC203	CO4	DANC203CO4	Practice, Produce a performance integrating creative, physical and technical skills based on Contemporary dance
DANC203	CO5	DANC203CO5	Apply, demonstrate, analyse, practice and produce enhanced movement vocabulary
DANC203	CO6	DANC203CO6	Discover, recognise, identify, compare , analyse one's own movement vocabulary
DANC203	CO7	DANC203CO7	Identify, discuss, analyse, review one's own progress and practice
DANC207	CO1	DANC207CO1	Understand and demonstrate factors like strength and flexibility required in the context of dance and performance
DANC207	CO2	DANC207CO2	Understand and demonstrate balance and stability required by a dancer
DANC207	CO3	DANC207CO3	Recognise one's deficit and skill with respect to certain areas of fitness. Identify how it reflects in dance and performance
DANC207	CO4	DANC207CO4	Discuss and explain the concept of 'appropriate nutrition' in the context of dancer and his/her performance
DANC207	CO5	DANC207CO5	Describe, explain and apply injury prevention and demonstrate safe dance practice
DANC207	CO6	DANC207CO6	Identify, memorise and practice different methods of Mind -Body exercises
DANC207	CO7	DANC207CO7	Classify and practice different aspects of 'Body Conditioning' for Dance
DANC104	CO1	DANC104CO1	Understand and demonstrate factors like strength and flexibility required in the context of dance and performance
DANC104	CO2	DANC104CO2	Understand and demonstrate balance and stability required by a dancer
DANC104	CO3	DANC104CO3	Recognise one's deficit and skill with respect to certain areas of fitness. Identify how it reflects in dance and performance

List of Course Outcomes for all courses A.Y. 2022-23

DANC104	CO4	DANC104CO4	Discuss and explain the concept of 'appropriate nutrition' in the context of dancer and his/her performance
DANC104	CO5	DANC104CO5	Describe, explain and apply injury prevention and demonstrate safe dance practice
DANC104	CO6	DANC104CO6	Identify, memorise and practice different methods of Mind -Body exercises
DANC104	CO7	DANC104CO7	Classify and practice different aspects of 'Body Conditioning' for Dance
DANC208	CO1	DANC208CO1	The understanding of Western dance in the historical context, explain, discuss, summarize, interpret, relate, outline, analyze dance practices
DANC208	CO2	DANC208CO2	The understanding of Indian dance in the historical context, explain, discuss, summarize, interpret, relate, outline, analyze dance practices based on different parameters
DANC208	CO3	DANC208CO3	Demonstrate enhanced understanding, discuss, explain, compare, analyze, differentiate, point out the existence of performing arts, particularly dance, in peoples' lives
DANC208	CO4	DANC208CO4	Critically analyze, interpret, compare, differentiate dance techniques and practices existed from time to time
DANC209	CO1	DANC209CO1	Recognise and explain the structure of the composition - technical aspects of dance form
DANC209	CO2	DANC209CO2	Memorise, Practice and demonstrate the whole composition - performance skills
DANC209	CO3	DANC209CO3	Convert, explain, breakdown, calculate, practice and produce the notation of the composition
DANC209	CO4	DANC209CO4	Identify, memorise, convert, explain, breakdown, calculate, practice the recitation of the composition with 'taal' - improve sense of rhythm
DANC209	CO5	DANC209CO5	Practice and demonstrate the basic steps (Adavus)- Riyaz
DANC209	CO6	DANC209CO6	Discuss, distinguish, explain, practice and demonstrate the 'viniyoga's of given single hand gestures and selected shlokas from 'Abhinay Darpan' - strengthening the conceptual framework
DANC209	CO7	DANC209CO7	Demonstrate, review, practice, produce reasonable competency in Abhinaya aspect
DANC209	CO8	DANC209CO8	Explain, discuss, compare, demonstrate, employ, express, practice, produce tradition of performing in the given dance forms
DANC304	CO1	DANC304CO1	Apply and analyse the understanding of the term 'choreography' in the context of Indian dance and Western dance
DANC304	CO2	DANC304CO2	Choose and experiment with different tools of choreography
DANC304	CO3	DANC304CO3	Analyse, apply and review experimentation of different tools of choreography
DANC304	CO4	DANC304CO4	Compare and analyse the work of select choreographers and their choreographic perspectives
DANC304	CO5	DANC304CO5	Apply, analyse and produce abstraction in choreography and improvisation
DANC304	CO6	DANC304CO6	Compare, analyse, summarise the change that has realised in choreographic process and its outcome
DANC304	CO7	DANC304CO7	Discuss, infer the future of dance and choreography in India
DANC304	CO8	DANC304CO8	Apply, produce, analyse the creative decision making in the domain dance and choreographic approaches
DANC305	CO1	DANC305CO1	Apply, demonstrate, select, calculate, Breakdown, practice, produce, experiment with previous theoretical and technical learning while converting it into a performance
DANC305	CO2	DANC305CO2	Demonstrate, apply, discuss, analyze awareness do's and don'ts for the performance
DANC305	CO3	DANC305CO3	Demonstrate, practise, experiment, produce their performance skills to a reasonable competency level
DANC305	CO4	DANC305CO4	Apply, discover, select, choose, identify, experiment and analyze while doing and learning
DANC305	CO5	DANC305CO5	Experiment, employ, interpret, analyze, show enhanced understanding regarding process oriented work
DANC305	CO6	DANC305CO6	Discuss, explain, identify, recognize, compare, analyze, solve potential uncertainties involved in a performance
DANC305	CO7	DANC305CO7	Discuss, explain, review, summarize, critically analyze the performance and the learning
DANC306	CO1	DANC306CO1	Apply, demonstrate, practice and produce understanding of 'Angik' and 'Vachik' in performing practices as a genre of expression
DANC306	CO2	DANC306CO2	Understand, apply, demonstrate, discuss, explain, experiment with the use of different tools in creating a Dance drama based performance
DANC306	CO3	DANC306CO3	Describe, apply, demonstrate, practice, produce reasonable competency in two major components of Dance drama i.e. speech and movement
DANC306	CO4	DANC306CO4	Apply, relate, interpret, convert the theory into practice
DANC306	CO5	DANC306CO5	Discover, identify, recognize, analyze, demonstrate, choose from different possibilities explored through improvisation as against directed actions
DANC306	CO6	DANC306CO6	Discuss, discover, demonstrate, analyze, compare, interpret the knowledge gained from process driven work encapsulating multiple performance aspects
DANC306	CO7	DANC306CO7	Demonstrate, discuss, employ, analyze, practice, produce reasonable competency of the form called as Dance Drama or Dance Theater through the actual performance

List of Course Outcomes for all courses A.Y. 2022-23

DANC307	CO1	DANC307CO1	Students will have reasonable knowledge of two main components i.e. technology and dance choreography along with sub components involved in to Screen dance making
DANC307	CO2	DANC307CO2	Students will develop an understanding regarding the selection the thought/theme, development which through this medium
DANC307	CO3	DANC307CO3	Students will learn the strengths and weaknesses of the available technological recourses for effective use
DANC307	CO4	DANC307CO4	Students will develop an understanding regarding creating work which would be relevant for both the viewers - local and the global simultaneously
DANC307	CO5	DANC307CO5	Students will learn to adept to the need of the technological era for artistic dance expression
DESG101	CO1	DESG101CO1	Identify and explain the elements and principles of design
DESG101	CO2	DESG101CO2	Express, direct and indirect interpretations of 4 elements of design
DESG101	CO3	DESG101CO3	Recognize the relevance of elements of design in various cultures
DESG101	CO4	DESG101CO4	Recognize the relevance of elements of design in various countries
DESG101	CO5	DESG101CO5	Understand a Type, families and its anatomy
DESG101	CO6	DESG101CO6	Experiment with elements of design to create simple messages
DIPG202	CO1	DIPG202CO1	Demonstrate the skills to formulate exploratory research projects focusing on a thematic aspect
DIPG202	CO2	DIPG202CO2	Develop the skills to document data from fieldwork
DIPG202	CO3	DIPG202CO3	Demonstrate ability to work cohesively in a group
DIPG202	CO4	DIPG202CO4	Develop a nuanced and critical understanding of the social, ecological and economic diversity in India
DIPG202	CO5	DIPG202CO5	Express and present data as well as findings in various creative ways
DRPT101	CO1	DRPT101CO1	Pencil rendering techniques, 2D painting
DRPT101	CO2	DRPT101CO2	Crayon, color pencil rendering techniques, 2D paintings
DRPT101	CO3	DRPT101CO3	Color theory, primary, secondary, warm, cool, complimentary, analogous colors, tints and shades
DRPT101	CO4	DRPT101CO4	2D paintings with poster colours
DRPT101	CO5	DRPT101CO5	Techniques of water colours and simple landscapes
DRPT101	CO6	DRPT101CO6	Cave paintings in Europe and India, European Renaissance contributions, 2-3 artists and their paintings from Early and High Renaissance, Miniature paintings, Razmanama, Raagamala, folk art paintings
DRPT101	CO7	DRPT101CO7	Indian folk art paintings
DRPT101	CO8	DRPT101CO8	Readings, reflections
DRPT103	CO1	DRPT103CO1	Identify different kinds of fibre and methods/techniques used in making with fibre
DRPT103	CO2	DRPT103CO2	Understanding and using different kinds of fibres (natural and man-made), and their application/usage depending upon the materials limits, tensile strength, ageing, and flexibility
DRPT103	CO3	DRPT103CO3	Produce a piece of art/design/craft with fibre
DRPT103	CO4	DRPT103CO4	Understanding the concept of fibre, in theoretical and practical contexts, including the usage of the same in different cultural processes.
DRPT103	CO5	DRPT103CO5	Learning about the use of fibre as a tool of art, and its variants. Art variants involve abstraction, natural art, macrame, sewing, textiles among others
DRPT103	CO6	DRPT103CO6	Undertaking independent art research, and learning the method of source selection, filtering, and initiative base proceedings.
DRPT103	CO7	DRPT103CO7	Learn about the distinction between dyes- natural and artificial, along with the process of natural dyeing with materials like turmeric, carrot, onion, among others.
DRPT151	CO1	DRPT151CO1	Confidently use acrylic as a paint medium
DRPT151	CO2	DRPT151CO2	Illustrate and express characteristics of European isms
DRPT151	CO3	DRPT151CO3	Illustrate and express characteristics of Indian schools of art
DRPT151	CO4	DRPT151CO4	Recognize and discuss the differences in European 'isms' and the Indian schools of art
DRPT151	CO5	DRPT151CO5	Identify and discuss artists and their paintings from Europe
DRPT151	CO6	DRPT151CO6	Identify and discuss artists and their contributions during 20 cent India
ECLY101	CO1	ECLY101CO1	Explain how an organisms's anatomy, physiology and behaviour meet the challenges of its environment
ECLY101	CO2	ECLY101CO2	Discuss the types of interactions among organisms and with the environment that influence a species' density, distribution, and demographics and influence population size
ECLY101	CO3	ECLY101CO3	Describe the different types of community interactions, outcomes for species involved, and effect on community structure.

List of Course Outcomes for all courses A.Y. 2022-23

ECLY101	CO4	ECLY101CO4	Contrast energy flow and nutrient cycling in an ecosystem and summarise factors influencing each process
ECLY101	CO5	ECLY101CO5	Use ecological data to predict and explain ecological responses
ECLY101	CO6	ECLY101CO6	Interpret scientific figures, summaries and descriptions published in primary literature.
ECLY201	CO1	ECLY201CO1	Demonstrate understanding of various life forms
ECLY201	CO2	ECLY201CO2	Understand and illustrate types that constitute study of biodiversity
ECLY201	CO3	ECLY201CO3	Identify and explain its value and uses
ECLY201	CO4	ECLY201CO4	Acquire and illustrate the significance of biodiversity loss in present scenario
ECLY201	CO5	ECLY201CO5	Acquire, illustrate the significance and apply the learnings in its conservation
ECLY201	CO6	ECLY201CO6	Understand and apply the role of biotechnology in assessment, conservation and utilization of biodiversity
ECLY201	CO7	ECLY201CO7	Classify and categorize some members of the different kingdoms constituting the campus biodiversity
ECLY201	CO8	ECLY201CO8	Develop effective oral and written communication skills, engagement in discussions, critical thinking and exploration of overall outcomes of the taught contents
ECLY202	CO1	ECLY202CO1	To describe historical development of different evolutionary theories
ECLY202	CO2	ECLY202CO2	Demonstrate comprehensive knowledge of various theories supported by experiments about formation of first unicellular organisms
ECLY202	CO3	ECLY202CO3	Examine evolutionary processes
ECLY202	CO4	ECLY202CO4	Illustrate formation of multicellular organisms and their consecutive diversification into different types of life forms in the geologic time scale
ECLY202	CO5	ECLY202CO5	Understand and compare various evidences supporting evolution
ECLY202	CO6	ECLY202CO6	Examine inter-disciplinary linkages in evolution and ecology
ECLY202	CO7	ECLY202CO7	Demonstrate understanding of formation of population, community and ecosystem ecology
ECLY202	CO8	ECLY202CO8	Develop effective oral and written communication skills, engagement in discussions, critical thinking and exploration of overall outcomes of the taught contents
ECLY202	CO9	ECLY202CO9	Demonstrate interest and commitment by actively participating in learning process in class
ECLY203	CO1	ECLY203CO1	To understand nature and uses of epidemiology
ECLY203	CO2	ECLY203CO2	To illustrate environmental issues in the increased spread of diseases
ECLY203	CO3	ECLY203CO3	To explain the principles of disease causation with emphasis on environmental factors
ECLY203	CO4	ECLY203CO4	To provide knowledge about the contribution of epidemiology to control and prevention of diseases
ECLY203	CO5	ECLY203CO5	To explain the significance of environmental conservation in reducing such spreads
ECLY203	CO6	ECLY203CO6	To discuss and compare prevalent epidemics in local and global context
ECLY203	CO7	ECLY203CO7	To apply learnt concepts in enhancing overall understanding of an epidemic/pandemic
ECLY203	CO8	ECLY203CO8	To enable the students to engage in discussions, observe ,evaluate and present the concepts
ECON101	CO1	ECON101CO1	Describe concepts like scarcity, choices and why economics should be studied
ECON101	CO2	ECON101CO2	Discuss concepts like opportunity cost, trade-off and marginal thinking
ECON101	CO3	ECON101CO3	Relate daily human activities with microeconomic principles
ECON101	CO4	ECON101CO4	Restate concepts like GDP, Inflation and Unemployment
ECON101	CO5	ECON101CO5	Relate and apply macroeconomic concepts to real life economic events
ECON101	CO6	ECON101CO6	Differentiate between microeconomic and macroeconomic concepts
ECON101	CO7	ECON101CO7	Interpret and distinguish the notions of economic growth and development
ECON102	CO1	ECON102CO1	Apply concepts of economics to range of issues and critically examine them
ECON102	CO2	ECON102CO2	Use various tools for economic analysis
ECON102	CO3	ECON102CO3	Undertake basic research in economics and communicate its findings
ECON102	CO4	ECON102CO4	Analyse, decode and appraise economic concepts from movies
ECON102	CO5	ECON102CO5	Recall and summarize economic concepts covered in the course
ECON102	CO6	ECON102CO6	Apply concepts of economics to problems faced by various stakeholders in the economy and prescribe policy recommendations
ECON102	CO7	ECON102CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON102	CO8	ECON102CO8	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON102	CO9	ECON102CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.

List of Course Outcomes for all courses A.Y. 2022-23

ECON122	CO1	ECON122CO1	Described the mathematical skills acquired to solve simple economic problems
ECON122	CO2	ECON122CO2	Discuss the concepts like specific economic functions like utility function, production function, demand function, inverse demand function
ECON122	CO3	ECON122CO3	Relate the concepts of Marginal analysis and elasticity with the human activities with microeconomic principles
ECON122	CO4	ECON122CO4	Restate the concepts of slope and curvature of utility/production functions of different individuals/firms exhibiting different preference/production patterns
ECON122	CO5	ECON122CO5	Relate and apply Profit Maximization, Output maximization, cost minimization concepts to real life economic events
ECON122	CO6	ECON122CO6	Relate and Interpret Basics of Integration and consumer surplus
ECON122	CO7	ECON122CO7	Interpret the concept of economics by using basic mathematics
ECON151	CO1	ECON151CO1	Explain some key concepts in economics
ECON151	CO2	ECON151CO2	Apply economic concepts to current economic policy issues and suggest solutions
ECON151	CO3	ECON151CO3	Undertake some basic research in economics and communicate the findings
ECON151	CO4	ECON151CO4	Recall and summarize economic concepts covered in the course
ECON152	CO1	ECON152CO1	Explain the reasons why standard predictions of economic theory do not always hold in the real world.
ECON152	CO2	ECON152CO2	Understand the importance of learning Economic models and at the same time adapt those models to how people or agents actually behave in the real world.
ECON152	CO3	ECON152CO3	Have a comprehensive overview of the field of behavioural economics leading into more advanced treatments of the subject at later points.
ECON152	CO4	ECON152CO4	Recall and summarize economic concepts covered in the course
ECON152	CO5	ECON152CO5	Apply concepts of economics to problems faced by various stakeholders in the economy and prescribe policy recommendations
ECON201	CO1	ECON201CO1	Explain and Identify the theory and models of consumer behaviour
ECON201	CO2	ECON201CO2	State and select assumptions necessary for various consumer behaviour concepts
ECON201	CO3	ECON201CO3	Demonstrate the ability to recognize, understand, and formulate the production models
ECON201	CO4	ECON201CO4	Demonstrate the ability to recognize, understand, and formulate the cost models
ECON201	CO5	ECON201CO5	Analyse and Explain different types of market structures
ECON201	CO6	ECON201CO6	Demonstrate the ability to recognize, understand, and formulate the perfect competition
ECON201	CO7	ECON201CO7	Explain the theory and models of Monopoly and Monopolistic competition
ECON201	CO8	ECON201CO8	Apply economic principles to a range of policy questions
ECON201	CO9	ECON201CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON201	CO10	ECON201CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON201	CO11	ECON201CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON202	CO1	ECON202CO1	Identify , recall and discuss common macroeconomic variables like GDP, Inflation, Unemployment
ECON202	CO2	ECON202CO2	Calculate and distinguish several numerical concepts related to macroeconomic measurements
ECON202	CO3	ECON202CO3	Describe the assumptions of microfoundation of macroeconomics
ECON202	CO4	ECON202CO4	Demonstrate the understanding of the theories of consumption, saving and investment
ECON202	CO5	ECON202CO5	Use excel to extract and analyse macroeconomic data
ECON202	CO6	ECON202CO6	Recognize and illustrate the concepts related to asset, money, and prices
ECON202	CO7	ECON202CO7	Solve and explain mathematical equations for macroeconomic system
ECON202	CO8	ECON202CO8	Summarize macroeconomic data
ECON202	CO9	ECON202CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON202	CO10	ECON202CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON202	CO11	ECON202CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON204	CO1	ECON204CO1	Interpret contemporary data on Indian economy
ECON204	CO2	ECON204CO2	Describe the development paradigm adopted in India since independence
ECON204	CO3	ECON204CO3	Evaluate the impact of policies on economic performance of the country
ECON204	CO4	ECON204CO4	Explain the trend of social indicators of progress and well being
ECON204	CO5	ECON204CO5	Discuss major concerns related to Indian economy

List of Course Outcomes for all courses A.Y. 2022-23

ECON204	CO6	ECON204CO6	Relate and examine India's contemporary issues and policies
ECON204	CO7	ECON204CO7	Relate and examine India's stand in comparison to other countries
ECON204	CO8	ECON204CO8	Summarize data on Indian economy
ECON204	CO9	ECON204CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON204	CO10	ECON204CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON204	CO11	ECON204CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON205	CO1	ECON205CO1	Describe stylized facts and institutions of world trade
ECON205	CO2	ECON205CO2	Demonstrate understanding of the economic concepts of trade theory
ECON205	CO3	ECON205CO3	Use diagrammatic analysis to describe models of international trade
ECON205	CO4	ECON205CO4	Compare the economic welfare effects of free trade and protection
ECON205	CO5	ECON205CO5	Demonstrate their critical understanding of trade policies
ECON205	CO6	ECON205CO6	Analyse and compare trade policies at regional levels
ECON205	CO7	ECON205CO7	Describe data on International economy
ECON205	CO8	ECON205CO8	Recognize regional and international trade bodies
ECON205	CO9	ECON205CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON205	CO10	ECON205CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON205	CO11	ECON205CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON207	CO1	ECON207CO1	Demonstrate an understanding of recent developments in the labour markets.
ECON207	CO2	ECON207CO2	Interpret and evaluate empirical evidence drawn from India other labour markets.
ECON207	CO3	ECON207CO3	Explain, on the demand side, the factors that affect the decision of a firm
ECON207	CO4	ECON207CO4	Explain, on the supply side, the factors that affect the decision of individuals
ECON207	CO5	ECON207CO5	Explain how labour market policies could affect the decisions of the individual.
ECON207	CO6	ECON207CO6	Analyse and evaluate how government policies and institutions can affect the decisions of the firm
ECON207	CO7	ECON207CO7	Make use of basic analytical tools employed in modern labour economics to interpret results, draw inferences, and discuss the results
ECON207	CO8	ECON207CO8	Assemble and present data on the labour market
ECON207	CO9	ECON207CO9	Write an original research paper examining a current labour market problem, applying statistical tools and recommending an appropriate policy prescription
ECON207	CO10	ECON207CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON207	CO11	ECON207CO11	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON207	CO12	ECON207CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON221	CO1	ECON221CO1	Recognize the various tools of mathematics useful in economics.
ECON221	CO2	ECON221CO2	State and select assumptions necessary for model buildings.
ECON221	CO3	ECON221CO3	Demonstrate the ability to recognize, understand and formulate economic models.
ECON221	CO4	ECON221CO4	Identify the techniques of optimization in economics.
ECON221	CO5	ECON221CO5	Solve mathematical models in economics and interpret solutions.
ECON221	CO6	ECON221CO6	Identify any model specific problem and provide solutions.
ECON221	CO7	ECON221CO7	Relate mathematical models using economic theories to support empirical estimation using real-world data.
ECON221	CO8	ECON221CO8	Apply knowledge to critically evaluate different mathematical models in economics and related areas.
ECON221	CO9	ECON221CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON221	CO10	ECON221CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON221	CO11	ECON221CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.

List of Course Outcomes for all courses A.Y. 2022-23

ECON223	CO1	ECON223CO1	Describe and distinguish economic data (census and survey data; qualitative and quantitative data) and classify different types of data formats using statistics, and provide visual and tabular representation of data with detailed interpretation.
ECON223	CO2	ECON223CO2	Identify sample spaces and events for random experiments. Interpret and calculate probabilities of events in discrete sample spaces, and conditional probabilities of events using Bayes' theorem.
ECON223	CO3	ECON223CO3	Apply probability as a tool to develop probability distribution that serve as models for any random variables.
ECON223	CO4	ECON223CO4	Differentiate any discrete distribution from any continuous probability distributions.
ECON223	CO5	ECON223CO5	Explain the concept of a probability distribution and realworld problems involving various discrete distributions and apply them to solve some of these important real-world problems.
ECON223	CO6	ECON223CO6	Identify continuous probability distribution: Normal distribution. Apply this model in different physical situations.
ECON223	CO7	ECON223CO7	Construct interval estimation of the mean in making inferences about a population.
ECON223	CO8	ECON223CO8	Model and compute a significant test of hypothesis concerning the values of population mean based on normal, t, and other relevant distributions.
ECON223	CO9	ECON223CO9	Use a software to analyze real-world datasets.
ECON223	CO10	ECON223CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON223	CO11	ECON223CO11	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON223	CO12	ECON223CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON231	CO1	ECON231CO1	Explain the nature of a firm
ECON231	CO2	ECON231CO2	Recall theoretical models of demand, supply and equilibrium and solve numericals
ECON231	CO3	ECON231CO3	Estimate demand, supply, income and cross-price elasticities
ECON231	CO4	ECON231CO4	Analyse real-world problems and use forecasting tools to estimate demand
ECON231	CO5	ECON231CO5	Discuss the theory of production
ECON231	CO6	ECON231CO6	Breakdown and categorise production costs
ECON231	CO7	ECON231CO7	Justify pricing and output decisions
ECON231	CO8	ECON231CO8	Identify problems of asymmetric information
ECON231	CO9	ECON231CO9	Appraise ways to measure and manage risks
ECON231	CO10	ECON231CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON231	CO11	ECON231CO11	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON231	CO12	ECON231CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON301	CO1	ECON301CO1	Distinguish between different types of market imperfections with real-world examples.
ECON301	CO2	ECON301CO2	Quantify risk-appetite.
ECON301	CO3	ECON301CO3	Apply elementary game-theoretic techniques to analyze oligopolistic competition.
ECON301	CO4	ECON301CO4	Distinguish between public goods and non-public goods.
ECON301	CO5	ECON301CO5	Contrast yet appreciate the complementarity between partial and general equilibrium approaches.
ECON301	CO6	ECON301CO6	Critically analyze notions of efficiency and equity in context of welfare economics and market imperfections.
ECON301	CO7	ECON301CO7	Explain why externalities, both positive and negative, may cause market failure.
ECON301	CO8	ECON301CO8	To distinguish between different ways in which asymmetric information can cause market failure.
ECON301	CO9	ECON301CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON301	CO10	ECON301CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON301	CO11	ECON301CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON302	CO1	ECON302CO1	Describe and apply IS-LM model for business cycle analysis
ECON302	CO2	ECON302CO2	Develop, model, diagram and apply simple macroeconomic simulations
ECON302	CO3	ECON302CO3	Analyse and explain classical theories of business cycle
ECON302	CO4	ECON302CO4	Analyse and explain Keynesian theories of business cycle
ECON302	CO5	ECON302CO5	Analyse and discuss business cycle in open macroeconomy

List of Course Outcomes for all courses A.Y. 2022-23

ECON302	CO6	ECON302CO6	Differentiate and distinguish between several schools of macroeconomic theories
ECON302	CO7	ECON302CO7	Point out and evaluate monetary and fiscal policy
ECON302	CO8	ECON302CO8	Summarize macroeconomic data
ECON302	CO9	ECON302CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON302	CO10	ECON302CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON302	CO11	ECON302CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON303	CO1	ECON303CO1	Describe and summarize economic growth and development
ECON303	CO2	ECON303CO2	Use data and visualisation techniques to compare growth trajectories across nations and regions
ECON303	CO3	ECON303CO3	Explain and infer the results of classical and modern theories of growth
ECON303	CO4	ECON303CO4	Examine issues of poverty and inequality in development
ECON303	CO5	ECON303CO5	Describe and defend problems of population growth on development
ECON303	CO6	ECON303CO6	Summarize and interpret the multidimensional challenges to human capital
ECON303	CO7	ECON303CO7	Explain the challenges of sustainable development in the context of depleting environmental capital
ECON303	CO8	ECON303CO8	Construct the role of markets, institutions and the state in solving contemporary developmental issues
ECON303	CO9	ECON303CO9	Write a paper demonstrating the challenges of development and advocating sustainable solutions for policymakers
ECON303	CO10	ECON303CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON303	CO11	ECON303CO11	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON303	CO12	ECON303CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON304	CO1	ECON304CO1	Compare and contrast the reasons behind differences in economic well-being of men and women
ECON304	CO2	ECON304CO2	Analyse the impact of gender differences on markets and society using theoretical models
ECON304	CO3	ECON304CO3	Analyse, compare and critically evaluate the effectiveness of policies aimed at reducing gender inequalities
ECON304	CO4	ECON304CO4	Explain the reasons and examine the consequences of non-market work
ECON304	CO5	ECON304CO5	Estimate gender gaps with the help of data and interpret the results
ECON304	CO6	ECON304CO6	Write an original research paper using gender data, statistical methods and provide policy recommendations for the identified problem
ECON304	CO7	ECON304CO7	Using non-traditional sources of data and information, draw inferences and critically examine problems provided
ECON304	CO8	ECON304CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON304	CO9	ECON304CO9	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON304	CO10	ECON304CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON305	CO1	ECON305CO1	Understand the importance of public economics.
ECON305	CO2	ECON305CO2	Critically analyze the role of state intervention.
ECON305	CO3	ECON305CO3	Apply micro-theoretic tools and techniques in the field of public finance.
ECON305	CO4	ECON305CO4	Distinguish between public goods and non-public goods.
ECON305	CO5	ECON305CO5	Analyze problems associated with the provision of public goods.
ECON305	CO6	ECON305CO6	Critically analyze alternative mechanisms of providing public goods.
ECON305	CO7	ECON305CO7	Critically evaluate public expenditure programs using cost-benefit analysis.
ECON305	CO8	ECON305CO8	Demonstrate an understanding of the efficiency versus equity debate in the context of taxation, and the salience of public borrowing and non-tax revenue, by writing a term paper.
ECON305	CO9	ECON305CO9	To critically evaluate public finance and fiscal federalism in India.
ECON305	CO10	ECON305CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON305	CO11	ECON305CO11	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON305	CO12	ECON305CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.

List of Course Outcomes for all courses A.Y. 2022-23

ECON307	CO1	ECON307CO1	Create an industry report to analyse firm behaviour, compare firm performance, and recommend firm strategy by applying tools of industry analysis
ECON307	CO2	ECON307CO2	Demonstrate understanding of determinants of the size and structure of firms and examine its implications control
ECON307	CO3	ECON307CO3	Analyse and apply the pricing behaviour by firms with market power and critically examine its welfare implications
ECON307	CO4	ECON307CO4	Analyse and explain models of firm behaviour and evaluate strategic interaction of various business practices
ECON307	CO5	ECON307CO5	Demonstrate understanding of the basic determinants of market structure to analyse and discuss firm behaviour
ECON307	CO6	ECON307CO6	Applying strategic analysis and game theory to value and analyse and assess strategic options in real life and business situations
ECON307	CO7	ECON307CO7	Determine the actions of a rational rival and discuss choices made
ECON307	CO8	ECON307CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON307	CO9	ECON307CO9	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON307	CO10	ECON307CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON321	CO1	ECON321CO1	Demonstrate the ability to relate mathematical models in economics with econometric models.
ECON321	CO2	ECON321CO2	Explain economic relationship using graphical representations
ECON321	CO3	ECON321CO3	List and explain the assumptions underlying regression models.
ECON321	CO4	ECON321CO4	Identify the desirable properties of estimators.
ECON321	CO5	ECON321CO5	Identify key classical assumptions in the field of econometrics, explain their significance.
ECON321	CO6	ECON321CO6	Use econometric models and methods to interpret and analyze real data in economics, finance and other social sciences.
ECON321	CO7	ECON321CO7	Use the least squares method in evaluating the relationship of one explanatory variable to the dependent variable and the relationships of multiple explanatory variable to the dependent variable.
ECON321	CO8	ECON321CO8	Use of statistical or econometric software to analyze data.
ECON321	CO9	ECON321CO9	Recognize specification problems in linear regression analysis.
ECON321	CO10	ECON321CO10	Describe the effects of the violations of the classical assumptions on regression results.
ECON321	CO11	ECON321CO11	Conduct predictive analysis using cross-section data.
ECON321	CO12	ECON321CO12	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON321	CO13	ECON321CO13	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON321	CO14	ECON321CO14	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON322	CO1	ECON322CO1	Explain the problems that arise with the violation of assumptions of classical linear regression model.
ECON322	CO2	ECON322CO2	Use appropriate tests to identify the problems arising from the violation of the CLRM assumptions.
ECON322	CO3	ECON322CO3	Identify solutions to the problems that results from violating the CLRM assumptions.
ECON322	CO4	ECON322CO4	Estimate, interpret, and compare models with binary dependent variables, models with endogeneity, and dynamic regression models.
ECON322	CO5	ECON322CO5	Analyse real-world large datasets using statistical/econometric software.
ECON322	CO6	ECON322CO6	Review articles from indexed journals in economics to provide the theoretical background for econometric models.
ECON322	CO7	ECON322CO7	Show the ability to critique reported regression results in applied academic papers and interpret the results for someone who is not trained as an economist.
ECON322	CO8	ECON322CO8	Write a comprehensive empirical research paper after analysing real-world data and demonstrate contribution to the existing literature.
ECON322	CO9	ECON322CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON322	CO10	ECON322CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON322	CO11	ECON322CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON323	CO1	ECON323CO1	Understand and apply extending IS-LM model to include other markets
ECON323	CO2	ECON323CO2	Identify, Interpret and compare macroeconomic data

List of Course Outcomes for all courses A.Y. 2022-23

ECON323	CO3	ECON323CO3	Identify, Interpret and compare financial market data
ECON323	CO4	ECON323CO4	Demonstrate the link between macroeconomy and financial market
ECON323	CO5	ECON323CO5	Model real life macroeconomic and financial data
ECON323	CO6	ECON323CO6	Estimate and explain independent research using time series data
ECON323	CO7	ECON323CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON323	CO8	ECON323CO8	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON323	CO9	ECON323CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON331	CO1	ECON331CO1	To understand various environmental problems locally and globally and their impacts
ECON331	CO2	ECON331CO2	Demonstrate a grasp on theory such as the Pareto Efficiency and Coase Theorem
ECON331	CO3	ECON331CO3	Critically assess and apply practical decision-making tools such as Cost-Benefit Analysis
ECON331	CO4	ECON331CO4	Contribute to global debate on topics such as the trade-offs between growth and environmental regulation
ECON331	CO5	ECON331CO5	To understand and assess the various stated preference methods of environmental valuation
ECON331	CO6	ECON331CO6	To understand and assess the various revealed preference methods of environmental valuation
ECON331	CO7	ECON331CO7	To understand, assess, and analyse the various environmental policy locally and globally
ECON331	CO8	ECON331CO8	To describe and evaluate the concept of sustainable development
ECON331	CO9	ECON331CO9	To use the survey with the students in the field to demonstrate how the environmental problem works with real life data
ECON331	CO10	ECON331CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON331	CO11	ECON331CO11	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON331	CO12	ECON331CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON333	CO1	ECON333CO1	Explain the differences between neoclassical and behavioural economics
ECON333	CO2	ECON333CO2	Describe and defend the limitations of the rational choice theory
ECON333	CO3	ECON333CO3	Illustrate the importance of economic theory and its inter-linkages with psychology
ECON333	CO4	ECON333CO4	Discover and categorise human biases and heuristics in decision making
ECON333	CO5	ECON333CO5	Explain and justify models of decision-making under certainty
ECON333	CO6	ECON333CO6	Explain and justify models of decision-making under risk and uncertainty
ECON333	CO7	ECON333CO7	Explain and justify models of inter-temporal decision-making
ECON333	CO8	ECON333CO8	Discuss, generalize and give examples of behavioural game theory
ECON333	CO9	ECON333CO9	Defend applications of behavioural economics in policy making
ECON333	CO10	ECON333CO10	Write a paper demonstrating the uses of behavioural insights in policy design and delivery
ECON333	CO11	ECON333CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON333	CO12	ECON333CO12	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON333	CO13	ECON333CO13	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENTS101	CO1	ENTS101CO1	Explain the concept of entrepreneurship and family business
ENTS101	CO2	ENTS101CO2	Discuss the mindset of entrepreneurs and family business owners
ENTS101	CO3	ENTS101CO3	Recognize the risk profile of entrepreneurs and family business owners
ENTS101	CO4	ENTS101CO4	Classify the types of businesses in the ecosystem
ENTS101	CO5	ENTS101CO5	Discuss the principles of effectuation
ENTS101	CO6	ENTS101CO6	Explain the life cycle of a business
ENTS101	CO7	ENTS101CO7	Indicate different management styles
ENTS101	CO8	ENTS101CO8	Explain the failure and success of enterprises
ENTS203	CO1	ENTS203CO1	Learn how to generate business ideas
ENTS203	CO2	ENTS203CO2	Differentiate between an idea and an opportunity
ENTS203	CO3	ENTS203CO3	Develop creative and innovative ideas

List of Course Outcomes for all courses A.Y. 2022-23

ENTS203	CO4	ENTS203CO4	Convert an idea into an opportunity
ENTS203	CO5	ENTS203CO5	Apply the lean startup methodology
ENTS203	CO6	ENTS203CO6	Prepare a value proposition
ENTS203	CO7	ENTS203CO7	Prepare a business model canvas
ENTS203	CO8	ENTS203CO8	Demonstrate the ability to evaluate a business opportunity
ENTS203	CO9	ENTS203CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS203	CO10	ENTS203CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS204	CO1	ENTS204CO1	Describe the profile of people at the BOP
ENTS204	CO2	ENTS204CO2	Sketch the ecosystem for people at the BOP
ENTS204	CO3	ENTS204CO3	Review the role of large enterprises at the BOP
ENTS204	CO4	ENTS204CO4	Identify the aspirations of people at the BOP
ENTS204	CO5	ENTS204CO5	Identify the income generation avenues at the BOP
ENTS204	CO6	ENTS204CO6	Discover innovations at the BOP
ENTS204	CO7	ENTS204CO7	Examine the role of finance at the BOP
ENTS204	CO8	ENTS204CO8	Express the issues associated with achieving scale at the BOP
ENTS204	CO9	ENTS204CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS204	CO10	ENTS204CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS304	CO1	ENTS304CO1	Choose skill sets required for the founding teams
ENTS304	CO2	ENTS304CO2	Practice the product designing process while balancing between features and benefits
ENTS304	CO3	ENTS304CO3	Demonstrate the utility of test marketing and market research
ENTS304	CO4	ENTS304CO4	Plan the resources for running a venture
ENTS304	CO5	ENTS304CO5	Illustrate the relevance of technology development and investment in capacity
ENTS304	CO6	ENTS304CO6	Distinguish between equity and debt financing for new businesses
ENTS304	CO7	ENTS304CO7	Analyse competitive forces on critical parameters
ENTS304	CO8	ENTS304CO8	Relate with all functional areas to create value
ENTS304	CO9	ENTS304CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS304	CO10	ENTS304CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS307	CO1	ENTS307CO1	Explain the elements of a good business plan
ENTS307	CO2	ENTS307CO2	Analyse the industry and competitors in a given sector
ENTS307	CO3	ENTS307CO3	Identify the market opportunity that the business plan seeks to address
ENTS307	CO4	ENTS307CO4	Identify the resource requirements for the business
ENTS307	CO5	ENTS307CO5	Calculate the funding required to start and operate the business
ENTS307	CO6	ENTS307CO6	Prepare a list of assumptions to set up, operate and make the business successful
ENTS307	CO7	ENTS307CO7	Explain the nuances related to new venture financing
ENTS307	CO8	ENTS307CO8	Write a business plan for a venture
ENTS307	CO9	ENTS307CO9	Illustrate how the value of a business increases
ENTS307	CO10	ENTS307CO10	Demonstrate a holistic and integrated view of business
ENTS307	CO11	ENTS307CO11	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS307	CO12	ENTS307CO12	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS308	CO1	ENTS308CO1	Explain why a good team is important for a startup
ENTS308	CO2	ENTS308CO2	Describe how market forces and the customer are critical for survival
ENTS308	CO3	ENTS308CO3	Relate to the relevance of technology, resources, processes and systems for efficient operations
ENTS308	CO4	ENTS308CO4	Analyze financial parameters to identify problem areas
ENTS308	CO5	ENTS308CO5	Recognize the importance of statutory compliances
ENTS308	CO6	ENTS308CO6	Assess the ability of a venture to survive in the near future
ENTS308	CO7	ENTS308CO7	Evaluate survival options for a venture on the verge of failure

List of Course Outcomes for all courses A.Y. 2022-23

ENTS308	CO8	ENTS308CO8	Identify options for the venture to be bailed out or to shut down gracefully
ENTS308	CO9	ENTS308CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS308	CO10	ENTS308CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS309	CO1	ENTS309CO1	Explain the perspective for the current status of a family managed business
ENTS309	CO2	ENTS309CO2	Relate to the dynamics of family managed business
ENTS309	CO3	ENTS309CO3	Describe the elements which create competitive advantage for a family managed business
ENTS309	CO4	ENTS309CO4	Describe the challenges of managing a family business
ENTS309	CO5	ENTS309CO5	Recognize the issues in hiring professionals and the next gen in a family business
ENTS309	CO6	ENTS309CO6	Explain the importance of intrapreneurship in family businesses
ENTS309	CO7	ENTS309CO7	Assess the competencies for growth of family businesses
ENTS309	CO8	ENTS309CO8	Explain the issues in succession and retirement planning
ENTS309	CO9	ENTS309CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS309	CO10	ENTS309CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS310	CO1	ENTS310CO1	Describe characteristics of marketing an innovative product/service
ENTS310	CO2	ENTS310CO2	Identify the target market for the product/service
ENTS310	CO3	ENTS310CO3	Examine the competitive landscape
ENTS310	CO4	ENTS310CO4	Interpret the market and finalize the segmentation
ENTS310	CO5	ENTS310CO5	Evaluate conventional and entrepreneurial marketing options
ENTS310	CO6	ENTS310CO6	Select the use of a mix of digital marketing tools
ENTS310	CO7	ENTS310CO7	Devise a marketing plan for a startup
ENTS310	CO8	ENTS310CO8	Create a marketing strategy for different stages of the venture
ENTS310	CO9	ENTS310CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS310	CO10	ENTS310CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS311	CO1	ENTS311CO1	Explain the management styles of family managed businesses
ENTS311	CO2	ENTS311CO2	Describe the challenges faced by family managed businesses
ENTS311	CO3	ENTS311CO3	Justify the need to professionalize a family managed business
ENTS311	CO4	ENTS311CO4	Create a vision document for a family managed business
ENTS311	CO5	ENTS311CO5	Summarize the need to adopt contemporary technology
ENTS311	CO6	ENTS311CO6	Illustrate the relevance of tech-enabled processes and systems
ENTS311	CO7	ENTS311CO7	Model the induction of the next gen into a family managed business
ENTS311	CO8	ENTS311CO8	Outline the role of intrapreneurship and corporate entrepreneurship
ENTS311	CO9	ENTS311CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS311	CO10	ENTS311CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS312	CO1	ENTS312CO1	Describe the concept of corporate entrepreneurship.
ENTS312	CO2	ENTS312CO2	Discuss the influence of organization culture on corporate entrepreneurship
ENTS312	CO3	ENTS312CO3	Describe how the younger workforce influences innovation
ENTS312	CO4	ENTS312CO4	Explain the models of corporate entrepreneurship
ENTS312	CO5	ENTS312CO5	Show how corporate entrepreneurship enhances employee engagement and retention
ENTS312	CO6	ENTS312CO6	Evaluate the organization's readiness for corporate entrepreneurship
ENTS312	CO7	ENTS312CO7	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS312	CO8	ENTS312CO8	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENVS102	CO1	ENVS102CO1	Recall basics of disaster
ENVS102	CO2	ENVS102CO2	Classify between terminology used in disaster studies
ENVS102	CO3	ENVS102CO3	Review history of studying disasters and its mitigation over time
ENVS102	CO4	ENVS102CO4	Identify and recognize different natural disasters, their causes, impacts and mitigation strategies

List of Course Outcomes for all courses A.Y. 2022-23

ENVS102	CO5	ENVS102CO5	Identify and recognize different man-made disasters, their causes, impacts and mitigation strategies
ENVS102	CO6	ENVS102CO6	Explain disasters and its impacts in political, social, cultural and economic context.
ENVS102	CO7	ENVS102CO7	Summarize sustainable practices and technology used to mitigate disasters
ENVS201	CO1	ENVS201CO1	Discuss origin and evolution of Earth's atmosphere
ENVS201	CO2	ENVS201CO2	Interpret human induced changes
ENVS201	CO3	ENVS201CO3	Discuss history of energy use by mankind
ENVS201	CO4	ENVS201CO4	Classify energy resources traditional and sustainable categories
ENVS201	CO5	ENVS201CO5	Describe each resource type, its environmental impacts, and economic aspects
ENVS201	CO6	ENVS201CO6	Apply the knowledge to current energy issues in urbanizing world and climate change
ENVS201	CO7	ENVS201CO7	Discuss adaptation measures
ENVS201	CO8	ENVS201CO8	Compare and contrast levelised cost of energy resources
ENVS201	CO9	ENVS201CO9	Demonstrate understanding of energy generation process and associated cost by developing a model
ENVS201	CO10	ENVS201CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS201	CO11	ENVS201CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS201	CO12	ENVS201CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS201	CO13	ENVS201CO13	Demonstrate ability to work in a team effectively
ENVS202	CO1	ENVS202CO1	Demonstrate comprehensive knowledge of environmental laws and policies and develop critical arguments around them and their governance
ENVS202	CO2	ENVS202CO2	Demonstrate in depth understanding of the application of laws in India pertaining to wildlife, forest, and water
ENVS202	CO3	ENVS202CO3	Demonstrate in depth understanding of the agency involved in environmental governance and the methods through which governance is carried out globally and locally
ENVS202	CO4	ENVS202CO4	Demonstrate a critical understanding of genealogy of judgements and develop skills to explore linkages between law and culture
ENVS202	CO5	ENVS202CO5	Develop effective oral and communication skills to summarise, present, discuss, and generate questions to debate the issues covered in the course and thereby engage in informed discussions about laws, policies, institutions and their roles pertaining to the Environment
ENVS202	CO6	ENVS202CO6	To understand practically, how actions are pursued and remedies are sought for the various legislations that would be covered.
ENVS202	CO7	ENVS202CO7	To understand judgements and dissect them to apply precedent as a secondary source of law.
ENVS202	CO8	ENVS202CO8	To be able to analyse comparative environment law and structure arguments to seek a remedy in appropriate forums.
ENVS202	CO9	ENVS202CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS202	CO10	ENVS202CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS202	CO11	ENVS202CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS202	CO12	ENVS202CO12	Demonstrate ability to work in a team effectively
ENVS231	CO1	ENVS231CO1	Understand the concept of climate change
ENVS231	CO2	ENVS231CO2	List primary environmental factors linked with climate change
ENVS231	CO3	ENVS231CO3	Summarize interlinks between those primary factors
ENVS231	CO4	ENVS231CO4	Explain basics of climate projection
ENVS231	CO5	ENVS231CO5	Recognize and illustrate emission pathways and their role in climate projection
ENVS231	CO6	ENVS231CO6	Summarize climate conventions and IPCC reports
ENVS231	CO7	ENVS231CO7	Identify and demonstrate knowledge of impacts of climate change on natural systems and humans
ENVS231	CO8	ENVS231CO8	Illustrate various mitigation measures
ENVS231	CO9	ENVS231CO9	compare and contrast impacts leading towards equity and differentiation
ENVS231	CO10	ENVS231CO10	Enlist highlights of current climate policies
ENVS231	CO11	ENVS231CO11	Summarize climate adaptation measures
ENVS231	CO12	ENVS231CO12	Classify risks due to climate change and allied vulnerabilities and disasters

List of Course Outcomes for all courses A.Y. 2022-23

ENVS231	CO13	ENVS231CO13	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS231	CO14	ENVS231CO14	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS231	CO15	ENVS231CO15	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS231	CO16	ENVS231CO16	Demonstrate ability to work in a team effectively
ENVS281	CO1	ENVS281CO1	Compare the different types of research methodologies, research ethics and their philosophical basis
ENVS281	CO2	ENVS281CO2	Explain the application, value and limits of quantitative, qualitative and mixed research methodologies and tools
ENVS281	CO3	ENVS281CO3	Apply appropriate research design and methodology to answer specific questions
ENVS281	CO4	ENVS281CO4	Apply appropriate analyses to qualitative data to answer specific questions
ENVS281	CO5	ENVS281CO5	Apply appropriate descriptive and inferential statistics and other analyses to quantitative data to answer specific questions
ENVS281	CO6	ENVS281CO6	Review and interpret relevant literature to inform research design
ENVS281	CO7	ENVS281CO7	Develop a research proposal, applying the appropriate research methodology and methods, to answer specific research questions
ENVS281	CO8	ENVS281CO8	Evaluate potential ethical issues that may arise in research and recommend appropriate methods of mitigation
ENVS281	CO9	ENVS281CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS281	CO10	ENVS281CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS281	CO11	ENVS281CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS281	CO12	ENVS281CO12	Demonstrate ability to work in a team effectively
ENVS301	CO1	ENVS301CO1	Appraise the purpose and role of EIA in the decision-making process
ENVS301	CO2	ENVS301CO2	Demonstrate comprehensive knowledge of environmental management
ENVS301	CO3	ENVS301CO3	Demonstrate in depth understanding of the application of EIA in India
ENVS301	CO4	ENVS301CO4	Compare EIA Reports (Environmental Impact Statement or Environmental Statement)
ENVS301	CO5	ENVS301CO5	Demonstrate in depth understanding of the rules and processes used in environmental impact assessment and the methods through which EIA is carried out globally and locally
ENVS301	CO6	ENVS301CO6	Appraise the legal and institutional frameworks and role of various bodies in the EIA process
ENVS301	CO7	ENVS301CO7	Demonstrate a critical understanding of EIA, SEA, Social Impact Assessment, Environment Management Plan, non-regulatory EIA etc. and develop skills to explore linkages between them
ENVS301	CO8	ENVS301CO8	Practice effective oral and communication skills to summarise, present, discuss, and generate questions to debate the issues covered in the course and thereby engage in informed discussions about EIA, EMP, SEA, SIA, EMS, policies, institutions and their roles pertaining to the environment clearance and compliances
ENVS301	CO9	ENVS301CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS301	CO10	ENVS301CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS301	CO11	ENVS301CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS301	CO12	ENVS301CO12	Demonstrate ability to work in a team effectively
ENVS303	CO1	ENVS303CO1	Describe and relate different concepts and theories of development.
ENVS303	CO2	ENVS303CO2	Identify and discuss history, role and relevance of development in the world over time
ENVS303	CO3	ENVS303CO3	Review and apply theories to understand gender relations within development
ENVS303	CO4	ENVS303CO4	Summarize the role of different conventions and summits related to development goals.
ENVS303	CO5	ENVS303CO5	Apply and examine different resource theories
ENVS303	CO6	ENVS303CO6	Review and employ sustainable development approaches across space.
ENVS303	CO7	ENVS303CO7	Question development approaches in rural and urban context.
ENVS303	CO8	ENVS303CO8	Examine role of institutions in resource governance
ENVS303	CO9	ENVS303CO9	Interpret human development index and its uses
ENVS303	CO10	ENVS303CO10	Summarize future of development practices in the world
ENVS303	CO11	ENVS303CO11	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

ENVS303	CO12	ENVS303CO12	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS303	CO13	ENVS303CO13	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS303	CO1	ENVS303CO1	Describe and relate different concepts and theories of development.
ENVS303	CO2	ENVS303CO2	Identify and discuss history, role and relevance of development in the world over time
ENVS303	CO3	ENVS303CO3	Review and apply theories to understand gender relations within development
ENVS303	CO4	ENVS303CO4	Summarize the role of different conventions and summits related to development goals.
ENVS303	CO5	ENVS303CO5	Apply and examine different resource theories
ENVS303	CO6	ENVS303CO6	Review and employ sustainable development approaches across space.
ENVS303	CO7	ENVS303CO7	Question development approaches in rural and urban context.
ENVS303	CO8	ENVS303CO8	Examine role of institutions in resource governance
ENVS303	CO9	ENVS303CO9	Interpret human development index and its uses
ENVS303	CO10	ENVS303CO10	Summarize future of development practices in the world
ENVS303	CO11	ENVS303CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS303	CO12	ENVS303CO12	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS303	CO13	ENVS303CO13	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS303	CO14	ENVS303CO14	Demonstrate ability to work in a team effectively
ENVS305	CO1	ENVS305CO1	Explain the principles that underlie biological diversity
ENVS305	CO2	ENVS305CO2	Compare past extinctions with current rates of species loss
ENVS305	CO3	ENVS305CO3	Analyse current threats to biodiversity and the consequences of biodiversity loss
ENVS305	CO4	ENVS305CO4	Assess the risk of extinction for individual species
ENVS305	CO5	ENVS305CO5	Collect, collate, summarise, analyse, interpret and present relevant data and statistical analyses
ENVS305	CO6	ENVS305CO6	Apply critical reasoning skills to assessment, analysis, and synthesis of conservation issues and actions
ENVS305	CO7	ENVS305CO7	Determine ethical issues in research, monitoring, education and outreach during conservation actions
ENVS305	CO8	ENVS305CO8	Assess and critique scientific literature
ENVS305	CO9	ENVS305CO9	Prepare and evaluate conservation plans and recommendations
ENVS305	CO10	ENVS305CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS305	CO11	ENVS305CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS305	CO12	ENVS305CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS305	CO13	ENVS305CO13	Demonstrate ability to work in a team effectively

ENVS306	CO2	ENVS306CO2	Explain how conservation ideas and patterns have evolved over history
ENVS306	CO3	ENVS306CO3	Identify and illustrate factors that have affected relationship between conservation and development over space
ENVS306	CO4	ENVS306CO4	Locate politics, gender, power and social relationships within conservation-development debate
ENVS306	CO5	ENVS306CO5	Understand and illustrate factors responsible for human-wildlife conflicts
ENVS306	CO6	ENVS306CO6	Review how conflicts between society and nature can be managed
ENVS306	CO7	ENVS306CO7	Apply and analyse different conservation paradigms that have evolved over space and time
ENVS306	CO8	ENVS306CO8	Describe interrelationship between poverty and conservation
ENVS306	CO9	ENVS306CO9	Examine sustainable practices within conservation and development
ENVS306	CO10	ENVS306CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS306	CO11	ENVS306CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS306	CO12	ENVS306CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS306	CO13	ENVS306CO13	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

ESPN101	CO1	ESPN101CO1	Remember and recall pronunciation
ESPN101	CO2	ESPN101CO2	Remember and recall conjugation of verbs
ESPN101	CO3	ESPN101CO3	Understand simple questions and answer them
ESPN101	CO4	ESPN101CO4	Understand and use basic grammatical structures
ESPN101	CO5	ESPN101CO5	Understand and use present tense
ESPN101	CO6	ESPN101CO6	Remember and recall simple vocabulary
ESPN101	CO7	ESPN101CO7	Use of four language skills: reading, listening, writing and speaking
ESPN101	CO8	ESPN101CO8	Understand the language in its social and cultural contexts
ESPN102	CO1	ESPN102CO1	Understand more advanced grammatical structures
ESPN102	CO2	ESPN102CO2	Classify and respond to more advanced interrogative patterns
ESPN102	CO3	ESPN102CO3	Understand and apply negation
ESPN102	CO4	ESPN102CO4	Understand and respond to more advanced written and audio material
ESPN102	CO5	ESPN102CO5	Identify objects of house and body parts
ESPN102	CO6	ESPN102CO6	Respond to questions on date, time, weather, etc
ESPN102	CO7	ESPN102CO7	Provide personal information
ESPN103	CO1	ESPN103CO1	Summarise events in the present
ESPN103	CO2	ESPN103CO2	Express and react to wishes, intentions and plans
ESPN103	CO3	ESPN103CO3	Respond to likes and dislikes in a cultural context
ESPN103	CO4	ESPN103CO4	Familiarity with direct and indirect objects
ESPN103	CO5	ESPN103CO5	Classify and use prepositions appropriately
ESPN103	CO6	ESPN103CO6	Ask and respond to questions on everyday activities and timetable, etc
ESPN103	CO7	ESPN103CO7	Carrying out conversations on weather and climate
ESPN103	CO8	ESPN103CO8	A nuanced understanding of the language in a cultural context
FINC202	CO1	FINC202CO1	Master the concept of time value of money
FINC202	CO2	FINC202CO2	Use financial statement to compute cost of capital
FINC202	CO3	FINC202CO3	Determine if the company is optimally employing available resources
FINC202	CO4	FINC202CO4	Use DCF and other valuation techniques
FINC202	CO5	FINC202CO5	Understand the capital structure of company and how it is financed
FINC202	CO6	FINC202CO6	analyze working capital cycle and its impact
FINC202	CO7	FINC202CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC202	CO8	FINC202CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC202	CO9	FINC202CO9	Demonstrate ability to work in a team effectively
FINC202	CO10	FINC202CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC221	CO1	FINC221CO1	Describe the role and significance of Financial Management
FINC221	CO2	FINC221CO2	Analyse financial statements
FINC221	CO3	FINC221CO3	Understand financial decision making
FINC221	CO4	FINC221CO4	Be aware of the agency problem
FINC221	CO5	FINC221CO5	Comprehend the factors affecting the capital structure and financing decisions
FINC221	CO6	FINC221CO6	Gain the knowledge and application of the tools and techniques of capital budgeting
FINC221	CO7	FINC221CO7	Be in the know of factors affecting working capital decisions
FINC221	CO8	FINC221CO8	Apply financial management techniques in performing analysis
FINC221	CO9	FINC221CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC221	CO10	FINC221CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC221	CO11	FINC221CO11	Demonstrate ability to work in a team effectively
FINC221	CO12	FINC221CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC301	CO1	FINC301CO1	Interpret financial statements, analyse them and provide critical information to assist decision making
FINC301	CO2	FINC301CO2	Describe and understand the role and significance of accounting standards in preparation of financial statements
FINC301	CO3	FINC301CO3	Apply various financial adjustments to the reported numbers and analyze the outcome

List of Course Outcomes for all courses A.Y. 2022-23

FINC301	CO4	FINC301CO4	Critically analyse both qualitative and quantitative information available in the annual reports for determining the financial health of the company.
FINC301	CO5	FINC301CO5	Interpret the accounting disclosures of companies in form of footnotes to financial statements in their annual reports and assessee the quality of financial reporting
FINC301	CO6	FINC301CO6	Create a report highlighting the key strengths and weaknesses and competitive positioning of the company, recommending a fundamental investment decision
FINC301	CO7	FINC301CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC301	CO8	FINC301CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC301	CO9	FINC301CO9	Demonstrate ability to work in a team effectively
FINC301	CO10	FINC301CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC304	CO1	FINC304CO1	Knowledge of various segments of financial markets and how they facilitate mobilization of capital from primary lenders to ultimate users
FINC304	CO2	FINC304CO2	Knowledge and understanding of various participants in Financial Markets
FINC304	CO3	FINC304CO3	Knowledge of different types of financial instruments that are used in financial markets for speculation, investment and arbitrage and the risk associated with them
FINC304	CO4	FINC304CO4	Knowledge and information about various Financial Institutions (Commercial Banks, Exchanges, Investment Corporations, etc.) and associations (like AMFI) and roles played by them in Financial Markets in India
FINC304	CO5	FINC304CO5	Knowledge and information about various regulators (RBI, SEBI, FMC, etc.) and regulatory systems and methods used by them to regulate the financial markets in India
FINC304	CO6	FINC304CO6	Knowledge and information about the Insolvency and Bankruptcy Code (IBC)
FINC304	CO7	FINC304CO7	Knowledge about Foreign Exchange risk and the types
FINC304	CO8	FINC304CO8	Knowledge about Mutual Funds, their types and role played by them in financial markets
FINC304	CO9	FINC304CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC304	CO10	FINC304CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC304	CO11	FINC304CO11	Demonstrate ability to work in a team effectively
FINC304	CO12	FINC304CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC307	CO1	FINC307CO1	Outline and Explain the crucial role and functions of banks as financial intermediaries and the role of regulation
FINC307	CO2	FINC307CO2	Analyse the financial statements, evaluate and explain comparative performances of banks
FINC307	CO3	FINC307CO3	Identify and analyse the impact of various risks on financial health of banks
FINC307	CO4	FINC307CO4	Explain the role of Capital in ensuring financial stability and compute the capital requirements of banks
FINC307	CO5	FINC307CO5	Demonstrate abilities to analyse and solve problems in various banking verticals like retail, treasury, rural banking
FINC307	CO6	FINC307CO6	Recognize the importance of Corporate Banking and analyse options in various contracts in project finance
FINC307	CO7	FINC307CO7	Explain the importance of e-banking products & services and delivery channels and analyse its importance to gain market share
FINC307	CO8	FINC307CO8	Explain the functions of various Insurance Companies and the role of regulation in insurance
FINC307	CO9	FINC307CO9	Analyse and evaluate the intrinsic features of various insurance products
FINC307	CO10	FINC307CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC307	CO11	FINC307CO11	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC307	CO12	FINC307CO12	Demonstrate ability to work in a team effectively
FINC307	CO13	FINC307CO13	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC308	CO1	FINC308CO1	Understand the investment scenario
FINC308	CO2	FINC308CO2	Comprehend the framework of fundamental analysis of securities
FINC308	CO3	FINC308CO3	Comprehend the concept of risk and the relation between risk and return
FINC308	CO4	FINC308CO4	Appreciate the concept of Efficient capital market
FINC308	CO5	FINC308CO5	Be in the know of factors affecting the valuation of equities and assess if a stock is properly valued
FINC308	CO6	FINC308CO6	Have a fair idea of bond valuation
FINC308	CO7	FINC308CO7	Understand some basic tools of Technical Analysis

List of Course Outcomes for all courses A.Y. 2022-23

FINC308	CO8	FINC308CO8	Explain the concept of risk and return in a portfolio context and apply portfolio performance evaluation measures.
FINC308	CO9	FINC308CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC308	CO10	FINC308CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC308	CO11	FINC308CO11	Demonstrate ability to work in a team effectively
FINC308	CO12	FINC308CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC309	CO1	FINC309CO1	Understand and apply fundamental concepts of Indian income tax laws
FINC309	CO2	FINC309CO2	Explain and contrast the manner in which different entities are taxed
FINC309	CO3	FINC309CO3	Explain with reasoned arguments concerning whether particular transactions give rise to assessable income or to deductible expenditure or loss
FINC309	CO4	FINC309CO4	Design tax planning scheme to explain how transactions can be arranged legally to minimise a tax liability
FINC309	CO5	FINC309CO5	Demonstrate ability to understand different forms used for filing returns with Tax Authorities
FINC309	CO6	FINC309CO6	Understand the provisions of Transfer pricing applicable to international transactions
FINC309	CO7	FINC309CO7	Explain tax laws relating to Appeals and Revisions
FINC309	CO8	FINC309CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC309	CO9	FINC309CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC309	CO10	FINC309CO10	Demonstrate ability to work in a team effectively
FINC309	CO11	FINC309CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC310	CO1	FINC310CO1	To create an understanding of various financial instruments
FINC310	CO2	FINC310CO2	To enhance the students understanding about how institutions facilitate mobilization of capital from primary lenders to ultimate users
FINC310	CO3	FINC310CO3	To enhance the different features of the various types of financial instruments that are used in financial markets for speculation, investment and arbitrage
FINC310	CO4	FINC310CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC310	CO5	FINC310CO5	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC310	CO6	FINC310CO6	Demonstrate ability to work in a team effectively
FINC310	CO7	FINC310CO7	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV102	CO1	FLTV102CO1	Imbibe the Basics of Audio Visual- Sound & Video leading up to a preliminary study of Television and Film, but mainly Television. This will be very hands on
FLTV102	CO2	FLTV102CO2	Know time, space & design as in a Still frame and in a Moving image
FLTV102	CO3	FLTV102CO3	Learn the purpose of a soundtrack/soundtracks and how they enhance visual communication
FLTV102	CO4	FLTV102CO4	Learn that the emerging narratives in a Moving image are different for Film and Television even though they may use camera shots and the grammar of edits in much the same way
FLTV102	CO5	FLTV102CO5	Analyze similarities and differences between Television and Film as well as explain the distinctiveness of other audio visual media e.g. theatre, internet.etc as they are made and viewed; the businesses of each; the birth of each, and the future of Television

FLTV102	CO7	FLTV102CO7	Comprehend that TV Culture, like Radio, is home bound and based on habit and repetition--so the similarity in programming trends and narratives: oral quality, story-telling, serials, genres and formats
FLTV102	CO8	FLTV102CO8	Undertake through the 3 stages of Pre-Production, Production & Post Production the making of a Film & TV program.
FLTV102	CO9	FLTV102CO9	Distinguish between between TV's Multicamera and Film's single camera styles of Production
FLTV102	CO10	FLTV102CO10	Evaluate the technology of Film & TV and their different modes of distribution
FLTV102	CO11	FLTV102CO11	Evaluate how Television/ Film History evolved in different parts of the world (UK, US & INDIA) and why this led to the emergence of different Revenue Models: Public Broadcasting, Commercial TV and DTH
FLTV102	CO12	FLTV102CO12	Resolve the structure of a television channel from its org charts and who does what
FLTV102	CO13	FLTV102CO13	Resolve the qualities that make TV both Communication and Entertainment. There's no business like show business

List of Course Outcomes for all courses A.Y. 2022-23

FLTV102	CO14	FLTV102CO14	Appreciate the Power & Ethics of TV, its global nature today and its future in a multi channel environment
FLTV103	CO1	FLTV103CO1	Develop fundamental Skills in Creative Writing
FLTV103	CO2	FLTV103CO2	Evolve a Story and Character for a Medium
FLTV103	CO3	FLTV103CO3	Explore Narrative Across Genres
FLTV103	CO4	FLTV103CO4	Workshopping across drafts and with peer review
FLTV103	CO5	FLTV103CO5	Produce Original Work for an Audience
FLTV103	CO6	FLTV103CO6	Recognize the market that shapes different audiences
FLTV105	CO1	FLTV105CO1	Identify key aspects of film form/film grammar
FLTV105	CO2	FLTV105CO2	Explain how one or a combination of cinematography, mise en scene, editing and sound build meaning in a given scene and film
FLTV105	CO3	FLTV105CO3	Interpret how form conveys story, theme and character
FLTV105	CO4	FLTV105CO4	Assess how film reflects dominant viewpoints in society and culture
FLTV106	CO1	FLTV106CO1	Understand the Moving Image
FLTV106	CO2	FLTV106CO2	Understand the form and functions of Film and TV
FLTV106	CO3	FLTV106CO3	Understand audio-visual story telling its basic language and grammar
FLTV106	CO4	FLTV106CO4	Use the knowledge to create briefly but grammatically correct brief video footage
FLTV106	CO5	FLTV106CO5	Analyse a video shot, a scene sequence or a film clip from technical and theoretically correct perspective
FLTV106	CO6	FLTV106CO6	Understand how technical, social and cultural aspects work in story telling
FLTV201	CO1	FLTV201CO1	Describe distinctive aspects of film style (editing, cinematography etc) in a given film
FLTV201	CO2	FLTV201CO2	Discuss relationship between film form, and meaning.
FLTV201	CO3	FLTV201CO3	Identify characteristics belonging to cinematic traditions in different regional contexts
FLTV201	CO4	FLTV201CO4	Examine how films relate to their historical contexts
FLTV201	CO5	FLTV201CO5	Justify your own position vis-a-vis a particular reading of a film
FLTV201	CO6	FLTV201CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV201	CO7	FLTV201CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV201	CO8	FLTV201CO8	Demonstrate ability to work in a team effectively
FLTV201	CO9	FLTV201CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV203	CO1	FLTV203CO1	Identify key characteristics of documentary film modes - poetic, expository, participatory, observational
FLTV203	CO2	FLTV203CO2	Examine how documentary film's formal language and story values convey a particular take on reality
FLTV203	CO3	FLTV203CO3	Evaluate the truth claims made by documentary films
FLTV203	CO4	FLTV203CO4	Assess how particular approaches to representation in documentary shape understanding of a topic
FLTV203	CO5	FLTV203CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV203	CO6	FLTV203CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV203	CO7	FLTV203CO7	Demonstrate ability to work in a team effectively
FLTV203	CO8	FLTV203CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV206	CO1	FLTV206CO1	Understand the different stages of programming
FLTV206	CO2	FLTV206CO2	Comprehend the usage of competitive TV programming strategies used for scheduling a channel's FPC in a multi channel environment.
FLTV206	CO3	FLTV206CO3	Recognize the unique characteristics of a TV narrative
FLTV206	CO4	FLTV206CO4	Understand how to keep a show running for a longer period by introducing new aspects in the show vis a vis the content.
FLTV206	CO5	FLTV206CO5	Prepare a pitch for a TV show & Web show
FLTV206	CO6	FLTV206CO6	Write a concept for a web series/online show
FLTV206	CO7	FLTV206CO7	Write a TV show screenplay
FLTV206	CO8	FLTV206CO8	Understand clearly the organisational structure of a channel, its hierarchy, the functions and responsibilities of its different departments.
FLTV206	CO9	FLTV206CO9	Comprehend the different strategies of the channel for programming including importance of TRPs and channel online presence.

List of Course Outcomes for all courses A.Y. 2022-23

FLTV206	CO10	FLTV206CO10	Recognize the development of Online Presence of Broadcast Channels
FLTV206	CO11	FLTV206CO11	Comprehend the Qualitative and Quantitative aspect of research and their importance vis a vis revenues
FLTV206	CO12	FLTV206CO12	Understand the role of various departments of the channel in launching of a tv show
FLTV206	CO13	FLTV206CO13	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV206	CO14	FLTV206CO14	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV206	CO15	FLTV206CO15	Demonstrate ability to work in a team effectively
FLTV206	CO16	FLTV206CO16	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV211	CO1	FLTV211CO1	Understand how a film is produced.
FLTV211	CO2	FLTV211CO2	Distinguish key principles of fiction film making
FLTV211	CO3	FLTV211CO3	Understanding of montage as an artistic technique.
FLTV211	CO4	FLTV211CO4	Shoot moving images adhering to composition rules
FLTV211	CO5	FLTV211CO5	Shoot moving images adhering to the screen grammar
FLTV211	CO6	FLTV211CO6	Shoot a five minute individual continuity film
FLTV211	CO7	FLTV211CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV211	CO8	FLTV211CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV211	CO9	FLTV211CO9	Demonstrate ability to work in a team effectively
FLTV211	CO10	FLTV211CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV209	CO1	FLTV209CO1	Demonstrate basic image quality control and manipulation
FLTV209	CO2	FLTV209CO2	Translate and dramatise small visual concepts into simple shots to make a sequence as a Cinematographer
FLTV209	CO3	FLTV209CO3	Discuss, interpret and analyse films/visual content from cinematography perspective
FLTV209	CO4	FLTV209CO4	Demonstrate an eye for aesthetics and discover creative possibilities
FLTV209	CO5	FLTV209CO5	Show basic cinematography understanding before pursuing further in-depth studies and/or practice of cinematography
FLTV209	CO6	FLTV209CO6	Demonstrate efficient team player capabilities
FLTV209	CO7	FLTV209CO7	Operate camera and pull focus on camera
FLTV209	CO8	FLTV209CO8	Employ simple and basic lighting techniques for shot taking.
FLTV209	CO9	FLTV209CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV209	CO10	FLTV209CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV209	CO11	FLTV209CO11	Demonstrate ability to work in a team effectively
FLTV209	CO12	FLTV209CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV210	CO1	FLTV210CO1	Have a strong knowledge of storytelling and narrative structures upon which editing decisions are made.
FLTV210	CO2	FLTV210CO2	Practice editing as a tool, a craft, a technique, and an art form, based on modern technologies.
FLTV210	CO3	FLTV210CO3	Demonstrate understanding of digital processes and technologies related to Film Editing Process.
FLTV210	CO4	FLTV210CO4	Use softwares like Adobe Premiere Pro, Final Cut Pro, and Da Vinci Resole at an advanced level for professional editing needs.
FLTV210	CO5	FLTV210CO5	Edit short films, Action continuity films, Dialogue sequences, Playbacks, Music sequences, and montage sequences
FLTV210	CO6	FLTV210CO6	Know the various advanced theories of film editing and their application in various kinds of cinematic narrative.
FLTV210	CO7	FLTV210CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV210	CO8	FLTV210CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV210	CO9	FLTV210CO9	Demonstrate ability to work in a team effectively
FLTV210	CO10	FLTV210CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV303	CO1	FLTV303CO1	Understanding and be able to analyse the concept of Narrative in its broadest and multifaceted sense- literary narratives, visual narratives, musical narratives, performed narratives, cinematic narratives
FLTV303	CO2	FLTV303CO2	Learn to Think in Shots / Visuals and in audio – visual perspective

List of Course Outcomes for all courses A.Y. 2022-23

FLTV303	CO3	FLTV303CO3	Understand and Analyse the basic and elemental structure of films
FLTV303	CO4	FLTV303CO4	10 min CONTINUITY FILM
FLTV303	CO5	FLTV303CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV303	CO6	FLTV303CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV303	CO7	FLTV303CO7	Demonstrate ability to work in a team effectively
FLTV303	CO8	FLTV303CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV305	CO1	FLTV305CO1	Distinguish between, and critically evaluate, the principle 'modes' of documentary making
FLTV305	CO2	FLTV305CO2	Understanding documentary production in its social and historical context
FLTV305	CO3	FLTV305CO3	Students will experience how to critically analyze contemporary documentary films and will engage in debate over content, style and subject matter
FLTV305	CO4	FLTV305CO4	Be conversant with, and sensitive to, current debates about documentary ethics and aesthetics
FLTV305	CO5	FLTV305CO5	Perform one or more of the roles: director, producer, camera operator, sound recordist, lighting technician, editor, and writer
FLTV305	CO6	FLTV305CO6	Produce their own short film, making informed and creative decisions at every stage of production process
FLTV305	CO7	FLTV305CO7	Utilize sound, music, and lighting to support themes of the Documentaries
FLTV305	CO8	FLTV305CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV305	CO9	FLTV305CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV305	CO10	FLTV305CO10	Demonstrate ability to work in a team effectively
FLTV305	CO11	FLTV305CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV312	CO1	FLTV312CO1	Understand concepts and theories applicable in entertainment industry
FLTV312	CO2	FLTV312CO2	Understand customers/audience in entertainment business and generate insights
FLTV312	CO3	FLTV312CO3	Understand different sub-sectors within the media and entertainment business
FLTV312	CO4	FLTV312CO4	Learn best management and marketing approaches in Entertainment sector
FLTV312	CO5	FLTV312CO5	Relevance of history of consumption of leisure and business of entertainment and their impact on society
FLTV312	CO6	FLTV312CO6	Research in media management
FLTV312	CO7	FLTV312CO7	To explore and appreciate entrepreneurial options in the industry
FLTV312	CO8	FLTV312CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV312	CO9	FLTV312CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV312	CO10	FLTV312CO10	Demonstrate ability to work in a team effectively
FLTV312	CO11	FLTV312CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV318	CO1	FLTV318CO1	Learn to write in audio – visual language
FLTV318	CO2	FLTV318CO2	Have an overview of the history and evolution of Fiction Writing.
FLTV318	CO3	FLTV318CO3	Have an overall command and control over story, plot, and script structure.
FLTV318	CO4	FLTV318CO4	Understanding the concept of Narrative in its broadest and multifaceted sense- literary narratives, visual narratives, musical narratives, performed narratives, cinematic narratives
FLTV318	CO5	FLTV318CO5	Use different writing forms, styles and tools according to different formats and genres
FLTV318	CO6	FLTV318CO6	Adapt a short story for script for a short film of about 20 minutes / Write an original script for a short film of about 20 minutes.
FLTV318	CO7	FLTV318CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV318	CO8	FLTV318CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV318	CO9	FLTV318CO9	Demonstrate ability to work in a team effectively
FLTV318	CO10	FLTV318CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV319	CO1	FLTV319CO1	Students are introduced to the Psychology of a Creative Eye and Elements of Visual Design of moving images to understand how these components manipulate viewers' emotions.
FLTV319	CO2	FLTV319CO2	Students also learn the need for research to understand the diverse culture in a broad way from period to modern era.

List of Course Outcomes for all courses A.Y. 2022-23

FLTV319	CO3	FLTV319CO3	Students are made to understand the spatial and temporal continuity by developing a narrative exploring characters around one location besides various aspects of lighting and lenses, which affect the emotional response of the viewers.
FLTV319	CO4	FLTV319CO4	Understanding the importance of collaboration with other related aspects like Costumes and Make –up.
FLTV319	CO5	FLTV319CO5	Students are exposed to basic designs of architecture and the usage of a singlespace with specific functions to understand a misc-en-scene.
FLTV319	CO6	FLTV319CO6	Understanding the concept of Budgeting and Manpower management.
FLTV319	CO7	FLTV319CO7	Through lectures, students explore traditional and contemporary materials and manufacturing methods for set construction.
FLTV319	CO8	FLTV319CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV319	CO9	FLTV319CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV319	CO10	FLTV319CO10	Demonstrate ability to work in a team effectively
FLTV319	CO11	FLTV319CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV321	CO1	FLTV321CO1	Understand and evaluate role of elements of a film in film consumption
FLTV321	CO2	FLTV321CO2	Understand film audience on various platforms and formats
FLTV321	CO3	FLTV321CO3	History and sociology of distribution and exhibition sector
FLTV321	CO4	FLTV321CO4	Business and revenue models, opportunities in the sector
FLTV321	CO5	FLTV321CO5	Marketing and selling of Indie cinema and other non-commercial cinema
FLTV321	CO6	FLTV321CO6	Develop a film marketing plan/ campaign
FLTV321	CO7	FLTV321CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV321	CO8	FLTV321CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV321	CO9	FLTV321CO9	Demonstrate ability to work in a team effectively
FLTV321	CO10	FLTV321CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FREN101	CO1	FREN101CO1	Remember and recall French pronunciation
FREN101	CO2	FREN101CO2	Remember, recall and classify first and third group verb conjugations
FREN101	CO3	FREN101CO3	Understand simple questions and respond to them
FREN101	CO4	FREN101CO4	Use basic grammatical structures
FREN101	CO5	FREN101CO5	Understand and use the present tense
FREN101	CO6	FREN101CO6	Remember and recall simple vocabulary
FREN101	CO7	FREN101CO7	Use the four language skills: reading, listening, speaking and writing in daily activities
FREN101	CO8	FREN101CO8	Understand the language in a cultural and social context
FREN102	CO1	FREN102CO1	Understand more advanced grammatical structures
FREN102	CO2	FREN102CO2	Classify and respond to more advanced interrogative patterns
FREN102	CO3	FREN102CO3	Identify and apply the different negative constructions
FREN102	CO4	FREN102CO4	Understand and respond to more advanced written and audio material
FREN102	CO5	FREN102CO5	Provide multiple responses using the past tenses
FREN102	CO6	FREN102CO6	Identify different sports and body parts
FREN102	CO7	FREN102CO7	Respond to questions on transport and travel
FREN102	CO8	FREN102CO8	Carry out comparisons between people and things using adjectives
FREN103	CO1	FREN103CO1	Summarise events in the past
FREN103	CO2	FREN103CO2	Summarise events in the present and future
FREN103	CO3	FREN103CO3	Respond to questions and clarify health-related issues
FREN103	CO4	FREN103CO4	Respond to likes and dislikes in a cultural context
FREN103	CO5	FREN103CO5	Use direct and indirect objects appropriately
FREN103	CO6	FREN103CO6	Identify and carry out conversations on the weather, seasons
FREN103	CO7	FREN103CO7	Ask and respond to questions on leisure activities
FREN103	CO8	FREN103CO8	Understand the nuances of the language in authentic situations
GEOG151	CO1	GEOG151CO1	List all world regions - their countries, cities and physical features
GEOG151	CO2	GEOG151CO2	Use map skills to understand all world regions

List of Course Outcomes for all courses A.Y. 2022-23

GEOG151	CO3	GEOG151CO3	Understand world from multiple perspectives - demography, culture, social and economic development
GEOG151	CO4	GEOG151CO4	Describe how each individual region contribute to the globalizing world.
GEOG151	CO5	GEOG151CO5	Discuss different globalized processes and patterns that have defined the world in 21st century
GEOG151	CO6	GEOG151CO6	Recognize different cultures and societies around the world.
GEOG221	CO1	GEOG221CO1	Define and examine space, scale and time concepts to study case studies
GEOG221	CO2	GEOG221CO2	Identify evolution of environmentalism and environmental movements
GEOG221	CO3	GEOG221CO3	Understand environmental and development theories and concepts
GEOG221	CO4	GEOG221CO4	Question role of gender in environment
GEOG221	CO5	GEOG221CO5	Understand and criticise role of power and knowledge within politics of environment
GEOG221	CO6	GEOG221CO6	Demonstrate understanding of human impacts on land
GEOG221	CO7	GEOG221CO7	Illustrate understanding of human impact on air
GEOG221	CO8	GEOG221CO8	Examine through examples of human impact on water
GEOG221	CO9	GEOG221CO9	Demonstrate through examples about human impact on biodiversity
GEOG221	CO10	GEOG221CO10	Apply and examine through examples about human impact on built environments
GEOG231	CO1	GEOG231CO1	Describe applications of remote sensing
GEOG231	CO2	GEOG231CO2	Apply Open source software for image processing
GEOG231	CO3	GEOG231CO3	Describe laws of physics applicable for remote sensing and satellite systems
GEOG231	CO4	GEOG231CO4	Summarize and apply process of image capturing
GEOG231	CO5	GEOG231CO5	Differentiate between various satellite image types based on their characteristics
GEOG231	CO6	GEOG231CO6	Demonstrate knowledge of Indian and foreign satellite missions
GEOG231	CO7	GEOG231CO7	Explain visual interpretation keys
GEOG231	CO8	GEOG231CO8	Enlist image errors and provide with appropriate corrections
GEOG231	CO9	GEOG231CO9	Compare image classification techniques and apply
GEOG231	CO10	GEOG231CO10	Enlist image enhancement techniques for various applications
GEOG231	CO11	GEOG231CO11	Apply technical skills for a small scale research problem and analyze (class project)
GEOG233	CO1	GEOG233CO1	Recognize various applications of GIS
GEOG233	CO2	GEOG233CO2	Classify Open source and other GIS Software
GEOG233	CO3	GEOG233CO3	Categorize data into raster, vector, and other categories
GEOG233	CO4	GEOG233CO4	Recognize spatial and non-spatial nature of GIS data
GEOG233	CO5	GEOG233CO5	Classify storage technology for various applications
GEOG233	CO6	GEOG233CO6	Recognize and compare types of coordinate systems
GEOG233	CO7	GEOG233CO7	Understand GIS preliminary analyses and its applications
GEOG233	CO8	GEOG233CO8	Perform preliminary analysis techniques
GEOG233	CO9	GEOG233CO9	Analyze a geospatial problem using skills gained in the course - individual project
GEOL101	CO1	GEOL101CO1	Recall Earth's features as a living planet
GEOL101	CO2	GEOL101CO2	Name and understand global energy budget
GEOL101	CO3	GEOL101CO3	Recognize composition, structure and different processes of Earth's atmosphere; Earth's climate; different variables such as humidity, air pressure and temperature
GEOL101	CO4	GEOL101CO4	Recall major features of oceans including their density, salinity and temperature; its role in global wind circulation; different types and forms of precipitation
GEOL101	CO5	GEOL101CO5	Identify different principles of plate tectonic theory - how earth may have formed; earth's inner structure; different types of rock, rock cycle; rock deformation including folds and faults
GEOL101	CO6	GEOL101CO6	State erosional, depositional and transportation of soil by different weathering and mass wasting processes.
GEOL101	CO7	GEOL101CO7	Understand the processes that affect development of landscape and the landforms that are created by them, including in deserts, rivers and coasts
GMGT101	CO1	GMGT101CO1	List and discuss the broad domains of management in organizations.
GMGT101	CO2	GMGT101CO2	Discuss the applications of basic theoretical concepts of each domain.
GMGT101	CO3	GMGT101CO3	Discuss the various managerial roles coming from each domain and their inter-relationships.
GMGT201	CO1	GMGT201CO1	To understand and apply the provisions of laws as applicable to trade, business and industry in Indian context

List of Course Outcomes for all courses A.Y. 2022-23

GMGT201	CO2	GMGT201CO2	To analyze the practical aspects of applying legal provisions to real life situations through a number of case studies
GMGT201	CO3	GMGT201CO3	Demonstrate ability to understand some basic strategies that can be used to solve legal problems
GMGT201	CO4	GMGT201CO4	Demonstrate the ability to research and critically evaluate commercial disputes and suggest remedies
GMGT201	CO5	GMGT201CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
GMGT201	CO6	GMGT201CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
GMGT201	CO7	GMGT201CO7	Demonstrate ability to work in a team effectively
GMGT201	CO8	GMGT201CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
GMGT303	CO1	GMGT303CO1	Explain the importance of ethical practices in business
GMGT303	CO2	GMGT303CO2	Manage ethical issues that occur in professional life in all functional areas
GMGT303	CO3	GMGT303CO3	Explain the corporate governance mechanisms
GMGT303	CO4	GMGT303CO4	Devise basic governance structures
GMGT303	CO5	GMGT303CO5	Appraise sound governance practices of different organizations
GMGT303	CO6	GMGT303CO6	Apply corporate governance best practices and principles to achieve appropriate business practice
GMGT303	CO7	GMGT303CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
GMGT303	CO8	GMGT303CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
GMGT303	CO9	GMGT303CO9	Demonstrate ability to work in a team effectively
GMGT303	CO10	GMGT303CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
GRMN101	CO1	GRMN101CO1	Remember and recall pronunciation.
GRMN101	CO2	GRMN101CO2	Remember and recall conjugation of verbs
GRMN101	CO3	GRMN101CO3	Understand simple questions and answer them
GRMN101	CO4	GRMN101CO4	Understand and use grammatical structures
GRMN101	CO5	GRMN101CO5	Understand and use present tense
GRMN101	CO6	GRMN101CO6	Remember and recall simple vocabulary
GRMN101	CO7	GRMN101CO7	Use the four language skills: reading, listening, writing, speaking
GRMN101	CO8	GRMN101CO8	Understand the language in a social and cultural context
GRMN102	CO1	GRMN102CO1	Understand more advanced grammatical structures
GRMN102	CO2	GRMN102CO2	Classify and respond to more advanced interrogative patterns
GRMN102	CO3	GRMN102CO3	Understand and apply negation
GRMN102	CO4	GRMN102CO4	Understand and respond to more advanced written and audio material
GRMN102	CO5	GRMN102CO5	Identify different pieces of furniture and body parts
GRMN102	CO6	GRMN102CO6	Schedule informal appointments
GRMN102	CO7	GRMN102CO7	Communicate through short messages
GRMN102	CO8	GRMN102CO8	Provide personal information
GRMN103	CO1	GRMN103CO1	Summarise events in the present
GRMN103	CO2	GRMN103CO2	Express and react to wishes
GRMN103	CO3	GRMN103CO3	Formulate and respond to requests
GRMN103	CO4	GRMN103CO4	Ask and respond to questions on leisure activities
GRMN103	CO5	GRMN103CO5	Classify and use prepositions appropriately
GRMN103	CO6	GRMN103CO6	Identify and use direct and indirect objects appropriately
GRMN103	CO7	GRMN103CO7	Schedule formal appointments
GRMN103	CO8	GRMN103CO8	Understand the nuances of the language in authentic situations
HIST101	CO1	HIST101CO1	Understand India's political, social and economic history from 15th century BCE to 12th century CE
HIST101	CO2	HIST101CO2	Understand multiple interpretations of Indian history based on the interpretation of available sources and socio-political motivations
HIST101	CO3	HIST101CO3	Explain some of the debates of Indian history
HIST101	CO4	HIST101CO4	Summarize tools and methods of history as a discipline

List of Course Outcomes for all courses A.Y. 2022-23

HIST101	CO5	HIST101CO5	Understand and analyse the processes of culture change as a result of various local, regional and foreign influences, and indigenous development
HIST101	CO6	HIST101CO6	Understand the role of history in shaping national and personal identity
HIST102	CO1	HIST102CO1	Explain key historical developments that gave rise to the world that we live in today
HIST102	CO2	HIST102CO2	Analyse notions of human progress as well as the rise of structural inequalities between European and non-European civilizations
HIST102	CO3	HIST102CO3	Distinguish between different kinds of sources that form the basis of history writing
HIST102	CO4	HIST102CO4	Understand the importance of evidence as an ethical tool in the hands of historians
HIST151	CO1	HIST151CO1	Understand history and culture of early river valley civilizations of Mesopotamia, Egypt, Indian sub-continent and China
HIST151	CO2	HIST151CO2	Understand political, social, economic and religious patterns of each of these civilizations
HIST151	CO3	HIST151CO3	Interpret and analyse the factors leading to the rise and development of civilization in specific regions
HIST151	CO4	HIST151CO4	Analyse linkages between geographical setting and cultural processes
HIST151	CO5	HIST151CO5	Explain why the interpretations of past change due to development of tools & methods of studying past and because of changes in the ideological models
HIST152	CO1	HIST152CO1	Understand political history, economic trends, societal norms and religious practices of Persian, Greek & Roman civilizations
HIST152	CO2	HIST152CO2	Interpret the historical traditions and cultural practices of these civilizations
HIST152	CO3	HIST152CO3	Explain linkages between geographical setting and cultural processes
HIST152	CO4	HIST152CO4	Analyse primary sources to understand issues of political representations, economic motivations and cultural perceptions
HIST152	CO5	HIST152CO5	Analyse historiographical trends in the study of these civilizations
HIST331	CO1	HIST331CO1	Understand critical debates and issues of Indian history
HIST331	CO2	HIST331CO2	Analyse history and its relevance to the present
HIST331	CO3	HIST331CO3	Critically evaluate approaches to interpret history
HIST331	CO4	HIST331CO4	Discuss and debate the idea of history and historical sensibility in India
HIST331	CO5	HIST331CO5	Identify trends in the historiography and evaluate politics of history in India
HIST331	CO6	HIST331CO6	Evaluate the role of history in national and individual identity in India
HIST331	CO7	HIST331CO7	Explain and argue varied theoretical models in their specific contexts
HIST331	CO8	HIST331CO8	Critique debates and issues of Indian history
HRMS101	CO1	HRMS101CO1	Define the basic concepts of management
HRMS101	CO2	HRMS101CO2	Describe the historical evolution of management
HRMS101	CO3	HRMS101CO3	Explain the organizational environment that impacts management
HRMS101	CO4	HRMS101CO4	Describe the functions of management and relate them to each other
HRMS101	CO5	HRMS101CO5	Discuss the human resource systems used for management
HRMS101	CO6	HRMS101CO6	Identify individual and group level behaviors in organizations
HRMS101	CO7	HRMS101CO7	Outline the design and processes relevant in the management context
HRMS301	CO1	HRMS301CO1	Discuss evolution and importance of industrial relations
HRMS301	CO2	HRMS301CO2	Explain perspectives and approaches to Industrial Relations
HRMS301	CO3	HRMS301CO3	Describe trade unions and interpret their role in the organizations
HRMS301	CO4	HRMS301CO4	Interpret the transition from industrial relations to employee relations and compare them
HRMS301	CO5	HRMS301CO5	Describe and relate employee grievance and discipline in organizational context
HRMS301	CO6	HRMS301CO6	Interpret use of employment laws (on regulation of working conditions) in real life situations and appraise them
HRMS301	CO7	HRMS301CO7	Interpret use of employment laws (on social security) in real life situations and appraise them
HRMS301	CO8	HRMS301CO8	Interpret use of employment laws (on wage and bonus) in real life situations and appraise them
HRMS301	CO9	HRMS301CO9	Interpret use of employment laws (on industrial disputes and conflict prevention) in real life situations and appraise them
HRMS301	CO10	HRMS301CO10	Describe and relate industrial conflict settlement in organizational context
HRMS301	CO11	HRMS301CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS301	CO12	HRMS301CO12	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS301	CO13	HRMS301CO13	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

HRMS301	CO14	HRMS301CO14	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS303	CO1	HRMS303CO1	Map the distinguishing features of performance management
HRMS303	CO2	HRMS303CO2	Outline the different methods of performance management
HRMS303	CO3	HRMS303CO3	Carry out different techniques of performance evaluation
HRMS303	CO4	HRMS303CO4	Distinguish between different levels of performance
HRMS303	CO5	HRMS303CO5	Relate to the context of reward and benefits
HRMS303	CO6	HRMS303CO6	Explain the factors impacting rewards
HRMS303	CO7	HRMS303CO7	Apply the different techniques of developing pay
HRMS303	CO8	HRMS303CO8	Illustrate the concept of performance-related pay
HRMS303	CO9	HRMS303CO9	Identify the unique features of executive pay
HRMS303	CO10	HRMS303CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS303	CO11	HRMS303CO11	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS303	CO12	HRMS303CO12	Demonstrate ability to work in a team effectively
HRMS303	CO13	HRMS303CO13	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS304	CO1	HRMS304CO1	Discuss the strategic context of training.
HRMS304	CO2	HRMS304CO2	Describe the steps in training design.
HRMS304	CO3	HRMS304CO3	Identify training issues based on needs analysis report.
HRMS304	CO4	HRMS304CO4	Examine the suitability of different learning and motivation principles to the training context.
HRMS304	CO5	HRMS304CO5	Construct a set of objectives and outcomes on a specific topic.
HRMS304	CO6	HRMS304CO6	Compare the suitability of different training methods according to the business context (objectives and constraints).
HRMS304	CO7	HRMS304CO7	Examine the suitability of different evaluation methods for different training programs.
HRMS304	CO8	HRMS304CO8	Discuss the latest trends and issues in training and development.
HRMS304	CO9	HRMS304CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS304	CO10	HRMS304CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS304	CO11	HRMS304CO11	Demonstrate ability to work in a team effectively
HRMS304	CO12	HRMS304CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS305	CO1	HRMS305CO1	Explain interactional framework and apply it to real life situations
HRMS305	CO2	HRMS305CO2	Appraise the difference between managers and leaders
HRMS305	CO3	HRMS305CO3	Apply attributes and skills to different kinds of leaders
HRMS305	CO4	HRMS305CO4	Illustrate and compare attributes and skills of leaders from different walks of life
HRMS305	CO5	HRMS305CO5	Apply and assess types of leadership demonstrated by known leaders
HRMS305	CO6	HRMS305CO6	Apply and assess theories of leadership in different contexts
HRMS305	CO7	HRMS305CO7	Explain need for change in organizations
HRMS305	CO8	HRMS305CO8	Show how change can be implemented and analyse possible problems with the implementation
HRMS305	CO9	HRMS305CO9	Examine change enablers in different environments
HRMS305	CO10	HRMS305CO10	Appraise different ways in which leaders manage change
HRMS305	CO11	HRMS305CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS305	CO12	HRMS305CO12	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS305	CO13	HRMS305CO13	Demonstrate ability to work in a team effectively
HRMS305	CO14	HRMS305CO14	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS342	CO1	HRMS342CO1	Become aware of one's patterns of behavior
HRMS342	CO2	HRMS342CO2	Know the impact of one's behavior on others
HRMS342	CO3	HRMS342CO3	Become aware of your values, personality and strengths
HRMS342	CO4	HRMS342CO4	Improve one's effectiveness in interpersonal behaviour

List of Course Outcomes for all courses A.Y. 2022-23

HRMS342	CO5	HRMS342CO5	Enhance your ability to learn
HRMS342	CO6	HRMS342CO6	Create an action plan that will propel you towards personal growth
HRMS342	CO7	HRMS342CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS342	CO8	HRMS342CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS342	CO9	HRMS342CO9	Demonstrate ability to work in a team effectively
HRMS342	CO10	HRMS342CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS343	CO1	HRMS343CO1	Discuss the need for engagement of employees
HRMS343	CO2	HRMS343CO2	Explain considerations in measurement of employee engagement
HRMS343	CO3	HRMS343CO3	Interpret application in different HR functions
HRMS343	CO4	HRMS343CO4	Formulate strategies to solve organizational problems using Employee Engagement initiatives
HRMS343	CO5	HRMS343CO5	Summarize the interrelationship of workplace motivation and Employee Engagement
HRMS343	CO6	HRMS343CO6	Explain how individual differences influence Employee Engagement
HRMS343	CO7	HRMS343CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS343	CO8	HRMS343CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS343	CO9	HRMS343CO9	Demonstrate ability to work in a team effectively
HRMS343	CO10	HRMS343CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
INRS101	CO1	INRS101CO1	Recall and summarise the key concepts, issues, institutions and historical events that shaped international relations.
INRS101	CO2	INRS101CO2	Recognise the distinctions between varied theoretical approaches to the study of IR and to identify and represent a Third World (Indian) perspective.
INRS101	CO3	INRS101CO3	Identify central arguments of thematic issues and summarise them effectively.
INRS101	CO4	INRS101CO4	Assimilate and use information from multiple scholarly sources.
INRS101	CO5	INRS101CO5	Write well-structured, evaluative essays and communicate effectively.
INRS101	CO6	INRS101CO6	Apply critical thinking skills as well as effective interpersonal learning skills.
INRS201	CO1	INRS201CO1	Recall the names of major scholars in the field.
INRS201	CO2	INRS201CO2	State the key features of the theories taught in class.
INRS201	CO3	INRS201CO3	Employ a particular theoretical approach to explain a current issue.
INRS201	CO4	INRS201CO4	Justify their theoretical position with logical arguments.
INRS201	CO5	INRS201CO5	Express their opinion on the state of the discipline in India.
INRS201	CO6	INRS201CO6	Use a theoretical framework to explain historically important events.
INRS201	CO7	INRS201CO7	Interpret foreign policy issues & make policy recommendations.
INRS201	CO8	INRS201CO8	Identify patterns of state behavior in world politics.
INRS201	CO9	INRS201CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS201	CO10	INRS201CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS201	CO11	INRS201CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS201	CO12	INRS201CO12	Demonstrate ability to work in a team effectively
INRS202	CO1	INRS202CO1	Explain and compare the multiple meanings of modernity
INRS202	CO2	INRS202CO2	Describe historical events/ causes of capitalism
INRS202	CO3	INRS202CO3	Understand the nature of modern-nation state
INRS202	CO4	INRS202CO4	Discuss various concepts/theories of colonialism
INRS202	CO5	INRS202CO5	Explain features of the Indian colonial state
INRS202	CO6	INRS202CO6	Analyse key political and economic developments after independence
INRS202	CO7	INRS202CO7	Identify and analyse colonial continuities in post-independent processes in India
INRS202	CO8	INRS202CO8	Use multiple scholarly sources to write response and research papers
INRS202	CO9	INRS202CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS202	CO10	INRS202CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.

List of Course Outcomes for all courses A.Y. 2022-23

INRS202	CO11	INRS202CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS202	CO12	INRS202CO12	Demonstrate ability to work in a team effectively
INRS221	CO1	INRS221CO1	To identify and associate students with the fundamentals of maritime security and strategy.
INRS221	CO2	INRS221CO2	To distinguish, classify and differentiate the relationship between maritime security, geoeconomics, geostrategy and foreign policy. 2-4
INRS221	CO3	INRS221CO3	To elaborate and demonstrate India's geoeconomic and non-geoeconomic objectives within the maritime domain. 2-3
INRS221	CO4	INRS221CO4	To construct, defend and contrast India's core national interests, the country's maritime interests and the geostrategies by means of which India seeks to preserve, promote, pursue and protect these maritime in time of peace, tension and armed-conflict.

INRS221	CO6	INRS221CO6	To develop independent thinking and the ability to coherently prepare brief summaries and assessments.
INRS221	CO7	INRS221CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS221	CO8	INRS221CO8	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS221	CO9	INRS221CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS221	CO10	INRS221CO10	Demonstrate ability to work in a team effectively
INRS281	CO1	INRS281CO1	Describe and distinguish various types of research studies - empirical, conceptual and review - that contributes to knowledge development
INRS281	CO2	INRS281CO2	Discuss a literature review in the social science area and identify how a research study is positioned with in extant theory in a discipline
INRS281	CO3	INRS281CO3	Design and carry out qualitative and quantitative research independently
INRS281	CO4	INRS281CO4	Acquire skills to write a research proposal and learn to carry out a research study independently
INRS281	CO5	INRS281CO5	Review and summarize the application, value and limits of a qualitative research study
INRS281	CO6	INRS281CO6	Identify which data collection and analysis tools are appropriate for answering particular questions and use at least one of them
INRS281	CO7	INRS281CO7	Explain the ethical and bias issues regarding conducting qualitative and quantitative research and describe its implications on research design
INRS281	CO8	INRS281CO8	Describe and distinguish various types of research studies - empirical, conceptual and review - that contributes to knowledge development
INRS281	CO9	INRS281CO9	Discuss a literature review in the social science area and identify how a research study is positioned with in extant theory in a discipline
INRS281	CO10	INRS281CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS281	CO11	INRS281CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS281	CO12	INRS281CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS281	CO13	INRS281CO13	Demonstrate ability to work in a team effectively
INRS302	CO1	INRS302CO1	Understand the typologies and sources of conflict, and conflict dynamics and analyze conflict
INRS302	CO2	INRS302CO2	Identify different levels of analysis in conflict studies
INRS302	CO3	INRS302CO3	Compare and evaluate the substance and limits of various theories in conflict explanation
INRS302	CO4	INRS302CO4	Explore the efficacy and limits of policy tools to contemporary conflict challenges
INRS302	CO5	INRS302CO5	Differentiate between different armed conflicts, and identify major theories and definition for each
INRS302	CO6	INRS302CO6	Acquire latest theories, methods and trends in conflict and peace studies
INRS302	CO7	INRS302CO7	Develop a rationalist perspective to politics, conflicts and peace efforts
INRS302	CO8	INRS302CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS302	CO9	INRS302CO9	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS302	CO10	INRS302CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS302	CO11	INRS302CO11	Demonstrate ability to work in a team effectively
INRS303	CO1	INRS303CO1	Understand the emergence and evolution of security studies as a discipline and critique the statist nature of traditional security

List of Course Outcomes for all courses A.Y. 2022-23

INRS303	CO2	INRS303CO2	Analyse the concept of non-traditional security and contrast it with the traditional form
INRS303	CO3	INRS303CO3	Examine the changes in security when seen from a post-colonial developing world context
INRS303	CO4	INRS303CO4	Interpret and apply Copenhagen and feminist school of critique
INRS303	CO5	INRS303CO5	Deconstruct and analyse discourses on terrorism and politics of securitization post 9/11
INRS303	CO6	INRS303CO6	Critically engage with contemporary forms of security threats such as environment and 'migration'
INRS303	CO7	INRS303CO7	Explore the emerging field of cyber-security
INRS303	CO8	INRS303CO8	Use multiple sources to write literature reviews, response papers and research papers
INRS303	CO9	INRS303CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS303	CO10	INRS303CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS303	CO11	INRS303CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS303	CO12	INRS303CO12	Demonstrate ability to work in a team effectively
INRS304	CO1	INRS304CO1	Describe India's policies towards various parts of the world
INRS304	CO2	INRS304CO2	Explain the reasons for India's policies towards different parts of the world in historical terms.
INRS304	CO3	INRS304CO3	Critique India's foreign policies.
INRS304	CO4	INRS304CO4	Formulate their own ideas on how our country ought to interact with the world.
INRS304	CO5	INRS304CO5	Project their predictions as to the future trajectory of India's rise
INRS304	CO6	INRS304CO6	Analyse events in India's contemporary foreign relations.
INRS304	CO7	INRS304CO7	Evaluate the efficacy and ethics of India's foreign policies.
INRS304	CO8	INRS304CO8	Discuss various aspects of India's foreign relations in an informed, mature and balanced manner.
INRS304	CO9	INRS304CO9	Defend their views by drawing on the relevant literature.
INRS304	CO10	INRS304CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS304	CO11	INRS304CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS304	CO12	INRS304CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS304	CO13	INRS304CO13	Demonstrate ability to work in a team effectively
INRS305	CO1	INRS305CO1	Describe the key political institutions, administrative actors, and policymaking processes in the United States.
INRS305	CO2	INRS305CO2	Discuss the central issues in contemporary US politics.
INRS305	CO3	INRS305CO3	Critique US policymaking and its impact on the rest of the world.
INRS305	CO4	INRS305CO4	Apply their scholarly knowledge about US politics and history to review literary fiction from the United States relating to race, religion and the Civil War.
INRS305	CO5	INRS305CO5	Analyse the issues of gun rights and abortion rights in the context of the Bill of Rights.
INRS305	CO6	INRS305CO6	Evaluate various aspects of US policies in terms of ethics and efficacy.
INRS305	CO7	INRS305CO7	Construct a coherent and original argument relating to US government and politics.
INRS305	CO8	INRS305CO8	Process the emotions of the fictional characters they analyse in their book reviews to gain an empathetic understanding of US politics and history.
INRS305	CO9	INRS305CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS305	CO10	INRS305CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS305	CO11	INRS305CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS305	CO12	INRS305CO12	Demonstrate ability to work in a team effectively
ITLI102	CO1	ITLI102CO1	Recognize the role of an active learner in the digital age and become aware of their responsibilities
ITLI102	CO2	ITLI102CO2	Demonstrate professional and ethical habits and behaviors when online
ITLI102	CO3	ITLI102CO3	Explain risks and exposures of personal data when participating online and know how to safeguard themselves
ITLI102	CO4	ITLI102CO4	Explain how the internet works
ITLI102	CO5	ITLI102CO5	Choose effective keywords and use advanced search techniques to produce relevant search results

List of Course Outcomes for all courses A.Y. 2022-23

ITLI102	CO6	ITLI102CO6	Explain criteria used to evaluate credibility and authorship of online information and resources
ITLI102	CO7	ITLI102CO7	Explain technological services used on campus, from network, security control, data backup and applications
ITLI102	CO8	ITLI102CO8	Locate digital tools and resources to solve their queries for personal interests or academic study
ITLI102	CO9	ITLI102CO9	Explain the key terms and concepts of selected technologies
ITLI102	CO10	ITLI102CO10	Demonstrate basic data entry and management skills using appropriate tools or applications
JAPN101	CO1	JAPN101CO1	Remember and recall pronunciation.
JAPN101	CO2	JAPN101CO2	Remember and recall alphabets
JAPN101	CO3	JAPN101CO3	Understand simple questions and answer them
JAPN101	CO4	JAPN101CO4	Understand and use grammatical structures
JAPN101	CO5	JAPN101CO5	Understand and use present tense
JAPN101	CO6	JAPN101CO6	Remember and recall simple vocabulary
JAPN101	CO7	JAPN101CO7	Use the four language skills: reading, listening, writing, speaking
JAPN101	CO8	JAPN101CO8	Understand the language in a social and cultural context
JAPN102	CO1	JAPN102CO1	Understand more advanced grammatical structures
JAPN102	CO2	JAPN102CO2	Identify and apply the different form of verbs
JAPN102	CO3	JAPN102CO3	Provide multiple responses using the tense of noun and verb
JAPN102	CO4	JAPN102CO4	Writing using Japanese scripts Hiragana and katakana
JAPN102	CO5	JAPN102CO5	Able to talk about daily routine
JAPN102	CO6	JAPN102CO6	Remember and recall complex vocabulary
JAPN102	CO7	JAPN102CO7	Construct grammatically correct sentence on various topics
JAPN102	CO8	JAPN102CO8	Understand and respond to more advanced written and audio material
JAPN102	CO9	JAPN102CO9	Converse in simple daily life situation
JAPN102	CO10	JAPN102CO10	Use the four language skills: reading, listening, writing, speaking
JAPN103	CO1	JAPN103CO1	Remember and apply advanced grammar structure
JAPN103	CO2	JAPN103CO2	Write in all 3 scripts of Japanese Language
JAPN103	CO3	JAPN103CO3	Differentiate between usage of verbs for animate and inanimate things
JAPN103	CO4	JAPN103CO4	Remember and use of advanced vocabulary
JAPN103	CO5	JAPN103CO5	Converse about family, likes and dislikes
JAPN103	CO6	JAPN103CO6	Talk on various different topics using the grammar structure
JAPN151	CO1	JAPN151CO1	Understand questions and answer them
JAPN151	CO2	JAPN151CO2	Understand and use grammatical structures
JAPN151	CO3	JAPN151CO3	Understand and use present tense
JAPN151	CO4	JAPN151CO4	Remember and recall vocabulary
JAPN151	CO5	JAPN151CO5	Use the four language skills: reading, listening, writing, speaking
JAPN151	CO6	JAPN151CO6	Understand the language in a social and cultural context
JAPN152	CO1	JAPN152CO1	Understand questions and answer them
JAPN152	CO2	JAPN152CO2	Understand and use grammatical structures
JAPN152	CO3	JAPN152CO3	Understand and use present tense
JAPN152	CO4	JAPN152CO4	Remember and recall vocabulary
JAPN152	CO5	JAPN152CO5	Use the four language skills: reading, listening, writing, speaking
JAPN152	CO6	JAPN152CO6	Understand the language in a social and cultural context
JRLM101	CO1	JRLM101CO1	Write headlines for various news reports
JRLM101	CO2	JRLM101CO2	Write a report for a website
JRLM101	CO3	JRLM101CO3	Discuss a report for radio
JRLM101	CO4	JRLM101CO4	Discuss the social impact of TV news
JRLM101	CO5	JRLM101CO5	Examine online campaigns for news stories
JRLM101	CO6	JRLM101CO6	Create social media posts
JRLM203	CO1	JRLM203CO1	To develop student's ability to critically engage with the relations between state, governance and development

List of Course Outcomes for all courses A.Y. 2022-23

JRLM203	CO2	JRLM203CO2	Identify the key concepts, and the philosophy underpinning a written constitution
JRLM203	CO3	JRLM203CO3	To develop student's ability to critically engage with the relations between state, governance and development
JRLM203	CO4	JRLM203CO4	Realize the blessings of having fundamental rights enshrined in the constitution and to how the constitution adapts to the emerging, unforeseen challenges of the future
JRLM203	CO5	JRLM203CO5	Understand various political and civil society movements in the country
JRLM203	CO6	JRLM203CO6	Understand the delicate equilibrium between the various organs of the government and civil society
JRLM203	CO7	JRLM203CO7	Identify the federal structure and the Panchayati Raj system which is the core of the political system of the country
JRLM206	CO1	JRLM206CO1	Examine the difference between fiction writing and writing for media
JRLM206	CO2	JRLM206CO2	Write a press release
JRLM206	CO3	JRLM206CO3	Write a news copy based on a press release
JRLM206	CO4	JRLM206CO4	Examine the difference between editorial and content
JRLM206	CO5	JRLM206CO5	Write a social media campaign for a brand
JRLM207	CO1	JRLM207CO1	Understand difference between news for electronic and print media
JRLM207	CO2	JRLM207CO2	Acquire the basic skills to create broadcast video and text
JRLM207	CO3	JRLM207CO3	Cover spot news as a member of the news gathering team
JRLM207	CO4	JRLM207CO4	Understand the basic rules of writing for broadcast platforms
JRLM207	CO5	JRLM207CO5	Understand the basics of broadcast interview research and production
JRLM207	CO6	JRLM207CO6	Accustom with multi-camera panel discussions and TV studio setups
JRLM207	CO7	JRLM207CO7	To familiarize the students with the basics of television news vocabulary
JRLM208	CO1	JRLM208CO1	Understand history of media and communication
JRLM208	CO2	JRLM208CO2	Outline the role of media in the freedom movement
JRLM208	CO3	JRLM208CO3	Debate the role of Indian media in the post-colonial nation building
JRLM208	CO4	JRLM208CO4	Understand the history and importance of political communication in democracy
JRLM208	CO5	JRLM208CO5	Discuss history and role of radio in the Indian society
JRLM208	CO6	JRLM208CO6	Discuss history of television in India and its use for news, entertainment, information, knowledge, propaganda and advertisement
JRLM208	CO7	JRLM208CO7	Understand the role and influence of fake news
JRLM301	CO1	JRLM301CO1	Explain the purpose of law and ethics in society
JRLM301	CO2	JRLM301CO2	Interpret the important theories of ethics
JRLM301	CO3	JRLM301CO3	Understand the purpose of media regulation in society
JRLM301	CO4	JRLM301CO4	Describe the essential media laws in India
JRLM301	CO5	JRLM301CO5	Develop abilities to come up with sensitive reportage
JRLM301	CO6	JRLM301CO6	Understand the regulatory framework of advertising and be mindful of it during campaign execution
JRLM301	CO7	JRLM301CO7	Extend ability to critique existing legal and regulatory frameworks
JRLM301	CO8	JRLM301CO8	Develop the understanding required to nurture inclusive and ethical media spaces
JRLM308	CO1	JRLM308CO1	Develop an understanding of the historical and theoretical aspects of News Media
JRLM308	CO2	JRLM308CO2	Outline the economics of News Media
JRLM308	CO3	JRLM308CO3	Examine and evaluate the business models of the news media through case studies
JRLM308	CO4	JRLM308CO4	Examine the shifts the business of news media after the digital turn
JRLM308	CO5	JRLM308CO5	Identify the regulatory frameworks of News Media
JRLM308	CO6	JRLM308CO6	Comprehend the ethical aspects of the news media business
JRLM309	CO1	JRLM309CO1	Identify a potential science-related issue that is current and apply it to pitching a story
JRLM309	CO2	JRLM309CO2	Understand and simplify data and figures linked to scientific studies, health concerns and environmental problems
JRLM309	CO3	JRLM309CO3	Remember and apply health laws in India
JRLM309	CO4	JRLM309CO4	Recall environmental policies and refer to them while discussing/debating a story
JRLM309	CO5	JRLM309CO5	Writing a news report on science based on available data in a scientific journal
JRLM309	CO6	JRLM309CO6	Identify potential health issues that need to be highlighted and writing a news report
JRLM309	CO7	JRLM309CO7	Create an environmental news report based on data available with the government or organisations working in the sector
JRLM310	CO1	JRLM310CO1	Understand the social constructs of gender and caste

List of Course Outcomes for all courses A.Y. 2022-23

JRLM310	CO2	JRLM310CO2	Understand the role of media in portraying gender and caste realities
JRLM310	CO3	JRLM310CO3	Examine different media for stereotypes
JRLM310	CO4	JRLM310CO4	Recognizing diversity across media, content producers and audiences
JRLM310	CO5	JRLM310CO5	Investigate media content on caste and gender
JRLM310	CO6	JRLM310CO6	Discuss media literacy of gender and caste in the age of new media
JRLM310	CO7	JRLM310CO7	Develop sensitivity towards embracing differences in media coverage
LITR101	CO1	LITR101CO1	Understand basic terms and concepts associated with literature
LITR101	CO2	LITR101CO2	Recognise conventions of literary genres
LITR101	CO3	LITR101CO3	Identify important literary voices
LITR101	CO4	LITR101CO4	Understand history of various literary forms
LITR101	CO5	LITR101CO5	Express ideas in writing
LITR101	CO6	LITR101CO6	Learn to review a literary text
LITR109	CO1	LITR109CO1	Discuss the readings during class activities and share your interpretations of them
LITR109	CO2	LITR109CO2	Apply your understanding of close reading to illustrative examples of the students' choice
LITR109	CO3	LITR109CO3	Analyze your learning in this course through weekly writing on the gains/insights the student has developed
LITR109	CO4	LITR109CO4	Organise the analysis of all weekly writing through a final summative essay
LITR109	CO5	LITR109CO5	Illustrate and apply your understanding of how to read graphic novels to a complete text as part of a group through a presentation
LITR111	CO1	LITR111CO1	Describe different genres and styles
LITR111	CO2	LITR111CO2	interpret different genres
LITR111	CO3	LITR111CO3	examine literature contextually
LITR111	CO4	LITR111CO4	examine literature closely, formally
LITR111	CO5	LITR111CO5	understand the relationship between literature and life
LITR111	CO6	LITR111CO6	Describe themes in literature
LITR152	CO1	LITR152CO1	To recognize different genres of poetry
LITR152	CO2	LITR152CO2	To describe the history of movements in poetry
LITR152	CO3	LITR152CO3	To summarise the poetic effort
LITR152	CO4	LITR152CO4	To interpret a poem
LITR152	CO5	LITR152CO5	To compare genres in poetry
LITR152	CO6	LITR152CO6	To relate text to context
LITR154	CO1	LITR154CO1	To know unique features of modernity in India
LITR154	CO2	LITR154CO2	To compare and describe colonial and post colonial drama
LITR154	CO3	LITR154CO3	To appreciate modern Indian playwrights
LITR154	CO4	LITR154CO4	See the connections between folk and modern
LITR154	CO5	LITR154CO5	Understanding of textual elements of modern drama
LITR202	CO1	LITR202CO1	Identify major Modernist writers
LITR202	CO2	LITR202CO2	Analyse their writings
LITR202	CO3	LITR202CO3	Examine chief traits of Modernism in such writing
LITR202	CO4	LITR202CO4	Examine formal experiments
LITR202	CO5	LITR202CO5	Analyse interconnection with other arts such as painting, cinema
LITR202	CO6	LITR202CO6	Interpret literature
LITR202	CO7	LITR202CO7	Write with clarity
LITR202	CO8	LITR202CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR202	CO9	LITR202CO9	Demonstrate skills to conduct critical enquiry
LITR204	CO1	LITR204CO1	demonstrate knowledge of periodization
LITR204	CO2	LITR204CO2	demonstrate knowledge of genre
LITR204	CO3	LITR204CO3	apply knowledge of periodization and genre for analysis
LITR204	CO4	LITR204CO4	evaluate themes in literary texts
LITR204	CO5	LITR204CO5	Apply different lenses of analysis
LITR204	CO6	LITR204CO6	interpret texts historically and using primary and secondary materials

List of Course Outcomes for all courses A.Y. 2022-23

LITR204	CO7	LITR204CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR204	CO8	LITR204CO8	Demonstrate skills to conduct critical enquiry
LITR205	CO1	LITR205CO1	Read about basic theories and concepts in critical theory
LITR205	CO2	LITR205CO2	Practice using theoretical models
LITR205	CO3	LITR205CO3	Identify the limits of different theoretical models
LITR205	CO4	LITR205CO4	Understand the explanatory powers of various theoretical models
LITR205	CO5	LITR205CO5	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR205	CO6	LITR205CO6	Demonstrate skills to conduct critical enquiry
LITR231	CO1	LITR231CO1	Discuss class readings actively in class activities
LITR231	CO2	LITR231CO2	Provide insights as part of performance-based research and write a thoughtful report based on this
LITR231	CO3	LITR231CO3	Deconstruct and justify a close reading of a text in relation to theoretical texts
LITR231	CO4	LITR231CO4	Analyse a play in relation to its adaptation in any language/medium
LITR231	CO5	LITR231CO5	Reflect on your learning and insights from this course int the final project
LITR231	CO6	LITR231CO6	Relate your learning on each learning module through creative expression for this course
LITR231	CO7	LITR231CO7	Design and implement cohesive research/writing/response plans
LITR231	CO8	LITR231CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR231	CO9	LITR231CO9	Demonstrate skills to conduct critical enquiry
LITR232	CO1	LITR232CO1	Demonstrate understanding of the process of adaptation
LITR232	CO2	LITR232CO2	Analyse films and literature as distinct arts
LITR232	CO3	LITR232CO3	Discover common strategies applied by both film and literature
LITR232	CO4	LITR232CO4	Examine formal experiments in film
LITR232	CO5	LITR232CO5	Analyse literature as source text
LITR232	CO6	LITR232CO6	Apply basics of film theory in writing
LITR232	CO7	LITR232CO7	Practice technical aspects of filmmaking
LITR232	CO8	LITR232CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR232	CO9	LITR232CO9	Demonstrate skills to conduct critical enquiry
LITR235	CO1	LITR235CO1	To demonstrate understanding of the various aspects of digital technologies
LITR235	CO2	LITR235CO2	To understand how culture shapes and is shaped by digital technologies
LITR235	CO3	LITR235CO3	To evaluate the working of social structures and power in digital media
LITR235	CO4	LITR235CO4	To deconstruct contemporary debates in digital technologies
LITR235	CO5	LITR235CO5	To examine issues of privacy on digital networks
LITR235	CO6	LITR235CO6	To create/articulate critical opinion on issues of governance, industry, technology and society
LITR235	CO7	LITR235CO7	To demonstrate ability to conduct independent research on digital cultures
LITR235	CO8	LITR235CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR235	CO9	LITR235CO9	Demonstrate skills to conduct critical enquiry
LITR302	CO1	LITR302CO1	Determine and build evaluative criteria about children's books and media through this course
LITR302	CO2	LITR302CO2	Demonstrate and sharpen an understanding of the impact of 'intended' audience on analysing literature in relation to children's and young adult literature
LITR302	CO3	LITR302CO3	Justify and be conversant in debates on mixed readership of children's and young adult literature through an emphasis on form, narration, and media
LITR302	CO4	LITR302CO4	Produce a curated reading/viewing list along concerns/themes of students' choice for a class report/post/blog
LITR302	CO5	LITR302CO5	Develop and execute a discussion plan on contemporary texts/issues in childhood studies
LITR302	CO6	LITR302CO6	Execute a research plan and implement it towards writing a paper on text/s of students' choice
LITR302	CO7	LITR302CO7	Present an understanding of debates on childhood (history/pedagogy/adaptation/translation)
LITR302	CO8	LITR302CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR302	CO9	LITR302CO9	Demonstrate skills to conduct critical enquiry

List of Course Outcomes for all courses A.Y. 2022-23

LITR303	CO1	LITR303CO1	Analyse and respond to autobiographies' modalities of self-expression
LITR303	CO2	LITR303CO2	Reflect on autobiographies in relation to historical events: who writes, who publishes, how do we understand the relationship between history and autobiography
LITR303	CO3	LITR303CO3	Develop an understanding of the field of autobiography studies through a review essay
LITR303	CO4	LITR303CO4	Select and execute an adequate course of leading a discussion on a module on contemporary autobiographies
LITR303	CO5	LITR303CO5	Evaluate autobiographies in relation to negotiations in writing especially in relation to translated/mediated auto/biographies
LITR303	CO6	LITR303CO6	Analyse and strengthen the writing process (per student) through working on drafts of all assignments, writing workshops, and revisions
LITR303	CO7	LITR303CO7	Demonstrate their understanding of the course through a thoughtful and reflective research essay
LITR303	CO8	LITR303CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR303	CO9	LITR303CO9	Demonstrate skills to conduct critical enquiry
LITR305	CO1	LITR305CO1	Identify major Critical thinkers & movements
LITR305	CO2	LITR305CO2	Analysis of critical movements & key works
LITR305	CO3	LITR305CO3	Examine epistemological differences between different critical schools of thought
LITR305	CO4	LITR305CO4	Identify critical issues in the Indian context
LITR305	CO5	LITR305CO5	Identify intersectional possibilities between critical schools of thoughts & contemporary movements
LITR305	CO6	LITR305CO6	Express ideas clearly and write with precision and clarity when critically analysing a text
LITR305	CO7	LITR305CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR305	CO8	LITR305CO8	Demonstrate skills to conduct critical enquiry
LITR306	CO1	LITR306CO1	Discover recent trends in English writing
LITR306	CO2	LITR306CO2	Examine issues and debates around colonialism and post colonialism
LITR306	CO3	LITR306CO3	Evaluate culture through literature
LITR306	CO4	LITR306CO4	Interpret history through fiction
LITR306	CO5	LITR306CO5	Understand issues of identity and representation
LITR306	CO6	LITR306CO6	Understand translation theory and its politics
LITR306	CO7	LITR306CO7	Learn translation
LITR306	CO8	LITR306CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR306	CO9	LITR306CO9	Demonstrate skills to conduct critical enquiry
LITR332	CO1	LITR332CO1	explain how language is fundamental to encounter
LITR332	CO2	LITR332CO2	draw comparisons between science fiction encounters and colonial ones
LITR332	CO3	LITR332CO3	read texts utilizing theoretical approaches
LITR332	CO4	LITR332CO4	understand the colonial construction of race and sex
LITR332	CO5	LITR332CO5	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR332	CO6	LITR332CO6	Demonstrate skills to conduct critical enquiry
MAND101	CO1	MAND101CO1	Retrieving Mandarin pronunciation with tone
MAND101	CO2	MAND101CO2	Using basic numbers and apply it on to social conversation regarding the topics such as asking days, week, phone number, and birthday.
MAND101	CO3	MAND101CO3	Recognizing Simple Types of Questions with Question Word or with the Particle.
MAND101	CO4	MAND101CO4	Recognizing and using stative verbs to express feelings and describe weather etc.
MAND101	CO5	MAND101CO5	Interpreting their hobbies by using Verb-Object Grammar Pattern
MAND101	CO6	MAND101CO6	Comparing radicals and recognize Mandarin characters
MAND102	CO1	MAND102CO1	Recalling the different measure words matching with the identified nouns
MAND102	CO2	MAND102CO2	Using the basic numbers to larger numbers
MAND102	CO3	MAND102CO3	Recalling the family
MAND102	CO4	MAND102CO4	Using possession to create longer nouns
MAND102	CO5	MAND102CO5	Using stative verb to modify noun
MAND102	CO6	MAND102CO6	Organizing sentence to describe the manner or degree of the action by predicative complements
MAND102	CO7	MAND102CO7	Using Verb Object Compounds

List of Course Outcomes for all courses A.Y. 2022-23

MATH101	CO1	MATH101CO1	Recognizing the units of numbers and magnitude
MATH101	CO2	MATH101CO2	Interpreting the concepts of geometry involving length, areas, volumes and apply it to simple problems
MATH101	CO3	MATH101CO3	Understand the essential elements venn diagram and apply it to simple problems
MATH101	CO4	MATH101CO4	Executing problems involving the rate of change, ratios and proportion
MATH101	CO5	MATH101CO5	Recognize relations and solve simple problems by applying appropriate formulas and procedures.
MATH101	CO6	MATH101CO6	Recognize and understand the fundamental concepts in exploratory data analysis
MATH101	CO7	MATH101CO7	Understand the basic elements of counting problems and implementing operations to solve simple problems
MATH101	CO8	MATH101CO8	Distinguish between event, outcome, trial, sample space in a probability context
MATH101	CO9	MATH101CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH101	CO10	MATH101CO10	Demonstrate knowledge of solving real-world problems
MATH101	CO11	MATH101CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH101	CO12	MATH101CO12	Demonstrate ability to work in a team effectively
MATH102	CO1	MATH102CO1	Remember and recall set notations, understand notions of relations and functions and identify their domain.
MATH102	CO2	MATH102CO2	Recognise various functions and sketch their graphs, perform various transformations to create new functions.
MATH102	CO3	MATH102CO3	Understand and recall linear functions: slope , intercepts and their applications
MATH102	CO4	MATH102CO4	Understand and recall quadratic functions, sketch them, find roots and apply to solve practical problems
MATH102	CO5	MATH102CO5	Understand regression and apply it to examples
MATH102	CO6	MATH102CO6	Understand and recall polynomials, roots, remainder and factor theorems, perform synthetic division and sketch them
MATH102	CO7	MATH102CO7	Understand and recall rational functions, asymptotes, sketch them and apply to practical problems
MATH102	CO8	MATH102CO8	Understand and recall exponential functions, sketch them and apply to practical problems
MATH102	CO9	MATH102CO9	Understand and recall logarithmic functions, sketch them and apply to practical problems
MATH103	CO1	MATH103CO1	Understand and apply the fundamental principles of counting for solving simple problems in permutations and combinations
MATH103	CO2	MATH103CO2	Use the definition and properties of set theoretic probability for the solution of simple problems.
MATH103	CO3	MATH103CO3	Define, identify and apply the concept of random variables and their corresponding distributions and calculate simple expectation values such as Mean and Variance.
MATH103	CO4	MATH103CO4	Recall the definition and properties of the following distributions: Binomial, Geometric, Hyper geometric, Exponential, Poisson and Normal
MATH103	CO5	MATH103CO5	Identify and apply the appropriate distribution for solutions to simple problems
MATH132	CO1	MATH132CO1	Remember and recall the finance terminology such as annuities, perpetuities, investment funds, bonds, cash flows, inflation and taxes.
MATH132	CO2	MATH132CO2	Understand the time value of money
MATH132	CO3	MATH132CO3	Calculate interest rates and discount factors
MATH132	CO4	MATH132CO4	Calculate, annuities and perpetuities
MATH132	CO5	MATH132CO5	Apply this knowledge to simple, fixed-income financial instruments
MATH132	CO6	MATH132CO6	Use these concepts in the assessment of investment projects
MATH132	CO7	MATH132CO7	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH132	CO8	MATH132CO8	Demonstrate knowledge of solving real-world problems
MATH132	CO9	MATH132CO9	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH132	CO10	MATH132CO10	Demonstrate ability to work in a team effectively
MATH141	CO1	MATH141CO1	Remember the syntax of the language
MATH141	CO2	MATH141CO2	Use basic MATLAB /R commands at the command prompt to perform simple computations
MATH141	CO3	MATH141CO3	Understand the flow constructs such as "if" and "for" and apply to solve problems
MATH141	CO4	MATH141CO4	Understand the notion of functions and make function files
MATH141	CO5	MATH141CO5	Write a complete MATLAB/R program demonstrating the use of various MATLAB/R constructs

List of Course Outcomes for all courses A.Y. 2022-23

MATH141	CO6	MATH141CO6	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH141	CO7	MATH141CO7	Demonstrate knowledge of solving real-world problems
MATH141	CO8	MATH141CO8	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH141	CO9	MATH141CO9	Demonstrate ability to work in a team effectively
MATH151	CO1	MATH151CO1	Understand notions of limits, find limits using different techniques
MATH151	CO2	MATH151CO2	Understand continuity of functions, identify different types of discontinuities, understand Intermediate Value Theorem
MATH151	CO3	MATH151CO3	Understand notion of differentiability, relation between limits, continuity and differentiability, use fundamental definition of derivatives to investigate differentiability of functions
MATH151	CO4	MATH151CO4	Remember rules of differentiation, apply them to find derivatives of functions, understand implicit differentiation, chain rule
MATH151	CO5	MATH151CO5	Apply differential calculus concepts and techniques to rate of change and optimisation problems
MATH151	CO6	MATH151CO6	Understand notions of integration, definite integral and fundamental theorems of Calculus
MATH151	CO7	MATH151CO7	Remember techniques of integration and apply them to solve problems
MATH155	CO1	MATH155CO1	Recognise and understand symbolic logical structures and equivalences and infer truth tables associated with them
MATH155	CO2	MATH155CO2	Recall, recognise and employ rules of inference in simple problems
MATH155	CO3	MATH155CO3	Recall standard methods of proving theorems and apply it to simple problems
MATH155	CO4	MATH155CO4	Understand the basic elements of set theory and associated operations
MATH155	CO5	MATH155CO5	Distinguish between functions and relations and understand them in the algebraic context
MATH155	CO6	MATH155CO6	Employ counting principles to solve problems in simple contexts
MATH155	CO7	MATH155CO7	Understand and apply induction techniques to prove simple theorems.
MATH155	CO8	MATH155CO8	Recognise recurrence relations and solve simple problems
MATH155	CO9	MATH155CO9	Identify graphs, recognize special graphs by their names, employ the knowledge of paths, circuits and isomorphisms to answering questions regarding graphs
MATH201	CO1	MATH201CO1	Remember the basic definitions, theorems and proofs related to limits and continuity of functions, find limits, investigate the continuity of functions
MATH201	CO2	MATH201CO2	Understand the notion of uniform continuity and apply it to understanding the conditions required for interchanging the differential and integral operators
MATH201	CO3	MATH201CO3	Understand, state and prove theorems of differential calculus and solve problems based on the theory
MATH201	CO4	MATH201CO4	Apply tools of differential calculus to practical problems such as optimization
MATH201	CO5	MATH201CO5	Understand the concept of Riemann integration and properties of integrals
MATH201	CO6	MATH201CO6	Apply various techniques of integration to solve application based problems
MATH201	CO7	MATH201CO7	Understand theory of Infinite Series and apply to solve problems
MATH201	CO8	MATH201CO8	Understand the concept of sequences, their convergence and use them to test the continuity of functions
MATH202	CO1	MATH202CO1	Recall basic vector and matrix properties and definitions
MATH202	CO2	MATH202CO2	Perform basic row operations on matrices and bring systems of equations to row echelon form
MATH202	CO3	MATH202CO3	Understand and apply the properties of matrices and determinants to solve systems of linear equations.
MATH202	CO4	MATH202CO4	Understand and recall the basic concepts of vector spaces
MATH202	CO5	MATH202CO5	Understand concepts of linearly independent sets, bases and coordinate vectors
MATH202	CO6	MATH202CO6	Understand the basic concepts of eigenvectors and eigenvalues and the theorems associated with them.
MATH202	CO7	MATH202CO7	Decide whether a given matrix can be diagonalized and know the various diagonalization techniques
MATH202	CO8	MATH202CO8	Recognize and understand syntax of mathematical software used in the course
MATH202	CO9	MATH202CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH202	CO10	MATH202CO10	Demonstrate knowledge of solving real-world problems
MATH202	CO11	MATH202CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH202	CO12	MATH202CO12	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

MATH203	CO1	MATH203CO1	Distinguish and visualise various types of data and summarise them using elementary statistical measures.
MATH203	CO2	MATH203CO2	Understand and apply rudimentary mathematical properties of probability, identify random variables and recall properties of some important distributions
MATH203	CO3	MATH203CO3	Recognise, Understand and derive important univariate sampling distributions
MATH203	CO4	MATH203CO4	Describe assumptions, derive and calculate interval estimates for mean and proportion using different estimation methods
MATH203	CO5	MATH203CO5	Understand the mathematical basis and employ hypothesis tests for mean and proportion for univariate and bivariate data
MATH203	CO6	MATH203CO6	Understand the mathematical basis of regression analysis for bivariate data and run regression tests
MATH203	CO7	MATH203CO7	Identify, understand, recall and apply non-parametric methods for univariate and bivariate data.
MATH203	CO8	MATH203CO8	Recall and prove important theorems related to probability and Statistics
MATH203	CO9	MATH203CO9	Use statistical software and write simple scripts to do statistical analysis.
MATH203	CO10	MATH203CO10	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH203	CO11	MATH203CO11	Demonstrate knowledge of solving real-world problems
MATH203	CO12	MATH203CO12	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH203	CO13	MATH203CO13	Demonstrate ability to work in a team effectively
MATH204	CO1	MATH204CO1	Remember geometric formulae in higher dimensions such as Planes, lines and distances and solve problems based on the concepts.
MATH204	CO2	MATH204CO2	Understand vectors, vector operations, products and solve problems
MATH204	CO3	MATH204CO3	Identify rectangular, cylindrical and spherical coordinates and convert one coordinate system to another
MATH204	CO4	MATH204CO4	Understand multivariable differential calculus concepts such as limits, continuity and limits theorems. Use them to find and analyse limits of multivariable functions
MATH204	CO5	MATH204CO5	Understand partial differentiation, gradients, chain rule in higher dimensions, tangent planes, normals and apply to solve problems
MATH204	CO6	MATH204CO6	Apply multivariable differential calculus to solve optimisation problems- constrained and unconstrained
MATH204	CO7	MATH204CO7	Understand multiple integration and apply to solve problems
MATH204	CO8	MATH204CO8	Understand vector fields, Concepts of divergence and Curl, Green's theorem, Stokes Theorem and Gauss Theorem and apply them to solve real world problems
MATH205	CO1	MATH205CO1	Understand the axiomatic approach to studying real analysis
MATH205	CO2	MATH205CO2	Identify and work with bounds on different subsets of the set of real numbers
MATH205	CO3	MATH205CO3	Understand and apply Bolzano-Weierstrass and Heine-Borel theorems to solve problems
MATH205	CO4	MATH205CO4	Recognize sequences and understand and apply related theorems
MATH205	CO5	MATH205CO5	Understand series and theorems to study their convergence
MATH205	CO6	MATH205CO6	Understand the techniques of identifying and proving the limits of arbitrary and continuous functions
MATH205	CO7	MATH205CO7	Learn the proofs of the Intermediate Value Theorem, Mean Value Theorem, l'Hospital's rule and Taylor's theorem
MATH205	CO8	MATH205CO8	Understanding Riemann Integrability and properties of definitely and indefinitely integrable functions
MATH205	CO9	MATH205CO9	Knowing the criteria for interchanging the integral sign with the summation sign or with the differential operator
MATH206	CO1	MATH206CO1	To understand the set of complex numbers as a field
MATH206	CO2	MATH206CO2	Represent complex numbers and their roots geometrically
MATH206	CO3	MATH206CO3	Recall the Cauchy-Riemann equations and use them to identify analytic functions
MATH206	CO4	MATH206CO4	Exemplify analytic functions and apply the reflection principle to identify analytic functions on certain symmetric regions
MATH206	CO5	MATH206CO5	Identify branch cuts for multi-valued inverses of functions and use the knowledge in solving equations
MATH206	CO6	MATH206CO6	Recognize analytic functions and evaluate them with partial information about their values
MATH206	CO7	MATH206CO7	Understand Taylor and Laurent series of analytic functions and be able to compute them and decide their convergence
MATH206	CO8	MATH206CO8	Identify and classify singular points of complex-valued functions on regions in the complex plane.
MATH206	CO9	MATH206CO9	Apply the Calculus of Residues to compute integrals of complicated real-valued functions

List of Course Outcomes for all courses A.Y. 2022-23

MATH207	CO1	MATH207CO1	Understand the geometric interpretation of solutions of ODEs and sketch them
MATH207	CO2	MATH207CO2	Recognising the order and degree of ODEs, classifying ODEs as linear, nonlinear, homogeneous, non-homogeneous, autonomous and nonautonomous
MATH207	CO3	MATH207CO3	Apply qualitative methods to sketch the solutions of differential equations, analyse the solutions and check for stability: Using real world problems
MATH207	CO4	MATH207CO4	Apply various analytic techniques to solve first order differential equations with applications to simple real world problems.
MATH207	CO5	MATH207CO5	Understand the modelling of some real world problems using systems of two ODEs and apply qualitative techniques to sketch the solutions. Analyse the stability of solutions
MATH207	CO6	MATH207CO6	Understand the theory of existence of solution of second order ODEs and concepts of Wronskian and linear dependence/independence of solutions.
MATH207	CO7	MATH207CO7	Apply various techniques for solving second order ODEs.
MATH207	CO8	MATH207CO8	Understand the concept of Fourier Series and apply the method to solve ODEs
MATH207	CO9	MATH207CO9	Understand and apply the methods of Laplace transforms to solve ODEs
MATH207	CO10	MATH207CO10	Understand systems of ODEs, apply methods to solve linear systems, analyse the solutions using concepts of critical points and stability
MATH207	CO11	MATH207CO11	Understand the concept of nonlinear systems, find paths or solutions, implement linearisation technique around critical points to analyse the stability of the solutions
MATH301	CO1	MATH301CO1	Apply equivalence relations to modular arithmetic
MATH301	CO2	MATH301CO2	Identify groups, subgroups, and their manipulations to form new groups and subgroups
MATH301	CO3	MATH301CO3	Understand Lagrange's theorem and apply it to number theory.
MATH301	CO4	MATH301CO4	Understand and identify rings and integral domains.
MATH301	CO5	MATH301CO5	Understand fields as special types of rings and construction of newer fields from integral domains.
MATH301	CO6	MATH301CO6	Understand group homomorphism and apply it to linear algebra
MATH301	CO7	MATH301CO7	Be able to come up with examples of different types of groups, rings and fields
MATH301	CO8	MATH301CO8	Analyze different types of integral domains in the context of polynomial of rings
MATH303	CO1	MATH303CO1	Classify partial differential equations
MATH303	CO2	MATH303CO2	Solve first order linear PDE's using method of characteristics
MATH303	CO3	MATH303CO3	Choose and implement the best method to compute solutions to parabolic differential equations using various techniques
MATH303	CO4	MATH303CO4	Use Fourier Series, Fourier and Laplace transforms to solve linear PDEs
MATH303	CO5	MATH303CO5	Choose and implement the best method to compute solutions to elliptic differential equation using various techniques
MATH303	CO6	MATH303CO6	Choose and implement the best method to compute solutions to hyperbolic differential equations using various techniques
MATH303	CO7	MATH303CO7	Evaluate pde's for well-posedness in the context of initial (and/or boundary) value problems for classical PDEs such as the wave equation, the Laplace equation and the heat (diffusion) equation
MATH303	CO8	MATH303CO8	Employ finite difference method to solve simple linear partial differential equations
MATH331	CO1	MATH331CO1	Interpret a real world problem in mathematical terms and formulate it mathematically and solve using optimization methods
MATH331	CO2	MATH331CO2	Employ sensitivity analysis to analyse the sensitivity of the Optimization model to parameter values
MATH331	CO3	MATH331CO3	Understand, analyse the limitations of a model based on it's assumptions and critically evaluate it
MATH331	CO4	MATH331CO4	Use tools of dynamical systems to solve real world problems
MATH331	CO5	MATH331CO5	Analyse the sensitivity of the dynamical models to parameters and analyse the limitations based on assumptions.
MATH331	CO6	MATH331CO6	Use Probability/ Stochastic methods to model and solve real world problems
MATH331	CO7	MATH331CO7	Analyse the sensitivity of the probability/stochastic models to parameters and analyse the limitations based on assumptions.
MATH331	CO8	MATH331CO8	Work as a team to choose a real world problem to work on and present a proposal for the problem
MATH331	CO9	MATH331CO9	Work as a team to create a working model for a complex real world problem, analyse and evaluate it critically
MATH331	CO10	MATH331CO10	Communicate effectively the mathematical formulation of a real world problem to a diverse audience
MATH331	CO11	MATH331CO11	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH331	CO12	MATH331CO12	Demonstrate knowledge of solving real-world problems
MATH331	CO13	MATH331CO13	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.

List of Course Outcomes for all courses A.Y. 2022-23

MATH331	CO14	MATH331CO14	Demonstrate ability to work in a team effectively
MATH332	CO1	MATH332CO1	Understand and apply the basics of elementary probability and distributions to advanced contexts
MATH332	CO2	MATH332CO2	Apply properties of exponential distribution, its extension to counting processes and Poisson Process, Inter-arrival and waiting time distributions
MATH332	CO3	MATH332CO3	Understand and apply generalization of Poisson Processes to Renewal and Queuing Theory
MATH332	CO4	MATH332CO4	Understand the concepts of discrete and continuous time Markov chains
MATH332	CO5	MATH332CO5	Understand and apply the concept of stationary process and weakly stationary processes and in particular, Gaussian processes, White noise, Brownian motion and differentiate between them.
MATH332	CO6	MATH332CO6	Understand and implement general techniques for simulating continuous and discrete random variables and choose the most appropriate technique
MATH332	CO7	MATH332CO7	Model and Solve stochastic problems on the Computer using simulation techniques.
MATH332	CO8	MATH332CO8	Model uncertainty as a stochastic problem in real world contexts and apply relevant methods to solve it.
MATH332	CO9	MATH332CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH332	CO10	MATH332CO10	Demonstrate knowledge of solving real-world problems
MATH332	CO11	MATH332CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH332	CO12	MATH332CO12	Demonstrate ability to work in a team effectively
MATH333	CO1	MATH333CO1	Understand the basic difference between real and floating point arithmetic.
MATH333	CO2	MATH333CO2	Understand the various methods for solving nonlinear equations, understand theorems and proofs and apply the methods using a software like MATLAB to solve problems
MATH333	CO3	MATH333CO3	Evaluate the different methods on the basis of their orders of convergence and assumptions and apply on test problems to check
MATH333	CO4	MATH333CO4	Understand the methods for interpolation and curve fitting and apply it to solve problems
MATH333	CO5	MATH333CO5	Understand the numerical methods of differentiation and integration, apply them to solve problems, evaluate the methods
MATH333	CO6	MATH333CO6	Understand the methods for solving linear equations, implement the methods in MATLAB, understand related theorems and proofs
MATH333	CO7	MATH333CO7	Implement the methods for solving linear equations in MATLAB (any other software) and evaluate them on the basis of their convergence and complexity
MATH333	CO8	MATH333CO8	Understand the methods for solving ODEs, related theorems and proofs, implement the methods using a software, compare and evaluate the methods.
MATH333	CO9	MATH333CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH333	CO10	MATH333CO10	Demonstrate knowledge of solving real-world problems
MATH333	CO11	MATH333CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH333	CO12	MATH333CO12	Demonstrate ability to work in a team effectively
MATH336	CO1	MATH336CO1	Recall concepts from other mathematical disciplines to solve problems
MATH336	CO2	MATH336CO2	Understand and remember concepts in geometry fundamental to the study of optimization and display problem solving skills.
MATH336	CO3	MATH336CO3	Understand and apply one-dimensional search methods to solve problems and analyse them mathematically
MATH336	CO4	MATH336CO4	Understand gradient and conjugate gradient methods, apply and analyse them
MATH336	CO5	MATH336CO5	Understand basic concepts of linear programming and apply them to solve simple problems
MATH336	CO6	MATH336CO6	Understand the theory of simplex method and apply to solve problems
MATH336	CO7	MATH336CO7	Understand notions such as duality and the connections between solutions and dual solutions
MATH336	CO8	MATH336CO8	Understand standard non-simplex methods such as the Karmarkar's algorithm and implement it.
MATH336	CO9	MATH336CO9	Understand the basic concepts of nonlinear constrained optimization with equality constraints and apply to solve problems
MATH336	CO10	MATH336CO10	Understand the basic concepts of nonlinear constrained optimization with inequality constraints and apply to solve problems
MATH336	CO11	MATH336CO11	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH336	CO12	MATH336CO12	Demonstrate knowledge of solving real-world problems

List of Course Outcomes for all courses A.Y. 2022-23

MATH336	CO13	MATH336CO13	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH336	CO14	MATH336CO14	Demonstrate ability to work in a team effectively
MKTG102	CO1	MKTG102CO1	Define some concepts in marketing
MKTG102	CO2	MKTG102CO2	Discuss some concepts in consumer behaviour
MKTG102	CO3	MKTG102CO3	Classify various formats of market places
MKTG102	CO4	MKTG102CO4	Demonstrate understanding of shop, shopping shopper
MKTG201	CO1	MKTG201CO1	Define key principles and concepts of marketing
MKTG201	CO2	MKTG201CO2	Discuss importance of marketing in business strategy and cross functional role of marketing in business
MKTG201	CO3	MKTG201CO3	Construct an effective marketing strategy, including a marketing mix, for a product/service
MKTG201	CO4	MKTG201CO4	Classify and understand the segmentation methods
MKTG201	CO5	MKTG201CO5	Examine the targeting and positioning methods by using theoretical models
MKTG201	CO6	MKTG201CO6	Demonstrate how to use market research to improve decision making
MKTG201	CO7	MKTG201CO7	Apply knowledge of the consumer decision process to construct effective marketing campaigns and strategies
MKTG201	CO8	MKTG201CO8	Design an effective marketing mix plan to create effective marketing strategy
MKTG201	CO9	MKTG201CO9	Construct effective marketing communication plan
MKTG201	CO10	MKTG201CO10	Develop an effective plan for a new product launch
MKTG201	CO11	MKTG201CO11	Design a pricing plan
MKTG201	CO12	MKTG201CO12	Design an effective channel of distribution for a product
MKTG201	CO13	MKTG201CO13	Compare marketing processes in different type of firms using case based approach
MKTG201	CO14	MKTG201CO14	Discuss new age marketig strategies
MKTG201	CO15	MKTG201CO15	Discuss digital marketing strategies
MKTG201	CO16	MKTG201CO16	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG201	CO17	MKTG201CO17	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG201	CO18	MKTG201CO18	Demonstrate ability to work in a team effectively
MKTG201	CO19	MKTG201CO19	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG301	CO1	MKTG301CO1	Describe the relationship between human behaviour and consumption of goods and services
MKTG301	CO2	MKTG301CO2	Describe the role of sociology , economics and psychology on consumer psyche
MKTG301	CO3	MKTG301CO3	Analyze the purchase decision making process used by consumers and organizations
MKTG301	CO4	MKTG301CO4	Demonstrate how knowledge of consumer behaviour can be applied to marketing
MKTG301	CO5	MKTG301CO5	Formulate effective marketing strategies to influence consumer decision-making
MKTG301	CO6	MKTG301CO6	Identify and explain factors which influence consumer behaviour by learning consumer behaviour models
MKTG301	CO7	MKTG301CO7	Evaluate marketing strategies in light of consumer behaviour theories
MKTG301	CO8	MKTG301CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG301	CO9	MKTG301CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG301	CO10	MKTG301CO10	Demonstrate ability to work in a team effectively
MKTG301	CO11	MKTG301CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG302	CO1	MKTG302CO1	Apply the key terms, definitions and concepts used in IMC
MKTG302	CO2	MKTG302CO2	Demonstrate understanding of how the communication component plays a vital role in conceptualization, development and success of marketing campaigns
MKTG302	CO3	MKTG302CO3	Demonstrate how to set IMC objectives and formulate an IMC budget
MKTG302	CO4	MKTG302CO4	Evaluate creative strategies in the light of given marketing objectives and strategies
MKTG302	CO5	MKTG302CO5	Analyse the cost effectiveness of various forms of media
MKTG302	CO6	MKTG302CO6	Understand the behavioral factors that influence the effectiveness of communications
MKTG302	CO7	MKTG302CO7	Create an IMC plan considering both client requirements and budget limitations
MKTG302	CO8	MKTG302CO8	Develop an awareness of the connection between marketing communications tools, and how each can be used effectively
MKTG302	CO9	MKTG302CO9	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

MKTG302	CO10	MKTG302CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG302	CO11	MKTG302CO11	Demonstrate ability to work in a team effectively
MKTG302	CO12	MKTG302CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG303	CO1	MKTG303CO1	Understand the role and function of sales in Marketing and become aware of their responsibilities
MKTG303	CO2	MKTG303CO2	Remember the selling process B2C and B2B
MKTG303	CO3	MKTG303CO3	Understand selling process and how the Decision making Unit works
MKTG303	CO4	MKTG303CO4	Analyse Sales Territory and Sales Conflicts
MKTG303	CO5	MKTG303CO5	Evaluate Sales Forecast and Sales Potential
MKTG303	CO6	MKTG303CO6	Understand Sales Negotiation & how CRM helps in Selling
MKTG303	CO7	MKTG303CO7	Evaluate Distribution conflicts and Channel Conflicts
MKTG303	CO8	MKTG303CO8	Understand International Sales and Distribution management
MKTG303	CO9	MKTG303CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG303	CO10	MKTG303CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG303	CO11	MKTG303CO11	Demonstrate ability to work in a team effectively
MKTG303	CO12	MKTG303CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG304	CO1	MKTG304CO1	Define various Concepts in Services Marketing
MKTG304	CO2	MKTG304CO2	Discuss various Theories in Services Marketing
MKTG304	CO3	MKTG304CO3	Classify various formats of CRM Strategies
MKTG304	CO4	MKTG304CO4	Demonstrate understanding of services delivery formats and its challenges
MKTG304	CO5	MKTG304CO5	Examine functional domains of services businesses
MKTG304	CO6	MKTG304CO6	Compare various service formats and identify value drivers for each
MKTG304	CO7	MKTG304CO7	Design a Unique service project startup
MKTG304	CO8	MKTG304CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG304	CO9	MKTG304CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG304	CO10	MKTG304CO10	Demonstrate ability to work in a team effectively
MKTG304	CO11	MKTG304CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG305	CO1	MKTG305CO1	Define various Retail Concepts
MKTG305	CO2	MKTG305CO2	Discuss various retail theories
MKTG305	CO3	MKTG305CO3	Classify various online and offline Retail formats
MKTG305	CO4	MKTG305CO4	Demonstrate understanding of retail formats and its challenges
MKTG305	CO5	MKTG305CO5	Examine functional domains of retailing
MKTG305	CO6	MKTG305CO6	Compare various formats and identify value drivers for each
MKTG305	CO7	MKTG305CO7	Design a Unique Retail Format in the campus
MKTG305	CO8	MKTG305CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG305	CO9	MKTG305CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG305	CO10	MKTG305CO10	Demonstrate ability to work in a team effectively
MKTG305	CO11	MKTG305CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG306	CO1	MKTG306CO1	Describe and explain the role of product and brand manager
MKTG306	CO2	MKTG306CO2	Describe the relationship of product manager with a cross functional team
MKTG306	CO3	MKTG306CO3	Analyse the process of New Product Development
MKTG306	CO4	MKTG306CO4	Identify and explain factors in customer and competitor analysis
MKTG306	CO5	MKTG306CO5	Demonstrate the knowledge of product portfolio planning
MKTG306	CO6	MKTG306CO6	Formulate effective strategies for different stages of PLC
MKTG306	CO7	MKTG306CO7	Evaluate strategic decision making based on Growth Models
MKTG306	CO8	MKTG306CO8	Describe and explain the Strategic Brand Management process as CBBE model
MKTG306	CO9	MKTG306CO9	Identify and explain factors in brand identity creation
MKTG306	CO10	MKTG306CO10	Demonstrate the Brand Histories

List of Course Outcomes for all courses A.Y. 2022-23

MKTG306	CO11	MKTG306CO11	Formulate effective strategies for different types of brand portfolio creation
MKTG306	CO12	MKTG306CO12	Explain the process of Brand Positioning and Perceptual Mapping
MKTG306	CO13	MKTG306CO13	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG306	CO14	MKTG306CO14	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG306	CO15	MKTG306CO15	Demonstrate ability to work in a team effectively
MKTG306	CO16	MKTG306CO16	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG307	CO1	MKTG307CO1	To understand the basic concepts of marketing research
MKTG307	CO2	MKTG307CO2	To evaluate different research designs, sampling techniques, measurement instrument, and data collection methods in the context of marketing decision
MKTG307	CO3	MKTG307CO3	To design insights about the available data and assess the relationships between the variables of interest
MKTG307	CO4	MKTG307CO4	To apply various analytical and statistical techniques for problem solving
MKTG307	CO5	MKTG307CO5	To design and implement independent market research project and report findings
MKTG307	CO6	MKTG307CO6	To evaluate data using software such as SPSS and NVIVO
MKTG307	CO7	MKTG307CO7	To formulate consumer insight based marketing strategy
MKTG307	CO8	MKTG307CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG307	CO9	MKTG307CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG307	CO10	MKTG307CO10	Demonstrate ability to work in a team effectively
MKTG307	CO11	MKTG307CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG309	CO1	MKTG309CO1	Understand complete new product development process from ideation to commercialisation
MKTG309	CO2	MKTG309CO2	To ideate use of newer trends of research and design towards creation and development of locally relevant products
MKTG309	CO3	MKTG309CO3	To demonstrate importance of NPD activity in enhancing the product life cycle and product portfolio of firms as a business decision
MKTG309	CO4	MKTG309CO4	To develop familiarity with models of innovation and marketing towards NPD
MKTG309	CO5	MKTG309CO5	Discuss different aspects of cross functional team work
MKTG309	CO6	MKTG309CO6	Develop use of application of the Design Process
MKTG309	CO7	MKTG309CO7	Role of Project Leader in NPD team
MKTG309	CO8	MKTG309CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG309	CO9	MKTG309CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG309	CO10	MKTG309CO10	Demonstrate ability to work in a team effectively
MKTG309	CO11	MKTG309CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG310	CO1	MKTG310CO1	Understand the EVOLUTION HISTORY OF LUXURY BRANDS:
MKTG310	CO2	MKTG310CO2	Understand the ELEMENTS OF BRAND HIERARCHY & CHARACTERISTICS OF LUXURY
MKTG310	CO3	MKTG310CO3	Understand how to MANAGE A LUXURY BRAND AND ITS OPERATION
MKTG310	CO4	MKTG310CO4	Understand LUXURY BRAND EQUITY MANAGEMENT:
MKTG310	CO5	MKTG310CO5	UNDERSTANDING THE TRILOGY OF LUXURY
MKTG310	CO6	MKTG310CO6	Understand Iconic Brands – Why is storytelling important?
MKTG310	CO7	MKTG310CO7	Develop BRAND STRATEGY & ARCHITECTURE:
MKTG310	CO8	MKTG310CO8	Understand concept of GLOBAL LUXURY - IMPORTANCE OF REGIONS
MKTG310	CO9	MKTG310CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG310	CO10	MKTG310CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG310	CO11	MKTG310CO11	Demonstrate ability to work in a team effectively
MKTG310	CO12	MKTG310CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development

List of Course Outcomes for all courses A.Y. 2022-23

MKTG311	CO1	MKTG311CO1	Understand What is Fashion? What is Luxury? Defining Complex Competitive Systems and Business Logics
MKTG311	CO2	MKTG311CO2	Understand Evolution of Business Models: From Designers to Fast Fashion Retailers
MKTG311	CO3	MKTG311CO3	Understand how to MANAGE A LUXURY BRAND AND ITS OPERATION
MKTG311	CO4	MKTG311CO4	Understand Image Identity and the Communication Process: Key Activities, Decision Makers
MKTG311	CO5	MKTG311CO5	UNDERSTANDING Challenge of Creating Digital Contents for Fashion and Luxury Brands
MKTG311	CO6	MKTG311CO6	Understand Iconic Brands – Why is storytelling important?
MKTG311	CO7	MKTG311CO7	Develop BRAND STRATEGY & ARCHITECTURE: The Future of Fashion E-tailing
MKTG311	CO8	MKTG311CO8	Retail Identity and Retail Management: the Customer's Experience Within a Mix of Channels.
MKTG311	CO9	MKTG311CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG311	CO10	MKTG311CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG311	CO11	MKTG311CO11	Demonstrate ability to work in a team effectively
MKTG311	CO12	MKTG311CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MUSC101	CO1	MUSC101CO1	To define, discuss and write about six categories of Music
MUSC101	CO2	MUSC101CO2	To explain and discuss about basic terms in Hindustani Music, namely Swara, Laya, Raag, and Taal
MUSC101	CO3	MUSC101CO3	To explain and analyse the socio- cultural context within which Music in India operates
MUSC101	CO4	MUSC101CO4	To illustrate and Produce some practical compositions that are taught in the Class
MUSC103	CO1	MUSC103CO1	State and explain different approaches to understanding of Culture
MUSC103	CO2	MUSC103CO2	Distinguish and interpret the features of Culture
MUSC103	CO3	MUSC103CO3	List and define different categories of Music
MUSC103	CO4	MUSC103CO4	Analyse the relationship of Music and Culture
MUSC104	CO1	MUSC104CO1	Identify and explain the details of guitar anatomy, different types of guitars, guitar history
MUSC104	CO2	MUSC104CO2	Learn and demonstrate the Tuning the guitar
MUSC104	CO3	MUSC104CO3	Develop ability to play simple melodic material
MUSC104	CO4	MUSC104CO4	Memorize , distinguish and demonstrate and ability to play basic chord shapes and progressions
MUSC104	CO5	MUSC104CO5	Memorize, distinguish and demonstrate the ability to play chord progressions in different rhythms
MUSC104	CO6	MUSC104CO6	Develop aural awareness and ear training skills
MUSC104	CO7	MUSC104CO7	Identify and Read simple sheet music for classical guitar and read/prepare guitar chord charts for songs
MUSC104	CO8	MUSC104CO8	Introduction to improvisation
MUSC105	CO1	MUSC105CO1	Emerge as a more informed and aware student with respect to the music that exists in the 21st century in India.
MUSC105	CO2	MUSC105CO2	Understand and appreciate musical characteristics of Band music and Film music in India.
MUSC105	CO3	MUSC105CO3	Understand basics of voice recording in a recording studio.
MUSC106	CO1	MUSC106CO1	Explain and distinguish between three Genres of Music namely Thumree, Sufi and Film Song
MUSC106	CO2	MUSC106CO2	List the features of each type of song
MUSC106	CO3	MUSC106CO3	Identify and discuss the instruments used
MUSC107	CO1	MUSC107CO1	Understand Fundamentals of Western Music - Melody
MUSC107	CO2	MUSC107CO2	Understand Fundamentals of Western Music - Rhythm
MUSC107	CO3	MUSC107CO3	Understand Fundamentals of Western Music - Harmony
MUSC107	CO4	MUSC107CO4	Introduction to Western Classical Music
MUSC107	CO5	MUSC107CO5	Introduction to Forms in Classical Music
MUSC107	CO6	MUSC107CO6	Introduction to Baroque and Classical Eras
MUSC107	CO7	MUSC107CO7	Introduction to Blues - History, Form, Features, Influence on popular music

List of Course Outcomes for all courses A.Y. 2022-23

MUSC107	CO8	MUSC107CO8	Introduction to Jazz - History, Form, Features, Influence on popular music
MUSC107	CO9	MUSC107CO9	Introduction to Music in the 1960's - Folk Revival, Birth of Rock Music
MUSC201	CO1	MUSC201CO1	Identify and explain the details of guitar anatomy, different types of guitars, guitar history
MUSC201	CO2	MUSC201CO2	Learn and demonstrate tuning on the guitar
MUSC201	CO3	MUSC201CO3	Develop ability to play simple melodic material
MUSC201	CO4	MUSC201CO4	Ability to play basic chord shapes and progressions
MUSC201	CO5	MUSC201CO5	Develop time keeping skills on the guitar
MUSC201	CO6	MUSC201CO6	Develop aural awareness and ear training skills
MUSC201	CO7	MUSC201CO7	Identify and Read simple sheet music for classical guitar and read/prepare guitar chord charts for songs
MUSC201	CO8	MUSC201CO8	Introduction to improvisation
MUSC202	CO1	MUSC202CO1	Review and explain the history of Tabalaa
MUSC202	CO2	MUSC202CO2	Learn and Reproduce the Taal cycles
MUSC202	CO3	MUSC202CO3	List and Practice the Kaayadaas in Teentaal
MUSC202	CO4	MUSC202CO4	Illustrate the different combinations of the Bols of Kaayada
MUSC202	CO5	MUSC202CO5	state and explain basic posture and hand positions to play Tabalaa effectively.
MUSC203	CO1	MUSC203CO1	State and explain Music of the Vedic period
MUSC203	CO2	MUSC203CO2	List and Identify Music of the Epic Period
MUSC203	CO3	MUSC203CO3	Describe, Analyse and evaluate the importance of the Bharat's Naatyashastra in Music History
MUSC203	CO4	MUSC203CO4	Distinguish and analyse structures of codified Music in India Saam Gaayan to Khayaal
MUSC203	CO5	MUSC203CO5	Explain and illustrate influence of Islam on Indian Musical tradition
MUSC203	CO6	MUSC203CO6	outline and evaluate the contributions of Bhatkhande and Paluskar in History of indian Music
MUSC204	CO1	MUSC204CO1	Develop an ear for appreciating the musical characteristics such as melody, harmony and rhythm
MUSC204	CO2	MUSC204CO2	Understand the key terms, concepts, forms and historical contexts which constitute the history of western art music
MUSC204	CO3	MUSC204CO3	Ability to note down/articular musical characteristics/features and use musical memory to make connections between thematic material within movements of a larger work
MUSC204	CO4	MUSC204CO4	To develop an understanding of evolving musical aesthetics and styles and their connections to existing socio-political and artistic trends
MUSC204	CO5	MUSC204CO5	Class Participation
MUSC206	CO1	MUSC206CO1	Explain and illustrate the connections between breathing posture and Vocalization.
MUSC206	CO2	MUSC206CO2	Memorize and reproduce and Singing Alankaar 1 to 15
MUSC206	CO3	MUSC206CO3	Explain and illustrate the concept of Thaata
MUSC206	CO4	MUSC206CO4	List and demonstrate through singing the Ten Thaata
MUSC206	CO5	MUSC206CO5	List and distinguish between and demonstrate through singing the ten Thaata and 15 Alankaar matrix
MUSC206	CO6	MUSC206CO6	Identify and describe and demonstrate through singing 4 Raag with their Aaroh Awaroh, Pakad, and Chotaa Khayaal Composition
MUSC302	CO1	MUSC302CO1	Define and distinguish between different Raag structures.
MUSC302	CO2	MUSC302CO2	Memorize and illustrate through singing different Raag structures of the course.
MUSC302	CO3	MUSC302CO3	List, demonstrate and Analyse the structure of Khayaal Form
MUSC302	CO4	MUSC302CO4	Learn to sing and demonstrate the Bada Khayaal compositions
MUSC302	CO5	MUSC302CO5	List, demonstrate and Analyze the Thumree and Tarana
MUSC302	CO6	MUSC302CO6	Plan and prepare a 5 to 7 minutes Khayaal performance
MUSC303	CO1	MUSC303CO1	Describe and analyze the aesthetics of Music with reference to Music in general and Khayaal Tradition of hindustani Music in Particular.
MUSC303	CO2	MUSC303CO2	The acquaintance and analysis of the Gharana Tradition in Khayaal Music based on the different aesthetical approaches.
MUSC303	CO3	MUSC303CO3	Identify, discuss and define the contributions of some prominent Artists in Hindustani Music.
MUSC303	CO4	MUSC303CO4	Interpret and compare the Raag Presentations of various Artists from different Gharanas

List of Course Outcomes for all courses A.Y. 2022-23

MUSC303	CO5	MUSC303CO5	Explore and discuss the values of Diversity and Pluralism with reference to Aesthetic Practices
MUSC304	CO1	MUSC304CO1	Define and Describe what is a Song and Song text
MUSC304	CO2	MUSC304CO2	Explain and interpret the Song texts in Hindustani Music
MUSC304	CO3	MUSC304CO3	Describe and distinguish between Song texts based on the Multi- Layered Song text paradigm
MUSC304	CO4	MUSC304CO4	Identify and describe and interpret the depiction of women in Song texts
MUSC304	CO5	MUSC304CO5	Identify, Describe and interpret the depiction of nature and other facets of Song texts
MUSC305	CO1	MUSC305CO1	Define and distinguish between different Raag structures given in the course
MUSC305	CO2	MUSC305CO2	Memorize and illustrate through singing different Raag structures of the course.
MUSC305	CO3	MUSC305CO3	List, demonstrate and Analyse the structure of Vilambit Thumree
MUSC305	CO4	MUSC305CO4	Learn to sing and demonstrate the Bada Khayaal compositions
MUSC305	CO5	MUSC305CO5	List, demonstrate and Analyze the Thumree and Chaiti/Kajari and The Taal structures given in the Course.
MUSC305	CO6	MUSC305CO6	Plan and prepare a 10 to 15 minutes Khayaal performance
MUSC306	CO1	MUSC306CO1	Identify , Discuss and Appreciate the musical characteristics and features of Blues and Jazz genres
MUSC306	CO2	MUSC306CO2	Discuss, Interpret and Analyze the socio-political context in which these traditions took root and evolved
MUSC306	CO3	MUSC306CO3	List, Discuss and Analyze the different musical features of the sub-genres in Blues (Shuffle, Chicago, Piedmont etc.) and Jazz(Swing Era, Bebop, Cool, Fusion etc.)
MUSC306	CO4	MUSC306CO4	Memorize and Learn some Blues and Jazz songs/pieces from the repertoire
OPSM101	CO1	OPSM101CO1	Understand data collection process and summarize data into meaningful information.
OPSM101	CO2	OPSM101CO2	Carrying out diagnostic and analytic skills through structuring a decision problem involving various alternatives and uncertainties in outcomes.
OPSM101	CO3	OPSM101CO3	Executing appropriate statistical procedures.
OPSM101	CO4	OPSM101CO4	Summarizing the relevant statistical tools which would be necessary for applying managerial analysis for solving decision problems under uncertainties.
OPSM101	CO5	OPSM101CO5	Representing interpretations of results for use in practical decision-making.
OPSM101	CO6	OPSM101CO6	Understand the use of Spreadsheet perform for statistical analysis on data.
OPSM102	CO1	OPSM102CO1	Understand a business problem and formulate it mathematically.
OPSM102	CO2	OPSM102CO2	Understand and solve business problems using graphical method /simplex method/excel solver.
OPSM102	CO3	OPSM102CO3	Execute sensitivity analysis and interpret results.
OPSM102	CO4	OPSM102CO4	Formulate and solve transportation and assignment models.
OPSM102	CO5	OPSM102CO5	Understand, Analyse and solve the problem using Network analysis (CPM / PERT including crashing).
OPSM103	CO1	OPSM103CO1	Understand the data collection process and organizing data into meaningful information.
OPSM103	CO2	OPSM103CO2	Summarizing a business problem in a Spreadsheet.
OPSM103	CO3	OPSM103CO3	Implementing sensitivity analysis/what-if-analysis to creating a different scenario.
OPSM103	CO4	OPSM103CO4	Recognizing the solution for all the alternatives course of actions.
OPSM103	CO5	OPSM103CO5	Work as a team to create a working model for a complex business problem, analyze and evaluate it critically.
OPSM201	CO1	OPSM201CO1	Recognize the strategic importance of operations management in a global business environment.
OPSM201	CO2	OPSM201CO2	Interpret how operations function relates to and impacts other business functions
OPSM201	CO3	OPSM201CO3	Recognize the importance of demand forecasting in operations management
OPSM201	CO4	OPSM201CO4	Understand and implement a basic economic order quantity model using carrying and ordering costs
OPSM201	CO5	OPSM201CO5	Understand and implement advanced inventory models with assumptions relaxations
OPSM201	CO6	OPSM201CO6	Recall the rules / tenets and tools of quality management
OPSM201	CO7	OPSM201CO7	Illustrate the basic steps involved in bringing a product to market from its design through production and delivery.
OPSM201	CO8	OPSM201CO8	Map basic queuing models to design of basic processes
OPSM201	CO9	OPSM201CO9	Illustrate the process of designing a service
OPSM201	CO10	OPSM201CO10	Recall the different theories of human resources management with relation to operations management
OPSM201	CO11	OPSM201CO11	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

OPSM201	CO12	OPSM201CO12	Demonstrate knowledge of relevant concepts and its application in employment settings
OPSM201	CO13	OPSM201CO13	Demonstrate ability to work in a team effectively
OPSM201	CO14	OPSM201CO14	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
OPSM222	CO1	OPSM222CO1	understand meanings of common data mining and business intelligence terms and concepts
OPSM222	CO2	OPSM222CO2	apply appropriate data mining techniques on given datasets to solve specific business problems
OPSM222	CO3	OPSM222CO3	demonstrate basic hands-on knowledge of using Tableau, Excel and RStudio for analyzing and solving data mining problems
OPSM222	CO4	OPSM222CO4	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
OPSM222	CO5	OPSM222CO5	Demonstrate knowledge of relevant Business Analytics concepts and how this applies to practice to enhance employability in the Data analytics domain.
OPSM222	CO6	OPSM222CO6	Reflect critically upon own professional skills and employability prospects.
OPSM222	CO7	OPSM222CO7	Demonstrate ability to work in a team effectively
OPSM306	CO1	OPSM306CO1	Students would be familiar with the key concepts, tools, and technologies related to Supply Chain Strategy Formulation
OPSM306	CO2	OPSM306CO2	Students would understand Competitive strategy and Supply Chain Strategy
OPSM306	CO3	OPSM306CO3	Students would understand Ship-to-Order, Configure-to-Order, Make-to-Order, and Engineer-to-Order Strategies
OPSM306	CO4	OPSM306CO4	Students would be familiar with strategic sourcing and portfolio approach to sourcing
OPSM306	CO5	OPSM306CO5	Students would understand Distribution Networks and Distribution Strategies
OPSM306	CO6	OPSM306CO6	Students would be familiar with the Franchising and the Characteristics of Franchising Supply Chains
OPSM306	CO7	OPSM306CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
OPSM306	CO8	OPSM306CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
OPSM306	CO9	OPSM306CO9	Demonstrate ability to work in a team effectively
OPSM306	CO10	OPSM306CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
OPSM307	CO1	OPSM307CO1	Understand a business problem, formulate it and solve it using dual programming method.
OPSM307	CO2	OPSM307CO2	Understand a business problem, formulate it and solve it using dynamic programming method.
OPSM307	CO3	OPSM307CO3	Understand a business problem, formulate it and solve it using binary (Integer) programming method.
OPSM307	CO4	OPSM307CO4	Understand a business problem, formulate it and solve it using goal programming method.
OPSM307	CO5	OPSM307CO5	Understand when a problem can be solved using simulation
OPSM307	CO6	OPSM307CO6	Illustrate game theory and apply it to solving business problems
OPSM307	CO7	OPSM307CO7	Formulate business problems using a non-linear method
OPSM307	CO8	OPSM307CO8	Apply concepts of OR and execute a case study/project, and interpret results
OPSM307	CO9	OPSM307CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
OPSM307	CO10	OPSM307CO10	Demonstrate knowledge of relevant Business Analytics concepts and how this applies to practice to enhance employability in the Data analytics domain.
OPSM307	CO11	OPSM307CO11	Reflect critically upon own professional skills and employability prospects.
OPSM307	CO12	OPSM307CO12	Demonstrate ability to work in a team effectively
OPSM322	CO1	OPSM322CO1	Apply various data handling and visualization techniques to real life data
OPSM322	CO2	OPSM322CO2	Interpret learning methods
OPSM322	CO3	OPSM322CO3	Recognize and solve Different clustering techniques
OPSM322	CO4	OPSM322CO4	Analyse and test various Supervised Learning Techniques
OPSM322	CO5	OPSM322CO5	Interpret, various algorithm performance measures
OPSM322	CO6	OPSM322CO6	Compare and evaluate different classification algorithms
OPSM322	CO7	OPSM322CO7	Analyse and evaluate Dimensionality reduction techniques
OPSM322	CO8	OPSM322CO8	Understand and analyze regression techniques
OPSM322	CO9	OPSM322CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
OPSM322	CO10	OPSM322CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings

List of Course Outcomes for all courses A.Y. 2022-23

OPSM322	CO11	OPSM322CO11	Demonstrate ability to work in a team effectively
OPSM322	CO12	OPSM322CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
OPSM323	CO1	OPSM323CO1	Assess univariate and multivariate normality
OPSM323	CO2	OPSM323CO2	Implement model discrimination strategies by hypothesis testing
OPSM323	CO3	OPSM323CO3	Interpret various factorial design techniques
OPSM323	CO4	OPSM323CO4	Apply advanced statistical techniques to real life business problems
OPSM323	CO5	OPSM323CO5	Understand design principles of data visualization
OPSM323	CO6	OPSM323CO6	Recall basic data visualization plots and tools required to generate them
OPSM323	CO7	OPSM323CO7	Apply scripting tools to generate interactive visualizations for web pages
OPSM323	CO8	OPSM323CO8	Understand how to process geomapped data and create interactive online maps
OPSM323	CO9	OPSM323CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
OPSM323	CO10	OPSM323CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings
OPSM323	CO11	OPSM323CO11	Demonstrate ability to work in a team effectively
OPSM323	CO12	OPSM323CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
OPSM324	CO1	OPSM324CO1	Understand the requirements of a business analytics project
OPSM324	CO2	OPSM324CO2	Transform Big data into supply chain analytics intelligence
OPSM324	CO3	OPSM324CO3	Understand and analyse global sales and promotion analytics
OPSM324	CO4	OPSM324CO4	Understand and analyse Global sourcing analytics
OPSM324	CO5	OPSM324CO5	Understand and analyse contract manufacturing analytics
OPSM324	CO6	OPSM324CO6	Understand and analyse distribution analytics
OPSM324	CO7	OPSM324CO7	Understand and analyse transportation analytics
OPSM324	CO8	OPSM324CO8	Integrating Functional Analytics into Global Supply Chain Management
OPSM324	CO9	OPSM324CO9	Supply chain analytics project
OPSM324	CO10	OPSM324CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
OPSM324	CO11	OPSM324CO11	Demonstrate knowledge of relevant concepts and how this applies in employment settings
OPSM324	CO12	OPSM324CO12	Demonstrate ability to work in a team effectively
OPSM324	CO13	OPSM324CO13	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
OPSM325	CO1	OPSM325CO1	compare and contrast shallow and deep learning architectures
OPSM325	CO2	OPSM325CO2	Analyze and apply Convolution Neural Networks to practical problems
OPSM325	CO3	OPSM325CO3	Be able to analyse and evaluate various activation functions and optimizers
OPSM325	CO4	OPSM325CO4	Understand basic concepts of LeNET and AlexNet
OPSM325	CO5	OPSM325CO5	Apply CNNs to business analytics
OPSM325	CO6	OPSM325CO6	Illustrate LSTM applications to text mining
OPSM325	CO7	OPSM325CO7	Compare, contrast and analyse various deep learning architectures
OPSM325	CO8	OPSM325CO8	Compare and contrast auto encoders and PCA
OPSM325	CO9	OPSM325CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
OPSM325	CO10	OPSM325CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings
OPSM325	CO11	OPSM325CO11	Demonstrate ability to work in a team effectively
OPSM325	CO12	OPSM325CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
OPSM326	CO1	OPSM326CO1	Understand AaaS models and applications
OPSM326	CO2	OPSM326CO2	apply appropriate frameworks for analysis and various AaaS systems
OPSM326	CO3	OPSM326CO3	demonstrate application and analysis of various AaaS systems
OPSM326	CO4	OPSM326CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
OPSM326	CO5	OPSM326CO5	Demonstrate knowledge of relevant concepts and how this applies in employment settings
OPSM326	CO6	OPSM326CO6	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

OPSM326	CO7	OPSM326CO7	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
OPSM327	CO1	OPSM327CO1	Remember and Understand EDM models and applications
OPSM327	CO2	OPSM327CO2	apply appropriate frameworks for analysis and various Database management systems using SQL
OPSM327	CO3	OPSM327CO3	demonstrate basic knowledge of RDBMS and SQL
OPSM327	CO4	OPSM327CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
OPSM327	CO5	OPSM327CO5	Demonstrate knowledge of relevant concepts and how this applies in employment settings
OPSM327	CO6	OPSM327CO6	Demonstrate ability to work in a team effectively
OPSM327	CO7	OPSM327CO7	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
ORGB301	CO1	ORGB301CO1	Judge organizations from multiple perspectives
ORGB301	CO2	ORGB301CO2	Compare different organization theories for their relevance and application
ORGB301	CO3	ORGB301CO3	Analyze the importance of structural and strategic elements
ORGB301	CO4	ORGB301CO4	Design the outline of change process in an organization
ORGB301	CO5	ORGB301CO5	Integrate the cultural elements with organizational process
ORGB301	CO6	ORGB301CO6	Detect the impact of environmental variables on decision making
ORGB301	CO7	ORGB301CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ORGB301	CO8	ORGB301CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
ORGB301	CO9	ORGB301CO9	Demonstrate ability to work in a team effectively
ORGB301	CO10	ORGB301CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
PERS101	CO1	PERS101CO1	Remember, recognize, and recall Persian alphabet pronunciation
PERS101	CO2	PERS101CO2	Recognize, remember and recall Persian script
PERS101	CO3	PERS101CO3	Understand questions and answer them
PERS101	CO4	PERS101CO4	Understand grammatical structures
PERS101	CO5	PERS101CO5	Understand the past tense
PERS101	CO6	PERS101CO6	Remember and recall vocabulary
PERS101	CO7	PERS101CO7	Use the four language skills; reading, writing, listening and speaking
PERS101	CO8	PERS101CO8	Understand the language in the cultural and social context
PERS102	CO1	PERS102CO1	Understand more advanced grammatical structures
PERS102	CO2	PERS102CO2	Classify and respond to more advanced interrogative patterns
PERS102	CO3	PERS102CO3	Identify and apply the different negative constructions
PERS102	CO4	PERS102CO4	Understand and respond to more advanced written and audio material
PERS102	CO5	PERS102CO5	Provide multiple responses using the past, present and future tenses
PERS102	CO6	PERS102CO6	Respond to questions on date and time
PERS102	CO7	PERS102CO7	To understand cultural aspects of the language
PERS103	CO1	PERS103CO1	Summarise events in the past and present perfect
PERS103	CO2	PERS103CO2	Summarise events in the present and future
PERS103	CO3	PERS103CO3	Respond to questions in various tenses
PERS103	CO4	PERS103CO4	Respond to likes and dislikes in a cultural context
PERS103	CO5	PERS103CO5	Use direct and indirect objects appropriately
PERS103	CO6	PERS103CO6	Identify and carry out conversations on food, transport, weather, seasons, fruit, colors etc
PERS103	CO7	PERS103CO7	Ask and respond to questions on leisure activities
PERS103	CO8	PERS103CO8	Understand the nuances of the language in authentic situations
PHIL101	CO1	PHIL101CO1	Identify and understand the arguments of the major areas of Philosophy
PHIL101	CO2	PHIL101CO2	Place the views and arguments of philosophers into the right areas.
PHIL101	CO3	PHIL101CO3	Explain the broad outlines of the history of philosophy as a framework for application
PHIL101	CO4	PHIL101CO4	Explain and defend a position on a basic philosophical problem.
PHIL101	CO5	PHIL101CO5	Apply critical thinking and reasoning skills in a wide variety of courses of study and careers

List of Course Outcomes for all courses A.Y. 2022-23

PHIL101	CO6	PHIL101CO6	Develop effective oral and communication skills and ability to engage in informed discussion
PHYS101	CO1	PHYS101CO1	Understand basic physics concepts such as displacement, velocity and acceleration
PHYS101	CO2	PHYS101CO2	Recall the evolution of the laws of motion from Aristotle to Newton
PHYS101	CO3	PHYS101CO3	Understand and apply Newton's laws of motion to solve simple problems
PHYS101	CO4	PHYS101CO4	Understand basic concepts of rotational and projectile motion
PHYS101	CO5	PHYS101CO5	Recall basic concepts of thermodynamics
PHYS101	CO6	PHYS101CO6	Recall basic concepts of electricity and magnetism
POLS102	CO1	POLS102CO1	Discuss and explore the key concepts, and the philosophy underpinning the Indian constitution
POLS102	CO2	POLS102CO2	Explain and investigate how the constitution adapts to the emerging, unforeseen challenges of the future
POLS102	CO3	POLS102CO3	Point out the delicate equilibrium between the various organs of the central government
POLS102	CO4	POLS102CO4	Understand the foundation of local politics in India
POLS102	CO5	POLS102CO5	Capture the knowledge and development of the Indian federalism
POLS102	CO6	POLS102CO6	Discuss and criticize the politics of ethnicity and castes in India
POLS103	CO1	POLS103CO1	Understand and appreciate the 'what' and 'why' of political theory
POLS103	CO2	POLS103CO2	Critically think about the different perspectives of a concept
POLS103	CO3	POLS103CO3	Relate various concepts of political theory to social and political practices of our society
POLS103	CO4	POLS103CO4	To reflect on important social and political issues
POLS152	CO1	POLS152CO1	Describe the nature of colonial rule as well as the main issues.
POLS152	CO2	POLS152CO2	Explain the various strands of thought in India's nationalist movement.
POLS152	CO3	POLS152CO3	Correlate various issues confronting Indian society to historical events.
POLS152	CO4	POLS152CO4	Trace the genealogy of ideas in Indian politics.
POLS152	CO5	POLS152CO5	Write essays discussing Indian political history.
POLS152	CO6	POLS152CO6	Acquire insights into the politics, social movements and history of independent India.
POLS153	CO1	POLS153CO1	Appreciate the centrality of the comparative method as a tool for studying International Politics
POLS153	CO2	POLS153CO2	Understand the history of the modern governmental system of the nation-state model
POLS153	CO3	POLS153CO3	Remember characteristics of different political regimes including Totalitarian, Authoritarian and Democratic regimes
POLS153	CO4	POLS153CO4	Recall varied kinds of electoral and party systems in above mentioned regimes
POLS153	CO5	POLS153CO5	Compare different models of federalism and understand their effect on conflict
POLS153	CO6	POLS153CO6	Compare the role of religion in different regimes
POLS153	CO7	POLS153CO7	Understand the phenomenon of Globalisation and its effects on political regimes
POLS153	CO8	POLS153CO8	Demonstrate effective oral and communication skills and learn to write well-structured response papers with citations as assignments
POLS154	CO1	POLS154CO1	Understand and appreciate the difference between ideology, theory and thought
POLS154	CO2	POLS154CO2	Demonstrate awareness of the major western ideological traditions
POLS154	CO3	POLS154CO3	Demonstrate understanding of internal development, key tenets, tensions and contradictions within ideologies
POLS154	CO4	POLS154CO4	Demonstrate awareness of the ways in which ideological traditions have guided action and shaped politics in modern times
POLS154	CO5	POLS154CO5	Understand relationship between ideas and politics
POLS201	CO1	POLS201CO1	Recall the names of key thinkers discussed in class.
POLS201	CO2	POLS201CO2	Summarize the main points of the thinkers discussed in class.
POLS201	CO3	POLS201CO3	Demonstrate the relevance of political thought to the study of current politics.
POLS201	CO4	POLS201CO4	Illustrate the importance of social context in the development of political thought.
POLS201	CO5	POLS201CO5	Apply a chosen perspective to explain a current problem.
POLS201	CO6	POLS201CO6	List the names of the books written by the thinkers discussed in class.
POLS201	CO7	POLS201CO7	Explain the applicability of Western thought in non-Western contexts.
POLS201	CO8	POLS201CO8	Evaluate the criticisms made against the thinkers discussed in class.
POLS201	CO9	POLS201CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS201	CO10	POLS201CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.

List of Course Outcomes for all courses A.Y. 2022-23

POLS201	CO11	POLS201CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS201	CO12	POLS201CO12	Demonstrate ability to work in a team effectively
POLS202	CO1	POLS202CO1	Describe India's political structure.
POLS202	CO2	POLS202CO2	Interpret events in the news.
POLS202	CO3	POLS202CO3	Appraise political developments in India.
POLS202	CO4	POLS202CO4	Develop her own ideas about how to bring about positive change in Indian politics.
POLS202	CO5	POLS202CO5	Formulate a coherent and well-researched argument pertaining to India's government and politics.
POLS202	CO6	POLS202CO6	Discuss contemporary Indian politics in an informed and substantiated manner.
POLS202	CO7	POLS202CO7	Back up her opinions with research and credible information.
POLS202	CO8	POLS202CO8	Critique various aspects of Indian politics with a balanced understanding of different perspectives.
POLS202	CO9	POLS202CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS202	CO10	POLS202CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS202	CO11	POLS202CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS202	CO12	POLS202CO12	Demonstrate ability to work in a team effectively
POLS222	CO1	POLS222CO1	define and identify essential concepts in political geography and geopolitics
POLS222	CO2	POLS222CO2	Understand the history of the development of political geography as a discipline
POLS222	CO3	POLS222CO3	Identify important topics in the study of political geography
POLS222	CO4	POLS222CO4	Compare and evaluate the substance and limits of various theories in geopolitics
POLS222	CO5	POLS222CO5	Apply methods and research skills of political geography in real-world cases and current affairs
POLS222	CO6	POLS222CO6	Explain and interpret phenomena such as war with the theoretical framework of political geography
POLS222	CO7	POLS222CO7	Acquire latest theories, methods and trends in political geography and geopolitics
POLS222	CO8	POLS222CO8	
POLS222	CO9	POLS222CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS222	CO10	POLS222CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS222	CO11	POLS222CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS222	CO12	POLS222CO12	Demonstrate ability to work in a team effectively
POLS321	CO1	POLS321CO1	Describe the Chinese Communist Party's structure, key players and the political processes in Chinese politics
POLS321	CO2	POLS321CO2	Discuss prominent issues in the Chinese politics.
POLS321	CO3	POLS321CO3	Appraise China's policymaking and its impact on the rest of the world including India.
POLS321	CO4	POLS321CO4	Apply theories and methods acquired about Chinese politics and history to China's social, economic and political development issues
POLS321	CO5	POLS321CO5	Analyze issues such as anti-corruption, constriction on political participations and ethnic policy in the context of Xi Jinping's ascendancy to power
POLS321	CO6	POLS321CO6	Evaluate various aspects of China's foreign policy and its implication
POLS321	CO7	POLS321CO7	Construct a set of coherent and original arguments regarding China's government and politics.
POLS321	CO8	POLS321CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS321	CO9	POLS321CO9	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS321	CO10	POLS321CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS321	CO11	POLS321CO11	Demonstrate ability to work in a team effectively
POLS323	CO1	POLS323CO1	Discuss the features common to developing societies.
POLS323	CO2	POLS323CO2	Recognize the differences that exist among and within these societies.
POLS323	CO3	POLS323CO3	Evaluate the role of colonialism in Africa & Latin America.
POLS323	CO4	POLS323CO4	Examine how postcolonial thought relates to post-Soviet Central Asia.
POLS323	CO5	POLS323CO5	Explain the role of nationalism in the postcolony.

List of Course Outcomes for all courses A.Y. 2022-23

POLS323	CO6	POLS323CO6	Assess the role of politically salient identity in ethnic conflict.
POLS323	CO7	POLS323CO7	Analyze the role of great power politics in shaping the developing world.
POLS323	CO8	POLS323CO8	Design an independent research project on the developing world.
POLS323	CO9	POLS323CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS323	CO10	POLS323CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS323	CO11	POLS323CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS323	CO12	POLS323CO12	Demonstrate ability to work in a team effectively
POLS326	CO1	POLS326CO1	Discuss the West Asian region and politics in an informed manner.
POLS326	CO2	POLS326CO2	Analyse the contemporary political disputes in the region.
POLS326	CO3	POLS326CO3	Dissect the region's relationships with Western powers.
POLS326	CO4	POLS326CO4	Describe the region's relationships with India.
POLS326	CO5	POLS326CO5	Critique common assumptions about gender in the Middle East.
POLS326	CO6	POLS326CO6	Compose a strong argument relating to the politics of the region.
POLS326	CO7	POLS326CO7	Justify her opinions about West Asian politics by referring to the relevant literature.
POLS326	CO8	POLS326CO8	Appraise media reports about the region in terms of their accuracy and bias.
POLS326	CO9	POLS326CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS326	CO10	POLS326CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS326	CO11	POLS326CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS326	CO12	POLS326CO12	Demonstrate ability to work in a team effectively
POLS327	CO1	POLS327CO1	Recognise, recall and explain the key concepts, and trends in regional integration
POLS327	CO2	POLS327CO2	Recognise major theorists and understand the theoretical models in the field of regional integration and area studies.
POLS327	CO3	POLS327CO3	Recall and summarise the historical events that shape the European politics and explaining the formation and the institutional structure of the European Union.
POLS327	CO4	POLS327CO4	Apply various theories of European integration to analyse and critique the institutional behaviour and modes of governance of the EU.
POLS327	CO5	POLS327CO5	Explain and outline the central debates in the Europe with regard to Europeanisation, European citizenship, Eurozone stability, migration and refugees.
POLS327	CO6	POLS327CO6	Compare and contrast the varied regional integration models in the world - SAARC, ASEAN, AU etc. - thereby to critique the existing conceptual and theoretical discourses.
POLS327	CO7	POLS327CO7	Outline a mode of critical thinking to evaluate the changing nature of the Westphalian nation-states in the contemporary international system.
POLS327	CO8	POLS327CO8	Apply the scholarly knowledge and research methods to construct coherent and original and constructive arguments while writing their assignments and project presentations.
POLS327	CO9	POLS327CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS327	CO10	POLS327CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS327	CO11	POLS327CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS327	CO12	POLS327CO12	Demonstrate ability to work in a team effectively
PSDB102	CO1	PSDB102CO1	Identify and apply an audience-centred approach in speaking situations
PSDB102	CO2	PSDB102CO2	Recognise and effectively manage communication apprehension
PSDB102	CO3	PSDB102CO3	Utilise researched evidence to improve speaking situations, including preparation, organisation, and delivery.
PSDB102	CO4	PSDB102CO4	Evaluate listening habits and practice active listening skills
PSDB102	CO5	PSDB102CO5	Demonstrate interpersonal competence in group discussions, meetings, and decision making
PSDB102	CO6	PSDB102CO6	Utilise competent presentation skills using visual aids
PSDB102	CO7	PSDB102CO7	Identify behaviours for improving verbal and nonverbal communication delivery, and reflect on how they can be incorporated in speaking situations
PSDB102	CO8	PSDB102CO8	Anticipate, formulate, and respond to questions in speaking situations
PSYC101	CO1	PSYC101CO1	Understand psychosocial situations more holistically and scientifically
PSYC101	CO2	PSYC101CO2	Understand and observe different psychological processes like cognitions, emotions and perceptions before assessing a given situation

List of Course Outcomes for all courses A.Y. 2022-23

PSYC101	CO3	PSYC101CO3	State and understand various theoretical models and its applications
PSYC101	CO4	PSYC101CO4	Understand the basic methods of research in psychology
PSYC101	CO5	PSYC101CO5	Demonstrate effective communication skills required to engage in informed discussion
PSYC102	CO1	PSYC102CO1	Identify the contribution of psychology to global issues
PSYC102	CO2	PSYC102CO2	Understand the use of psychological principles beyond matters pertaining to an individual
PSYC102	CO3	PSYC102CO3	Apply principles of psychology to relevant contexts
PSYC151	CO1	PSYC151CO1	Know about various applied fields and areas of Psychology
PSYC151	CO2	PSYC151CO2	Understand how principles of psychology can be applied across several fields
PSYC151	CO3	PSYC151CO3	Acknowledge the scope of less conventional fields of psychology in the context of contemporary global scenarios
PSYC151	CO4	PSYC151CO4	Understand the tasks performed and skills needed by practitioners across various fields of psychology
PSYC152	CO1	PSYC152CO1	Demonstrate knowledge of different methods
PSYC152	CO2	PSYC152CO2	Identify and describe variety of quantitative and qualitative research methods used in psychological research
PSYC152	CO3	PSYC152CO3	Demonstrate knowledge of and application of the key terms, definitions, and concepts used in the measurements of Psychological researches
PSYC152	CO4	PSYC152CO4	Demonstrate problem solving skills in research contexts
PSYC152	CO5	PSYC152CO5	Identify and understand what constitutes reliable and valid data
PSYC152	CO6	PSYC152CO6	Identify the specific experimental nature of Psychological enquiry
PSYC153	CO1	PSYC153CO1	Demonstrate an understanding of basic psychological theories of self and identity
PSYC153	CO2	PSYC153CO2	Describe individual differences among people
PSYC153	CO3	PSYC153CO3	Recognize complexities of social realities of people
PSYC153	CO4	PSYC153CO4	Understand the basic psychological skills in maintaining safe and healthy personal relationships
PSYC153	CO5	PSYC153CO5	Understand the basic psychological skills in maintaining safe and healthy virtual identities
PSYC153	CO6	PSYC153CO6	Write sensitively about topics related to identity and difference
PSYC201	CO1	PSYC201CO1	Examine and analyze the concept of personality, its development and its determinants
PSYC201	CO2	PSYC201CO2	Analyze and relate different psychological components of personality using appropriate examples to real life situations
PSYC201	CO3	PSYC201CO3	Compare and critique different theoretical perspectives on personality and evaluate their origins and structures
PSYC201	CO4	PSYC201CO4	Identify and employ different methods of measurement of personality and evaluate their impact
PSYC201	CO5	PSYC201CO5	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC201	CO6	PSYC201CO6	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC201	CO7	PSYC201CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC202	CO1	PSYC202CO1	Understand the interplay between the individual and the collective in different contexts
PSYC202	CO2	PSYC202CO2	Explain different concepts and theories in social psychology
PSYC202	CO3	PSYC202CO3	Apply social psychological principles in real-life and hypothetical scenarios
PSYC202	CO4	PSYC202CO4	Identify appropriate research methods to examine interpersonal and collective phenomena
PSYC202	CO5	PSYC202CO5	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC202	CO6	PSYC202CO6	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC202	CO7	PSYC202CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC203	CO1	PSYC203CO1	Identify major themes in developmental psychology
PSYC203	CO2	PSYC203CO2	Identify research methods suited to answering questions in developmental psychology
PSYC203	CO3	PSYC203CO3	Critically appraise major theories of development
PSYC203	CO4	PSYC203CO4	Compare the changing role of cognitive processes and psychosocial functioning across different stages of development
PSYC203	CO5	PSYC203CO5	Assess linkages between various facets of development
PSYC203	CO6	PSYC203CO6	Illustrate the relationship between early and later development
PSYC203	CO7	PSYC203CO7	Describe the variety of factors that can impact development

List of Course Outcomes for all courses A.Y. 2022-23

PSYC203	CO8	PSYC203CO8	Apply principles of developmental theories to real-world scenarios
PSYC203	CO9	PSYC203CO9	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC203	CO10	PSYC203CO10	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC203	CO11	PSYC203CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC204	CO1	PSYC204CO1	To understand and describe of the structure of the nervous system
PSYC204	CO2	PSYC204CO2	To develop an understanding of physiological systems and their role in behaviour
PSYC204	CO3	PSYC204CO3	To describe the role of hereditary factors in behaviour
PSYC204	CO4	PSYC204CO4	To understand and discuss research methods in biological psychology
PSYC204	CO5	PSYC204CO5	To illustrate how methods in biological psychology can be used to gain a deeper understanding of the role of physiology in behaviour
PSYC204	CO6	PSYC204CO6	To recognise neurological disorders and describe their biological underpinnings
PSYC204	CO7	PSYC204CO7	To explain the biological basis of major psychiatric and developmental conditions
PSYC204	CO8	PSYC204CO8	To discuss current research in the area of biological psychology
PSYC204	CO9	PSYC204CO9	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC204	CO10	PSYC204CO10	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC204	CO11	PSYC204CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC205	CO1	PSYC205CO1	Discuss the changing scenario of education and appreciate recent developments in instructional methods
PSYC205	CO2	PSYC205CO2	Understand interlinkages between educational psychology and other domains of psychology (e.g., social psychology, personality psychology, developmental psychology)
PSYC205	CO3	PSYC205CO3	Identify and review appropriate classroom resources and assessment techniques
PSYC205	CO4	PSYC205CO4	Show an understanding of research methods in educational psychology
PSYC205	CO5	PSYC205CO5	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC205	CO6	PSYC205CO6	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC205	CO7	PSYC205CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC206	CO1	PSYC206CO1	Critically evaluate concepts, theories and case studies in Industrial Psychology
PSYC206	CO2	PSYC206CO2	Understand and illustrate training modules on diverse topics to enhance performance at work
PSYC206	CO3	PSYC206CO3	Identify issues in organizations and research using case studies to find out what probable solutions could be
PSYC206	CO4	PSYC206CO4	Effectively apply concepts and theories to understand how organizations function and what role an organizational psychologist plays.
PSYC206	CO5	PSYC206CO5	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC206	CO6	PSYC206CO6	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC206	CO7	PSYC206CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC207	CO1	PSYC207CO1	Understand the various concepts, aspects and theories of abnormality
PSYC207	CO2	PSYC207CO2	Distinguish between the roles of various mental health practitioners
PSYC207	CO3	PSYC207CO3	Identify various psychological disorders from the available information about clinical cases
PSYC207	CO4	PSYC207CO4	Explain the possible causes of abnormal behaviour by applying different theoretical approaches
PSYC207	CO5	PSYC207CO5	Recognize current directions in abnormal psychology and be able to critically evaluate psychological research in their multiple layers of meanings and contexts
PSYC207	CO6	PSYC207CO6	Illustrate the knowledge and understanding of cultural and social contexts into different psychological frameworks
PSYC207	CO7	PSYC207CO7	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC207	CO8	PSYC207CO8	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC207	CO9	PSYC207CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC209	CO1	PSYC209CO1	Understand the nuances of human-environment interactions
PSYC209	CO2	PSYC209CO2	Apply a systematic approach to address issues arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

PSYC209	CO3	PSYC209CO3	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC209	CO4	PSYC209CO4	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC210	CO1	PSYC210CO1	Demonstrate an understanding of the role of psychological theory to main areas of media psychology
PSYC210	CO2	PSYC210CO2	Explain the reciprocal influence of human behavior, brain functioning, emotion and development with media
PSYC210	CO3	PSYC210CO3	Explain and evaluate the various media applications and role of psychology in it
PSYC210	CO4	PSYC210CO4	Identify and analyse media influences on media addiction
PSYC210	CO5	PSYC210CO5	Identify and explain the ethical issues related to the use, development and distribution of media technologies related to psychological well being and social engagement
PSYC210	CO6	PSYC210CO6	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC210	CO7	PSYC210CO7	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC210	CO8	PSYC210CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC221	CO1	PSYC221CO1	Describe the use of descriptive statistics in research
PSYC221	CO2	PSYC221CO2	Understand the need for inferential statistics
PSYC221	CO3	PSYC221CO3	Compare a variety of statistical methods in terms of their strengths and limitations
PSYC221	CO4	PSYC221CO4	Choose statistical procedures appropriate to the question at hand
PSYC221	CO5	PSYC221CO5	Conduct a variety of statistical analyses using SPSS
PSYC221	CO6	PSYC221CO6	Write a results section for a variety of different analyses while adhering to APA formatting guidelines (7th edition)
PSYC221	CO7	PSYC221CO7	Appreciate the importance of using confidence intervals in quantitative research
PSYC221	CO8	PSYC221CO8	Be able to critique research with regard to their use of statistics
PSYC221	CO9	PSYC221CO9	Visually depict data through a variety of mediums
PSYC221	CO10	PSYC221CO10	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC221	CO11	PSYC221CO11	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC221	CO12	PSYC221CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC282	CO1	PSYC282CO1	Appraise the contributions of primary and secondary research
PSYC282	CO2	PSYC282CO2	Design research appropriate to the question being asked
PSYC282	CO3	PSYC282CO3	Critically evaluate the various components of research design
PSYC282	CO4	PSYC282CO4	Choose statistical methods appropriate for a research question
PSYC282	CO5	PSYC282CO5	To identify the strengths and limitations of quantitative and qualitative research
PSYC282	CO6	PSYC282CO6	To understand the reciprocal relationship between quantitative and qualitative research
PSYC282	CO7	PSYC282CO7	Present and document the findings of a research project
PSYC282	CO8	PSYC282CO8	Demonstrate basic skills in writing in psychology and APA style referencing
PSYC282	CO9	PSYC282CO9	Examine ethical issues in psychological research
PSYC282	CO10	PSYC282CO10	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC282	CO11	PSYC282CO11	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC282	CO12	PSYC282CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC301	CO1	PSYC301CO1	Understand the importance and processes of Experimental Psychology
PSYC301	CO2	PSYC301CO2	Design effective experiments using standard apparatus and material
PSYC301	CO3	PSYC301CO3	Use the practical experience to effectively engage human participants in experimental studies
PSYC301	CO4	PSYC301CO4	Investigate different cognitive process and human behaviours by conducting live experiments with human participants
PSYC301	CO5	PSYC301CO5	Execute computerized experiments
PSYC301	CO6	PSYC301CO6	Analyse and interpret different experimental results
PSYC301	CO7	PSYC301CO7	Examine data and produce appropriate evaluation through a formal report of conducted experiments
PSYC301	CO8	PSYC301CO8	Design a proposed experiment on their own, to investigate a topic of interest
PSYC301	CO9	PSYC301CO9	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC301	CO10	PSYC301CO10	Employ discipline knowledge and skills to issues faced in a professional setting

List of Course Outcomes for all courses A.Y. 2022-23

PSYC301	CO11	PSYC301CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC302	CO1	PSYC302CO1	Compare knowledge of various approaches and processes of counselling
PSYC302	CO2	PSYC302CO2	Demonstrate an understanding of various specific and general skills in counselling and to be able to apply the same in practice
PSYC302	CO3	PSYC302CO3	Demonstrate an understanding of cultural, social diversity and human variability
PSYC302	CO4	PSYC302CO4	Demonstrate an understanding of ethics in counselling settings
PSYC302	CO5	PSYC302CO5	Understand and become aware of their own personal concerns and cope effectively
PSYC302	CO6	PSYC302CO6	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC302	CO7	PSYC302CO7	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC302	CO8	PSYC302CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC303	CO1	PSYC303CO1	Reflect on the influence of culture on behaviour
PSYC303	CO2	PSYC303CO2	Conceptualise the role of context when interpreting behaviour
PSYC303	CO3	PSYC303CO3	Exhibit critical thinking skills in deciphering cultural connotations
PSYC303	CO4	PSYC303CO4	Analyse contemporary applications of traditional models of culture
PSYC303	CO5	PSYC303CO5	Identify cultural bias in research
PSYC303	CO6	PSYC303CO6	Evaluate the effectiveness of psychological theory in cross-cultural contexts
PSYC303	CO7	PSYC303CO7	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC303	CO8	PSYC303CO8	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC303	CO9	PSYC303CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC304	CO1	PSYC304CO1	To identify and understand the role of psychosocial factors in health and illness
PSYC304	CO2	PSYC304CO2	To understand the role of lifestyle factors in health
PSYC304	CO3	PSYC304CO3	To describe and understand methodological approaches in health psychology
PSYC304	CO4	PSYC304CO4	To understand and discuss the concept of stress
PSYC304	CO5	PSYC304CO5	To explain the mechanisms through which stress may affect health
PSYC304	CO6	PSYC304CO6	To identify and illustrate models and approaches to coping with stress
PSYC304	CO7	PSYC304CO7	To understand and demonstrate interventions in health psychology
PSYC304	CO8	PSYC304CO8	To critically appraise research in the area of health psychology
PSYC304	CO9	PSYC304CO9	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC304	CO10	PSYC304CO10	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC304	CO11	PSYC304CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC305	CO1	PSYC305CO1	· Evaluate the significance of the field of psychological testing
PSYC305	CO2	PSYC305CO2	· Apply the knowledge of testing to different fields of psychology
PSYC305	CO3	PSYC305CO3	· Analyse the use of appropriate tests in specified contexts
PSYC305	CO4	PSYC305CO4	· Evaluate the test standardization procedure
PSYC305	CO5	PSYC305CO5	· Administer, analyze, interpret test scores and write a psychological test report
PSYC305	CO6	PSYC305CO6	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC305	CO7	PSYC305CO7	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC305	CO8	PSYC305CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC306	CO1	PSYC306CO1	Understand the various cognitive processes in detail
PSYC306	CO2	PSYC306CO2	Apply the knowledge of cognitive process in different areas (like forgetting, decision making, language)
PSYC306	CO3	PSYC306CO3	Critically evaluate the different popular theories in Cognitive Psychology in the light of research evidence
PSYC306	CO4	PSYC306CO4	Design and conduct a study related to cognitive concepts
PSYC306	CO5	PSYC306CO5	Relate and integrate concepts from Cognitive Psychology and other disciplines
PSYC306	CO6	PSYC306CO6	Explore fields and careers that have a foundation in Cognitive Psychology
PSYC306	CO7	PSYC306CO7	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC306	CO8	PSYC306CO8	Employ discipline knowledge and skills to issues faced in a professional setting

List of Course Outcomes for all courses A.Y. 2022-23

PSYC306	CO9	PSYC306CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC307	CO1	PSYC307CO1	Identify and evaluate theoretical models in positive psychology
PSYC307	CO2	PSYC307CO2	Examine the need for the field of positive psychology and identify what sets it apart from traditional psychology
PSYC307	CO3	PSYC307CO3	Identify psychological factors and strategies that contribute to quality of life
PSYC307	CO4	PSYC307CO4	Apply positive psychology principles to everyday contexts
PSYC307	CO5	PSYC307CO5	Apply positive psychology principles to professional contexts
PSYC307	CO6	PSYC307CO6	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC307	CO7	PSYC307CO7	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC307	CO8	PSYC307CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC309	CO1	PSYC309CO1	To examine and analyse the role of social, political, and economic factors in the development of community approaches to mental health care
PSYC309	CO2	PSYC309CO2	To distinguish community psychological approaches from traditional psychological approaches
PSYC309	CO3	PSYC309CO3	To describe the theoretical underpinnings of work in community psychology
PSYC309	CO4	PSYC309CO4	To describe and apply research methods appropriate for community work
PSYC309	CO5	PSYC309CO5	To understand the main steps involved in program development
PSYC309	CO6	PSYC309CO6	To use concepts from community psychology to develop a better understanding of major social issues
PSYC309	CO7	PSYC309CO7	To apply theoretical principles and interventional approaches in developing community interventions
PSYC309	CO8	PSYC309CO8	To critically appraise literature in the area of community psychology
PSYC309	CO9	PSYC309CO9	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC309	CO10	PSYC309CO10	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC309	CO11	PSYC309CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC381	CO1	PSYC381CO1	To understand the theoretical basis of advanced quantitative research methods
PSYC381	CO2	PSYC381CO2	To outline key considerations involved in decisions about choice of analytical approach
PSYC381	CO3	PSYC381CO3	To illustrate different methods of data collection and organisation for quantitative data.
PSYC381	CO4	PSYC381CO4	To demonstrate the ability to enter, clean and organise data in SPSS
PSYC381	CO5	PSYC381CO5	To choose and employ the appropriate statistical technique for analyses, including descriptive and inferential statistics
PSYC381	CO6	PSYC381CO6	To generate, interpret and report the results of statistical analyses in line with APA standards
PSYC381	CO7	PSYC381CO7	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC381	CO8	PSYC381CO8	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC381	CO9	PSYC381CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP101	CO1	PUBP101CO1	Student is able to grasp and explain basic concepts in Public Policy
PUBP101	CO2	PUBP101CO2	Student can classify policies into major categories
PUBP101	CO3	PUBP101CO3	Student understands role of culture, context and personalities in policymaking
PUBP101	CO4	PUBP101CO4	Student can apply policy frameworks to conduct limited analysis of current affairs
PUBP101	CO5	PUBP101CO5	Student understands the structure of Indian government and its administrative practices
PUBP101	CO6	PUBP101CO6	Student acquires preliminary familiarity with writing outputs that use policy jargon
PUBP101	CO7	PUBP101CO7	Student is aware of public policy higher education and career options
PUBP152	CO1	PUBP152CO1	Show a firm grasp on the academic fundamentals of Public Policy at a common sense level
PUBP152	CO2	PUBP152CO2	Sound confident when dropping frequently-used terms in Public Affairs
PUBP152	CO3	PUBP152CO3	Display knowledge of the major expectations from outputs of Policy Analysis
PUBP152	CO4	PUBP152CO4	Employ rhetorical elements in communicating such output
PUBP152	CO5	PUBP152CO5	Recognize external influences on a country's policies
PUBP204	CO1	PUBP204CO1	Comprehend the theoretical foundations of Public Policy and the stages in policymaking
PUBP204	CO2	PUBP204CO2	Exhibit a sound understanding of policy formulation as an integral part of the governance process in India and around the world

List of Course Outcomes for all courses A.Y. 2022-23

PUBP204	CO3	PUBP204CO3	Demonstrate capability to summarize and comment on implementation of national-level policies in India
PUBP204	CO4	PUBP204CO4	Understand structure of Indian bureaucracy and its unique policy formulation processes
PUBP204	CO5	PUBP204CO5	Appreciate the impact of policies propounded in one domain on related domains
PUBP204	CO6	PUBP204CO6	Demonstrate the technical skills required for Policy Analysis (interpretative research, cost-benefit analysis etc.)
PUBP204	CO7	PUBP204CO7	Enhance rhetorical and expository skills in communicating analytical output (Writing Policy Memos, analytical interpretative essays, data visualization etc.)
PUBP204	CO8	PUBP204CO8	Display command over Policy Principles and Policy Instruments in evaluating policies
PUBP204	CO9	PUBP204CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP204	CO10	PUBP204CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP204	CO11	PUBP204CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP204	CO12	PUBP204CO12	Demonstrate ability to work in a team effectively
PUBP205	CO1	PUBP205CO1	Understand the role of Constitutional bodies in policy making in India
PUBP205	CO2	PUBP205CO2	Demonstrate a firm grasp over Indian political and administrative systems, processes and policymaking mechanism
PUBP205	CO3	PUBP205CO3	Display a critical understanding of dynamic relationship of Indian politics and policymaking in the context of development and welfare
PUBP205	CO4	PUBP205CO4	Dissect the Complex interplay of multiple stakeholders both governmental and non-governmental bodies in policy making in India
PUBP205	CO5	PUBP205CO5	Critically examine challenges in policy implementation in India
PUBP205	CO6	PUBP205CO6	Analyse the power, capacity, and accountability of multilayer bureaucracy in India
PUBP205	CO7	PUBP205CO7	Critically analyse significant public policy issues in the current times
PUBP205	CO8	PUBP205CO8	Demonstrate effective oral and communication skills and ability to engage in analytical discussion connecting varied arguments
PUBP205	CO9	PUBP205CO9	Write analytical, interpretative and well-researched essays, response papers and research papers
PUBP205	CO10	PUBP205CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP205	CO11	PUBP205CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP205	CO12	PUBP205CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP205	CO13	PUBP205CO13	Demonstrate ability to work in a team effectively
PUBP231	CO1	PUBP231CO1	Understand the legacy and significance of elementary legal terminology
PUBP231	CO2	PUBP231CO2	Parse courts judgements and cite landmark cases and precedent
PUBP231	CO3	PUBP231CO3	Analyse matters of policy interest from a legal standpoint
PUBP231	CO4	PUBP231CO4	Source arguments from established legal scholarship
PUBP231	CO5	PUBP231CO5	Appreciate the ground realities of justice delivery and law enforcement
PUBP231	CO6	PUBP231CO6	Understand different formats, procedures and practises involved in seeking legal remedies
PUBP231	CO7	PUBP231CO7	Understand judgements, their dissection and their value and applicability as precedents
PUBP231	CO8	PUBP231CO8	Draft arguments and pleas in a pragmatic manner before relevant authorities
PUBP231	CO9	PUBP231CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP231	CO10	PUBP231CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP231	CO11	PUBP231CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP231	CO12	PUBP231CO12	Demonstrate ability to work in a team effectively
PUBP233	CO1	PUBP233CO1	Gain a sound understanding of the population structure and composition.
PUBP233	CO2	PUBP233CO2	Develop analytical skills to calculate Population measures - mortality, fertility, and migration
PUBP233	CO3	PUBP233CO3	Apply the demographic methods to analyze mortality and disease burden in public health
PUBP233	CO4	PUBP233CO4	Learn to project populations based on demographic data and use it to project populations of countries and states
PUBP233	CO5	PUBP233CO5	To demonstrate a fair understanding of Demographic Theories and their applicability from historic times to present

List of Course Outcomes for all courses A.Y. 2022-23

PUBP233	CO6	PUBP233CO6	To understand and critically analyze the linkages between migration and urbanization
PUBP233	CO7	PUBP233CO7	Demonstrate a fair understanding of the contemporary issues linked to Demographic change in India and the world
PUBP233	CO8	PUBP233CO8	Demonstrate effective oral and communication skills and ability to engage in analytical discussion connecting varied arguments and theoretical models
PUBP233	CO9	PUBP233CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP233	CO10	PUBP233CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP233	CO11	PUBP233CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP233	CO12	PUBP233CO12	Demonstrate ability to work in a team effectively
PUBP281	CO1	PUBP281CO1	Describe and distinguish various types of research studies - empirical, conceptual and review - that contributes to knowledge development
PUBP281	CO2	PUBP281CO2	Discuss a literature review in the social science area and identify how a research study is positioned with in extant theory in a discipline
PUBP281	CO3	PUBP281CO3	Design and carry out qualitative and quantitative research independently
PUBP281	CO4	PUBP281CO4	Acquire skills to write a research proposal and learn to carry out a research study independently
PUBP281	CO5	PUBP281CO5	Review and summarize the application, value and limits of a qualitative research study
PUBP281	CO6	PUBP281CO6	Identify which data collection and analysis tools are appropriate for answering particular questions and use at least one of them
PUBP281	CO7	PUBP281CO7	Explain the ethical and bias issues regarding conducting quatitative and qualitative research and describe its implications on research design
PUBP281	CO8	PUBP281CO8	Describe and distinguish various types of research studies - empirical, conceptual and review - that contributes to knowledge development
PUBP281	CO9	PUBP281CO9	Discuss a literature review in the social science area and identify how a research study is positioned with in extant theory in a discipline
PUBP281	CO10	PUBP281CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP281	CO11	PUBP281CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP281	CO12	PUBP281CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP281	CO13	PUBP281CO13	Demonstrate ability to work in a team effectively
PUBP303	CO1	PUBP303CO1	Appreciate the relationship between policy principles and policy instruments
PUBP303	CO2	PUBP303CO2	Appreciate the nature and scope of data demands that environmental policy makes, reliable sources the data and location of datasets
PUBP303	CO3	PUBP303CO3	Comprehensively analyse a given environmental problem and draw recommendations from a basket of state-based and market-based policy instruments previously tried around the world
PUBP303	CO4	PUBP303CO4	Accurately deploy basic analytical tools such as Life Cycle Analysis
PUBP303	CO5	PUBP303CO5	Understand and critique a ISO14000 certification document
PUBP303	CO6	PUBP303CO6	Meticulously deploy provisions from Environmental Protection Act, Forest Rights Act to critique current environmental problems in India
PUBP303	CO7	PUBP303CO7	Understand environmental bureaucracies and points of intervention such as memos, positions papers and op-eds
PUBP303	CO8	PUBP303CO8	Acquire a nuanced understanding of the environmental policy field and the various careers on offers
PUBP303	CO9	PUBP303CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP303	CO10	PUBP303CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP303	CO11	PUBP303CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP303	CO12	PUBP303CO12	Demonstrate ability to work in a team effectively
PUBP304	CO1	PUBP304CO1	Develop an understanding of the multiple dimensions of poverty and inequality
PUBP304	CO2	PUBP304CO2	Acquire knowledge about the history of poverty reduction globally
PUBP304	CO3	PUBP304CO3	Critically analyse the role of the state and other actors in shaping and implementing social policy
PUBP304	CO4	PUBP304CO4	Understand the causes and effects of poverty and inequality

List of Course Outcomes for all courses A.Y. 2022-23

PUBP304	CO5	PUBP304CO5	Acquire an understanding of the role of caste, class, religion and gender in shaping the experiences of poverty and inequality
PUBP304	CO6	PUBP304CO6	Explain the different philosophical approaches to equality and justice
PUBP304	CO7	PUBP304CO7	Discuss and debate about the multiple dimensions of poverty and inequality
PUBP304	CO8	PUBP304CO8	Analyse the factors behind successful and failed social policies
PUBP304	CO9	PUBP304CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP304	CO10	PUBP304CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP304	CO11	PUBP304CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP304	CO12	PUBP304CO12	Demonstrate ability to work in a team effectively
PUBP309	CO1	PUBP309CO1	Understand the historical growth and development of modern Education in India
PUBP309	CO2	PUBP309CO2	Understand the legacy of History, social structure and process shape the educational issues facing contemporary India
PUBP309	CO3	PUBP309CO3	Analyze and demonstrate the Interconnection between Constitution, Law, and Politics Education Policy making
PUBP309	CO4	PUBP309CO4	Demonstrate a fair understanding of the contemporary issues in education in India and policies to address them.
PUBP309	CO5	PUBP309CO5	Frame relevant and appropriate questions about an education policy proposal or instrument.
PUBP309	CO6	PUBP309CO6	Debate and dissect contemporary education issues and formulate alternate proposals to address them
PUBP309	CO7	PUBP309CO7	Demonstrate analytical, interpretative skills through well-researched essays and response papers
PUBP309	CO8	PUBP309CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP309	CO9	PUBP309CO9	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP309	CO10	PUBP309CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP309	CO11	PUBP309CO11	Demonstrate ability to work in a team effectively
PUBP310	CO1	PUBP310CO1	Understand the importance of building blocks of health systems
PUBP310	CO2	PUBP310CO2	Apply health systems building blocks in contextualizing health policies
PUBP310	CO3	PUBP310CO3	Understand the importance of right to health
PUBP310	CO4	PUBP310CO4	Apply the human rights norms and standards
PUBP310	CO5	PUBP310CO5	Evaluate health policies to assess the extent to which they are rights based
PUBP310	CO6	PUBP310CO6	Content analyze health policy (using EquiFrame)
PUBP310	CO7	PUBP310CO7	Content analyze health policy (using EquiPP)
PUBP310	CO8	PUBP310CO8	Create a presentation outlining implications for health policy based on policy analysis
PUBP310	CO9	PUBP310CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP310	CO10	PUBP310CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP310	CO11	PUBP310CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP310	CO12	PUBP310CO12	Demonstrate ability to work in a team effectively
PUBP311	CO1	PUBP311CO1	Discuss the different theoretical approaches to gender and development
PUBP311	CO2	PUBP311CO2	Critically analyse the role of globalization on the lives of women and men in the global south
PUBP311	CO3	PUBP311CO3	Demonstrate an understanding of the interconnections between gender, power, violence and development
PUBP311	CO4	PUBP311CO4	Understand the role of production and reproduction in the lives of women in the global south
PUBP311	CO5	PUBP311CO5	Critically examine the role of political representation in women's empowerment
PUBP311	CO6	PUBP311CO6	Demonstrate an understanding of the role of property ownership in women's empowerment
PUBP311	CO7	PUBP311CO7	Display knowledge of local interventions aimed at empowering women
PUBP311	CO8	PUBP311CO8	Display an understanding of the interconnections between gender, justice, violence and development
PUBP311	CO9	PUBP311CO9	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

PUBP311	CO10	PUBP311CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP311	CO11	PUBP311CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP311	CO12	PUBP311CO12	Demonstrate ability to work in a team effectively
PUBP314	CO1	PUBP314CO1	Define and classify rural and urban areas in different national and international contexts.
PUBP314	CO2	PUBP314CO2	Understand and describe the process of urbanization and factors influencing urban growth
PUBP314	CO3	PUBP314CO3	Understand the debate over the decentralization of political power and administration, Urban local bodies in India
PUBP314	CO4	PUBP314CO4	Analyze the structure and function of ULB of the city you grew up in. Construct an alternate model for your city governance
PUBP314	CO5	PUBP314CO5	Analyse and debate the inadequacies in the devolution of administrative and financial powers to ULBs, based on empirical studies.
PUBP314	CO6	PUBP314CO6	Understand the urban development challenges and analyze the challenges faced based on primary and secondary data
PUBP314	CO7	PUBP314CO7	Analyze few urban development policies and assess whether they have been successful in addressing urban development challenges
PUBP314	CO8	PUBP314CO8	Envision a futuristic sustainable city for India, and come up with a planning model to build such a city
PUBP314	CO9	PUBP314CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP314	CO10	PUBP314CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP314	CO11	PUBP314CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP314	CO12	PUBP314CO12	Demonstrate ability to work in a team effectively
SCLP101	CO1	SCLP101CO1	Clay modelling skill
SCLP101	CO2	SCLP101CO2	demonstrate aesthetics of visual language
SCLP101	CO3	SCLP101CO3	Creativity
SCLP101	CO4	SCLP101CO4	Ability to construct form of one's own thought
SCLP101	CO5	SCLP101CO5	Process of making Art
SCLP101	CO6	SCLP101CO6	Understanding art, its meaning and purpose
SCLP101	CO7	SCLP101CO7	Art History ; prehistoric to civilization
SCLP102	CO1	SCLP102CO1	Ceramics three techniques
SCLP102	CO2	SCLP102CO2	Paper mache
SCLP102	CO3	SCLP102CO3	Syporex block carving
SCLP102	CO4	SCLP102CO4	Assemblage
SCLP102	CO5	SCLP102CO5	Material and processes
SCLP102	CO6	SCLP102CO6	Art History
SCLP103	CO1	SCLP103CO1	Two color composition
SCLP103	CO2	SCLP103CO2	Foam Printing
SCLP103	CO3	SCLP103CO3	Collagraphy printing
SCLP103	CO4	SCLP103CO4	Woodcut printing
SCLP103	CO5	SCLP103CO5	Printing technique
SCLP103	CO6	SCLP103CO6	Printmaking and types
SCLP103	CO7	SCLP103CO7	Printmaking History
SCLP104	CO1	SCLP104CO1	Design
SCLP104	CO2	SCLP104CO2	Exposure
SCLP104	CO3	SCLP104CO3	Registration
SCLP104	CO4	SCLP104CO4	Composing colors
SCLP104	CO5	SCLP104CO5	Artists in screen Printing
SCLP104	CO6	SCLP104CO6	Theory; printing and types of techniques.
SCLP151	CO1	SCLP151CO1	Self expression
SCLP151	CO2	SCLP151CO2	Demonstration of aesthetics of visual language
SCLP151	CO3	SCLP151CO3	Experimentation
SCLP151	CO4	SCLP151CO4	Clay modelling

List of Course Outcomes for all courses A.Y. 2022-23

SCLP151	CO5	SCLP151CO5	assemblage
SCLP151	CO6	SCLP151CO6	composing components
SCLP151	CO7	SCLP151CO7	Indian art; ancient and contemporary
SNKT101	CO1	SNKT101CO1	Comprehend news -varta in Sanskrit, broadcast daily on AIR
SNKT101	CO2	SNKT101CO2	Introduce themselves and manage casual conversation in Sanskrit
SNKT101	CO3	SNKT101CO3	Recite the set Sanskrit passages and paraphrase and explain their meaning in English/Hindi
SNKT101	CO4	SNKT101CO4	Answer comprehension questions in Sanskrit set on selected passages of prose, and poetry
SOCY101	CO1	SOCY101CO1	Understand and discuss the basic concepts in sociology
SOCY101	CO2	SOCY101CO2	Describe the theoretical perspectives in sociology
SOCY101	CO3	SOCY101CO3	Identify and explain the basic research methods
SOCY101	CO4	SOCY101CO4	Extend the scientific principles to real social phenomena
SOCY101	CO5	SOCY101CO5	Explain the practical relevance of the discipline
SOCY101	CO6	SOCY101CO6	Explain the institutions, structures and stratification systems
SOCY152	CO1	SOCY152CO1	Understand the diverse nature of Indian society and its culture
SOCY152	CO2	SOCY152CO2	Understand the social structure of the Indian society
SOCY152	CO3	SOCY152CO3	Recognize the cultural patterns embedded within structure of Indian society
SOCY152	CO4	SOCY152CO4	Employ intercultural and multicultural understanding of Indian society
SOCY152	CO5	SOCY152CO5	Discuss issues of national integration and identity
SOCY152	CO6	SOCY152CO6	Identify various social and cultural forces impacting contemporary Indian society
SOCY152	CO7	SOCY152CO7	Explain the processes of social change and continuity in India
SOCY152	CO8	SOCY152CO8	Demonstrate the skill to read researched articles and reflect on them and Develop effective communication skills
SOCY154	CO1	SOCY154CO1	Recall theories and dominant perspectives in sociology of gender
SOCY154	CO2	SOCY154CO2	Analyze contemporary debates around gender and its link with sociological theories
SOCY154	CO3	SOCY154CO3	Identify the links between gender and social reproduction of inequalities across class, caste and religion
SOCY154	CO4	SOCY154CO4	Demonstrate informed perspectives on gender across multiple cultural contexts
SOCY154	CO5	SOCY154CO5	Examine queer rights, politics and activism in India
SOCY154	CO6	SOCY154CO6	Analyse how gender is appropriated by state, family in the production of patriarchal subjects
SOCY154	CO7	SOCY154CO7	Compare and contrast gender representations in global media
SOCY154	CO8	SOCY154CO8	Generate academic/policy material for professional meetings & publications
SOCY157	CO1	SOCY157CO1	Define the concept of social welfare and development
SOCY157	CO2	SOCY157CO2	Describe the evolution of welfare state and its importance
SOCY157	CO3	SOCY157CO3	Explain the relationship between the state, society, social welfare and development
SOCY157	CO4	SOCY157CO4	Discuss the spirit of the Indian Constitution from social welfare perspective
SOCY157	CO5	SOCY157CO5	Outline and explain the process of social legislation, execution and its limitations
SOCY157	CO6	SOCY157CO6	Understand the nature of the welfare state in India and challenges it faces
SOCY201	CO1	SOCY201CO1	Understand and discuss central concepts in sociological thought
SOCY201	CO2	SOCY201CO2	Understand and discuss arguments in sociological theory
SOCY201	CO3	SOCY201CO3	Describe and illustrate arguments in sociological theory
SOCY201	CO4	SOCY201CO4	Identify intersections and differences in different sociological explanations
SOCY201	CO5	SOCY201CO5	Examine intersections and differences in different sociological explanations
SOCY201	CO6	SOCY201CO6	Review their own perspective of looking at empirical realities by engaging in active readings and discussions
SOCY201	CO7	SOCY201CO7	Discover their own perspective of looking at empirical realities by engaging in active readings and discussions
SOCY201	CO8	SOCY201CO8	Apply the sociological tenets in theoretical frameworks to understanding the social world
SOCY201	CO9	SOCY201CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY201	CO10	SOCY201CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.

List of Course Outcomes for all courses A.Y. 2022-23

SOCY201	CO11	SOCY201CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY204	CO1	SOCY204CO1	discuss the emergence and evolution of social anthropology
SOCY204	CO2	SOCY204CO2	explain subject matter of social anthropology and describe its scope of study
SOCY204	CO3	SOCY204CO3	understand the work of major anthropological thinkers
SOCY204	CO4	SOCY204CO4	discuss selected anthropological methods and theoretical concepts
SOCY204	CO5	SOCY204CO5	locate the historicity of tribal societies in India
SOCY204	CO6	SOCY204CO6	demonstrate knowledge of anthropological work on gender and kinship
SOCY204	CO7	SOCY204CO7	discuss various constitutional provisions and their impact on tribal societies
SOCY204	CO8	SOCY204CO8	illustrate and evaluate challenges faced by tribal societies
SOCY204	CO9	SOCY204CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY204	CO10	SOCY204CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY204	CO11	SOCY204CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY206	CO1	SOCY206CO1	Understand and describe core sociological concepts and perspectives on families
SOCY206	CO2	SOCY206CO2	Discuss the historical evolution of families and their changing nature
SOCY206	CO3	SOCY206CO3	Apply theoretical perspectives examining families
SOCY206	CO4	SOCY206CO4	Examine critically the cultural factors influencing current families
SOCY206	CO5	SOCY206CO5	Understand and appreciate the variations in family forms
SOCY206	CO6	SOCY206CO6	Discuss and identify the trends and issues in marriage, divorce and remarriage
SOCY206	CO7	SOCY206CO7	Understand singlehood, LAT, cohabitation, polygamy, divorce in a marriage oriented society
SOCY206	CO8	SOCY206CO8	Examine the challenges to families in contemporary world
SOCY206	CO9	SOCY206CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY206	CO10	SOCY206CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY206	CO11	SOCY206CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY207	CO1	SOCY207CO1	Recall theories and dominant perspectives in sociology of gender
SOCY207	CO2	SOCY207CO2	Analyze contemporary debates around gender and its link with sociological theories
SOCY207	CO3	SOCY207CO3	Identify the links between gender and social reproduction of inequalities across class, caste and religion
SOCY207	CO4	SOCY207CO4	Demonstrate informed perspectives on gender across multiple cultural contexts
SOCY207	CO5	SOCY207CO5	Examine queer rights, politics and activism in India
SOCY207	CO6	SOCY207CO6	Analyse how gender is appropriated by state, family in the production of patriarchal subjects
SOCY207	CO7	SOCY207CO7	Compare and contrast gender representations in global media
SOCY207	CO8	SOCY207CO8	Generate academic/policy material for professional meetings & publications
SOCY207	CO9	SOCY207CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY207	CO10	SOCY207CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY207	CO11	SOCY207CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY208	CO1	SOCY208CO1	discuss the definition and elements of social structure
SOCY208	CO2	SOCY208CO2	compare various theoretical positions on social stratification
SOCY208	CO3	SOCY208CO3	demonstrate and apply knowledge of social status, power, and roles
SOCY208	CO4	SOCY208CO4	classify and contrast different occupations and class affiliations of the same
SOCY208	CO5	SOCY208CO5	examine the role of caste and race in social stratification
SOCY208	CO6	SOCY208CO6	explain and examine processes of alienation, deprivation, inequality and exclusion
SOCY208	CO7	SOCY208CO7	describe existing forms of oppression and exploitation
SOCY208	CO8	SOCY208CO8	examine processes of mobility and change in Indian society
SOCY208	CO9	SOCY208CO9	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

SOCY208	CO10	SOCY208CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY208	CO11	SOCY208CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY209	CO1	SOCY209CO1	demonstrate knowledge of modern sociological theories and discourses
SOCY209	CO2	SOCY209CO2	understand the role of major events and developments which influenced the advancements in sociological theory
SOCY209	CO3	SOCY209CO3	critically examine and explain conflicts between the grand theory and post-modernism
SOCY209	CO4	SOCY209CO4	outline structural changes in the institution and organisation of media
SOCY209	CO5	SOCY209CO5	explain the new world order and world systems
SOCY209	CO6	SOCY209CO6	discuss and interpret the cultural dynamics under globalisation and neo-liberalism
SOCY209	CO7	SOCY209CO7	relate and reflect on the theories of consumption and implications of consumeristic culture
SOCY209	CO8	SOCY209CO8	describe and illustrate different levels of social analysis
SOCY209	CO9	SOCY209CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY209	CO10	SOCY209CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY209	CO11	SOCY209CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY281	CO1	SOCY281CO1	Describe and distinguish various types of research studies - empirical, conceptual and review - that contributes to knowledge development
SOCY281	CO2	SOCY281CO2	Discuss a literature review in the social science area and identify how a research study is positioned with in extant theory in a discipline
SOCY281	CO3	SOCY281CO3	Design and carry out qualitative and quantitative research independently
SOCY281	CO4	SOCY281CO4	Acquire skills to write a research proposal and learn to carry out a research study independently
SOCY281	CO5	SOCY281CO5	Review and summarize the application, value and limits of a qualitative research study
SOCY281	CO6	SOCY281CO6	Identify which data collection and analysis tools are appropriate for answering particular questions and use at least one of them
SOCY281	CO7	SOCY281CO7	Explain the ethical and bias issues regarding conducting qualitative and quantitative research and describe its implications on research design
SOCY281	CO8	SOCY281CO8	Describe and distinguish various types of research studies - empirical, conceptual and review - that contributes to knowledge development
SOCY281	CO9	SOCY281CO9	Discuss a literature review in the social science area and identify how a research study is positioned with in extant theory in a discipline
SOCY281	CO10	SOCY281CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY281	CO11	SOCY281CO11	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY281	CO12	SOCY281CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY303	CO1	SOCY303CO1	Describe the key theoretical approaches to analysing the role of education in society
SOCY303	CO2	SOCY303CO2	Apply theoretical approaches to understand and analyse the contemporary scenario in education
SOCY303	CO3	SOCY303CO3	Illustrate the features of various types of education systems (i.e. elite, mass and universal) through an international perspective
SOCY303	CO4	SOCY303CO4	Outline and examine the forces shaping the educational environment, structures and outcomes
SOCY303	CO5	SOCY303CO5	Identify and explain the causative factors of inequalities in education
SOCY303	CO6	SOCY303CO6	Discuss structure, governance and organisation of school and higher education system
SOCY303	CO7	SOCY303CO7	Criticize and compare the historical and contemporary educational policies and transformations in India
SOCY303	CO8	SOCY303CO8	Identify and appraise the key policy and market developments shaping education and assess their implications at individual and societal levels
SOCY303	CO9	SOCY303CO9	Compare and analyse different provisions to access, finance and experience school and higher education
SOCY303	CO10	SOCY303CO10	Locate their own experiences in education within a sociological framework
SOCY303	CO11	SOCY303CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY303	CO12	SOCY303CO12	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY303	CO13	SOCY303CO13	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.

List of Course Outcomes for all courses A.Y. 2022-23

SOCY305	CO1	SOCY305CO1	Examine and analyze the social factors shaping artistic phenomena
SOCY305	CO2	SOCY305CO2	Appraise critically the sociological perspectives exploring artistic production
SOCY305	CO3	SOCY305CO3	Analyze artistic creation and its interplay with society
SOCY305	CO4	SOCY305CO4	Understand and explain social influence on creation and distribution of art
SOCY305	CO5	SOCY305CO5	Examine and explain the global influences on art and artists
SOCY305	CO6	SOCY305CO6	Recognize and relate the interplay between art and society based on audience studies
SOCY305	CO7	SOCY305CO7	Describe the influence of globalization on art
SOCY305	CO8	SOCY305CO8	Explain the influence of world of art on social change
SOCY305	CO9	SOCY305CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY305	CO10	SOCY305CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY305	CO11	SOCY305CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY310	CO1	SOCY310CO1	Describe 'social exclusion' and allied concepts along with their history and travel
SOCY310	CO2	SOCY310CO2	Discuss systemic marginalization in Indian society
SOCY310	CO3	SOCY310CO3	Show knowledge of various theories and frameworks of social exclusion
SOCY310	CO4	SOCY310CO4	Examine the issues and concerns of the structurally disadvantaged communities in India
SOCY310	CO5	SOCY310CO5	Outline the multidimensionality and polyphony of 'social exclusion' as a concept in relation to vulnerable groups including persons with disabilities, sexual and religious minorities etc.
SOCY310	CO6	SOCY310CO6	Argue the value and applicability of learnt concepts through a relevant research project
SOCY310	CO7	SOCY310CO7	Develop the ability to critically read and examine ongoing debates in Indian society
SOCY310	CO8	SOCY310CO8	Synthesize material from diverse sites to develop their own course syllabus at the end of the course
SOCY310	CO9	SOCY310CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY310	CO10	SOCY310CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY310	CO11	SOCY310CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY311	CO1	SOCY311CO1	Analyze contemporary debates around biosocial approach to global health
SOCY311	CO2	SOCY311CO2	Identify the links between health and social reproduction of inequalities across social class, sexuality and the body
SOCY311	CO3	SOCY311CO3	Demonstrate informed perspectives on health and wellbeing across multiple cultural contexts
SOCY311	CO4	SOCY311CO4	Examine the political economy of global health
SOCY311	CO5	SOCY311CO5	Analyse how health and suffering are inextricably linked with social institutions and power hierarchies
SOCY311	CO6	SOCY311CO6	Compare and contrast the North-South, South-South dimensions of medical ethics in global health practice
SOCY311	CO7	SOCY311CO7	Generate academic/policy material for professional meetings & publications
SOCY311	CO8	SOCY311CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY311	CO9	SOCY311CO9	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY311	CO10	SOCY311CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY312	CO1	SOCY312CO1	Recall theories and dominant perspectives in sociology of aging
SOCY312	CO2	SOCY312CO2	Analyze contemporary debates around aging and its link with sociological theories
SOCY312	CO3	SOCY312CO3	Identify the links between age and social reproduction of inequalities across social class, sexuality and the body
SOCY312	CO4	SOCY312CO4	Demonstrate informed perspectives on aging across multiple cultural contexts
SOCY312	CO5	SOCY312CO5	Examine the political economy of aging
SOCY312	CO6	SOCY312CO6	Analyse how age is inextricably linked with social institutions and power hierarchies
SOCY312	CO7	SOCY312CO7	Compare and contrast representations of aging in global media
SOCY312	CO8	SOCY312CO8	Generate academic/policy material for professional meetings & publications
SOCY312	CO9	SOCY312CO9	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

SOCY312	CO10	SOCY312CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY312	CO11	SOCY312CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY331	CO1	SOCY331CO1	Understand the relationship between economy and society
SOCY331	CO2	SOCY331CO2	Analyse the socio-cultural dynamics of economic activities
SOCY331	CO3	SOCY331CO3	Describe and locate the historical processes of economic development
SOCY331	CO4	SOCY331CO4	Identify major social contradictions of economic development
SOCY331	CO5	SOCY331CO5	Examine the embedded social relations and changes under different economic systems
SOCY331	CO6	SOCY331CO6	Explain the community development strategy of India
SOCY331	CO7	SOCY331CO7	Examine the interactive role between social and economic institutions
SOCY331	CO8	SOCY331CO8	Outline India's development experience
SOCY331	CO9	SOCY331CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY331	CO10	SOCY331CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY331	CO11	SOCY331CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY332	CO1	SOCY332CO1	understand the subject matter of rural sociology
SOCY332	CO2	SOCY332CO2	classify the rural in the global and national context
SOCY332	CO3	SOCY332CO3	critically examine and interpret different theoretical stand points on the rural society
SOCY332	CO4	SOCY332CO4	describe and categorise different types of occupations, professions and livelihoods found in the countryside
SOCY332	CO5	SOCY332CO5	understand and examine the role of rural institutions and local governance in rural development
SOCY332	CO6	SOCY332CO6	explain the rural and agrarian class structure
SOCY332	CO7	SOCY332CO7	examine the extent of rural distress, farmers' suicides and evaluate the causes
SOCY332	CO8	SOCY332CO8	create, design and develop small field studies and analyse the findings
SOCY332	CO9	SOCY332CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY332	CO10	SOCY332CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY332	CO11	SOCY332CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY333	CO1	SOCY333CO1	Understand the subject matter of urban sociology
SOCY333	CO2	SOCY333CO2	Appraise the important features of urban society
SOCY333	CO3	SOCY333CO3	Identify the changes that urbanization induces
SOCY333	CO4	SOCY333CO4	Explain the theories in urban sociology
SOCY333	CO5	SOCY333CO5	Explain the perspectives in urban sociology
SOCY333	CO6	SOCY333CO6	Appraise urbanization in the global context
SOCY333	CO7	SOCY333CO7	Examine critically the processes of social change in the urban
SOCY333	CO8	SOCY333CO8	Examine and explain the emerging issues and concerns of urbanization in India
SOCY333	CO9	SOCY333CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY333	CO10	SOCY333CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY333	CO11	SOCY333CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
STAT221	CO1	STAT221CO1	Distinguish between various types of data
STAT221	CO2	STAT221CO2	Describe data using summary measures and visualisation tools.
STAT221	CO3	STAT221CO3	Understand rudimentary mathematical properties of probability, identify random variables and recall properties of some important distributions.
STAT221	CO4	STAT221CO4	Explore and test assumptions about data
STAT221	CO5	STAT221CO5	Distinguish between causality and correlation and calculate appropriate correlation measures
STAT221	CO6	STAT221CO6	Calculate interval estimates for mean and proportion
STAT221	CO7	STAT221CO7	Construct hypothesis tests for mean and proportion for univariate and bivariate data
STAT221	CO8	STAT221CO8	Run linear regression models on bivariate data

List of Course Outcomes for all courses A.Y. 2022-23

STAT221	CO9	STAT221CO9	Understand and identify situations for application of some important General Linear Models
STAT221	CO10	STAT221CO10	Run ANOVA tests for comparing means
STAT221	CO11	STAT221CO11	Identify appropriate methods for analysing multivariate data
STAT221	CO12	STAT221CO12	Perform statistical analysis on the computer
STAT221	CO13	STAT221CO13	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
STAT221	CO14	STAT221CO14	Demonstrate knowledge of solving real-world problems
STAT221	CO15	STAT221CO15	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
STAT221	CO16	STAT221CO16	Demonstrate ability to work in a team effectively
THEA101	CO1	THEA101CO1	Understand elements of drama and theatre
THEA101	CO2	THEA101CO2	Recognize conventions of dramatic practices
THEA101	CO3	THEA101CO3	Identify connections between text and performance
THEA101	CO4	THEA101CO4	Express views on dramatic practices in writing
THEA101	CO5	THEA101CO5	Study important dramatic traditions in India and outside
THEA101	CO6	THEA101CO6	Learn to review a play
THEA102	CO1	THEA102CO1	Awareness about three tools of acting
THEA102	CO2	THEA102CO2	Understanding how to use the space
THEA102	CO3	THEA102CO3	Understanding how to build a play on a given topic
THEA102	CO4	THEA102CO4	Understanding the other components of theater
THEA103	CO1	THEA103CO1	Understanding one's voice
THEA103	CO2	THEA103CO2	Listening and understanding voices around us
THEA103	CO3	THEA103CO3	Understanding effective use of one's voice
THEA103	CO4	THEA103CO4	Working on one's pitch and volume
THEA103	CO5	THEA103CO5	Use of effective breath
THEA103	CO6	THEA103CO6	Effective use and understanding of resonators
THEA103	CO7	THEA103CO7	Working on the strength and stamina for effective use of voice
THEA103	CO8	THEA103CO8	To be able to speak comfortably
THEA103	CO9	THEA103CO9	Understanding the importance of doing the voice exercises consistently
THEA105	CO1	THEA105CO1	Awareness about one's speaking pattern
THEA105	CO2	THEA105CO2	Awareness about effective communication skills
THEA105	CO3	THEA105CO3	Command over languages and dialects
THEA105	CO4	THEA105CO4	Breath control for effective speaking
THEA105	CO5	THEA105CO5	Conveying of the content and emotions through speech to the audience
THEA105	CO6	THEA105CO6	Learn various exercises to overcome the obstacles while speaking
THEA201	CO1	THEA201CO1	Ability to create a scene based on the given text
THEA201	CO2	THEA201CO2	Ability to direct a scene from the given text
THEA201	CO3	THEA201CO3	Understanding styles of acting
THEA201	CO4	THEA201CO4	Ability to adjust oneself according to the style of acting
THEA201	CO5	THEA201CO5	Analysing one's own as well as other performances
THEA201	CO6	THEA201CO6	Understanding styles of acting
THEA201	CO7	THEA201CO7	Understanding how to use the other components of theater as per the varying styles (ex: lights, costumes, make-up, etc)
THEA201	CO8	THEA201CO8	Ability to rehearse for perfection
THEA201	CO9	THEA201CO9	Understanding the importance of group work
THEA203	CO1	THEA203CO1	Awareness about self
THEA203	CO2	THEA203CO2	Understanding how to change the dimensions of the space while acting
THEA203	CO3	THEA203CO3	Detailing in characterisation
THEA203	CO4	THEA203CO4	Understanding how to correlate with other on-stage actors.
THEA203	CO5	THEA203CO5	Understanding how to emote on stage
THEA203	CO6	THEA203CO6	Developing the attitude to observe and imitate while acting
THEA203	CO7	THEA203CO7	Developing the habit to rehearse

List of Course Outcomes for all courses A.Y. 2022-23

THEA203	CO8	THEA203CO8	Ability to self-assessment
THEA203	CO9	THEA203CO9	Ability to perform confidently
THEA204	CO1	THEA204CO1	Historical understanding of playwriting
THEA204	CO2	THEA204CO2	Introduction to major playwrights
THEA204	CO3	THEA204CO3	Understand different elements of a play
THEA204	CO4	THEA204CO4	Learn techniques of playwriting
THEA204	CO5	THEA204CO5	Apply playwriting techniques in building a play
THEA204	CO6	THEA204CO6	Create a play
THEA205	CO1	THEA205CO1	To know the process of the full play
THEA205	CO2	THEA205CO2	To know the directors approach,method while directing
THEA205	CO3	THEA205CO3	To be able to act in a full length play
THEA205	CO4	THEA205CO4	To work on the development of the character
THEA205	CO5	THEA205CO5	To learn to do backstage work along with acting onstage
THEA205	CO6	THEA205CO6	To work within the frame work given by the director
THEA205	CO7	THEA205CO7	To learn to focus on your work by avoiding distractions
THEA205	CO8	THEA205CO8	To be able to deliver the aim of the performance to the audience.
THEA205	CO9	THEA205CO9	To be able to take light and music cues for effective performance
THEA205	CO10	THEA205CO10	To know importance of rehearsals
THEA206	CO1	THEA206CO1	Discuss changing notions of Indianness
THEA206	CO2	THEA206CO2	Get historical understanding of theatre in India
THEA206	CO3	THEA206CO3	Build connections of socio-cultural changes and theatre practices
THEA206	CO4	THEA206CO4	Discussing different features of theatre evolved through years of the practice
THEA206	CO5	THEA206CO5	Analyse influence of western theatre on Indian theatre practices
THEA206	CO6	THEA206CO6	Analyse indian plays in terms of content and form
THEA303	CO1	THEA303CO1	Understanding the concept of solo
THEA303	CO2	THEA303CO2	Understanding how to create a solo piece
THEA303	CO3	THEA303CO3	Developing a theme for solo
THEA303	CO4	THEA303CO4	Developing a character for solo
THEA303	CO5	THEA303CO5	Learning techniques for writing a solo piece
THEA303	CO6	THEA303CO6	Learn to develop a performance on self-written text
THEA303	CO7	THEA303CO7	Analysing, appreciating and re-writing the self-written solo piece
THEA303	CO8	THEA303CO8	Analysing, encouraging and making creative suggestions for the text written by other batchmates
THEA303	CO9	THEA303CO9	Deciding the other technical components for the final performance
THEA303	CO10	THEA303CO10	Self- discipline for consistent rehearsals
THEA303	CO11	THEA303CO11	Critically analysing final self-solo performance
THEA303	CO12	THEA303CO12	Critically analysing solo performances performed by fellow colleagues
THEA305	CO1	THEA305CO1	To open one's mind to think differently within the framework given by the faculty
THEA305	CO2	THEA305CO2	To open up one's body to react appropriately while working with the group
THEA305	CO3	THEA305CO3	Using one's creativity to evolve new patterns/approach/attitude in theater
THEA305	CO4	THEA305CO4	Knowing the new processes of evolving any theatrical piece
THEA305	CO5	THEA305CO5	Breaking away the obvious concept/ideas/patterns,etc prevailing in theater
THEA305	CO6	THEA305CO6	Creatively and intellectually reacting to the space,set-prop,etc
THEA305	CO7	THEA305CO7	Ability to interpret the old text
THEA305	CO8	THEA305CO8	Learning the strength of collective efforts
THEA305	CO9	THEA305CO9	Learning to merge oneself with the group and contribute creatively to come up with innovative performances
THEA305	CO10	THEA305CO10	Learn to enjoy the process of evolving
URDU101	CO1	URDU101CO1	Students would be familiar with reading, conversing, and reciting Urdu prose and poetry with correct pronunciation and diction
URDU101	CO2	URDU101CO2	Students would acquire basic vocabulary in Urdu, and be able to write simple words, phrases, sentences, and paragraphs in Urdu with correct spelling and punctuation

List of Course Outcomes for all courses A.Y. 2022-23

URDU101	CO3	URDU101CO3	Students would be able to read, understand, appreciate, and translate simple Urdu texts – prose as well as poetry
URDU101	CO4	URDU101CO4	Students would be familiar with the various forms of Urdu poetry (e.g. Ghazal, Nazm, Geet etc.) and Urdu Prose (Short Stories, Essays, Letters, Dramas, etc.)
URDU101	CO5	URDU101CO5	Students would be able to understand, appreciate, and recite contemporary Urdu poetry popularized through Hindi movies, ghazal singers, soofi qawwaals and singers
URDU101	CO6	URDU101CO6	Students would be able to understand and recite Urdu prose through short stories and dialogues from dramas and movies
URDU102	CO1	URDU102CO1	Students would acquire Urdu vocabulary; and be able to read, write, and recite more sophisticated constructs of Urdu prose and poetry
URDU102	CO2	URDU102CO2	Students would be familiar with some popular Urdu idioms, phrases, and proverbs
URDU102	CO3	URDU102CO3	Students would be able to read, understand, recite, and appreciate selections from the representative poets of the age of metaphysical beginnings of Urdu poetry
URDU102	CO4	URDU102CO4	Students would be able to read, understand, recite, and appreciate selections from the representative poets of the age of enlightenment of Urdu poetry
URDU102	CO5	URDU102CO5	Students would be able to read, understand, recite, and appreciate selections from the representative poets of the age of romance and realism of Urdu poetry
URDU102	CO6	URDU102CO6	Students would be able to read, understand, recite, and appreciate selections from the representative poets of the age of advent of modernism of Urdu poetry
DESG102	CO1	DESG102CO1	Ceramics techniques, pinching, coiling and slab work
DESG102	CO2	DESG102CO2	paper mache
DESG102	CO3	DESG102CO3	POP carving
DESG102	CO4	DESG102CO4	creativity
DESG102	CO5	DESG102CO5	Skill
DESG102	CO6	DESG102CO6	Material and processes
DESG102	CO7	DESG102CO7	Art History, mapping the material stories.
DESG103	CO1	DESG103CO1	Understand, illustrate the anatomical features of letters, Various text and grid alignments
DESG103	CO2	DESG103CO2	Roman strokes and compositions
DESG103	CO3	DESG103CO3	Roman circular letter U/C, L/C
DESG103	CO4	DESG103CO4	Roman angular U/C, L/C
DESG103	CO5	DESG103CO5	Letters with extended strokes, compositions and calligraphy
DESG103	CO6	DESG103CO6	Devanagari akshar, techniques of writing, characteristics
DESG103	CO7	DESG103CO7	Techniques of using a cro-quil and sponge tool
DESG103	CO8	DESG103CO8	Hieroglyphs, origin and evolution of Roman and Devanagari letters
DESG103	CO9	DESG103CO9	Readings, reflections
DESG104	CO1	DESG104CO1	Sketch and illustrate with confidence
DESG104	CO2	DESG104CO2	Select appropriate tools, techniques and medium
DESG104	CO3	DESG104CO3	Reproduce expressive lines, Stylization and Structural lines
DESG104	CO4	DESG104CO4	Explorations with shapes, objects and natural forms Express ideas visually in 2D
DESG104	CO5	DESG104CO5	Explorations with letter forms. Express ideas visually in 2D
DESG104	CO6	DESG104CO6	Demonstrate one point perspective. Stylization and Structural lines
DESG104	CO7	DESG104CO7	Demonstrate two point perspective. Stylization and Structural lines
DESG104	CO8	DESG104CO8	Reflections on theory/research papers
DESG202	CO1	DESG202CO1	Sketching, drawing from the environment
DESG202	CO2	DESG202CO2	Visual representation and Story telling
DESG202	CO3	DESG202CO3	Illustrate using puns to generate ideas
DESG202	CO4	DESG202CO4	Illustrate using metaphors to generate ideas
DESG202	CO5	DESG202CO5	Illustrate visible and hidden structures
DESG202	CO6	DESG202CO6	Express with phrases
DESG202	CO7	DESG202CO7	Experiments and explorations with perceptions
DESG202	CO8	DESG202CO8	Sketching of objects in linear perspectives
DESG202	CO9	DESG202CO9	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG202	CO10	DESG202CO10	Demonstrate ability to work in a team effectively
DESG202	CO11	DESG202CO11	Demonstrate knowledge of current professional practices and trends

List of Course Outcomes for all courses A.Y. 2022-23

DESG202	CO12	DESG202CO12	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG203	CO1	DESG203CO1	Conceptualize thematic graphic representations with lines
DESG203	CO2	DESG203CO2	Conceptualize thematic graphic representations with shapes
DESG203	CO3	DESG203CO3	Conceptualize thematic graphic representations with colour and types
DESG203	CO4	DESG203CO4	Thematic representations with Types
DESG203	CO5	DESG203CO5	Create logos with meaning
DESG203	CO6	DESG203CO6	Create stationary design
DESG203	CO7	DESG203CO7	Single page layouts
DESG203	CO8	DESG203CO8	Build a conceptual frame-work to successfully present graphic ideas
DESG203	CO9	DESG203CO9	Macro-level history of Graphic Design
DESG203	CO10	DESG203CO10	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG203	CO11	DESG203CO11	Demonstrate ability to work in a team effectively
DESG203	CO12	DESG203CO12	Demonstrate knowledge of current professional practices and trends
DESG203	CO13	DESG203CO13	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG207	CO1	DESG207CO1	Understanding the colour wheel and colour theory, identify and explain color terminologies
DESG207	CO2	DESG207CO2	Distinguish and experiment with hues, values and intensity of colours
DESG207	CO3	DESG207CO3	Illustrate colours in association with the principles of design
DESG207	CO4	DESG207CO4	Practice and demonstrate colour interaction. Demonstrate , differentiate colour and time. Ability to illustrate colour symbolism.
DESG207	CO5	DESG207CO5	Recognize and illustrate fonts, font families and identify their application in design
DESG207	CO6	DESG207CO6	Practice and demonstrate interaction with text
DESG207	CO7	DESG207CO7	Practice and illustrate compositions with variation in grid
DESG207	CO8	DESG207CO8	Reflections on research papers and reading
DESG207	CO9	DESG207CO9	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG207	CO10	DESG207CO10	Demonstrate ability to work in a team effectively
DESG207	CO11	DESG207CO11	Demonstrate knowledge of current professional practices and trends
DESG207	CO12	DESG207CO12	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG208	CO1	DESG208CO1	Know and understand behaviour of different types of materials
DESG208	CO2	DESG208CO2	Know the usage of hand tools and safety measures
DESG208	CO3	DESG208CO3	Understand basic geometry and measurement
DESG208	CO4	DESG208CO4	Learn basic processes of marking, cutting, pasting, joining and finishing
DESG208	CO5	DESG208CO5	Develop perception of size, scale, proportion
DESG208	CO6	DESG208CO6	Practice and show sensitivity to dimensional and geometrical accuracy
DESG208	CO7	DESG208CO7	Demonstrate acquired hand skills of working with materials
DESG208	CO8	DESG208CO8	Demonstrate better hand and mind coordination
DESG208	CO9	DESG208CO9	Produce 3-Dimensional Forms by addition and subtraction processes
DESG208	CO10	DESG208CO10	Practice mock up model making
DESG208	CO11	DESG208CO11	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG208	CO12	DESG208CO12	Demonstrate ability to work in a team effectively
DESG208	CO13	DESG208CO13	Demonstrate knowledge of current professional practices and trends
DESG208	CO14	DESG208CO14	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG301	CO1	DESG301CO1	Ability to understand Design concepts
DESG301	CO2	DESG301CO2	classify and respond to find Design problems
DESG301	CO3	DESG301CO3	Summarize and define context of design
DESG301	CO4	DESG301CO4	Carry out ideation techniques
DESG301	CO5	DESG301CO5	Generate assets to communicate ideations effectively
DESG301	CO6	DESG301CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities

List of Course Outcomes for all courses A.Y. 2022-23

DESG301	CO7	DESG301CO7	Demonstrate ability to work in a team effectively
DESG301	CO8	DESG301CO8	Demonstrate knowledge of current professional practices and trends
DESG301	CO9	DESG301CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG303	CO1	DESG303CO1	Draw Inspiration from nature as form.
DESG303	CO2	DESG303CO2	Recognise the design principles demonstrated in the studied object
DESG303	CO3	DESG303CO3	Study the unique characteristics of the object
DESG303	CO4	DESG303CO4	Represent them through drawings and analytical sketches
DESG303	CO5	DESG303CO5	Identify systems of interdependency around a natural object
DESG303	CO6	DESG303CO6	Articulate the interdependent systems in mindmaps and other analytical structures
DESG303	CO7	DESG303CO7	Relate the studied systems to one that is man-made.
DESG303	CO8	DESG303CO8	Design a solution that brings value to the living experience, based on the learning from the nature study.
DESG303	CO9	DESG303CO9	Collaborate with stakeholders to address the feasibility of the proposed system.
DESG303	CO10	DESG303CO10	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG303	CO11	DESG303CO11	Demonstrate ability to work in a team effectively
DESG303	CO12	DESG303CO12	Demonstrate knowledge of current professional practices and trends
DESG303	CO13	DESG303CO13	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG305	CO1	DESG305CO1	Ability to generate insights from information
DESG305	CO2	DESG305CO2	Implement information for effective organisation
DESG305	CO3	DESG305CO3	Summarize information visually
DESG305	CO4	DESG305CO4	Assemble information for ideation
DESG305	CO5	DESG305CO5	Produce assets to communicate ideations
DESG305	CO6	DESG305CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG305	CO7	DESG305CO7	Demonstrate ability to work in a team effectively
DESG305	CO8	DESG305CO8	Demonstrate knowledge of current professional practices and trends
DESG305	CO9	DESG305CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG306	CO1	DESG306CO1	Student will be able distinguish and recognize subtle features of Typefaces.
DESG306	CO2	DESG306CO2	Student will be able recognize and summarize processes of copywriting and developing captions.
DESG306	CO3	DESG306CO3	Student will be able to recognize, Illustrate and predict the visible and hidden structures in the created or given Graphical Representations.
DESG306	CO4	DESG306CO4	Students will be able to carry out graphical representations of literary phrases.
DESG306	CO5	DESG306CO5	Students will be able to carry out Typographic Design ideas and Illustrate them.
DESG306	CO6	DESG306CO6	Students will be able to generate copy/ captions and carry out and Illustrate them.
DESG306	CO7	DESG306CO7	Students will be able to interpret created or given Graphics and Captions.
DESG306	CO8	DESG306CO8	Students will be able to clarify created or given Book/ Magazine Cover Design.
DESG306	CO9	DESG306CO9	Students will be able to explain and clarify about the created or given Posters.
DESG306	CO10	DESG306CO10	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG306	CO11	DESG306CO11	Demonstrate ability to work in a team effectively
DESG306	CO12	DESG306CO12	Demonstrate knowledge of current professional practices and trends
DESG306	CO13	DESG306CO13	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG307	CO1	DESG307CO1	Student will be able to clarify the subtle aspects of created or given sequential Visual expressions
DESG307	CO2	DESG307CO2	Student will be able to predict the Sequential structure of the created or given Narratives.
DESG307	CO3	DESG307CO3	Student will be able to summarize the Non-Linear Structure of the created or given Narrative.
DESG307	CO4	DESG307CO4	Student will be able to apply the knowledge of narrative thinking through Multiple Mediums
DESG307	CO5	DESG307CO5	Student will be able to carry out a small project on Interactive Narratives
DESG307	CO6	DESG307CO6	Student will be able to summarize the Sequential structure of the created or given Narratives.

List of Course Outcomes for all courses A.Y. 2022-23

DESG307	CO7	DESG307CO7	Student will be able to execute and carry out narrative ideas through Multiple Mediums
DESG307	CO8	DESG307CO8	Student will be able to clarify the Non-Linear Structure of the created or given Narrative.
DESG307	CO9	DESG307CO9	Student will be able to clarify the structure of the created or given Interactive Narrative.
DESG307	CO10	DESG307CO10	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG307	CO11	DESG307CO11	Demonstrate ability to work in a team effectively
DESG307	CO12	DESG307CO12	Demonstrate knowledge of current professional practices and trends
DESG307	CO13	DESG307CO13	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG308	CO1	DESG308CO1	Summarize and classify human centered design
DESG308	CO2	DESG308CO2	Identify intersects of man and machine
DESG308	CO3	DESG308CO3	Recognize and respond to interaction techniques
DESG308	CO4	DESG308CO4	Integrate interaction into ideated concepts
DESG308	CO5	DESG308CO5	Produce assets to communicate concepts
DESG308	CO6	DESG308CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG308	CO7	DESG308CO7	Demonstrate ability to work in a team effectively
DESG308	CO8	DESG308CO8	Demonstrate knowledge of current professional practices and trends
DESG308	CO9	DESG308CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DMAC101	CO1	DMAC101CO1	Understand digital marketing concepts
DMAC101	CO2	DMAC101CO2	Understand Digital marketing platforms
DMAC101	CO3	DMAC101CO3	Understand Overall digital strategy
DMAC101	CO4	DMAC101CO4	Content marketing & idea generation
DMAC101	CO5	DMAC101CO5	Understanding historical context of the internet & the future
DMAC201	CO1	DMAC201CO1	Describe the various digital marketing platforms available to marketers and how they can be used with the help of examples
DMAC201	CO2	DMAC201CO2	Explain digital marketing terminologies like CPC, CTR, Quality Score, Responsive Search Ads etc
DMAC201	CO3	DMAC201CO3	Explain how targeting is done on digital media
DMAC201	CO4	DMAC201CO4	Illustrate how search engines operate and the different ways in which a brand can leverage search
DMAC201	CO5	DMAC201CO5	Demonstrate a basic understanding of which platforms can be used by different kinds of brands or for different kinds of objectives by the same brand
DMAC201	CO6	DMAC201CO6	Prepare basic paid campaigns on Search, Display and social networks
DMAC201	CO7	DMAC201CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC201	CO8	DMAC201CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC201	CO9	DMAC201CO9	Demonstrate ability to work in a team effectively
DMAC201	CO10	DMAC201CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC202	CO1	DMAC202CO1	To understand and use different tools of search marketing for fulfilling the business objective
DMAC202	CO2	DMAC202CO2	To learn how search engines operate, how people interact with search engines and what are the basics of search engine friendly design and use this knowledge for attaining communication and business goals
DMAC202	CO3	DMAC202CO3	To use the knowledge of keyword auction for paid search engine to attain communication success.
DMAC202	CO4	DMAC202CO4	To use the display advertising for business, market, communication and business goals.
DMAC202	CO5	DMAC202CO5	To apply their knowledge of sem to analyse a brands performance with respect to search and display
DMAC202	CO6	DMAC202CO6	To use the knowledge to enhance the online presence by content management and integrating it to search engine optimization and marketing.
DMAC202	CO7	DMAC202CO7	To be able to chose a type of campaign on search and display network should be done basis the objectives of the brand
DMAC202	CO8	DMAC202CO8	To prepare media plan for search logically with the help of data that is available through various tools and to create search and display campaigns
DMAC202	CO9	DMAC202CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC202	CO10	DMAC202CO10	Demonstrate knowledge of relevant concepts and its application in employment settings

List of Course Outcomes for all courses A.Y. 2022-23

DMAC202	CO11	DMAC202CO11	Demonstrate ability to work in a team effectively
DMAC202	CO12	DMAC202CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC204	CO1	DMAC204CO1	Describe the various digital marketing platforms available to marketers and how they can be used with the help of examples
DMAC204	CO2	DMAC204CO2	Explain digital marketing terminologies like CPC, CTR, Quality Score, Responsive Search Ads etc
DMAC204	CO3	DMAC204CO3	Explain how targeting is done on digital media
DMAC204	CO4	DMAC204CO4	Illustrate how search engines operate and the different ways in which a brand can leverage search
DMAC204	CO5	DMAC204CO5	Demonstrate a basic understanding of which platforms can be used by different kinds of brands or for different kinds of objectives by the same brand
DMAC204	CO6	DMAC204CO6	Prepare basic paid campaigns on Search, Display and social networks
DMAC204	CO7	DMAC204CO7	Develop basic integrated digital marketing campaigns for different types of brands
DMAC204	CO8	DMAC204CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC204	CO9	DMAC204CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC204	CO10	DMAC204CO10	Demonstrate ability to work in a team effectively
DMAC204	CO11	DMAC204CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC221	CO1	DMAC221CO1	Confidence in Descriptive Statistics understanding and analysis
DMAC221	CO2	DMAC221CO2	Confidence in using python programming environment
DMAC221	CO3	DMAC221CO3	Understand Machine Learning Basics
DMAC221	CO4	DMAC221CO4	Understand Supervised Learning
DMAC221	CO5	DMAC221CO5	Understand UnSupervised Learning
DMAC221	CO6	DMAC221CO6	Comfortable with Predictive analytics to solve business problems
DMAC221	CO7	DMAC221CO7	Introduction to TensorFlow
DMAC221	CO8	DMAC221CO8	Comfortable with Cloud based Analytics Suites
DMAC221	CO9	DMAC221CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC221	CO10	DMAC221CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC221	CO11	DMAC221CO11	Demonstrate ability to work in a team effectively
DMAC221	CO12	DMAC221CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC222	CO1	DMAC222CO1	Creating analytics driven problem-solving approaches
DMAC222	CO2	DMAC222CO2	Using Python programming environment
DMAC222	CO3	DMAC222CO3	Create predictive models for forecasting
DMAC222	CO4	DMAC222CO4	Create predictive models for classification
DMAC222	CO5	DMAC222CO5	Understand Predictive analytics to analyse domain-specific datasets eg: e-commerce
DMAC222	CO6	DMAC222CO6	Use Cloud-based Analytics Suites : e.g.: Azure
DMAC222	CO7	DMAC222CO7	Plan solutions to data problems irrespective of industry domain
DMAC222	CO8	DMAC222CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC222	CO9	DMAC222CO9	Demonstrate knowledge of relevant concepts and their application in employment settings
DMAC222	CO10	DMAC222CO10	Demonstrate ability to work in a team effectively
DMAC222	CO11	DMAC222CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC281	CO1	DMAC281CO1	Identify marketing research problems
DMAC281	CO2	DMAC281CO2	Create Marketing Research Designs
DMAC281	CO3	DMAC281CO3	Identify methods and Tools for research designs
DMAC281	CO4	DMAC281CO4	Analyse data
DMAC281	CO5	DMAC281CO5	Report findings
DMAC281	CO6	DMAC281CO6	Synthesize marketing research and analytics for businesses
DMAC281	CO7	DMAC281CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC281	CO8	DMAC281CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC281	CO9	DMAC281CO9	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

DMAC281	CO10	DMAC281CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC302	CO1	DMAC302CO1	Development of social media and content calendar
DMAC302	CO2	DMAC302CO2	Understanding platforms in depth from user & marketer lens
DMAC302	CO3	DMAC302CO3	Development of customer journey
DMAC302	CO4	DMAC302CO4	Understanding social media & content trends
DMAC302	CO5	DMAC302CO5	Create paid media plan of various social media platforms
DMAC302	CO6	DMAC302CO6	Understanding various optimization techniques for execution of campaigns
DMAC302	CO7	DMAC302CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC302	CO8	DMAC302CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC302	CO9	DMAC302CO9	Demonstrate ability to work in a team effectively
DMAC302	CO10	DMAC302CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC303	CO1	DMAC303CO1	Create digital marketing goals from marketing goals
DMAC303	CO2	DMAC303CO2	Plan, implement and manage complete digital marketing campaigns for brands
DMAC303	CO3	DMAC303CO3	Create pre and post campaign reports
DMAC303	CO4	DMAC303CO4	Interpret website analytics reports
DMAC303	CO5	DMAC303CO5	Use platforms like Google Adwords, Google analytics, Google Search console
DMAC303	CO6	DMAC303CO6	Discover the reasons for poor performance of a search campaign by looking at performance dashboard
DMAC303	CO7	DMAC303CO7	Use Facebook Audience Insights and Facebook business manager and create campaigns on Facebook and Instagram
DMAC303	CO8	DMAC303CO8	Write recommendations to improve performance of the overall campaign by analysing the performance data
DMAC303	CO9	DMAC303CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC303	CO10	DMAC303CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC303	CO11	DMAC303CO11	Demonstrate ability to work in a team effectively
DMAC303	CO12	DMAC303CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC305	CO1	DMAC305CO1	Explain the nuances of how digital business differs from traditional businesses in terms of people, process and mindset
DMAC305	CO2	DMAC305CO2	Write a marketing plan for the e-commerce store
DMAC305	CO3	DMAC305CO3	Apply Business Model Canvas, Customer Development Process and Lean Startup Methodology frameworks to different digital businesses
DMAC305	CO4	DMAC305CO4	Explain the basics of agile methodology
DMAC305	CO5	DMAC305CO5	Explain the range of forces that are driving digital disruption
DMAC305	CO6	DMAC305CO6	Use the knowledge to launch a digital startup
DMAC305	CO7	DMAC305CO7	Demonstrate business mind-set
DMAC305	CO8	DMAC305CO8	Apply the knowledge to design a web store on SaaS platform
DMAC305	CO9	DMAC305CO9	Apply the knowledge to set up e-commerce organization
DMAC305	CO10	DMAC305CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC305	CO11	DMAC305CO11	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC305	CO12	DMAC305CO12	Demonstrate ability to work in a team effectively
DMAC305	CO13	DMAC305CO13	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC306	CO1	DMAC306CO1	Analyse Past and present trends
DMAC306	CO2	DMAC306CO2	Identify inflexion points
DMAC306	CO3	DMAC306CO3	Utilise digital futures frameworks for society
DMAC306	CO4	DMAC306CO4	Plan digital futures frameworks for self and career
DMAC306	CO5	DMAC306CO5	Compose digital futures frameworks for business
DMAC306	CO6	DMAC306CO6	Examine future trends and patterns
DMAC306	CO7	DMAC306CO7	Analyse Short, medium and long term prediction management
DMAC306	CO8	DMAC306CO8	Create usecases for digital futures
DMAC306	CO9	DMAC306CO9	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

DMAC306	CO10	DMAC306CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC306	CO11	DMAC306CO11	Demonstrate ability to work in a team effectively
DMAC306	CO12	DMAC306CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC308	CO1	DMAC308CO1	Outline user interfaces and evaluate them
DMAC308	CO2	DMAC308CO2	Develop an on point UX strategy
DMAC308	CO3	DMAC308CO3	Create customer journeys
DMAC308	CO4	DMAC308CO4	Construct appropriate information architecture and artefacts
DMAC308	CO5	DMAC308CO5	Plan and execute user research
DMAC308	CO6	DMAC308CO6	Apply user research into interface enhancements
DMAC308	CO7	DMAC308CO7	Apply user research into customer journey improvements
DMAC308	CO8	DMAC308CO8	Present developed user experience design
DMAC308	CO9	DMAC308CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC308	CO10	DMAC308CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC308	CO11	DMAC308CO11	Demonstrate ability to work in a team effectively
DMAC308	CO12	DMAC308CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC309	CO1	DMAC309CO1	Identify data sources and requirements in specific business applications
DMAC309	CO2	DMAC309CO2	Define relevant KPIs for specific marketing objectives
DMAC309	CO3	DMAC309CO3	Use analytics tools like Google Analytics to monitor performance and measure results
DMAC309	CO4	DMAC309CO4	Use site-analytics reports to find traffic and conversion opportunities
DMAC309	CO5	DMAC309CO5	Use Social Media Analytics reports to monitor campaign performance
DMAC309	CO6	DMAC309CO6	Create custom campaign reports using both social and web analytics data using google data studio
DMAC309	CO7	DMAC309CO7	Use attribution techniques to determine Marketing RoAS
DMAC309	CO8	DMAC309CO8	Build custom creative Visualizations for Real-World Data using MS Power BI
DMAC309	CO9	DMAC309CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC309	CO10	DMAC309CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC309	CO11	DMAC309CO11	Demonstrate ability to work in a team effectively
DMAC309	CO12	DMAC309CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC310	CO1	DMAC310CO1	Course Outcomes
DMAC310	CO2	DMAC310CO2	Understand the importance of creative thinking in their professional lives as managers, and how to harness it for creating interesting, memorable, and effective advertising.
DMAC310	CO3	DMAC310CO3	Be able to evolve a creative strategy for effective communication for a selected brand on digital media
DMAC310	CO4	DMAC310CO4	Be able to write a good Creative Brief, which leads to effective advertising.
DMAC310	CO5	DMAC310CO5	Be able to craft persuasive advertising copy for digital ads
DMAC310	CO6	DMAC310CO6	Be able to use interesting and relevant visuals in communication, and how to apply them effectively in digital advertising.
DMAC310	CO7	DMAC310CO7	Be able to evaluate or judge creative ideas and advertising campaigns, based on objective factors.
DMAC310	CO8	DMAC310CO8	Write content for Web
DMAC310	CO9	DMAC310CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC310	CO10	DMAC310CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC310	CO11	DMAC310CO11	Demonstrate ability to work in a team effectively
DMAC310	CO12	DMAC310CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC311	CO1	DMAC311CO1	Development of digital strategy to meet the communication objectives
DMAC311	CO2	DMAC311CO2	Introduction to media channels from user & marketer lens
DMAC311	CO3	DMAC311CO3	Development of customer journey post consumer research
DMAC311	CO4	DMAC311CO4	Understanding the nuances of industry from digital strategy perspective
DMAC311	CO5	DMAC311CO5	Understanding various techniques and tools to be used for designing digital strategy
DMAC311	CO6	DMAC311CO6	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

DMAC311	CO7	DMAC311CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC311	CO8	DMAC311CO8	Demonstrate ability to work in a team effectively
DMAC311	CO9	DMAC311CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC312	CO1	DMAC312CO1	Use data to improve the efficiency and effectiveness of your marketing programmes
DMAC312	CO2	DMAC312CO2	Understand the metrics to evaluate your marketing performance
DMAC312	CO3	DMAC312CO3	Use data for predictive decision making and to determine the value of your customers
DMAC312	CO4	DMAC312CO4	Implement a test programme to improve campaign performance
DMAC312	CO5	DMAC312CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC312	CO6	DMAC312CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC312	CO7	DMAC312CO7	Demonstrate ability to work in a team effectively
DMAC312	CO8	DMAC312CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR203	CO1	ADBR203CO1	Understand key terms in cultural and media theory as they relate to consumer culture and advertising.
ADBR203	CO2	ADBR203CO2	Develop and gain a critical perspective on the power of advertising
ADBR203	CO3	ADBR203CO3	Identify the ways pervasive advertising and consumer culture affect social identity.
ADBR203	CO4	ADBR203CO4	Analyze how advertising creates and affects meaning using approaches from media theory and cultural studies.
ADBR203	CO5	ADBR203CO5	Examine and evaluate advertisements and their fine print; issues related to representation, identity, and inequality.
ADBR203	CO6	ADBR203CO6	Identify the social implications of consumerism and advertising as an economic and cultural force.
ADBR203	CO7	ADBR203CO7	Extend the ability to become culturally sensitive media industry professionals.
ADBR203	CO8	ADBR203CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR203	CO9	ADBR203CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR203	CO10	ADBR203CO10	Demonstrate ability to work in a team effectively
ADBR203	CO11	ADBR203CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR308	CO1	ADBR308CO1	Students must be able to understand the importance of personal selling and business development
ADBR308	CO2	ADBR308CO2	Compare and contrast various approaches techniques of selling
ADBR308	CO3	ADBR308CO3	Learn about the types and techniques of training the sales staff
ADBR308	CO4	ADBR308CO4	Create sales promotion strategies for products/services
ADBR308	CO5	ADBR308CO5	Appraise the significant characteristics of effective salespeople.
ADBR308	CO6	ADBR308CO6	Develop motivation strategies for the sales force.
ADBR308	CO7	ADBR308CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR308	CO8	ADBR308CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR308	CO9	ADBR308CO9	Demonstrate ability to work in a team effectively
ADBR308	CO10	ADBR308CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR309	CO1	ADBR309CO1	Describe fundamental concepts of Luxury products businesses
ADBR309	CO2	ADBR309CO2	Examine consumer trends and identify consumer target groups for luxury products/services
ADBR309	CO3	ADBR309CO3	Compare and Contrast marketing mix strategies for various luxury brands
ADBR309	CO4	ADBR309CO4	Design the marketing mix for luxury products/services
ADBR309	CO5	ADBR309CO5	Describe the connection between luxury, individual and society
ADBR309	CO6	ADBR309CO6	Relate luxury markets in emerging economies
ADBR309	CO7	ADBR309CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR309	CO8	ADBR309CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR309	CO9	ADBR309CO9	Demonstrate ability to work in a team effectively
ADBR309	CO10	ADBR309CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
COMS304	CO1	COMS304CO1	Use OB concepts to explain the underlying factors driving behavior of individuals.
COMS304	CO2	COMS304CO2	Predict the factors that may impact group and team effectiveness.

List of Course Outcomes for all courses A.Y. 2022-23

COMS304	CO3	COMS304CO3	Explain the decision making process at individual and group level.
COMS304	CO4	COMS304CO4	Describe the characteristics of organizational structure and how they impact behavior.
COMS304	CO5	COMS304CO5	Explain the role of HRM in achieving organizational strategy.
COMS304	CO6	COMS304CO6	Map the distinguishing features of performance management
COMS304	CO7	COMS304CO7	Prepare a performance management plan
COMS304	CO8	COMS304CO8	Discuss the importance of employee relations
COMS304	CO9	COMS304CO9	Discuss the recruitment, selection and training process
COMS304	CO10	COMS304CO10	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
COMS304	CO11	COMS304CO11	Demonstrate ability to work in a team effectively
COMS304	CO12	COMS304CO12	Demonstrate knowledge of current professional practices and trends
COMS304	CO13	COMS304CO13	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
CSIT203	CO1	CSIT203CO1	Understand issues in creating abstractions from raw machine interfaces
CSIT203	CO2	CSIT203CO2	Understand virtualization of memory
CSIT203	CO3	CSIT203CO3	Understand virtualization of storage and interaction with memory
CSIT203	CO4	CSIT203CO4	Understand device virtualization
CSIT203	CO5	CSIT203CO5	Use techniques for programming shared memory systems
CSIT203	CO6	CSIT203CO6	Understand tradeoff in schedulers
CSIT203	CO7	CSIT203CO7	Understand difficulties around security and simplicity
CSIT203	CO8	CSIT203CO8	Understand how OS evolved and their future in the cloud
CSIT203	CO9	CSIT203CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT203	CO10	CSIT203CO10	Demonstrate knowledge of solving real-world problems
CSIT203	CO11	CSIT203CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT203	CO12	CSIT203CO12	Demonstrate ability to work in a team effectively
CSIT221	CO1	CSIT221CO1	Understand the principles of logic gates
CSIT221	CO2	CSIT221CO2	Remember basic Boolean Algebra operations
CSIT221	CO3	CSIT221CO3	Understand the operations of simple combinational circuits
CSIT221	CO4	CSIT221CO4	Understand the functioning of digital components such as decoders and multiplexers
CSIT221	CO5	CSIT221CO5	Understand the design and operation of registers and counters and their application in digital data operations
CSIT221	CO6	CSIT221CO6	Understand stack and register organization in CPUs and analyze their importance in computer organization
CSIT221	CO7	CSIT221CO7	Recall various classes of instruction formats
CSIT221	CO8	CSIT221CO8	Identify various components of computer memory and their special characteristics
CSIT221	CO9	CSIT221CO9	Understand basic concepts of operating systems
CSIT221	CO10	CSIT221CO10	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT221	CO11	CSIT221CO11	Demonstrate knowledge of solving real-world problems
CSIT221	CO12	CSIT221CO12	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT221	CO13	CSIT221CO13	Demonstrate ability to work in a team effectively
CSIT303	CO1	CSIT303CO1	Understand basic design principles of computer security
CSIT303	CO2	CSIT303CO2	Understand major components of network security
CSIT303	CO3	CSIT303CO3	Understand basic concepts of cryptography and apply them in a sandbox environment
CSIT303	CO4	CSIT303CO4	Understand the principles of secure authentication systems
CSIT303	CO5	CSIT303CO5	Apply principles of computer security to avert malicious attacks and threats to web based systems
CSIT303	CO6	CSIT303CO6	Evaluate computer applications based on their understanding of principles of computer security
CSIT303	CO7	CSIT303CO7	Recall major web protocols and certifications relevant to web security
CSIT303	CO8	CSIT303CO8	Illustrate their understanding of security principles through practical development of secure systems
CSIT303	CO9	CSIT303CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

CSIT303	CO10	CSIT303CO10	Demonstrate knowledge of solving real-world problems
CSIT303	CO11	CSIT303CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT303	CO12	CSIT303CO12	Demonstrate ability to work in a team effectively
CSIT323	CO1	CSIT323CO1	Understand issues in creating networked programs
CSIT323	CO2	CSIT323CO2	Understand identity and security on the web
CSIT323	CO3	CSIT323CO3	Understand the browser programming model
CSIT323	CO4	CSIT323CO4	Use browser programming tools
CSIT323	CO5	CSIT323CO5	Understand server browser interactions with multi user issues
CSIT323	CO6	CSIT323CO6	Use server programming tools including databases
CSIT323	CO7	CSIT323CO7	Understand long term application maintenance issues
CSIT323	CO8	CSIT323CO8	Understand and apply device programming basics
CSIT323	CO9	CSIT323CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT323	CO10	CSIT323CO10	Demonstrate knowledge of solving real-world problems
CSIT323	CO11	CSIT323CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT323	CO12	CSIT323CO12	Demonstrate ability to work in a team effectively
HRMS211	CO1	HRMS211CO1	Discuss the purpose of HRM in organisational context
HRMS211	CO2	HRMS211CO2	Explain the role of HRM in achieving organizational strategy.
HRMS211	CO3	HRMS211CO3	Describe the HR planning process
HRMS211	CO4	HRMS211CO4	Discuss the utility of Job Analysis for HRM functions
HRMS211	CO5	HRMS211CO5	Illustrate the recruitment and selection process
HRMS211	CO6	HRMS211CO6	Give examples of employee selection tests
HRMS211	CO7	HRMS211CO7	Choose a training method considering effectiveness in achieving objectives
HRMS211	CO8	HRMS211CO8	Prepare a training session plan
HRMS211	CO9	HRMS211CO9	Illustrate employee performance management process
HRMS211	CO10	HRMS211CO10	Discuss the importance of employee relations
HRMS211	CO11	HRMS211CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS211	CO12	HRMS211CO12	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS211	CO13	HRMS211CO13	Demonstrate ability to work in a team effectively
HRMS211	CO14	HRMS211CO14	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS302	CO1	HRMS302CO1	Recognize the strategic importance of HR function
HRMS302	CO2	HRMS302CO2	Interpret the external and internal conditions for HR policy
HRMS302	CO3	HRMS302CO3	Apply the concept of job analysis for staffing process
HRMS302	CO4	HRMS302CO4	Demonstrate the ability to create a basic HR plan
HRMS302	CO5	HRMS302CO5	Distinguish the effective recruitment practices
HRMS302	CO6	HRMS302CO6	Select the right selection techniques and apply them
HRMS302	CO7	HRMS302CO7	Integrate all components of staffing function together
HRMS302	CO8	HRMS302CO8	Apply competency-based HR practices in staffing
HRMS302	CO9	HRMS302CO9	Demonstrate the ability to link staffing with other HR functions
HRMS302	CO10	HRMS302CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS302	CO11	HRMS302CO11	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS302	CO12	HRMS302CO12	Demonstrate ability to work in a team effectively
HRMS302	CO13	HRMS302CO13	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS341	CO1	HRMS341CO1	Discuss the basics of negotiation
HRMS341	CO2	HRMS341CO2	Explain different kinds of negotiation
HRMS341	CO3	HRMS341CO3	Describe techniques of negotiation
HRMS341	CO4	HRMS341CO4	Interpret contexts of negotiation

List of Course Outcomes for all courses A.Y. 2022-23

HRMS341	CO5	HRMS341CO5	Describe skills of negotiation
HRMS341	CO6	HRMS341CO6	Interpreting use of negotiation for conflict management
HRMS341	CO7	HRMS341CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS341	CO8	HRMS341CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS341	CO9	HRMS341CO9	Demonstrate ability to work in a team effectively
HRMS341	CO10	HRMS341CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
INRS204	CO1	INRS204CO1	Recall the key points of the theories discussed in class.
INRS204	CO2	INRS204CO2	Summarize the differences among the theoretical perspectives discussed in class w.r.t. IOs.
INRS204	CO3	INRS204CO3	Apply a theoretical perspective on a current issue of global importance.
INRS204	CO4	INRS204CO4	Recognize the role played by IOs in international politics.
INRS204	CO5	INRS204CO5	Explain the similarities and differences between global and regional organizations.
INRS204	CO6	INRS204CO6	Discuss India's position in key international organizations.
INRS204	CO7	INRS204CO7	Create a list of international organizations in which India takes an active role.
INRS204	CO8	INRS204CO8	Evaluate the role played by IOs in the management of international conflict.
INRS204	CO9	INRS204CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS204	CO10	INRS204CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS204	CO11	INRS204CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS204	CO12	INRS204CO12	Demonstrate ability to work in a team effectively
ORGB201	CO1	ORGB201CO1	Use OB concepts to explain the underlying factors driving behavior of individuals.
ORGB201	CO2	ORGB201CO2	Explain the factors that impact individual behavior
ORGB201	CO3	ORGB201CO3	Explain the role of personality, perception, learning, motivation, attitudes in determining behavior
ORGB201	CO4	ORGB201CO4	Explain the role of values, ethics, stress and well being in determining behavior
ORGB201	CO5	ORGB201CO5	Predict the factors that may impact group and team effectiveness.
ORGB201	CO6	ORGB201CO6	Explain the decision making process at individual and group level.
ORGB201	CO7	ORGB201CO7	Explain management of conflict at the interpersonal level
ORGB201	CO8	ORGB201CO8	Describe the characteristics of organizational structure and how they impact behavior.
ORGB201	CO9	ORGB201CO9	Discuss the relevance of organizational culture and change process.
ORGB201	CO10	ORGB201CO10	Discuss the importance of organizational change
ORGB201	CO11	ORGB201CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
ORGB201	CO12	ORGB201CO12	Demonstrate knowledge of relevant concepts and how this applies in employment settings
ORGB201	CO13	ORGB201CO13	Demonstrate ability to work in a team effectively
ORGB201	CO14	ORGB201CO14	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
PHOT101	CO1	PHOT101CO1	Handling camera correctly
PHOT101	CO2	PHOT101CO2	Understanding "Camera Vision"
PHOT101	CO3	PHOT101CO3	Working in Manual Mode
PHOT101	CO4	PHOT101CO4	Understanding "Spaces"
PHOT101	CO5	PHOT101CO5	Understanding Light
PHOT101	CO6	PHOT101CO6	Knowing Composition
PHOT101	CO7	PHOT101CO7	Ethical Post-processing
PHOT101	CO8	PHOT101CO8	Story telling through photos
DESG105	CO1	DESG105CO1	Understand the concept of Design Thinking
DESG105	CO2	DESG105CO2	Appreciate the role of Qualitative research in Design Thinking
DESG105	CO3	DESG105CO3	Understand the process of Design Thinking
DESG105	CO4	DESG105CO4	Demonstrate the methods, processes and tools used in Design Thinking
DESG105	CO5	DESG105CO5	Apply Design Thinking in various Business situations

List of Course Outcomes for all courses A.Y. 2022-23

JRLM610	CO1	JRLM610CO1	Explain the purpose of law and ethics in society
JRLM610	CO2	JRLM610CO2	Interpret the important theories of ethics
JRLM610	CO3	JRLM610CO3	Understand the purpose of media regulation in society
JRLM610	CO4	JRLM610CO4	Describe the essential media laws in India
JRLM610	CO5	JRLM610CO5	Acquainted the Journalistic code of conduct
DAPG101	CO1	DAPG101CO1	Learn about the organization - its philosophy, structure, functions, activities and its resource base
DAPG101	CO2	DAPG101CO2	Comprehend, internalize and make a commitment to basic humanistic values and principles of liberal education in a secular, democratic society
DAPG101	CO3	DAPG101CO3	Analyze structural issues from the viewpoint of the underprivileged, marginalized and vulnerable sections
DAPG101	CO4	DAPG101CO4	Identify areas and stakeholders for intervention with reference to specific issues
DAPG101	CO5	DAPG101CO5	Acquire self-awareness and sensitization necessary to assess one's own attitudes and values
DAPG101	CO6	DAPG101CO6	Recognize structural and social processes that shape individual, social and institutional relations
DAPG101	CO7	DAPG101CO7	Examine concepts and think critically about classroom learning and field of practice
DESG121	CO1	DESG121CO1	Do both block based and text-based programming constructs
DESG121	CO2	DESG121CO2	Employ HTML and CSS to create websites
DESG121	CO3	DESG121CO3	Introduce Internet of Things through hands on projects.
DESG121	CO4	DESG121CO4	Introduce Internet of Things through hands on projects.
CSIT202	CO1	CSIT202CO1	To develop typeful thinking
CSIT202	CO2	CSIT202CO2	To understand and apply Discrete structures as data models
CSIT202	CO3	CSIT202CO3	To analyse and create models for problems as pure functional programs
CSIT202	CO4	CSIT202CO4	To model problems with Abstract Data Types
CSIT202	CO5	CSIT202CO5	To recognise and create State transforming code
CSIT202	CO6	CSIT202CO6	The ability to evaluate mutating and pure data and program with mutual conversions and transformations
CSIT202	CO7	CSIT202CO7	To recognise and evaluate the suitability of the 2 paradigms: OOP and FP
CSIT202	CO8	CSIT202CO8	To do mixed programming effectively
CSIT202	CO9	CSIT202CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT202	CO10	CSIT202CO10	Demonstrate knowledge of solving real-world problems
CSIT202	CO11	CSIT202CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT202	CO12	CSIT202CO12	Demonstrate ability to work in a team effectively
CSIT204	CO1	CSIT204CO1	Ability to recognise and construct automata and express them in an equivalent language
CSIT204	CO2	CSIT204CO2	Establishing the relation between an automaton and the language set it expresses
CSIT204	CO3	CSIT204CO3	Analysing the computational limit of a problem and evaluating its programmability
CSIT204	CO4	CSIT204CO4	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT204	CO5	CSIT204CO5	Demonstrate knowledge of solving real-world problems
CSIT204	CO6	CSIT204CO6	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT204	CO7	CSIT204CO7	Demonstrate ability to work in a team effectively
CSIT222	CO1	CSIT222CO1	Understand and explain why databases matter, and how to apply them in particular contexts
CSIT222	CO2	CSIT222CO2	Understand and demonstrate basic familiarity with relational database design
CSIT222	CO3	CSIT222CO3	Understand the need for ad-hoc data collections and nosql data designs in certain applications
CSIT222	CO4	CSIT222CO4	Analyse small scale problems and apply database designs to solve them
CSIT222	CO5	CSIT222CO5	Understand the role of indexing and apply it to designs
CSIT222	CO6	CSIT222CO6	Use standard database engines and tools to analyse performance
CSIT222	CO7	CSIT222CO7	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT222	CO8	CSIT222CO8	Demonstrate knowledge of solving real-world problems
CSIT222	CO9	CSIT222CO9	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.

List of Course Outcomes for all courses A.Y. 2022-23

CSIT222	CO10	CSIT222CO10	Demonstrate ability to work in a team effectively
CSIT301	CO1	CSIT301CO1	Explain Divide and Conquer, Greedy and Dynamic programming paradigms and recite algorithms that employ these techniques
CSIT301	CO2	CSIT301CO2	Explain and implement sorting and searching algorithms
CSIT301	CO3	CSIT301CO3	Understand various types of algorithm complexity and how to analyse these
CSIT301	CO4	CSIT301CO4	Analyse complexity of sort and search algorithms based on running time and spatial complexity
CSIT301	CO5	CSIT301CO5	Distinguish worst-case, best-case, amortised analysis and evaluate which one is more useful in a given context
CSIT301	CO6	CSIT301CO6	Explain, implement and analyse algorithms for decision trees and balanced trees
CSIT301	CO7	CSIT301CO7	Explain, implement and analyse simple graph algorithms
CSIT301	CO8	CSIT301CO8	For given context, design solution based on evaluation of various data structures and algorithms
CSIT301	CO9	CSIT301CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT301	CO10	CSIT301CO10	Demonstrate knowledge of solving real-world problems
CSIT301	CO11	CSIT301CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT301	CO12	CSIT301CO12	Demonstrate ability to work in a team effectively
CSIT302	CO1	CSIT302CO1	To study options and make an intentional choice of a programming language for an application.
CSIT302	CO2	CSIT302CO2	To improve ones ability to learn and implement artifacts in a new programming language
CSIT302	CO3	CSIT302CO3	To measure cost Vs efficacy of programming language features
CSIT302	CO4	CSIT302CO4	To analyse the relation between programming language feature and implementation cost
CSIT302	CO5	CSIT302CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT302	CO6	CSIT302CO6	Demonstrate knowledge of solving real-world problems
CSIT302	CO7	CSIT302CO7	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT302	CO8	CSIT302CO8	Demonstrate ability to work in a team effectively
CSIT304	CO1	CSIT304CO1	Understand the fundamental problems in graphics and how to apply mathematical tools to resolve them
CSIT304	CO2	CSIT304CO2	Apply 2D geometry techniques to analyse graphics algorithms
CSIT304	CO3	CSIT304CO3	Create 2D graphical objects using fundamental mathematical techniques; analyse and evaluate available libraries for the same
CSIT304	CO4	CSIT304CO4	Understand and apply various colour systems in computer graphics
CSIT304	CO5	CSIT304CO5	Apply 3D geometric techniques to analyse graphics algorithms
CSIT304	CO6	CSIT304CO6	Analyse and evaluate available 3D libraries and apply them to create new 3D scenes
CSIT304	CO7	CSIT304CO7	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT304	CO8	CSIT304CO8	Demonstrate knowledge of solving real-world problems
CSIT304	CO9	CSIT304CO9	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT304	CO10	CSIT304CO10	Demonstrate ability to work in a team effectively
CSIT321	CO1	CSIT321CO1	Understand the basic structure of DNS and Packet routing
CSIT321	CO2	CSIT321CO2	Apply model checkers to model and debug distributed protocols
CSIT321	CO3	CSIT321CO3	Understand key issues raised by failures in distributed systems.
CSIT321	CO4	CSIT321CO4	Apply key elements of distributed algorithms such as failure detectors, termination detectors
CSIT321	CO5	CSIT321CO5	Analyse and evaluate practical distributed systems such as DHTs
CSIT321	CO6	CSIT321CO6	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT321	CO7	CSIT321CO7	Demonstrate knowledge of solving real-world problems
CSIT321	CO8	CSIT321CO8	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT321	CO9	CSIT321CO9	Demonstrate ability to work in a team effectively
CSIT322	CO1	CSIT322CO1	Understand the concepts of UI and UX and their scope of application
CSIT322	CO2	CSIT322CO2	Learn how to apply the design cycle and analyse any design problem
CSIT322	CO3	CSIT322CO3	Apply basic research tools and analyse the data

List of Course Outcomes for all courses A.Y. 2022-23

CSIT322	CO4	CSIT322CO4	Evaluate the data collected and generate themes for design
CSIT322	CO5	CSIT322CO5	Create prototypes and learn to evaluate them
CSIT322	CO6	CSIT322CO6	Understand and apply the principles of iterative design
CSIT322	CO7	CSIT322CO7	Apply HCI principles to analyse design problems and evaluate solutions
CSIT322	CO8	CSIT322CO8	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT322	CO9	CSIT322CO9	Demonstrate knowledge of solving real-world problems
CSIT322	CO10	CSIT322CO10	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT322	CO11	CSIT322CO11	Demonstrate ability to work in a team effectively
CSIT332	CO1	CSIT332CO1	Analyse and interpret different data handling techniques
CSIT332	CO2	CSIT332CO2	Implement methods to add value to data by converting it to information and knowledge
CSIT332	CO3	CSIT332CO3	Recognize and solve Different Unsupervised Learn Techniques
CSIT332	CO4	CSIT332CO4	Analyse and test various Supervised Learning Techniques
CSIT332	CO5	CSIT332CO5	Interpret, compare and contrast various algorithm performance measures
CSIT332	CO6	CSIT332CO6	Compare and evaluate different Neural Network Architectures
CSIT332	CO7	CSIT332CO7	Implement programs for informative attribute selection and dimensionality reduction
CSIT332	CO8	CSIT332CO8	Simulate various real life problems from concept to final solution
CSIT332	CO9	CSIT332CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT332	CO10	CSIT332CO10	Demonstrate knowledge of solving real-world problems
CSIT332	CO11	CSIT332CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT332	CO12	CSIT332CO12	Demonstrate ability to work in a team effectively
CSIT333	CO1	CSIT333CO1	Broadly understand the field of natural language processing.
CSIT333	CO2	CSIT333CO2	Outline and illustrate NLP in analysing social media
CSIT333	CO3	CSIT333CO3	Understand and analyse the text preprocessing methods
CSIT333	CO4	CSIT333CO4	Be able to Design, implement and test text-mining algorithms
CSIT333	CO5	CSIT333CO5	Demonstrate use of part of speech tagging and apply to real-life case studies
CSIT333	CO6	CSIT333CO6	Analyse topic models, predict topics from topic models and apply for text classification tasks
CSIT333	CO7	CSIT333CO7	Apply sentiment analysis to social media problems, design and develop solutions
CSIT333	CO8	CSIT333CO8	Design real life NLP problems from concept to final solution
CSIT333	CO9	CSIT333CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT333	CO10	CSIT333CO10	Demonstrate knowledge of solving real-world problems
CSIT333	CO11	CSIT333CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT333	CO12	CSIT333CO12	Demonstrate ability to work in a team effectively
CSIT371	CO1	CSIT371CO1	Develop a mathematical ability to evaluate, analyse and estimate algorithmic resources
CSIT371	CO2	CSIT371CO2	Craft efficient algorithms to solve Real problems having complex, large scale data
CSIT371	CO3	CSIT371CO3	Construct a reasoning sequence to prove correctness of algorithms
CSIT371	CO4	CSIT371CO4	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT371	CO5	CSIT371CO5	Demonstrate knowledge of solving real-world problems
CSIT371	CO6	CSIT371CO6	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT371	CO7	CSIT371CO7	Demonstrate ability to work in a team effectively
CSIT372	CO1	CSIT372CO1	Understand the basic issues such as the CAP theorem
CSIT372	CO2	CSIT372CO2	Familiarity with a real systems such as Spark
CSIT372	CO3	CSIT372CO3	Understand the issues in non relational systems
CSIT372	CO4	CSIT372CO4	Apply knowledge of data systems to create design sketches of popular services
CSIT372	CO5	CSIT372CO5	Understand the use of graph databases and associated graph algorithms
CSIT372	CO6	CSIT372CO6	Understand the use of stream databases and their algorithms such as sketching

List of Course Outcomes for all courses A.Y. 2022-23

CSIT372	CO7	CSIT372CO7	Understand the use of unstructured data and structure extraction
CSIT372	CO8	CSIT372CO8	Understand the pragmatic aspects of cloud database products
CSIT372	CO9	CSIT372CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT372	CO10	CSIT372CO10	Demonstrate knowledge of solving real-world problems
CSIT372	CO11	CSIT372CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT372	CO12	CSIT372CO12	Demonstrate ability to work in a team effectively
ADBR202	CO1	ADBR202CO1	Gather consumer input
ADBR202	CO2	ADBR202CO2	Evaluate campaigns and individual advertisements from the standpoint of the seller, the buyer, and the creator of the advertising
ADBR202	CO3	ADBR202CO3	Explain the agency structure
ADBR202	CO4	ADBR202CO4	Develop an advertising campaign plan for a brand
ADBR202	CO5	ADBR202CO5	Evolve multiple ideas for a marketing problem
ADBR202	CO6	ADBR202CO6	Write creative briefs
ADBR202	CO7	ADBR202CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR202	CO8	ADBR202CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR202	CO9	ADBR202CO9	Demonstrate ability to work in a team effectively
ADBR202	CO10	ADBR202CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC101	CO1	FINC101CO1	Memorise and explain basic accounting concepts, principles, and conventions
FINC101	CO2	FINC101CO2	Explain Transaction Analysis, Accounting Process and Golden Rules
FINC101	CO3	FINC101CO3	Describe the rationale behind recording of entries in journal with narration
FINC101	CO4	FINC101CO4	Arrange & classify accounting entries and prepare Trial Balance
FINC101	CO5	FINC101CO5	Relate and explain the Concept and relevance of financial statements
FINC101	CO6	FINC101CO6	Describe the process of preparation of Financial Statements
FINC101	CO7	FINC101CO7	Explain the inferences that can drawn from Financial Statements to users
FINC101	CO8	FINC101CO8	Recall Bills of Exchange, Explain and prepare Bank reconciliation statement
GMGT282	CO1	GMGT282CO1	Explain the process of research and its application to business
GMGT282	CO2	GMGT282CO2	Formulate the problem and design the research
GMGT282	CO3	GMGT282CO3	Demonstrate ability to undertake the more common qualitative and quantitative techniques
GMGT282	CO4	GMGT282CO4	Classifying the types and sources of data
GMGT282	CO5	GMGT282CO5	Design data collection instruments for qualitative and quantitative methods
GMGT282	CO6	GMGT282CO6	Apply statistical techniques for data analysis
GMGT282	CO7	GMGT282CO7	Interpret and communicate the research findings
GMGT282	CO8	GMGT282CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
GMGT282	CO9	GMGT282CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
GMGT282	CO10	GMGT282CO10	Demonstrate ability to work in a team effectively
GMGT282	CO11	GMGT282CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
GMGT241	CO1	GMGT241CO1	Understand the concept of Design Thinking
GMGT241	CO2	GMGT241CO2	Understand the process of Design Thinking
GMGT241	CO3	GMGT241CO3	Demonstrate the methods, processes and tools used in Design Thinking
GMGT241	CO4	GMGT241CO4	Apply Design Thinking in various Business situations
GMGT241	CO5	GMGT241CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
GMGT241	CO6	GMGT241CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
GMGT241	CO7	GMGT241CO7	Demonstrate ability to work in a team effectively
GMGT241	CO8	GMGT241CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
LITR151	CO1	LITR151CO1	Understand some of the most defining works of European Literature
LITR151	CO2	LITR151CO2	Discern myriad narrative styles in European Literatures
LITR151	CO3	LITR151CO3	Develop an understanding of socio-cultural history to contextualize the texts

List of Course Outcomes for all courses A.Y. 2022-23

LITR151	CO4	LITR151CO4	Apply relevant critical theory
LITR151	CO5	LITR151CO5	Extend the reading practice beyond thematic considerations
LITR151	CO6	LITR151CO6	Analyse the parallels and contrasts between the texts
LITR151	CO7	LITR151CO7	Understand the symbiosis between Literature and other disciplines
SOCY307	CO1	SOCY307CO1	Recognise, recall and explain the key concepts, trends and typologies of migration and diaspora.
SOCY307	CO2	SOCY307CO2	Explain and outline the central debates in contemporary migration and diaspora research.
SOCY307	CO3	SOCY307CO3	Recognise major theorists and understand the theoretical models in the field of study.
SOCY307	CO4	SOCY307CO4	Evaluate critically the manifold significance of migration patterns and analyse the trends from a national and global perspective.
SOCY307	CO5	SOCY307CO5	Compare and contrast varied arguments and discourses related to migration and diaspora thereby to critique the existing conceptual and theoretical models.
SOCY307	CO6	SOCY307CO6	Explain and critically analyse the changing role of the Indian diaspora in relation to India.
SOCY307	CO7	SOCY307CO7	Parse the narrative for detecting the emotions of the fictional characters in the literary fiction and films on migration and Indian diaspora to gain an empathetic understanding of diaspora experiences.
SOCY307	CO8	SOCY307CO8	Apply their scholarly knowledge and research methods to construct coherent and original scholarly arguments while writing their projects and assignments.
SOCY307	CO9	SOCY307CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY307	CO10	SOCY307CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY307	CO11	SOCY307CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENTS313	CO1	ENTS313CO1	Understand the process of innovation for companies and start-ups
ENTS313	CO2	ENTS313CO2	Identify and evaluate skills to enhance innovation performance in enterprises.
ENTS313	CO3	ENTS313CO3	Identify factors for successful innovation
ENTS313	CO4	ENTS313CO4	Identify and evaluate the building blocks of innovative organizations
ENTS313	CO5	ENTS313CO5	Design strategies to exploit innovation
ENTS313	CO6	ENTS313CO6	Understand IP and it's implications
ENTS313	CO7	ENTS313CO7	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS313	CO8	ENTS313CO8	Understanding of issues associated with securing and managing financial resources in new and established organisations
MKTG308	CO1	MKTG308CO1	Improve the forecasting accuracy by building and validating demand prediction models.
MKTG308	CO2	MKTG308CO2	Better stimulate and influence demand by identifying the drivers (e.g., time, seasonality, price, and other environmental factors) for demand and quantifying their impact.
MKTG308	CO3	MKTG308CO3	Identify the key drivers for demand and quantify their impact.
MKTG308	CO4	MKTG308CO4	Build, validate and improve forecasting models with both continuous and categorical variables.
MKTG308	CO5	MKTG308CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG308	CO6	MKTG308CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG308	CO7	MKTG308CO7	Demonstrate ability to work in a team effectively
MKTG308	CO8	MKTG308CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR310	CO1	ADBR310CO1	Develop a basic understanding of what Advertising and PR is and how events add value to a Brand.
ADBR310	CO2	ADBR310CO2	Evaluate campaigns and individual advertisements from the standpoint of the seller, the buyer, and the creator of the advertising
ADBR310	CO3	ADBR310CO3	Explain the roles and responsibilities of all players in Advertising and PR
ADBR310	CO4	ADBR310CO4	Evolve ideas for Advertising and PR and make a plan
ADBR310	CO5	ADBR310CO5	Analyse and critique the attitude used by corporations and organizations to communicate externally and internally, based on the understanding of theories of PR and corporate communication
ADBR310	CO6	ADBR310CO6	Write press releases
ADBR310	CO7	ADBR310CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR310	CO8	ADBR310CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR310	CO9	ADBR310CO9	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

ADBR310	CO10	ADBR310CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
CSIT334	CO1	CSIT334CO1	Analyse and interpret different learning techniques
CSIT334	CO2	CSIT334CO2	Implement methods to add value to data by converting it to information and knowledge
CSIT334	CO3	CSIT334CO3	Recognize and solve Different Supervised Learning Techniques
CSIT334	CO4	CSIT334CO4	Analyse and test various Supervised Learning Techniques
CSIT334	CO5	CSIT334CO5	Interpret, compare and contrast various algorithm performance measures
CSIT334	CO6	CSIT334CO6	Analyse and test various Unsupervised Learning Techniques
CSIT334	CO7	CSIT334CO7	Implement various performance measures for learning algorithms
CSIT334	CO8	CSIT334CO8	Simulate various real life problems from concept to final solution
CSIT334	CO9	CSIT334CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT334	CO10	CSIT334CO10	Demonstrate knowledge of solving real-world problems
CSIT334	CO11	CSIT334CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT334	CO12	CSIT334CO12	Demonstrate ability to work in a team effectively
CSIT102	CO1	CSIT102CO1	Apply knowledge of variables and operators to perform arithmetic operations
CSIT102	CO2	CSIT102CO2	Apply conditional statements and loops correctly in appropriate contexts.
CSIT102	CO3	CSIT102CO3	Apply string operations and tools to create and manipulate string variables
CSIT102	CO4	CSIT102CO4	Understand common data structures like lists, dictionaries and apply them appropriately when working with example datasets
CSIT102	CO5	CSIT102CO5	Demonstrate the use of in-built tools to perform data I/O and manipulation
CSIT102	CO6	CSIT102CO6	Apply in-built functions to perform curve-fitting and data visualization
PHIL131	CO1	PHIL131CO1	Understand basic terms and concepts associated with literature
PHIL131	CO2	PHIL131CO2	Recognise conventions of philosophical and religious genres
PHIL131	CO3	PHIL131CO3	Identify important Jain voices
PHIL131	CO4	PHIL131CO4	Understand history of various Jain developments
PHIL131	CO5	PHIL131CO5	Express ideas in writing
PHIL131	CO6	PHIL131CO6	Learn to review philosophical and religious texts
PHIL104	CO1	PHIL104CO1	Understand ideas and arguments
PHIL104	CO2	PHIL104CO2	Understand texts
PHIL104	CO3	PHIL104CO3	Skill in dialogue
PHIL104	CO4	PHIL104CO4	Ability to self-examine
PHIL103	CO1	PHIL103CO1	Understand basic terms and concepts associated with Indian Philosophy
PHIL103	CO2	PHIL103CO2	Recognise conventions of philosophical and religious genres
PHIL103	CO3	PHIL103CO3	Identify important Indian philosophical voices
PHIL103	CO4	PHIL103CO4	Understand history of various philosophical developments
PHIL103	CO5	PHIL103CO5	Express philosophical ideas in writing
PHIL103	CO6	PHIL103CO6	Learn to review philosophical and religious texts
FLTV317	CO1	FLTV317CO1	Understand the roles and responsibilities of each Film Production department
FLTV317	CO2	FLTV317CO2	Have a strong knowledge of practical and efficient ways of producing films.
FLTV317	CO3	FLTV317CO3	Get introduced to film production software
FLTV317	CO4	FLTV317CO4	Understand the Film Production practice through a production process.
FLTV317	CO5	FLTV317CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV317	CO6	FLTV317CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV317	CO7	FLTV317CO7	Demonstrate ability to work in a team effectively
FLTV317	CO8	FLTV317CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
THEA202	CO1	THEA202CO1	Demonstrate knowledge of genres
THEA202	CO2	THEA202CO2	Demonstrate knowledge of periods in world drama
THEA202	CO3	THEA202CO3	Understand connections between drama, society and culture
THEA202	CO4	THEA202CO4	Skills to analyse technique and motifs in plays
THEA202	CO5	THEA202CO5	Apply knowledge of genre and periods in appreciation of plays

List of Course Outcomes for all courses A.Y. 2022-23

THEA202	CO6	THEA202CO6	Analyse connections between dramatic writing and theatrical traditions
MATH334	CO1	MATH334CO1	Understand the concepts of Lipschitz condition and the theorems of existence and uniqueness of solutions to IVPs
MATH334	CO2	MATH334CO2	Discretize ODEs with initial conditions using different finite difference methods.
MATH334	CO3	MATH334CO3	Discretize ODEs with boundary conditions using finite difference methods.
MATH334	CO4	MATH334CO4	Discretize elliptic partial differential equations using finite differences.
MATH334	CO5	MATH334CO5	Discretize hyperbolic PDEs using finite difference methods
MATH334	CO6	MATH334CO6	Discretize parabolic PDEs using finite difference methods
MATH334	CO7	MATH334CO7	Implement numerical schemes on computer using appropriate software and numerically solve them
MATH334	CO8	MATH334CO8	Decide the appropriateness of a numerical method for solving specific problems
MATH334	CO9	MATH334CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH334	CO10	MATH334CO10	Demonstrate knowledge of solving real-world problems
MATH334	CO11	MATH334CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH334	CO12	MATH334CO12	Demonstrate ability to work in a team effectively
DTSC301	CO1	DTSC301CO1	Recognise the types and characteristics of machine learning strategies
DTSC301	CO2	DTSC301CO2	understand and apply computational regression techniques along with critical analysis of results
DTSC301	CO3	DTSC301CO3	Be able to understand and apply various resampling techniques
DTSC301	CO4	DTSC301CO4	understand the methodology of various tree based methods and apply them in various classification contexts
DTSC301	CO5	DTSC301CO5	understand the methodology of various clustering methods and apply them in various classification contexts
DTSC301	CO6	DTSC301CO6	understand the methodology of principal component analysis and apply it various contexts
DTSC301	CO7	DTSC301CO7	understand the methodology of support vector machines and its applications
DTSC301	CO8	DTSC301CO8	Appreciate the underlying mathematical relationships within and across Machine Learning algorithms and the paradigms of supervised and un-supervised learning.
DTSC301	CO9	DTSC301CO9	Be able to design and implement various machine learning algorithms in a range of real-world applications.
DTSC301	CO10	DTSC301CO10	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC301	CO11	DTSC301CO11	Demonstrate knowledge of solving real-world problems
DTSC301	CO12	DTSC301CO12	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC301	CO13	DTSC301CO13	Demonstrate ability to work in a team effectively
DTSC301	CO14	DTSC301CO14	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC301	CO15	DTSC301CO15	Demonstrate knowledge of solving real-world problems
DTSC301	CO16	DTSC301CO16	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC301	CO17	DTSC301CO17	Demonstrate ability to work in a team effectively
DTSC301	CO18	DTSC301CO18	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC301	CO19	DTSC301CO19	Demonstrate knowledge of solving real-world problems
DTSC301	CO20	DTSC301CO20	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC301	CO21	DTSC301CO21	Demonstrate ability to work in a team effectively
DTSC301	CO22	DTSC301CO22	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC301	CO23	DTSC301CO23	Demonstrate knowledge of solving real-world problems
DTSC301	CO24	DTSC301CO24	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC301	CO25	DTSC301CO25	Demonstrate ability to work in a team effectively
DTSC302	CO1	DTSC302CO1	Solve problems in linear algebra, probability, optimization, and machine learning.
DTSC302	CO2	DTSC302CO2	Evaluate, in the context of a case study, the advantages and disadvantages of deep learning neural network architectures and other approaches.
DTSC302	CO3	DTSC302CO3	Implement deep learning models in Python using the PyTorch and TensorFlow libraries and train them with real-world datasets.

List of Course Outcomes for all courses A.Y. 2022-23

DTSC302	CO4	DTSC302CO4	Design convolution networks for handwriting and object classification from images or video.
DTSC302	CO5	DTSC302CO5	Design recurrent neural networks with attention mechanisms for natural language classification, generation, and translation.
DTSC302	CO6	DTSC302CO6	Evaluate the performance of different deep learning models (e.g., with respect to the bias-variance trade-off, overfitting and underfitting, estimation of test error).
DTSC302	CO7	DTSC302CO7	Perform regularization, training optimization, and hyperparameter selection on deep models.
DTSC302	CO8	DTSC302CO8	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC302	CO9	DTSC302CO9	Demonstrate knowledge of solving real-world problems
DTSC302	CO10	DTSC302CO10	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC302	CO11	DTSC302CO11	Demonstrate ability to work in a team effectively
DTSC422	CO1	DTSC422CO1	Extract information from text automatically using concepts and methods from natural language processing (NLP) including stemming, n-grams, POS tagging, and parsing.
DTSC422	CO2	DTSC422CO2	Develop speech-based applications that use speech analysis (phonetics, speech recognition, and synthesis).
DTSC422	CO3	DTSC422CO3	Analyze the syntax, semantics, and pragmatics of a statement written in a natural language.
DTSC422	CO4	DTSC422CO4	Develop a conversational agent that uses natural language understanding and generation.
DTSC422	CO5	DTSC422CO5	Apply machine learning algorithms to natural language processing.
DTSC422	CO6	DTSC422CO6	Write scripts and applications in Python to carry out natural language processing using libraries such as NLTK, Gensim, and spaCY.
DTSC422	CO7	DTSC422CO7	Design NLP-based AI systems for question answering, text summarization, and machine translation.
DTSC422	CO8	DTSC422CO8	Evaluate the performance of NLP tools and systems
DTSC422	CO9	DTSC422CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC422	CO10	DTSC422CO10	Demonstrate knowledge of solving real-world problems
DTSC422	CO11	DTSC422CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC422	CO12	DTSC422CO12	Demonstrate ability to work in a team effectively
DTSC303	CO1	DTSC303CO1	Describe Big Data and its importance with its applications
DTSC303	CO2	DTSC303CO2	Differentiate various big data technologies like Hadoop MapReduce, Pig, Hive, Hbase and No-SQL.
DTSC303	CO3	DTSC303CO3	Apply tools and techniques to analyze Big Data.
DTSC303	CO4	DTSC303CO4	Design a solution for a given problem using suitable Big Data Techniques
DTSC303	CO5	DTSC303CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC303	CO6	DTSC303CO6	Demonstrate knowledge of solving real-world problems
DTSC303	CO7	DTSC303CO7	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC303	CO8	DTSC303CO8	Demonstrate ability to work in a team effectively
DTSC341	CO1	DTSC341CO1	Conduct exploratory data analysis using visualization.
DTSC341	CO2	DTSC341CO2	Craft visual presentations of data for effective communication.
DTSC341	CO3	DTSC341CO3	Use knowledge of perception and cognition to evaluate visualization design alternatives.
DTSC341	CO4	DTSC341CO4	Design and evaluate color palettes for visualization based on principles of perception.
DTSC341	CO5	DTSC341CO5	Apply data transformations such as aggregation and filtering for visualization.
DTSC341	CO6	DTSC341CO6	Identify opportunities for application of data visualization in various domains.
DTSC341	CO7	DTSC341CO7	Design and create data visualizations.
DTSC341	CO8	DTSC341CO8	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC341	CO9	DTSC341CO9	Demonstrate knowledge of solving real-world problems
DTSC341	CO10	DTSC341CO10	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC341	CO11	DTSC341CO11	Demonstrate ability to work in a team effectively
DTSC221	CO1	DTSC221CO1	Apply database processing concepts to solve the information requirements of organisations
DTSC221	CO2	DTSC221CO2	Discuss table structures according to normalisation principles

List of Course Outcomes for all courses A.Y. 2022-23

DTSC221	CO3	DTSC221CO3	Construct conceptual (ER diagram) and logical models from a statement requirement to solve common design problems
DTSC221	CO4	DTSC221CO4	Explain and apply concurrency controls, security and recovery measure
DTSC221	CO5	DTSC221CO5	Formulate SQL statements to implement and query database systems
DTSC221	CO6	DTSC221CO6	Implement business rules via views, stored procedures and triggers
DTSC221	CO7	DTSC221CO7	Demonstrate the basic techniques of concurrency control and ACID
DTSC221	CO8	DTSC221CO8	Demonstrate an understanding of different database architectures and NoSQL databases
DTSC221	CO9	DTSC221CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC221	CO10	DTSC221CO10	Demonstrate knowledge of solving real-world problems
DTSC221	CO11	DTSC221CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC221	CO12	DTSC221CO12	Demonstrate ability to work in a team effectively
STAT333	CO1	STAT333CO1	Explain in detail the Bayesian framework for data analysis and its flexibility and be able to demonstrate when the Bayesian approach can be beneficial.
STAT333	CO2	STAT333CO2	Develop, analytically describe, and implement both single and multiparameter probability models in the Bayesian framework.
STAT333	CO3	STAT333CO3	Demonstrate the role of the prior distribution in Bayesian inference and be able to articulate the usage of non-informative priors and conjugate priors.
STAT333	CO4	STAT333CO4	Show high level Interpretation of Bayesian Analysis Results and be able to readily perform Bayesian model evaluation and assessment.
STAT333	CO5	STAT333CO5	Demonstrate the necessary skills to: fit hierarchical models, provide thorough technical specifications for these models.
STAT333	CO6	STAT333CO6	Perform Bayesian computation using Markov chain Monte Carlo methods using statistical software
STAT333	CO7	STAT333CO7	Demonstrate how Bayesian Methods can be used to solve real world problems.
STAT333	CO8	STAT333CO8	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
STAT333	CO9	STAT333CO9	Demonstrate knowledge of solving real-world problems
STAT333	CO10	STAT333CO10	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
STAT333	CO11	STAT333CO11	Demonstrate ability to work in a team effectively
DTSC411	CO1	DTSC411CO1	Understand basic knowledge, theories and methods in image processing and computer vision.
DTSC411	CO2	DTSC411CO2	Identify, formulate and solve problems in image processing and computer vision.
DTSC411	CO3	DTSC411CO3	Evaluate the advantages and disadvantages of deep learning neural network architectures in the context of computer vision
DTSC411	CO4	DTSC411CO4	Implement deep learning models in Python using the PyTorch and TensorFlow libraries and train them with real-world images
DTSC411	CO5	DTSC411CO5	Design convolution networks, Recurrent Networks, Attention Models, Deep generative models for a variety of imaging tasks including classification
DTSC411	CO6	DTSC411CO6	Evaluate the performance of different deep learning models (e.g., with respect to the bias-variance trade-off, overfitting and underfitting, estimation of test error).
DTSC411	CO7	DTSC411CO7	Perform regularization, training optimization, and hyperparameter selection on deep models.
DTSC411	CO8	DTSC411CO8	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
DTSC411	CO9	DTSC411CO9	Demonstrate knowledge of solving real-world problems
DTSC411	CO10	DTSC411CO10	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
DTSC411	CO11	DTSC411CO11	Demonstrate ability to work in a team effectively
MATH337	CO1	MATH337CO1	Understand and apply the concept of Metric spaces and recall some important examples.
MATH337	CO2	MATH337CO2	Understand and apply the concept and theory of normed linear spaces and Banach spaces
MATH337	CO3	MATH337CO3	Understand and apply the concept and theory of continuity and bounded linear operators
MATH337	CO4	MATH337CO4	Understand and apply the concept and theory of inner product spaces and Hilbert spaces
MATH337	CO5	MATH337CO5	Recall the statements and proofs of fundamental theorems for Normed & Banach Spaces
MATH337	CO6	MATH337CO6	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH337	CO7	MATH337CO7	Demonstrate knowledge of solving real-world problems

List of Course Outcomes for all courses A.Y. 2022-23

MATH337	CO8	MATH337CO8	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH337	CO9	MATH337CO9	Demonstrate ability to work in a team effectively
STAT321	CO1	STAT321CO1	demonstrate knowledge of, and a critical understanding of, the main concepts of time series analysis
STAT321	CO2	STAT321CO2	demonstrate knowledge of, and a critical understanding of, the main properties of MA, AR, ARMA, ARIMA, and RW models
STAT321	CO3	STAT321CO3	employ least squares, maximum likelihood and other methods to fit time series models to the data
STAT321	CO4	STAT321CO4	select proper models using various information criterion
STAT321	CO5	STAT321CO5	fit trend and seasonal trend to the data, and fit time series models to the residuals
STAT321	CO6	STAT321CO6	understand methods used to produce forecasts
STAT321	CO7	STAT321CO7	understand ARCH, GARCH and other nonlinear time series models and their applications for modelling of financial data
STAT321	CO8	STAT321CO8	understand time series data well, and perform basic calculations and summaries of time series data
STAT321	CO9	STAT321CO9	understand and critically assess time series models fitted by computer packages
STAT321	CO10	STAT321CO10	use a range of time series models to produce forecasts
STAT321	CO11	STAT321CO11	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
STAT321	CO12	STAT321CO12	Demonstrate knowledge of solving real-world problems
STAT321	CO13	STAT321CO13	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
STAT321	CO14	STAT321CO14	Demonstrate ability to work in a team effectively
BUAN308	CO1	BUAN308CO1	Students will clearly understand meanings of common web analytics concepts
BUAN308	CO2	BUAN308CO2	Students will be able to analyze web and social media metrics and understand their impact on business decisions
BUAN308	CO3	BUAN308CO3	Students will be able to demonstrate basic hands-on knowledge of Google analytics, Twitter analytics
BUAN308	CO4	BUAN308CO4	Students will be able to evaluate business scenarios and create appropriate web and social media metrics for decision making
BUAN308	CO5	BUAN308CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
BUAN308	CO6	BUAN308CO6	Demonstrate knowledge of relevant Business Analytics concepts and how this applies to practice to enhance employability in the Data analytics domain.
BUAN308	CO7	BUAN308CO7	Reflect critically upon own professional skills and employability prospects.
BUAN308	CO8	BUAN308CO8	Demonstrate ability to work in a team effectively
BUAN309	CO1	BUAN309CO1	Students will clearly learn supply chain models and applications : logistics, operations, planning, and sourcing
BUAN309	CO2	BUAN309CO2	Students will be able to apply appropriate frameworks for Supply chain analysis and various analytics techniques
BUAN309	CO3	BUAN309CO3	Students will be able to use Tableau extensively to create the visualizations and storytelling around the visuals/ dashboards and reports.
BUAN401	CO1	BUAN401CO1	Recognize the need of forecasting
BUAN401	CO2	BUAN401CO2	Application of various methods for forecasting
BUAN401	CO3	BUAN401CO3	Illustrate advance techniques of forecasting
BUAN401	CO4	BUAN401CO4	Illustrate the importance of regression
BUAN401	CO5	BUAN401CO5	Application of advanced features of robust regression model
BUAN401	CO6	BUAN401CO6	Understand factor analysis
BUAN401	CO7	BUAN401CO7	Implement structure equation model to cases
BUAN401	CO8	BUAN401CO8	Interpret SEM outcomes
BUAN401	CO9	BUAN401CO9	Understand Bayesian statistics
BUAN401	CO10	BUAN401CO10	Illustrate application of Bayesian model
BUAN401	CO11	BUAN401CO11	Illustrate the application of markov model
BUAN401	CO12	BUAN401CO12	Understand the basics of hidden markov model
CSIT103	CO1	CSIT103CO1	Apply knowledge of variables and operators to perform arithmetic operations
CSIT103	CO2	CSIT103CO2	Apply conditional statements and loops correctly in appropriate contexts.
CSIT103	CO3	CSIT103CO3	Apply string operations and tools to create and manipulate string variables
CSIT103	CO4	CSIT103CO4	Understand common data structures like lists, dictionaries and apply them appropriately when working with example datasets

List of Course Outcomes for all courses A.Y. 2022-23

CSIT103	CO5	CSIT103CO5	Demonstrate the use of in-built tools to perform data I/O and manipulation
CSIT103	CO6	CSIT103CO6	Apply in-built functions to perform curve-fitting and data visualization
CSIT103	CO7	CSIT103CO7	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT103	CO8	CSIT103CO8	Demonstrate knowledge of solving real-world problems
CSIT103	CO9	CSIT103CO9	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT103	CO10	CSIT103CO10	Demonstrate ability to work in a team effectively
CSIT206	CO1	CSIT206CO1	Illustrate the rationale for implementations of data structures in terms of hardware supported access patterns
CSIT206	CO2	CSIT206CO2	Understand the interface between the machine and the application
CSIT206	CO3	CSIT206CO3	Understand why linked lists and other pointer data structures are rare in practice
CSIT206	CO4	CSIT206CO4	Demonstrate the effect of data representation choices on performance
CSIT206	CO5	CSIT206CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT206	CO6	CSIT206CO6	Demonstrate knowledge of solving real-world problems
CSIT206	CO7	CSIT206CO7	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT211	CO1	CSIT211CO1	Use pointers and memory allocation to represent data structures
CSIT211	CO2	CSIT211CO2	Understand errors in a C++ program, how to read complex error messages and fix errors.
CSIT211	CO3	CSIT211CO3	Understand errors in a C++ program, how to read complex error messages and fix errors.
CSIT211	CO4	CSIT211CO4	Be able to use classes to build objects, and the core ideas of virtual functions
CSIT211	CO5	CSIT211CO5	Be able to explain what an “object” really is for the underlying machine
CSIT211	CO6	CSIT211CO6	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT211	CO7	CSIT211CO7	Demonstrate knowledge of solving real-world problems
CSIT211	CO8	CSIT211CO8	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT211	CO9	CSIT211CO9	Demonstrate ability to work in a team effectively
CSIT224	CO1	CSIT224CO1	Demonstrate key ideas of digital logic
CSIT224	CO2	CSIT224CO2	Show how basic digital arithmetic and number representations work
CSIT224	CO3	CSIT224CO3	Illustrate fair understanding of operating system components
CSIT224	CO4	CSIT224CO4	Be able to use classes to build objects, and the core ideas of virtual functions
CSIT224	CO5	CSIT224CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT224	CO6	CSIT224CO6	Demonstrate knowledge of solving real-world problems
CSIT224	CO7	CSIT224CO7	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT224	CO8	CSIT224CO8	Demonstrate ability to work in a team effectively
CSIT231	CO1	CSIT231CO1	Prove simple statements about algorithms
CSIT231	CO2	CSIT231CO2	Be able to use discrete objects to model situations in the real world
CSIT231	CO3	CSIT231CO3	Illustrate fair understanding of operating system components
CSIT231	CO4	CSIT231CO4	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT231	CO5	CSIT231CO5	Demonstrate knowledge of solving real-world problems
CSIT231	CO6	CSIT231CO6	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT232	CO1	CSIT232CO1	Strong foundation in linear algebra
CSIT232	CO2	CSIT232CO2	Solve complex problems with linear algebra
CSIT232	CO3	CSIT232CO3	Utilize specialized libraries and algorithms
CSIT232	CO4	CSIT232CO4	Analyze and interpret data effectively
CSIT232	CO5	CSIT232CO5	Apply math to solve real-world problems
CSIT232	CO6	CSIT232CO6	Communicate mathematical concepts clearly and concisely
CSIT232	CO7	CSIT232CO7	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT232	CO8	CSIT232CO8	Demonstrate knowledge of solving real-world problems

List of Course Outcomes for all courses A.Y. 2022-23

CSIT232	CO9	CSIT232CO9	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT305	CO1	CSIT305CO1	Understand and use Sat Solvers and model problems as Sat problems
CSIT305	CO2	CSIT305CO2	Create and repairs State machine models of distributed and concurrent systems using model checkers
CSIT305	CO3	CSIT305CO3	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT305	CO4	CSIT305CO4	Demonstrate knowledge of solving real-world problems
CSIT305	CO5	CSIT305CO5	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT306	CO1	CSIT306CO1	Ability to organize programs at different scales
CSIT306	CO2	CSIT306CO2	Understand how to create and use libraries
CSIT306	CO3	CSIT306CO3	Become familiar with different kinds of software architectures
CSIT306	CO4	CSIT306CO4	Develop fluency with modern software tools
CSIT306	CO5	CSIT306CO5	Understand the role of software development processes in organizations
CSIT306	CO6	CSIT306CO6	Develop awareness of software career paths
CSIT306	CO7	CSIT306CO7	Appreciate economic elements of software that lead to compatibility and open source
CSIT306	CO8	CSIT306CO8	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT306	CO9	CSIT306CO9	Demonstrate knowledge of solving real-world problems
CSIT306	CO10	CSIT306CO10	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT306	CO11	CSIT306CO11	Demonstrate ability to work in a team effectively
CSIT307	CO1	CSIT307CO1	Be able to explain why abstract machine models matter
CSIT307	CO2	CSIT307CO2	Learn about complexity classes, and the role of constant factors
CSIT307	CO3	CSIT307CO3	Elementary proofs of complexity of algorithms
CSIT307	CO4	CSIT307CO4	Examples of polynomial algorithms and those of higher complexity
CSIT307	CO5	CSIT307CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT307	CO6	CSIT307CO6	Demonstrate knowledge of solving real-world problems
CSIT307	CO7	CSIT307CO7	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT307	CO8	CSIT307CO8	Demonstrate ability to work in a team effectively
CSIT324	CO1	CSIT324CO1	have a good grasp of key elements of a networked program
CSIT324	CO2	CSIT324CO2	acquire and demonstrate the ability to create complete web programs
CSIT324	CO3	CSIT324CO3	Elementary proofs of complexity of algorithms
CSIT324	CO4	CSIT324CO4	Examples of polynomial algorithms and those of higher complexity
CSIT324	CO5	CSIT324CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT324	CO6	CSIT324CO6	Demonstrate knowledge of solving real-world problems
CSIT324	CO7	CSIT324CO7	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT401	CO1	CSIT401CO1	Understand the abilities that programming languages bring to the table
CSIT401	CO2	CSIT401CO2	Consider issues in implementing different paradigms
CSIT401	CO3	CSIT401CO3	Discuss the issues in various approach to garbage collection
CSIT401	CO4	CSIT401CO4	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT401	CO5	CSIT401CO5	Demonstrate knowledge of solving real-world problems
CSIT401	CO6	CSIT401CO6	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT401	CO7	CSIT401CO7	Demonstrate ability to work in a team effectively
CSIT421	CO1	CSIT421CO1	Manage and deploy simple systems
CSIT421	CO2	CSIT421CO2	Learn and use various cloud services
CSIT421	CO3	CSIT421CO3	Understand the issues in creating stable systems over the long term
CSIT421	CO4	CSIT421CO4	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT421	CO5	CSIT421CO5	Demonstrate knowledge of solving real-world problems

List of Course Outcomes for all courses A.Y. 2022-23

CSIT421	CO6	CSIT421CO6	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT421	CO7	CSIT421CO7	Demonstrate ability to work in a team effectively
DESG106	CO1	DESG106CO1	Exhibit respect for diverse cultural attitudes regarding our ecological systems and an awareness for their relevance to creative practice
DESG106	CO2	DESG106CO2	Exhibit awareness of moral and ethical problems related to sustainability
DESG106	CO3	DESG106CO3	To consider the environment, economic and social aspects as inter related tracts of thought and design
DESG106	CO4	DESG106CO4	Exhibit awareness of interrelationships within and between systems
DESG106	CO5	DESG106CO5	Translate scientific thinking and knowledge into creative, sustainable, [measurable] solutions to ecological challenges.
DESG106	CO6	DESG106CO6	Drive scientific inquiry related to questions raised during lectures
DESG106	CO7	DESG106CO7	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG106	CO8	DESG106CO8	Demonstrate ability to work in a team effectively
DESG106	CO9	DESG106CO9	Demonstrate knowledge of current professional practices and trends
DESG106	CO10	DESG106CO10	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG209	CO1	DESG209CO1	Develop thematic graphic representations with lines
DESG209	CO2	DESG209CO2	Create thematic graphic representations with shapes
DESG209	CO3	DESG209CO3	Design thematic graphic representations with colour
DESG209	CO4	DESG209CO4	Illustrate thematic representations with letter forms
DESG209	CO5	DESG209CO5	Create logos with meaning
DESG209	CO6	DESG209CO6	Develop stationary design
DESG209	CO7	DESG209CO7	Plan and design single page layouts
DESG209	CO8	DESG209CO8	Build a conceptual frame-work to successfully present graphic ideas
DESG209	CO9	DESG209CO9	Ability to describe a macro-level history of Graphic Design and relevant reading
DESG209	CO10	DESG209CO10	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG209	CO11	DESG209CO11	Demonstrate ability to work in a team effectively
DESG209	CO12	DESG209CO12	Demonstrate knowledge of current professional practices and trends
DESG209	CO13	DESG209CO13	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG210	CO1	DESG210CO1	Understand, illustrate the anatomical features of letters
DESG210	CO2	DESG210CO2	Roman strokes and compositions
DESG210	CO3	DESG210CO3	Roman circular letter U/C, L/C
DESG210	CO4	DESG210CO4	Roman angular U/C, L/C
DESG210	CO5	DESG210CO5	Letters with extended strokes, compositions and calligraphy
DESG210	CO6	DESG210CO6	Devanagari akshar, techniques of writing, characteristics
DESG210	CO7	DESG210CO7	Techniques of using a cro-quil and sponge tool
DESG210	CO8	DESG210CO8	Hieroglyphs, origin and evolution of Roman and Devanagari letters
DESG210	CO9	DESG210CO9	Readings, reflections
DESG210	CO10	DESG210CO10	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG210	CO11	DESG210CO11	Demonstrate ability to work in a team effectively
DESG210	CO12	DESG210CO12	Demonstrate knowledge of current professional practices and trends
DESG210	CO13	DESG210CO13	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG310	CO1	DESG310CO1	develop the vocabulary and critical understanding to describe and analyze the components of games and gameplay experiences
DESG310	CO2	DESG310CO2	develop a game idea from concept to playable, analogue prototype
DESG310	CO3	DESG310CO3	use common methods for documenting game designs such as game design documents and playtesting reports
DESG310	CO4	DESG310CO4	communicate their game ideas through pitch, prototype and presentation
DESG310	CO5	DESG310CO5	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG310	CO6	DESG310CO6	Demonstrate ability to work in a team effectively
DESG310	CO7	DESG310CO7	Demonstrate knowledge of current professional practices and trends

List of Course Outcomes for all courses A.Y. 2022-23

DESG310	CO8	DESG310CO8	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG315	CO1	DESG315CO1	Recognizing patterns
DESG315	CO2	DESG315CO2	Ability to create a cohesive predictive timeline
DESG315	CO3	DESG315CO3	Ability to deal with complex issues
DESG315	CO4	DESG315CO4	Scenario Building
DESG315	CO5	DESG315CO5	Research Synthesis
DESG315	CO6	DESG315CO6	Deep Research into a complex context
DESG315	CO7	DESG315CO7	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG315	CO8	DESG315CO8	Demonstrate ability to work in a team effectively
DESG315	CO9	DESG315CO9	Demonstrate knowledge of current professional practices and trends
DESG315	CO10	DESG315CO10	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG316	CO1	DESG316CO1	the concept of diffusion and the dynamics of innovation;
DESG316	CO2	DESG316CO2	strengthen your abilities to deal with wicked problem using Design thinking as user centered method.
DESG316	CO3	DESG316CO3	Acquire Design Thinking tools to critically analyze, discuss and present on topics related to innovation within larger cultural and disciplinary contexts;
DESG316	CO4	DESG316CO4	Capability in the application of Design thinking theory to current business problems. Soft skills specific to Design decision-making.
DESG316	CO5	DESG316CO5	the role of innovation in society from a multidisciplinary perspective;
DESG316	CO6	DESG316CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG316	CO7	DESG316CO7	Demonstrate ability to work in a team effectively
DESG316	CO8	DESG316CO8	Demonstrate knowledge of current professional practices and trends
DESG316	CO9	DESG316CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
ECON401	CO1	ECON401CO1	Students will learn microeconomic theories and concepts
ECON401	CO2	ECON401CO2	They will see the applications of these theories in different published research work
ECON401	CO3	ECON401CO3	Students will be able to critically evaluate some of those theories and will learn the recent developments in microeconomics
ECON401	CO4	ECON401CO4	Students will be able to apply the microeconomic concepts to write their own research papers
ECON401	CO5	ECON401CO5	Students will be introduced to several micro datasets
ECON401	CO6	ECON401CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON401	CO7	ECON401CO7	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON401	CO8	ECON401CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON402	CO1	ECON402CO1	Analyse macroeconomic data
ECON402	CO2	ECON402CO2	Develop understanding of long run growth models
ECON402	CO3	ECON402CO3	Critically formulate and evaluate the applicability of microfoundation in macroeconomic analysis
ECON402	CO4	ECON402CO4	Develop understanding of real business cycle analysis
ECON402	CO5	ECON402CO5	Create and model macroeconomic theories using computer software
ECON402	CO6	ECON402CO6	Conduct independent research and write a term paper on macroeconomic issues
ECON402	CO7	ECON402CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON402	CO8	ECON402CO8	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON402	CO9	ECON402CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON403	CO1	ECON403CO1	Student will understand the concepts of game theory and apply it to real world problems.
ECON403	CO2	ECON403CO2	Students will critically evaluate problems and situations associated with informational asymmetry and provide economic solutions.
ECON403	CO3	ECON403CO3	Students will develop economic experiments in a strategic environment
ECON403	CO4	ECON403CO4	Students will empirically evaluate microeconomic concepts using data collected by them.

List of Course Outcomes for all courses A.Y. 2022-23

ECON403	CO5	ECON403CO5	Students will be solve microeconomic problems using mathematical and statistically software.
ECON403	CO6	ECON403CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON403	CO7	ECON403CO7	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON403	CO8	ECON403CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ECON404	CO1	ECON404CO1	Understand pressing macroeconomic trends in the world economy
ECON404	CO2	ECON404CO2	Learn contemporary tools of macroeconomic modelling
ECON404	CO3	ECON404CO3	Learn about endogenous models of economic growth
ECON404	CO4	ECON404CO4	Understand how to model innovation and technological change
ECON404	CO5	ECON404CO5	Understand how income and wealth inequality arises in contemporary processes of economic growth
ECON404	CO6	ECON404CO6	Learn about the role and importance of institutions in economic growth
ECON404	CO7	ECON404CO7	Develop an understanding of contemporary theories of unemployment from a mainstream and heterodox perspective
ECON404	CO8	ECON404CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON404	CO9	ECON404CO9	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON404	CO10	ECON404CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
DESG309	CO1	DESG309CO1	Foundation Art and 2D Animation Basics:
DESG309	CO2	DESG309CO2	Introduction to Animate CC software
DESG309	CO3	DESG309CO3	Introduction to Principles of Animation
DESG309	CO4	DESG309CO4	Frame Composition and 2D EFX
DESG309	CO5	DESG309CO5	Show reel project
DESG309	CO6	DESG309CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG309	CO7	DESG309CO7	Demonstrate ability to work in a team effectively
DESG309	CO8	DESG309CO8	Demonstrate knowledge of current professional practices and trends
DESG309	CO9	DESG309CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
ENTS314	CO1	ENTS314CO1	Business Models
ENTS314	CO2	ENTS314CO2	Stakeholder Mapping
ENTS314	CO3	ENTS314CO3	Stakeholder Research
ENTS314	CO4	ENTS314CO4	Market validation of the new idea
ENTS314	CO5	ENTS314CO5	Go to Market Strategy
ENTS314	CO6	ENTS314CO6	Pitch Presentation
ENTS314	CO7	ENTS314CO7	Generate Insights
ENTS314	CO8	ENTS314CO8	Business Viability of the new idea
ENTS314	CO9	ENTS314CO9	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS314	CO10	ENTS314CO10	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS401	CO1	ENTS401CO1	Understand factors for enterprise success and failure
ENTS401	CO2	ENTS401CO2	Analyze business models of enterprises
ENTS401	CO3	ENTS401CO3	Understand the importance of innovation for enterprise sustenance
ENTS401	CO4	ENTS401CO4	Understand how competitors respond to innovation
ENTS401	CO5	ENTS401CO5	Understand how customers respond to change
ENTS401	CO6	ENTS401CO6	Learn how to create customer acceptance and generate demand
ENTS401	CO7	ENTS401CO7	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS401	CO8	ENTS401CO8	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS402	CO1	ENTS402CO1	Learning to Research the domain
ENTS402	CO2	ENTS402CO2	Creating the Project/Product MVP
ENTS402	CO3	ENTS402CO3	Evaluating new Project/Product

List of Course Outcomes for all courses A.Y. 2022-23

ENTS402	CO4	ENTS402CO4	Planning Project Implementation
ENTS402	CO5	ENTS402CO5	Learn to commercialize a product
ENTS402	CO6	ENTS402CO6	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS402	CO7	ENTS402CO7	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENTS403	CO1	ENTS403CO1	Understand the CSR regulatory framework
ENTS403	CO2	ENTS403CO2	Understand the perspective of donor organizations about CSR
ENTS403	CO3	ENTS403CO3	Understand how CSR initiatives benefit the donor organization
ENTS403	CO4	ENTS403CO4	Awareness of the sectors of focus for donor organizations
ENTS403	CO5	ENTS403CO5	Understand how CSR nurtures grassroot entrepreneurs
ENTS403	CO6	ENTS403CO6	Understand the social impact created under CSR initiatives
ENTS403	CO7	ENTS403CO7	Understanding of key concepts underpinning entrepreneurship and its application in product/ service/ process opportunities
ENTS403	CO8	ENTS403CO8	Understanding of issues associated with securing and managing financial resources in new and established organisations
ENVS104	CO1	ENVS104CO1	Describe what is climate change
ENVS104	CO2	ENVS104CO2	Distinguish between natural variability and anthropogenically forced climate change
ENVS104	CO3	ENVS104CO3	Understand the causes of climate variability
ENVS104	CO4	ENVS104CO4	Demonstrate knowledge of climate impacts in different sectors
ENVS104	CO5	ENVS104CO5	Analyse potential climate solutions
ENVS104	CO6	ENVS104CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS104	CO7	ENVS104CO7	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS104	CO8	ENVS104CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS104	CO9	ENVS104CO9	Demonstrate ability to work in a team effectively
ENVS304	CO1	ENVS304CO1	Describe what is climate change
ENVS304	CO2	ENVS304CO2	Understand the role of GHGs in altering the climate of the planet
ENVS304	CO3	ENVS304CO3	Collect and analyze GHG data of different sectors
ENVS304	CO4	ENVS304CO4	Design a GHG inventory report
ENVS304	CO5	ENVS304CO5	Summarize potential suggestions and create a strategy towards net carbon neutrality
ENVS304	CO6	ENVS304CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS304	CO7	ENVS304CO7	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS304	CO8	ENVS304CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS304	CO9	ENVS304CO9	Demonstrate ability to work in a team effectively
ENVS402	CO1	ENVS402CO1	Explain the importance of sustainable food systems
ENVS402	CO2	ENVS402CO2	Examine the global food security and related issues
ENVS402	CO3	ENVS402CO3	Analyse the threats to sustainable food production
ENVS402	CO4	ENVS402CO4	Understand and evaluate the sustainable food production methods
ENVS402	CO5	ENVS402CO5	Understand and evaluate socio economic issues related to sustainable food production
ENVS402	CO6	ENVS402CO6	Understand and evaluate the political and ethical dimensions of sustainable food production
ENVS402	CO7	ENVS402CO7	Critically analyse and evaluate the challenges faced in sustainable food systems
ENVS402	CO8	ENVS402CO8	Critically analyse and apply the learnt concepts in the experiential learning
ENVS402	CO9	ENVS402CO9	Analyse, evaluate and create solutions to some of the challenges
ENVS402	CO10	ENVS402CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS402	CO11	ENVS402CO11	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS402	CO12	ENVS402CO12	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS402	CO13	ENVS402CO13	Demonstrate ability to work in a team effectively
ENVS403	CO1	ENVS403CO1	Describe and relate different concepts, theories, and frameworks related to the FEWW nexus

List of Course Outcomes for all courses A.Y. 2022-23

ENVS403	CO2	ENVS403CO2	Identify and discuss the role and relevance of the FEWW nexus
ENVS403	CO3	ENVS403CO3	Understand and analyse food-energy-water systems approaches
ENVS403	CO4	ENVS403CO4	Understand and analyse waste systems approaches
ENVS403	CO5	ENVS403CO5	Understand and evaluate intersections and Challenges in the FEWW nexus
ENVS403	CO6	ENVS403CO6	Analyse challenges and create solutions pertaining to issues in the FEWW nexus
ENVS403	CO7	ENVS403CO7	Understand and evaluate the importance and challenges of sustainable development in the context of the FEWW nexus
ENVS403	CO8	ENVS403CO8	Practice effective oral and communication skills to summarise, present, discuss, and generate questions to debate the issues covered in the course and thereby engage in informed discussions about the FEWW nexus
ENVS403	CO9	ENVS403CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS403	CO10	ENVS403CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS403	CO11	ENVS403CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS403	CO12	ENVS403CO12	Demonstrate ability to work in a team effectively
GEOG331	CO1	GEOG331CO1	Find additional non-optical environmental remote sensing datasets, understand their dimensions and file formats, download remote sensing data
GEOG331	CO2	GEOG331CO2	Demonstrate knowledge and application of introductory programming-based remote sensing methods
GEOG331	CO3	GEOG331CO3	Open, clean, and write environmental remote sensing data files
GEOG331	CO4	GEOG331CO4	Visualize remote sensing data
GEOG331	CO5	GEOG331CO5	Perform several basic univariate and multivariate analysis methods on remote sensing data and interpret the results
GEOG331	CO6	GEOG331CO6	Building on the skills learnt during the course, conduct a study on changes in a remotely sensed environmental variable over time
GEOG331	CO7	GEOG331CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
GEOG331	CO8	GEOG331CO8	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
GEOG331	CO9	GEOG331CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
GEOG331	CO10	GEOG331CO10	Demonstrate ability to work in a team effectively
GEOG332	CO1	GEOG332CO1	Apply Cartographic skills to complex representations
GEOG332	CO2	GEOG332CO2	Apply data conversion techniques by identifying project requirements
GEOG332	CO3	GEOG332CO3	Analyze spatial data using statistical tools
GEOG332	CO4	GEOG332CO4	Analyze and apply different raster data for different applications
GEOG332	CO5	GEOG332CO5	Analyze and apply vector data for various applications
GEOG332	CO6	GEOG332CO6	Evaluate need to web GIS and apply it for data sharing
GEOG332	CO7	GEOG332CO7	Evaluate the GIS data processing for data automation need and apply automation process
GEOG332	CO8	GEOG332CO8	Analyze and evaluate a scientific problem to provide a spatial solution
GEOG332	CO9	GEOG332CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
GEOG332	CO10	GEOG332CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
GEOG332	CO11	GEOG332CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
GEOG332	CO12	GEOG332CO12	Demonstrate ability to work in a team effectively
FINC312	CO1	FINC312CO1	Understand and explain major components of Microfinance ecosystem
FINC312	CO2	FINC312CO2	Analyse, explain, and evaluate various MFI Models
FINC312	CO3	FINC312CO3	Explain and evaluate MFI Loan Products
FINC312	CO4	FINC312CO4	Understand, analyse, and explain how technology fosters MFI products
FINC312	CO5	FINC312CO5	Explain challenges in managing microfinance institutions
FINC312	CO6	FINC312CO6	Analyse, and explain emerging challenges in Microfinance
FINC312	CO7	FINC312CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC312	CO8	FINC312CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC312	CO9	FINC312CO9	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

FINC312	CO10	FINC312CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC313	CO1	FINC313CO1	Understand and analyse the finTechs driver of disruption in Financial Services space
FINC313	CO2	FINC313CO2	Analyse and evaluate FinTech in Payments industry
FINC313	CO3	FINC313CO3	Analyse , evaluate, and examine FinTech in lending industry
FINC313	CO4	FINC313CO4	Examine, analyse , and explain FinTech in Wealth Management and Insurance industry
FINC313	CO5	FINC313CO5	Examine, analyse , and appraise Tech disruptions enabling innovation in FinTech
FINC313	CO6	FINC313CO6	Analyse and examine the emerging trends in FinTech
FINC313	CO7	FINC313CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC313	CO8	FINC313CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC313	CO9	FINC313CO9	Demonstrate ability to work in a team effectively
FINC313	CO10	FINC313CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
HRMS321	CO1	HRMS321CO1	Deeper understanding of self - professionally and personally
HRMS321	CO2	HRMS321CO2	Studying creative teams, team dynamics and working on teams to learn from them.
HRMS321	CO3	HRMS321CO3	Speaking to industry professionals and understanding their pain points.
HRMS321	CO4	HRMS321CO4	Building tools and systems to help teams perform better
HRMS321	CO5	HRMS321CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS321	CO6	HRMS321CO6	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS321	CO7	HRMS321CO7	Demonstrate ability to work in a team effectively
HRMS321	CO8	HRMS321CO8	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS401	CO1	HRMS401CO1	Understand the reasons for conflict
HRMS401	CO2	HRMS401CO2	Apply conflict management strategies in different situations
HRMS401	CO3	HRMS401CO3	Prepare for negotiation process
HRMS401	CO4	HRMS401CO4	Carry out a negotiation with application of techniques
HRMS401	CO5	HRMS401CO5	Be familiar with complexities and barriers in negotiation
HRMS401	CO6	HRMS401CO6	Adapt to different styles and situations in negotiation process
HRMS401	CO7	HRMS401CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS401	CO8	HRMS401CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS401	CO9	HRMS401CO9	Demonstrate ability to work in a team effectively
HRMS401	CO10	HRMS401CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS403	CO1	HRMS403CO1	Describe the fundamentals of organizations
HRMS403	CO2	HRMS403CO2	Analyse the different kinds of organizational design
HRMS403	CO3	HRMS403CO3	Describe effect of environment on organizations
HRMS403	CO4	HRMS403CO4	Evaluate organizational culture and change
HRMS403	CO5	HRMS403CO5	Explain innovation and creativity in an organization
HRMS403	CO6	HRMS403CO6	Interpret effect of processes and communication on organizational performance
HRMS403	CO7	HRMS403CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS403	CO8	HRMS403CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS403	CO9	HRMS403CO9	Demonstrate ability to work in a team effectively
HRMS403	CO10	HRMS403CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS402	CO1	HRMS402CO1	Understand the importance of coaching and mentoring as a learning tool
HRMS402	CO2	HRMS402CO2	Analyse the context, scope and use of coaching and mentoring in organisations
HRMS402	CO3	HRMS402CO3	Application of different coaching techniques in organizations
HRMS402	CO4	HRMS402CO4	Evaluate the use of psychological concepts and neuroscience in coaching
HRMS402	CO5	HRMS402CO5	Evaluate the benefits and limitations of coaching and mentoring
HRMS402	CO6	HRMS402CO6	Developing the essential skills for coaching and mentoring

List of Course Outcomes for all courses A.Y. 2022-23

HRMS402	CO7	HRMS402CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS402	CO8	HRMS402CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS402	CO9	HRMS402CO9	Demonstrate ability to work in a team effectively
HRMS402	CO10	HRMS402CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS404	CO1	HRMS404CO1	Appraise the evolutionary usage of psychological assessments
HRMS404	CO2	HRMS404CO2	Analyse the context, scope and use of assessments
HRMS404	CO3	HRMS404CO3	Evaluating choice of assessments
HRMS404	CO4	HRMS404CO4	Interpreting assessment outcomes
HRMS404	CO5	HRMS404CO5	Explain deployment of assessment outcomes in organisational context
HRMS404	CO6	HRMS404CO6	Apply psychological assessments in virtual world
HRMS404	CO7	HRMS404CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS404	CO8	HRMS404CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS404	CO9	HRMS404CO9	Demonstrate ability to work in a team effectively
HRMS404	CO10	HRMS404CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS405	CO1	HRMS405CO1	Understand the value of D&I principles
HRMS405	CO2	HRMS405CO2	Value the utility of D&I as a business practice
HRMS405	CO3	HRMS405CO3	Compare and contrast the different practices in varied contexts
HRMS405	CO4	HRMS405CO4	Designing D& I implementaion strategies and plocies
HRMS405	CO5	HRMS405CO5	Integrate D&I policies with other HR practices
HRMS405	CO6	HRMS405CO6	Evaluate the role of leadership in design and implementaion
HRMS405	CO7	HRMS405CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS405	CO8	HRMS405CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS405	CO9	HRMS405CO9	Demonstrate ability to work in a team effectively
HRMS405	CO10	HRMS405CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
HRMS406	CO1	HRMS406CO1	Critically evaluate the concept
HRMS406	CO2	HRMS406CO2	Contrast the "future" with the "present"
HRMS406	CO3	HRMS406CO3	Appraise the distinguishing features of future workers and managers
HRMS406	CO4	HRMS406CO4	Conceptualize required changes in organizational processes
HRMS406	CO5	HRMS406CO5	Design organizational features in sync with technological developments
HRMS406	CO6	HRMS406CO6	Develop policies for adapting to future
HRMS406	CO7	HRMS406CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
HRMS406	CO8	HRMS406CO8	Demonstrate knowledge of relevant concepts and how this applies in employment settings
HRMS406	CO9	HRMS406CO9	Demonstrate ability to work in a team effectively
HRMS406	CO10	HRMS406CO10	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
MKTG402	CO1	MKTG402CO1	Understand concepts in B2B
MKTG402	CO2	MKTG402CO2	Understand problem-solving abilities with respect to business market management.
MKTG402	CO3	MKTG402CO3	Understand Assessing Market Opportunities /Market Sensing / Negotiations / Competitive Analysis.
MKTG402	CO4	MKTG402CO4	Understand Image Identity and the Communication Process: Key Activities, Decision Makers
MKTG402	CO5	MKTG402CO5	UNDERSTANDING sales management, Sales Forces Strategic Role, Sales Management Resources – Estimating Potential and Forecasting Sales ,
MKTG402	CO6	MKTG402CO6	Understand New Product Development in B2B & Communications Plan
MKTG402	CO7	MKTG402CO7	Analyse Sales Person Performance Evaluation and Understand Key Account Selling
MKTG402	CO8	MKTG402CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG402	CO9	MKTG402CO9	Demonstrate knowledge of relevant concepts and its application in employment settings

List of Course Outcomes for all courses A.Y. 2022-23

MKTG402	CO10	MKTG402CO10	Demonstrate ability to work in a team effectively
MKTG402	CO11	MKTG402CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG403	CO1	MKTG403CO1	To understand New Marketing- the evolved form of Marketing: the theory and practice.
MKTG403	CO2	MKTG403CO2	To analyse marketing innovation lineages
MKTG403	CO3	MKTG403CO3	To create the Market Entry strategy with Innovation analysis and the challenges involved.
MKTG403	CO4	MKTG403CO4	To evaluate Why and How - Customer Orientation is at the core of Marketing and Innovation driven by Customer need proposition and Customer Centricity.
MKTG403	CO5	MKTG403CO5	To evaluate Innovative Strategies and Plans for pricing, communication, delivery and related Marketing aspects.
MKTG403	CO6	MKTG403CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG403	CO7	MKTG403CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG403	CO8	MKTG403CO8	Demonstrate ability to work in a team effectively
MKTG403	CO9	MKTG403CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG404	CO1	MKTG404CO1	To develop an understanding of relationship between sustainability and marketing
MKTG404	CO2	MKTG404CO2	Demonstrate knowledge of concepts and definitions of sustainability marketing and understand how to deliver superior customer value based on sustainability principles
MKTG404	CO3	MKTG404CO3	To assess need of including sustainability measures and tools for specific businesses
MKTG404	CO4	MKTG404CO4	Understand and apply frameworks and models of green marketing alliances , partnerships, collaboration and networks for sustainable solutions
MKTG404	CO5	MKTG404CO5	To develop detailed understanding of applications of sustainability marketing concepts and tools to a range of profit and non-profit organisation
MKTG404	CO6	MKTG404CO6	To assess and utilise consumer behaviour towards changing sustainability patterns by organisation
MKTG404	CO7	MKTG404CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG404	CO8	MKTG404CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG404	CO9	MKTG404CO9	Demonstrate ability to work in a team effectively
MKTG404	CO10	MKTG404CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG405	CO1	MKTG405CO1	Analyze current types of entertainment, media and sports products
MKTG405	CO2	MKTG405CO2	Explain nature and scope entertainment, media and sports pricing and pricing strategy
MKTG405	CO3	MKTG405CO3	Identify components and content of sponsorship and endorsement
MKTG405	CO4	MKTG405CO4	Execute strategic marketing decisions that take into account different industry players' roles
MKTG405	CO5	MKTG405CO5	Developing blockbuster strategies for entertainment, media and sports markets
MKTG405	CO6	MKTG405CO6	Explain the impact of web 3.0, blockchain, and metaverse on Entertainment, media and sports industry
MKTG405	CO7	MKTG405CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG405	CO8	MKTG405CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG405	CO9	MKTG405CO9	Demonstrate ability to work in a team effectively
MKTG405	CO10	MKTG405CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
MKTG406	CO1	MKTG406CO1	To understand an overview of rural markets and emerging perspectives of rural marketing.
MKTG406	CO2	MKTG406CO2	To apply knowledge of successful marketing of products and services to rural consumers and users
MKTG406	CO3	MKTG406CO3	To analyze and relate the process involved in the marketing of innovation towards better
MKTG406	CO4	MKTG406CO4	To apply the experiences of institutions engaged in marketing to the Bottom of Pyramid markets through case studies.
MKTG406	CO5	MKTG406CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
MKTG406	CO6	MKTG406CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
MKTG406	CO7	MKTG406CO7	Demonstrate ability to work in a team effectively
MKTG406	CO8	MKTG406CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
OPSM308	CO1	OPSM308CO1	Ability to understand Design concepts
OPSM308	CO2	OPSM308CO2	classify and respond to find Design problems

List of Course Outcomes for all courses A.Y. 2022-23

OPSM308	CO3	OPSM308CO3	Summarize and define context of design
OPSM308	CO4	OPSM308CO4	Carry out ideation techniques
OPSM308	CO5	OPSM308CO5	Generate assets to communicate ideations effectively
OPSM401	CO1	OPSM401CO1	Students will be able to understand how production planning is done in large manufacturing organizations using ERP and SCM software packages
OPSM401	CO2	OPSM401CO2	Students will be familiar with the basic framework of Production Planning & Control process
OPSM401	CO3	OPSM401CO3	Students will be able to participate and conduct Sales and Operations Planning and Master Production Scheduling
OPSM401	CO4	OPSM401CO4	Students will be able to understand in detail Material Requirements Planning and its implementation in SAP ERP
OPSM401	CO5	OPSM401CO5	Students will be able to analyze and effectively use MRP Outputs; and also participate in Order Release and Order Management Processes
OPSM402	CO1	OPSM402CO1	Recall the basic principles of lean management and how it fits into the current scheme of management of corporations
OPSM402	CO2	OPSM402CO2	Analyse different types of wastes, where waste is found
OPSM402	CO3	OPSM402CO3	Interpret value and the value stream, draw a picture of the entire value stream in an organization, as well as value-added and non-value-added time
OPSM402	CO4	OPSM402CO4	Analyse need for continuous improvement and tools for an organizations ongoing improvement journey
OPSM402	CO5	OPSM402CO5	Illustrate workspace organization using 5S principles
OPSM402	CO6	OPSM402CO6	Illustrate production flow analysis process, the differences between push and pull systems, as well as algorithms to design work-cells.
OPSM402	CO7	OPSM402CO7	Illustrate mistake-proofing to help visualize how to reduce errors in your organization's work processes
OPSM402	CO8	OPSM402CO8	Analyse an organizations value stream and measure the cycle time/takt time and utilize methods learn to reduce it, using future state diagrams
OPSM402	CO9	OPSM402CO9	Understand other useful application areas of lean including maintenance operations and designing organizations.
OPSM404	CO1	OPSM404CO1	Students will be able to translate the customer needs and value expectations into products and services
OPSM404	CO2	OPSM404CO2	Students will be able to understand and use the methods for effective and efficient planning, management, and control of operations
OPSM404	CO3	OPSM404CO3	Students will be able to understand and use the methods to manage, integrate, and control global supply chains to achieve operational excellence
OPSM403	CO1	OPSM403CO1	Students will be able to understand all the important concepts related to retail industry initiatives for SCM
OPSM403	CO2	OPSM403CO2	Students will be able to understand and apply the concepts related to Supply Chain Risk Management and Business Continuity Management
OPSM403	CO3	OPSM403CO3	Students will be able to understand the working of Advanced Planning and Scheduling (APS) systems
OPSM403	CO4	OPSM403CO4	Students will be able to understand Sustainability Issues in supply chain management
OPSM403	CO5	OPSM403CO5	Students will be able to understand the GS1 System of Standards and Their Implementation in Supply Chains
PHIL201	CO1	PHIL201CO1	Formulate propositions in well formed formulas
PHIL201	CO2	PHIL201CO2	Formulate arguments in standard form
PHIL201	CO3	PHIL201CO3	Understand different types of deductive arguments
PHIL201	CO4	PHIL201CO4	Evaluate validity of argument
PHIL201	CO5	PHIL201CO5	Apply inductive reasoning into real world situations
PHIL203	CO1	PHIL203CO1	Analyse metaphysical issues
PHIL203	CO2	PHIL203CO2	Formulate a metaphysical problem clearly
PHIL203	CO3	PHIL203CO3	Understand metaphysical texts
PHIL203	CO4	PHIL203CO4	Evaluate different theories
PHIL301	CO1	PHIL301CO1	Understand ideas and arguments
PHIL301	CO2	PHIL301CO2	Understand texts
PHIL301	CO3	PHIL301CO3	Skill in dialogue
PHIL301	CO4	PHIL301CO4	Ability to self-examine
PHIL302	CO1	PHIL302CO1	Understand ideas and arguments

List of Course Outcomes for all courses A.Y. 2022-23

PHIL302	CO2	PHIL302CO2	Understand texts
PHIL302	CO3	PHIL302CO3	Skill in dialogue
PHIL302	CO4	PHIL302CO4	Ability to examine socio-political problems
PHIL303	CO1	PHIL303CO1	Understand ideas and arguments
PHIL303	CO2	PHIL303CO2	Understand texts
PHIL303	CO3	PHIL303CO3	Skill in dialogue
PHIL303	CO4	PHIL303CO4	Ability to self-examine
PHIL304	CO1	PHIL304CO1	Understand basic terms and concepts associated with Indian Environmental Philosophy
PHIL304	CO2	PHIL304CO2	Recognise conventions of Indian Environmental philosophical and religious genres
PHIL304	CO3	PHIL304CO3	Identify important Indian Environmental philosophical voices
PHIL304	CO4	PHIL304CO4	Understand history of various philosophical developments
PHIL304	CO5	PHIL304CO5	Express philosophical ideas in writing
PHIL304	CO6	PHIL304CO6	Learn to review philosophical and religious texts
PHIL305	CO1	PHIL305CO1	Understand ideas and arguments
PHIL305	CO2	PHIL305CO2	Understand texts
PHIL305	CO3	PHIL305CO3	Skill in dialogue
PHIL305	CO4	PHIL305CO4	Ability to self-examine
PHIL306	CO1	PHIL306CO1	Understand ideas and arguments
PHIL306	CO2	PHIL306CO2	Understand texts
PHIL306	CO3	PHIL306CO3	Skill in dialogue
PHIL306	CO4	PHIL306CO4	Ability to formulate ideas
PHIL307	CO1	PHIL307CO1	Formulate a philosophical problems clearly
PHIL307	CO2	PHIL307CO2	Ability to identify a philosophical issue
PHIL307	CO3	PHIL307CO3	Apply philosophical methods
PHIL307	CO4	PHIL307CO4	Understand the value and limitations of philosophy
PHIL322	CO1	PHIL322CO1	Understand basic terms and concepts associated with literature
PHIL322	CO2	PHIL322CO2	Recognise conventions of philosophical and religious genres
PHIL322	CO3	PHIL322CO3	Identify important Hindu, Jain, Daoists, Confucianist, Shinto, and Buddhist voices
PHIL322	CO4	PHIL322CO4	Understand history of various Indian, Chinese, and Japanese developments
PHIL322	CO5	PHIL322CO5	Express ideas in writing
PHIL322	CO6	PHIL322CO6	Learn to review philosophical and religious texts
ECON423	CO1	ECON423CO1	Student will apply game theoretic concepts to real world issues
ECON423	CO2	ECON423CO2	Students will critically evaluate research papers
ECON423	CO3	ECON423CO3	Students will use python based software for data collection using economic games.
ECON423	CO4	ECON423CO4	Students will write their own research papers using game-theoretic tools.
ECON423	CO5	ECON423CO5	Students will conduct field and lab experiments
ECON423	CO6	ECON423CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ECON423	CO7	ECON423CO7	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
ECON423	CO8	ECON423CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS401	CO1	INRS401CO1	State the key features of the theories taught in class.
INRS401	CO2	INRS401CO2	Employ a particular theoretical approach to explain a current issue.
INRS401	CO3	INRS401CO3	Justify their theoretical position with logical arguments.
INRS401	CO4	INRS401CO4	Express their opinion on the state of the discipline in India.
INRS401	CO5	INRS401CO5	Use a theoretical framework to explain historically important events.
INRS401	CO6	INRS401CO6	Interpret foreign policy issues & make policy recommendations.
INRS401	CO7	INRS401CO7	Apply a systematic approach to solve problems arising in classroom and professional settings

List of Course Outcomes for all courses A.Y. 2022-23

INRS401	CO8	INRS401CO8	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS401	CO9	INRS401CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS401	CO10	INRS401CO10	Demonstrate ability to work in a team effectively
INRS411	CO1	INRS411CO1	Describe major concepts, scopes and topics of IPE in the context of international relations
INRS411	CO2	INRS411CO2	Compare different theories (classics and modern) of IPE with the understanding of the major theoretical points
INRS411	CO3	INRS411CO3	Explain the rise of Western Liberal International Order and their impacts at the global level
INRS411	CO4	INRS411CO4	Assess the role that international trade plays in politics and how states use international trades as policy tools
INRS411	CO5	INRS411CO5	Investigate how monetary policies of countries influence international politics
INRS411	CO6	INRS411CO6	Discuss the role of development in the formation of IPE in different countries (especially between developed and developing countries)
INRS411	CO7	INRS411CO7	Synthesise different topics and tools in IPE and examine how states use them to maximize national interests
INRS411	CO8	INRS411CO8	Recommend in the Indian perspective the feasible and viable IPE policies India should take
INRS411	CO9	INRS411CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS411	CO10	INRS411CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS411	CO11	INRS411CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS411	CO12	INRS411CO12	Demonstrate ability to work in a team effectively
MATH335	CO1	MATH335CO1	Gain familiarity with the basic concepts and terms of financial mathematics.
MATH335	CO2	MATH335CO2	Recognise Brownian motion and understand their role in building stochastic financial models
MATH335	CO3	MATH335CO3	Understand the concept of risk-neutral pricing and no arbitrage principle and apply it in different contexts
MATH335	CO4	MATH335CO4	Understand and use CAPM
MATH335	CO5	MATH335CO5	Be able to derive and use Black-Scholes formula for options pricing and understand the concept of implied volatility
MATH335	CO6	MATH335CO6	Calculate lower, upper bounds for vanilla options.
MATH335	CO7	MATH335CO7	Apply stochastic models to model the movement of asset prices and their derivatives
MATH335	CO8	MATH335CO8	Use Monte Carlo simulation techniques to price a few types of non-standard options
MATH335	CO9	MATH335CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH335	CO10	MATH335CO10	Demonstrate knowledge of solving real-world problems
MATH335	CO11	MATH335CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH335	CO12	MATH335CO12	Demonstrate ability to work in a team effectively
MATH338	CO1	MATH338CO1	Abstract the essential elements of a given system/context that is amenable to modelling
MATH338	CO2	MATH338CO2	Build simple models in a wide variety of social contexts.
MATH338	CO3	MATH338CO3	Understand the underlying assumptions of Linearity, concavity and convexity
MATH338	CO4	MATH338CO4	Critically understand and employ probabilistic tools for social sciences
MATH338	CO5	MATH338CO5	Critically understand and employ agent based and rule based models
MATH338	CO6	MATH338CO6	Critically understand and employ on the use of System dynamics models
MATH338	CO7	MATH338CO7	Recall salient properties of important social science models.
MATH338	CO8	MATH338CO8	Be able to communicate results of Quantitative social science
MATH338	CO9	MATH338CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
MATH338	CO10	MATH338CO10	Demonstrate knowledge of solving real-world problems
MATH338	CO11	MATH338CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
MATH338	CO12	MATH338CO12	Demonstrate ability to work in a team effectively
POLS401	CO1	POLS401CO1	Describe major concepts, scopes and topics of comparative politics
POLS401	CO2	POLS401CO2	Compare different theories (classics and modern) of comparative politics with the understanding of the major theoretical points

List of Course Outcomes for all courses A.Y. 2022-23

POLS401	CO3	POLS401CO3	Explain the challenges democracies face at the global level
POLS401	CO4	POLS401CO4	Assess the role that state, civil society, and institutions play in politics and democratization
POLS401	CO5	POLS401CO5	Investigate how identity and related issues influence democratic politics and governance
POLS401	CO6	POLS401CO6	Discuss the role of social movements play in modern day politics among states
POLS401	CO7	POLS401CO7	Synthesise different topics in comparative politics and examine how patronage politics influence especially Indian and other societies' politics
POLS401	CO8	POLS401CO8	Ruminate in the Indian perspective the outstanding issues in CP India has faced compared with other states
POLS401	CO9	POLS401CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS401	CO10	POLS401CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS401	CO11	POLS401CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS401	CO12	POLS401CO12	Demonstrate ability to work in a team effectively
POLS421	CO1	POLS421CO1	Recall and summarise the key approaches, institutions and historical events that shaped international legal system.
POLS421	CO2	POLS421CO2	Recognise the distinctions between International and National Laws.
POLS421	CO3	POLS421CO3	Identify central arguments of thematic issues and summarise them effectively.
POLS421	CO4	POLS421CO4	Assimilate and use information from multiple scholarly sources.
POLS421	CO5	POLS421CO5	Write well-structured, evaluative essays and communicate effectively.
POLS421	CO6	POLS421CO6	Apply critical thinking skills as well as effective interpersonal learning skills.
POLS421	CO7	POLS421CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
POLS421	CO8	POLS421CO8	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
POLS421	CO9	POLS421CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
POLS421	CO10	POLS421CO10	Demonstrate ability to work in a team effectively
PSYC314	CO1	PSYC314CO1	To describe and understand the role of psychology in understanding criminal behaviour
PSYC314	CO2	PSYC314CO2	To discuss the history and major milestones in the development of forensic psychology
PSYC314	CO3	PSYC314CO3	To understand the methodological approaches used in forensic psychology
PSYC314	CO4	PSYC314CO4	To describe, analyse and apply theories of criminal behaviour
PSYC314	CO5	PSYC314CO5	To understand and describe different kinds of criminal behaviour
PSYC314	CO6	PSYC314CO6	To discuss and illustrate methods of psychological assessment of criminals
PSYC314	CO7	PSYC314CO7	To discuss and illustrate approaches to dealing with victims of crime
PSYC314	CO8	PSYC314CO8	To describe and evaluate approaches to punishment and rehabilitation
PSYC314	CO9	PSYC314CO9	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC314	CO10	PSYC314CO10	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC314	CO11	PSYC314CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC315	CO1	PSYC315CO1	Outline theories and basic concepts in Psychology and Sport and Performance Psychology
PSYC315	CO2	PSYC315CO2	Apply theoretical knowledge to performance situations
PSYC315	CO3	PSYC315CO3	Analyse and evaluate common performance issues
PSYC315	CO4	PSYC315CO4	Demonstrate empathy, critical thinking, communication and other life skills in academic, personal and professional life
PSYC315	CO5	PSYC315CO5	Design strategies to solve problems, to improve performance and to enhance mental health
PSYC315	CO6	PSYC315CO6	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC315	CO7	PSYC315CO7	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC315	CO8	PSYC315CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC316	CO1	PSYC316CO1	To understand and be able to differentiate between various types of decisions we make
PSYC316	CO2	PSYC316CO2	To critically evaluate decisions made under different scenarios
PSYC316	CO3	PSYC316CO3	To identify and analyse factors that influence our decisions

List of Course Outcomes for all courses A.Y. 2022-23

PSYC316	CO4	PSYC316CO4	To critically evaluate different theories of decision making
PSYC316	CO5	PSYC316CO5	To apply different theories to real world situations
PSYC316	CO6	PSYC316CO6	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC316	CO7	PSYC316CO7	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC316	CO8	PSYC316CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC382	CO1	PSYC382CO1	To understand the theoretical basis of advanced quantitative research methods
PSYC382	CO2	PSYC382CO2	To outline key considerations involved in decisions about choice of analytical approach
PSYC382	CO3	PSYC382CO3	To demonstrate the ability to enter, clean and organise data in SPSS
PSYC382	CO4	PSYC382CO4	To choose and employ the appropriate statistical technique for analyses, including descriptive and inferential statistics
PSYC382	CO5	PSYC382CO5	To generate, interpret and report the results of statistical analyses in line with APA standards
PSYC382	CO6	PSYC382CO6	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC382	CO7	PSYC382CO7	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC382	CO8	PSYC382CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PSYC401	CO1	PSYC401CO1	Demonstrate knowledge of the core principles and techniques of prominent therapies like REBT and CBT
PSYC401	CO2	PSYC401CO2	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC401	CO3	PSYC401CO3	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC401	CO4	PSYC401CO4	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP316	CO1	PUBP316CO1	Awareness of the advantages and disadvantages of a comparative approach to the study of welfare states
PUBP316	CO2	PUBP316CO2	Familiarity with, and the ability to critically assess, some of the key theories concerning welfare state development
PUBP316	CO3	PUBP316CO3	Acquire basic knowledge of the welfare arrangements that exist in a range of countries
PUBP316	CO4	PUBP316CO4	An appreciation of the complex interplay of social forces that shapes welfare state development
PUBP316	CO5	PUBP316CO5	Understand the operation of the state, the market and other policy actors, and the ways in which social, political and economic interests are articulated in the shaping of social questions and social policy
PUBP316	CO6	PUBP316CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP316	CO7	PUBP316CO7	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP316	CO8	PUBP316CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP316	CO9	PUBP316CO9	Demonstrate ability to work in a team effectively
PUBP317	CO1	PUBP317CO1	Recognizing opposing points of views
PUBP317	CO2	PUBP317CO2	Look inwards and understand 'self'
PUBP317	CO3	PUBP317CO3	Identify ethical frame underlying a policy
PUBP317	CO4	PUBP317CO4	Know India like natives
PUBP317	CO5	PUBP317CO5	Learn how to read policies and laws
PUBP317	CO6	PUBP317CO6	Understand complexity
PUBP317	CO7	PUBP317CO7	Become intellectually anxious and then balanced
PUBP317	CO8	PUBP317CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP317	CO9	PUBP317CO9	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP317	CO10	PUBP317CO10	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP317	CO11	PUBP317CO11	Demonstrate ability to work in a team effectively
PUBP401	CO1	PUBP401CO1	Gain understanding of the commanding heights of the economy- the state and the market
PUBP401	CO2	PUBP401CO2	Understand basic concepts of economics and economic modeling, and its use in Public policy
PUBP401	CO3	PUBP401CO3	Understand state action influence on the market and economy

List of Course Outcomes for all courses A.Y. 2022-23

PUBP401	CO4	PUBP401CO4	Understands trade offs and opportunity costs involved in Public Policy
PUBP401	CO5	PUBP401CO5	Learn concepts of markets, competitive equilibrium, trade and taxes, and also use game theoretic concepts in Public policy
PUBP401	CO6	PUBP401CO6	Learn aggregate measures of Economy and Economic growth, Inflation and Unemployment
PUBP401	CO7	PUBP401CO7	Learn measures of Poverty and inequality, and the state economic policies to address them
PUBP401	CO8	PUBP401CO8	Learn how the political process and Institutions such as democracy, constitution, Governance structure and bureaucracy influence the economic development
PUBP401	CO9	PUBP401CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP401	CO10	PUBP401CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP401	CO11	PUBP401CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP401	CO12	PUBP401CO12	Demonstrate ability to work in a team effectively
PUBP452	CO1	PUBP452CO1	Exhibit an understanding of political science, political structure and systems, and its relation to public policy
PUBP452	CO2	PUBP452CO2	Understand the role of Constitutional bodies in policy making in India
PUBP452	CO3	PUBP452CO3	Demonstrate a firm grasp over Indian political and administrative systems, processes and policymaking mechanism
PUBP452	CO4	PUBP452CO4	Display a critical understanding of dynamic relationship of Indian politics and policymaking in the context of development and welfare
PUBP452	CO5	PUBP452CO5	Dissect the Complex interplay of multiple stakeholders both governmental and non-governmental bodies in policy making in India
PUBP452	CO6	PUBP452CO6	Critically examine challenges in policy implementation in India
PUBP452	CO7	PUBP452CO7	Analyse the power, capacity, and accountability of multilayered bureaucracy in India
PUBP452	CO8	PUBP452CO8	Critically analyse significant public policy issues in the current times
PUBP452	CO9	PUBP452CO9	Demonstrate effective oral and communication skills and ability to engage in analytical discussion connecting varied arguments
PUBP452	CO10	PUBP452CO10	Write analytical, interpretative and well-researched essays, response papers and research papers
PUBP452	CO11	PUBP452CO11	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP452	CO12	PUBP452CO12	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP452	CO13	PUBP452CO13	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP452	CO14	PUBP452CO14	Demonstrate ability to work in a team effectively
SOCY158	CO1	SOCY158CO1	Understand the how the self and society are intricately connected
SOCY158	CO2	SOCY158CO2	Examine the sociological concepts and frameworks used to study the self and the social world
SOCY158	CO3	SOCY158CO3	Appreciate the value of comparative/cross-cultural approach
SOCY158	CO4	SOCY158CO4	Identify the significance/relevance of studying the individual through a social lens
SOCY158	CO5	SOCY158CO5	Apply learnings while engaging in the social world
SOCY158	CO6	SOCY158CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY158	CO7	SOCY158CO7	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY158	CO8	SOCY158CO8	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY381	CO1	SOCY381CO1	Understanding the ethnographic method and its appropriate applications
SOCY381	CO2	SOCY381CO2	Understanding and applying oral history methods
SOCY381	CO3	SOCY381CO3	Developing skills for content analysis of textual data
SOCY381	CO4	SOCY381CO4	In-depth understanding of research ethics, how to apply an ethical framework in qualitative research
SOCY381	CO5	SOCY381CO5	Using primary qualitative method skills in research, conceiving, implementing, and developing a research project
SOCY381	CO6	SOCY381CO6	Building competencies around research and writing at an advanced level
SOCY381	CO7	SOCY381CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY381	CO8	SOCY381CO8	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.

List of Course Outcomes for all courses A.Y. 2022-23

SOCY381	CO9	SOCY381CO9	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY402	CO1	SOCY402CO1	Understand the history and context out of which sociological theories emerged
SOCY402	CO2	SOCY402CO2	Learn to critically read and engage with original writings of sociological thinkers
SOCY402	CO3	SOCY402CO3	Examine the theoretical concepts and frameworks used to study the social world
SOCY402	CO4	SOCY402CO4	Inform and delve into critical debates in sociological theory
SOCY402	CO5	SOCY402CO5	Identify the significance of sociological theory for doing sociological research
SOCY402	CO6	SOCY402CO6	Apply theoretical frameworks while analysing and researching social phenomena
SOCY402	CO7	SOCY402CO7	Recognize the applicability or limitations of sociological theories
SOCY402	CO8	SOCY402CO8	Assess the implications of different theoretical approaches to social inequality and intersectionality
SOCY402	CO9	SOCY402CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY402	CO10	SOCY402CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY402	CO11	SOCY402CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY401	CO1	SOCY401CO1	Explain the connections between major sociological concepts, popular culture, current events and everyday life
SOCY401	CO2	SOCY401CO2	Describe the sociology in everyday occurrences
SOCY401	CO3	SOCY401CO3	Discuss and apply theories and concepts to social life
SOCY401	CO4	SOCY401CO4	Explain and analyse everyday life through various frameworks
SOCY401	CO5	SOCY401CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY401	CO6	SOCY401CO6	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY401	CO7	SOCY401CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY403	CO1	SOCY403CO1	Assess perspectives about cities as complex system
SOCY403	CO2	SOCY403CO2	Appraise dependency of urban areas on resources - food, water and energy
SOCY403	CO3	SOCY403CO3	Identify the land use planning of city, related data, plans and linkages with various urban processes
SOCY403	CO4	SOCY403CO4	Develop a lens of spatial justice to evaluate urban spaces and processes
SOCY403	CO5	SOCY403CO5	Synthesizing knowledge about recent developments in housing sector of urban areas and related issues
SOCY403	CO6	SOCY403CO6	Show an understanding of different urban communities and their interactions
SOCY403	CO7	SOCY403CO7	Relate and develop resilient city concepts
SOCY403	CO8	SOCY403CO8	Prepare a project or term paper based on the learning from this course
SOCY403	CO9	SOCY403CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY403	CO10	SOCY403CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY403	CO11	SOCY403CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
SOCY404	CO1	SOCY404CO1	Recall theories and dominant perspectives in sociology of population
SOCY404	CO2	SOCY404CO2	Analyze contemporary debates around gender and its link with demographic processes
SOCY404	CO3	SOCY404CO3	Effectively interpret findings of peer-reviewed demographic scholarship ("close reading" of charts, tables, maps and narratives)
SOCY404	CO4	SOCY404CO4	Appreciation of demographic data (open access sources including Census rounds, World Values Survey, Population Division, US Census Bureau)
SOCY404	CO5	SOCY404CO5	To become an informed consumer of demographic information (academia, policy and the media)
SOCY404	CO6	SOCY404CO6	Assess implications of demographic processes on social policies
SOCY404	CO7	SOCY404CO7	Develop a research project that utilizes demographic approaches and analytical frameworks
SOCY404	CO8	SOCY404CO8	Generate academic/policy material for professional meetings & publications
SOCY404	CO9	SOCY404CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
SOCY404	CO10	SOCY404CO10	Understand the importance of discipline knowledge and skills that helps in working in the industry, government or think-tanks.
SOCY404	CO11	SOCY404CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.

List of Course Outcomes for all courses A.Y. 2022-23

STAT331	CO1	STAT331CO1	Perform simple graphical representations of multivariate data
STAT331	CO2	STAT331CO2	Assess multivariate normality
STAT331	CO3	STAT331CO3	Identify appropriate General Linear Models for specific situation
STAT331	CO4	STAT331CO4	Run General Linear Model analysis
STAT331	CO5	STAT331CO5	Carry out a principal components analysis to summarise high dimensional data
STAT331	CO6	STAT331CO6	Use discriminant and cluster analysis to solve classification problems
STAT331	CO7	STAT331CO7	Perform Exploratory and Confirmatory Factor Analysis
STAT331	CO8	STAT331CO8	Perform analysis using statistical software
STAT331	CO9	STAT331CO9	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
STAT331	CO10	STAT331CO10	Demonstrate knowledge of solving real-world problems
STAT331	CO11	STAT331CO11	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
STAT331	CO12	STAT331CO12	Demonstrate ability to work in a team effectively
FREN151	CO1	FREN151CO1	Summarise events in the past
FREN151	CO2	FREN151CO2	Express events in the future
FREN151	CO3	FREN151CO3	Express a condition in the present, past and future
FREN151	CO4	FREN151CO4	Use relative pronouns and adverbs of place in an appropriate manner
FREN151	CO5	FREN151CO5	Ask and respond to questions on clothes, cuisine, the workplace, stress
FREN151	CO6	FREN151CO6	Write a resume and job application
FREN151	CO7	FREN151CO7	Understand the nuances of the language in authentic situations
FREN152	CO1	FREN152CO1	Converse confidently on a variety of topics
FREN152	CO2	FREN152CO2	Express hypotheses and respond to conditional grammatical structures
FREN152	CO3	FREN152CO3	Use the subjunctive mood to communicate at higher levels of discourse
FREN152	CO4	FREN152CO4	Analyse and react appropriately to native speakers in different cultural contexts
FREN152	CO5	FREN152CO5	Express opinions and ideas about people and events
FREN152	CO6	FREN152CO6	Comprehend and react to French humour and stereotypes
FREN152	CO7	FREN152CO7	Use reported speech to narrate information
HIND101	CO1	HIND101CO1	Remember and recall the Hindi alphabet and pronunciation
HIND101	CO2	HIND101CO2	Remember and recall verb conjugations
HIND101	CO3	HIND101CO3	Understand simple questions and respond to them
HIND101	CO4	HIND101CO4	Use basic grammatical structures
HIND101	CO5	HIND101CO5	Understand and use the present tense
HIND101	CO6	HIND101CO6	Understand and recall simple vocabulary
HIND101	CO7	HIND101CO7	Use the four language skills: reading, writing, listening and speaking in everyday activities
HIND101	CO8	HIND101CO8	Understand the language in a socio-cultural context
HIND102	CO1	HIND102CO1	Remember and recall the Devanagari script and Hindi pronunciation
HIND102	CO2	HIND102CO2	Remember and recall verb conjugations
HIND102	CO3	HIND102CO3	Understand simple questions and respond to them in the present and simple past tenses
HIND102	CO4	HIND102CO4	Use complex grammatical structures
HIND102	CO5	HIND102CO5	Talk about the family and travel
HIND102	CO6	HIND102CO6	Use more advanced vocabulary to describe people and things
HIND102	CO7	HIND102CO7	Use the four language skills: reading, writing, listening and speaking in everyday activities
HIND102	CO8	HIND102CO8	Understand the language in a wider socio-cultural context
GRMN151	CO1	GRMN151CO1	Summarise events in the past
GRMN151	CO2	GRMN151CO2	Express thoughts and ideas
GRMN151	CO3	GRMN151CO3	Formulate and respond to questions
GRMN151	CO4	GRMN151CO4	Use direct and indirect objects appropriately
GRMN151	CO5	GRMN151CO5	Ask and respond to questions on travelling, clothes, weather, cuisine, health and ailments
GRMN151	CO6	GRMN151CO6	Understand the nuances of the language in authentic situations

List of Course Outcomes for all courses A.Y. 2022-23

GRMN152	CO1	GRMN152CO1	Summarise events in the past using modal verbs
GRMN152	CO2	GRMN152CO2	Express hypotheses and respond
GRMN152	CO3	GRMN152CO3	Express opinions and ideas about people and events
GRMN152	CO4	GRMN152CO4	Use conjunctions appropriately
GRMN152	CO5	GRMN152CO5	Ask and respond to questions on habits, customs, media, festivals, workplace
GRMN152	CO6	GRMN152CO6	Converse confidently on a variety of topics
GRMN152	CO7	GRMN152CO7	Understand the cultural nuances and compare with own
MART101	CO1	MART101CO1	Remember and recall Marathi script and pronunciation
MART101	CO2	MART101CO2	Remember and recall verb conjugations
MART101	CO3	MART101CO3	Understand simple questions and respond to them
MART101	CO4	MART101CO4	Use basic grammatical structures
MART101	CO5	MART101CO5	Understand and use the present tense
MART101	CO6	MART101CO6	Remember and recall simple vocabulary
MART101	CO7	MART101CO7	Use the four language skills: reading, listening, speaking and writing in daily activities
MART101	CO8	MART101CO8	Understand the language in a cultural and social context
MART102	CO1	MART102CO1	Remember and recall Marathi pronunciation
MART102	CO2	MART102CO2	Remember and recall verb conjugations
MART102	CO3	MART102CO3	Understand simple questions and respond to them
MART102	CO4	MART102CO4	Use advanced grammatical structures
MART102	CO5	MART102CO5	Understand and use the present tense
MART102	CO6	MART102CO6	Remember and recall simple vocabulary
MART102	CO7	MART102CO7	Use the four language skills: reading, listening, speaking and writing in daily activities
MART102	CO8	MART102CO8	Understand the language in a cultural and social context
SNKT102	CO1	SNKT102CO1	ability to read, understand, speak and communicate in Sanskrit at a basic and pre-intermediate level
SNKT102	CO2	SNKT102CO2	ability to decipher the meaning of basic Sanskrit verses and prose at an elementary level
SNKT102	CO3	SNKT102CO3	ability to compose small sentences with the affirmative, negative, interrogative in the present, past imperfect, imperative moods
SNKT102	CO4	SNKT102CO4	Ability to understand basic poetry and prose
JRLM307	CO1	JRLM307CO1	Understand the various beats in business journalism
JRLM307	CO2	JRLM307CO2	Understand top news in business and financial markets
JRLM307	CO3	JRLM307CO3	Understand the language of business journalism
JRLM307	CO4	JRLM307CO4	Study and analyze the stock markets
JRLM307	CO5	JRLM307CO5	Understand Financial Statements
JRLM307	CO6	JRLM307CO6	Understand the regulatory frameworks in the context of business journalism
JRLM307	CO7	JRLM307CO7	Research and write basic business news reports
JRLM307	CO8	JRLM307CO8	Demonstrate ability to work in a team effectively
JRLM307	CO9	JRLM307CO9	Demonstrate knowledge of current trends and practices in the News Media
JRLM307	CO10	JRLM307CO10	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
JRLM312	CO1	JRLM312CO1	Understand sporting ecosystem
JRLM312	CO2	JRLM312CO2	Analyse how media reports sport
JRLM312	CO3	JRLM312CO3	Apply understanding of sports to reporting
JRLM312	CO4	JRLM312CO4	Understand the regulatory frameworks in the context of business and sports journalism
JRLM312	CO5	JRLM312CO5	Write a cricket match report
JRLM312	CO6	JRLM312CO6	Create a video with sports commentary
JRLM312	CO7	JRLM312CO7	Write a sports feature story
JRLM312	CO8	JRLM312CO8	Produce sports content for new media
JRLM312	CO9	JRLM312CO9	Demonstrate ability to work in a team effectively
JRLM312	CO10	JRLM312CO10	Demonstrate knowledge of current trends and practices in the News Media
JRLM312	CO11	JRLM312CO11	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.

List of Course Outcomes for all courses A.Y. 2022-23

JRLM313	CO1	JRLM313CO1	Analyse the role of media in tracking lifestyle and entertainment trends
JRLM313	CO2	JRLM313CO2	Apply the art of critiquing
JRLM313	CO3	JRLM313CO3	Analyse reviews on various media
JRLM313	CO4	JRLM313CO4	Analyse and create public opinion
JRLM313	CO5	JRLM313CO5	Apply the art of interviewing
JRLM313	CO6	JRLM313CO6	Analyse lifestyle reportage
JRLM313	CO7	JRLM313CO7	Demonstrate ability to work in a team effectively
JRLM313	CO8	JRLM313CO8	Demonstrate knowledge of current trends and practices in the News Media
JRLM313	CO9	JRLM313CO9	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
JRLM314	CO1	JRLM314CO1	Apply proofreading techniques to edit reports
JRLM314	CO2	JRLM314CO2	Use editing skills to sub a news article
JRLM314	CO3	JRLM314CO3	Write photo captions for reports
JRLM314	CO4	JRLM314CO4	Use editing skills to sub a feature article
JRLM314	CO5	JRLM314CO5	Apply fact-checking techniques to edit reports
JRLM314	CO6	JRLM314CO6	Demonstrate ability to work in a team effectively
JRLM314	CO7	JRLM314CO7	Demonstrate knowledge of current trends and practices in the News Media
JRLM314	CO8	JRLM314CO8	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
JRLM315	CO1	JRLM315CO1	Apply data to add to reports
JRLM315	CO2	JRLM315CO2	Analyse data to find and report stories
JRLM315	CO3	JRLM315CO3	Analyse investigative journalism principles to expose political corruption
JRLM315	CO4	JRLM315CO4	Analyse open source data to verify and find information about individuals or groups
JRLM315	CO5	JRLM315CO5	Analyse the ethics behind a sting operation
JRLM315	CO6	JRLM315CO6	Demonstrate ability to work in a team effectively
JRLM315	CO7	JRLM315CO7	Demonstrate knowledge of current trends and practices in the News Media
JRLM315	CO8	JRLM315CO8	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
JRLM316	CO1	JRLM316CO1	Apply data to add to reports
JRLM316	CO2	JRLM316CO2	Analyse data to find and report stories
JRLM316	CO3	JRLM316CO3	Analyse basic photography principles in the work of professionals
JRLM316	CO4	JRLM316CO4	Apply photographic skills to create images that have news value for the purpose of journalistic publication
JRLM316	CO5	JRLM316CO5	Analyse data to find patterns and avoid erroneous conclusions.
JRLM316	CO6	JRLM316CO6	Analyse issues pertaining to law, ethics, controversial images and intellectual property
JRLM316	CO7	JRLM316CO7	Analyse a potential issue that is current and apply it to pitching a story
JRLM316	CO8	JRLM316CO8	Demonstrate ability to work in a team effectively
JRLM316	CO9	JRLM316CO9	Demonstrate knowledge of current trends and practices in the News Media
JRLM316	CO10	JRLM316CO10	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
DESG304	CO1	DESG304CO1	Observation, deconstruction and reconstruction of user Experience
DESG304	CO2	DESG304CO2	Creation of Service Blueprint
DESG304	CO3	DESG304CO3	Conversion of a valuable experience to a basic practical business outline
DESG304	CO4	DESG304CO4	Basic innovation-oriented research
DESG304	CO5	DESG304CO5	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG304	CO6	DESG304CO6	Demonstrate ability to work in a team effectively
DESG304	CO7	DESG304CO7	Demonstrate knowledge of current professional practices and trends
DESG304	CO8	DESG304CO8	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
INRS301	CO1	INRS301CO1	Recall the key points of the theories discussed in class.
INRS301	CO2	INRS301CO2	Summarize the differences among the theoretical perspectives discussed in class w.r.t. IOs.
INRS301	CO3	INRS301CO3	Apply a theoretical perspective on a current issue of global importance.
INRS301	CO4	INRS301CO4	Recognize the role played by IOs in international politics.

List of Course Outcomes for all courses A.Y. 2022-23

INRS301	CO5	INRS301CO5	Explain the similarities and differences between global and regional organizations.
INRS301	CO6	INRS301CO6	Discuss India's position in key international organizations.
INRS301	CO7	INRS301CO7	Create a list of international organizations in which India takes an active role.
INRS301	CO8	INRS301CO8	Evaluate the role played by IOs in the management of international conflict.
INRS301	CO9	INRS301CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS301	CO10	INRS301CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
INRS301	CO11	INRS301CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS301	CO12	INRS301CO12	Demonstrate ability to work in a team effectively
JRLM302	CO1	JRLM302CO1	To understand the digital medium and formats
JRLM302	CO2	JRLM302CO2	To write a report for a website
JRLM302	CO3	JRLM302CO3	To create social media campaigns
JRLM302	CO4	JRLM302CO4	Create video news
JRLM302	CO5	JRLM302CO5	Create photo stories
JRLM302	CO6	JRLM302CO6	Using web tools
JRLM302	CO7	JRLM302CO7	Working with visual material
JRLM302	CO8	JRLM302CO8	Demonstrate ability to work in a team effectively
JRLM302	CO9	JRLM302CO9	Demonstrate knowledge of current trends and practices in the News Media
JRLM302	CO10	JRLM302CO10	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
JRLM302	CO11	JRLM302CO11	Demonstrate ability to work in a team effectively
JRLM302	CO12	JRLM302CO12	Demonstrate knowledge of current trends and practices in the News Media
JRLM302	CO13	JRLM302CO13	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
JRLM305	CO1	JRLM305CO1	Identify the key concepts, and the philosophy underpinning political economy of media
JRLM305	CO2	JRLM305CO2	Understand the delicate equilibrium between the various ownership patterns and the media content
JRLM305	CO3	JRLM305CO3	Understand the ethical, legal, political, and economic contexts of the mass media
JRLM305	CO4	JRLM305CO4	To identify the relationship between politics and media and assess the representation of politics by the media and media involvement in the policymaking process.
JRLM305	CO5	JRLM305CO5	Understand the importance of history and culture as they shape and are in turn shaped by arts and media
JRLM305	CO6	JRLM305CO6	Be able to conduct thorough and critical research for both media theory and skills assignments
JRLM305	CO7	JRLM305CO7	To apply political economy framework across different media
JRLM305	CO8	JRLM305CO8	Demonstrate ability to work in a team effectively
JRLM305	CO9	JRLM305CO9	Demonstrate knowledge of current trends and practices in the News Media
JRLM305	CO10	JRLM305CO10	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
JRLM305	CO11	JRLM305CO11	Demonstrate ability to work in a team effectively
JRLM305	CO12	JRLM305CO12	Demonstrate knowledge of current trends and practices in the News Media
JRLM305	CO13	JRLM305CO13	Communicate ideas and solutions clearly, concisely, and persuasively to a general audience.
THEA306	CO1	THEA306CO1	To help students understand Literary and Dramatic traditions
THEA306	CO2	THEA306CO2	To enable study into Asian society and Culture
THEA306	CO3	THEA306CO3	To familiarize students with a selection of Asian artists and dramatic works
THEA306	CO4	THEA306CO4	To examine a variety of aesthetic and formal traditions in China, Japan, Indonesia and India.
THEA306	CO5	THEA306CO5	To develop writing abilities to analyse and critique theater
DANC322	CO1	DANC322CO1	To be updated with an understanding of the current dance scenario and requirements of the field
DANC322	CO2	DANC322CO2	To be able to face the professional challenges with an enhanced understanding regarding the market expectations
DANC322	CO3	DANC322CO3	To understand various areas of management required for a dance professional
DANC322	CO4	DANC322CO4	To understand the application of knowledge gained in actual professional scenario for increasing possibilities for a successful dance career
DANC308	CO1	DANC308CO1	Be comfortable and able to improvise freely

List of Course Outcomes for all courses A.Y. 2022-23

DANC308	CO2	DANC308CO2	Be able to explore and communicate the theme of the improvisation effectively
DANC308	CO3	DANC308CO3	Be able to explore a variety of stimuli I.e., visual image, props, music, text, space
DANC308	CO4	DANC308CO4	To be able to understand various applications of improvisation I.e creative sensitivity, choreographic exploration, range of movements
DANC308	CO5	DANC308CO5	Be able to apply improvisation methods and structures
DANC308	CO6	DANC308CO6	Be able to discuss and notate, salient points of the discovery from the various improvisations
DANC308	CO7	DANC308CO7	Be able to name few dance forms that use improvisation in performance and/or in methodology
DANC308	CO8	DANC308CO8	Be aware about the work of at least one artist from India who is currently working with improvisation either in performance or in choreographic exploration
DESG318	CO1	DESG318CO1	What quantitative research is and how it differs from qualitative
DESG318	CO2	DESG318CO2	Why quantitative research is important
DESG318	CO3	DESG318CO3	Alternatives to quantitative methods
DESG318	CO4	DESG318CO4	Simple statistical analysis
DESG318	CO5	DESG318CO5	Quantitative methods in detail: surveys, early-design testing, web/app analytics and A/B testing
DESG318	CO6	DESG318CO6	Participant recruitment and screening
DESG318	CO7	DESG318CO7	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG318	CO8	DESG318CO8	Demonstrate ability to work in a team effectively
DESG318	CO9	DESG318CO9	Demonstrate knowledge of current professional practices and trends
DESG318	CO10	DESG318CO10	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG313	CO1	DESG313CO1	the concept of diffusion and the dynamics of innovation;
DESG313	CO2	DESG313CO2	strengthen your abilities to deal with wicked problem using Design thinking and Agile as a method.
DESG313	CO3	DESG313CO3	Acquire Design Thinking tools to critically analyze, discuss and present on topics related to innovation within larger cultural and disciplinary contexts;
DESG313	CO4	DESG313CO4	Capability in the application of Innovation theory to current business problems. Soft skills specific to Design decision-making.
DESG313	CO5	DESG313CO5	the role of innovation in society from a multidisciplinary perspective;
DESG313	CO6	DESG313CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG313	CO7	DESG313CO7	Demonstrate ability to work in a team effectively
DESG313	CO8	DESG313CO8	Demonstrate knowledge of current professional practices and trends
DESG313	CO9	DESG313CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG311	CO1	DESG311CO1	Develop an understanding of specialized terminology and knowledge relevant to typography
DESG311	CO2	DESG311CO2	Develop and understanding of the elements and principles of design as they relate to type
DESG311	CO3	DESG311CO3	Develop the ability to analyze, synthesize, and develop effective typographic solutions utilizing methods and skills in concept development and problem solving
DESG311	CO4	DESG311CO4	Develop an understanding of the typographic capabilities and limitations of digital media—primarily interactive and digital multimedia communication in relation to typography.
DESG311	CO5	DESG311CO5	Develop research skills as they apply to typographic design solution.
DESG311	CO6	DESG311CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG311	CO7	DESG311CO7	Demonstrate ability to work in a team effectively
DESG311	CO8	DESG311CO8	Demonstrate knowledge of current professional practices and trends
DESG311	CO9	DESG311CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
PHIL204	CO1	PHIL204CO1	Understand ideas and arguments
PHIL204	CO2	PHIL204CO2	Understand texts
PHIL204	CO3	PHIL204CO3	Skill in dialogue
PHIL204	CO4	PHIL204CO4	Ability to self-examine

List of Course Outcomes for all courses A.Y. 2022-23

PHIL204	CO5	PHIL204CO5	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PHIL204	CO6	PHIL204CO6	Demonstrate skills to conduct critical enquiry
PHIL202	CO1	PHIL202CO1	Understand ideas and arguments
PHIL202	CO2	PHIL202CO2	Understand texts
PHIL202	CO3	PHIL202CO3	Skill in dialogue
PHIL202	CO4	PHIL202CO4	Ability to self-examine
PHIL202	CO5	PHIL202CO5	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PHIL202	CO6	PHIL202CO6	Demonstrate skills to conduct critical enquiry
THEA310	CO1	THEA310CO1	To help students understand globalisation and new technologies and connections
THEA310	CO2	THEA310CO2	To enable study into contemporary performance practices
THEA310	CO3	THEA310CO3	Familiarize with interdisciplinary and new media practices
THEA310	CO4	THEA310CO4	Examine a variety of aesthetic and formal performance practices
DRPT102	CO1	DRPT102CO1	Drawing skill and techniques
DRPT102	CO2	DRPT102CO2	Elements and principles of Visual arts
DRPT102	CO3	DRPT102CO3	Observation
DRPT102	CO4	DRPT102CO4	Creative thinking
DRPT102	CO5	DRPT102CO5	Drawing portrait
DRPT102	CO6	DRPT102CO6	Drawing and Portrait in History
DESG325	CO1	DESG325CO1	Ability to generate insights from information
DESG325	CO2	DESG325CO2	Implement information for effective organisation
DESG325	CO3	DESG325CO3	Summarize information visually
DESG325	CO4	DESG325CO4	Assemble information for ideation
DESG325	CO5	DESG325CO5	Produce assets to communicate ideations
DESG325	CO6	DESG325CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG325	CO7	DESG325CO7	Demonstrate ability to work in a team effectively
DESG325	CO8	DESG325CO8	Demonstrate knowledge of current professional practices and trends
DESG325	CO9	DESG325CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
PSYC322	CO1	PSYC322CO1	Evaluate literature in the area of neuropsychology
PSYC322	CO2	PSYC322CO2	Examine the relevance of neuropsychological principles in day-to-day functioning
PSYC322	CO3	PSYC322CO3	Relate disturbances in cognition to underlying brain structure
PSYC322	CO4	PSYC322CO4	Evaluate the cross-cultural validity of existing neuropsychological tests
PSYC322	CO5	PSYC322CO5	Value the reciprocal nature of the brain and behaviour
PSYC322	CO6	PSYC322CO6	Generate awareness about current issues in neuropsychology
PSYC322	CO7	PSYC322CO7	Appreciate the nature of the changing brain and the role of neuropsychological rehabilitation.
PSYC322	CO8	PSYC322CO8	Formulate strategies to address neurocognitive issues
PSYC322	CO9	PSYC322CO9	Apply a systematic approach to address issues arising in classroom and professional settings
PSYC322	CO10	PSYC322CO10	Employ discipline knowledge and skills to issues faced in a professional setting
PSYC322	CO11	PSYC322CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
THEA309	CO1	THEA309CO1	Understand theatre's power in the social context as a medium of communication/dialogue
THEA309	CO2	THEA309CO2	Understand the process of devising theatre based on needs of a community
THEA309	CO3	THEA309CO3	Learn and practice theatre skills of improvisation and performance
THEA309	CO4	THEA309CO4	Devise improvisations and performance for a community
THEA308	CO1	THEA308CO1	Awareness about self
THEA308	CO2	THEA308CO2	Understanding how to change the dimensions of the space while acting
THEA308	CO3	THEA308CO3	Detailing in characterisation
THEA308	CO4	THEA308CO4	Understanding how to correlate with other on-stage actors.
THEA308	CO5	THEA308CO5	Understanding how to emote on stage

List of Course Outcomes for all courses A.Y. 2022-23

THEA308	CO6	THEA308CO6	Developing the attitude to observe and imitate while acting
THEA308	CO7	THEA308CO7	Developing the habit to rehearse
THEA308	CO8	THEA308CO8	Ability to self-assessment
THEA308	CO9	THEA308CO9	Ability to perform confidently
PUBP315	CO1	PUBP315CO1	To gain an understanding of Evidence-based Policymaking.
PUBP315	CO2	PUBP315CO2	To differentiate between: Monitoring and Evaluation, Policy and Program Evaluation and Impact Assessment
PUBP315	CO3	PUBP315CO3	To gain a theoretical understanding of causal Inference and theory of change framework
PUBP315	CO4	PUBP315CO4	To get acquainted with different quantitative methods of evaluation such as RCTs, and Regression discontinuity design and Difference in difference methods
PUBP315	CO5	PUBP315CO5	To enable students to design designing Impact evaluation
PUBP315	CO6	PUBP315CO6	To understand and contextualize different impact evaluation studies in India and developing countries from agencies such as JPAL
PUBP315	CO7	PUBP315CO7	To equip students to see the iterative process from policy evaluation to policy formulation
PUBP315	CO8	PUBP315CO8	To understand the limitations of evidence-based policy:
PUBP315	CO9	PUBP315CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
PUBP315	CO10	PUBP315CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
PUBP315	CO11	PUBP315CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PUBP315	CO12	PUBP315CO12	Demonstrate ability to work in a team effectively
MUSC309	CO1	MUSC309CO1	Define and distinguish between different Instruments given in the course
MUSC309	CO2	MUSC309CO2	Memorize and illustrate through Practical of different instruments different structures of instruments of the course.
MUSC309	CO3	MUSC309CO3	List, demonstrate and Analyse the structure of Vilambit Thumree
MUSC309	CO4	MUSC309CO4	Prepare a report on the field Visit
MUSC307	CO1	MUSC307CO1	Define and distinguish between different Raag structures given in the course
MUSC307	CO2	MUSC307CO2	Memorize and illustrate through singing different Raag structures of the course.
MUSC307	CO3	MUSC307CO3	List, demonstrate and Analyse the structure of Dhrupad
MUSC307	CO4	MUSC307CO4	Learn to sing and demonstrate the Bada Khayaal compositions
MUSC307	CO5	MUSC307CO5	List, demonstrate and Analyze the Thumree and Jhoola/Hori and The Taal structures given in the Course.
MUSC307	CO6	MUSC307CO6	Plan and prepare a 10 to 15 minutes Khayaal performance
GMGT302	CO1	GMGT302CO1	Understand the cross-functional nature of strategy
GMGT302	CO2	GMGT302CO2	Understand the different levels of strategy
GMGT302	CO3	GMGT302CO3	Perform External Environmental Analysis
GMGT302	CO4	GMGT302CO4	Differentiate between Corporate and Functional Strategy
GMGT302	CO5	GMGT302CO5	Understand the foundations of Competitive Advantage
GMGT302	CO6	GMGT302CO6	Understand and apply Porter's generic strategies
GMGT302	CO7	GMGT302CO7	Understand strategic management tools, models and frameworks
GMGT302	CO8	GMGT302CO8	Demonstrate the strategic, analytic and decision-making skills
GMGT302	CO9	GMGT302CO9	Demonstrate a strategic orientation to a broad spectrum of organisations
GMGT302	CO10	GMGT302CO10	Apply a systematic approach to solve problems arising in classroom and professional settings
GMGT302	CO11	GMGT302CO11	Demonstrate knowledge of relevant concepts and its application in employment settings
GMGT302	CO12	GMGT302CO12	Demonstrate ability to work in a team effectively
GMGT302	CO13	GMGT302CO13	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
BUAN402	CO1	BUAN402CO1	Recognize the importance of fundamentals for optimization
BUAN402	CO2	BUAN402CO2	Illustrate the link between fundamentals with the solution steps
BUAN402	CO3	BUAN402CO3	Illustrate application of integer programming
BUAN402	CO4	BUAN402CO4	Understand the concept of non-linear programming
BUAN402	CO5	BUAN402CO5	Learning unconstrained optimization - Gradient descent method
BUAN402	CO6	BUAN402CO6	Understand constrained (equality and inequality constraints) models

List of Course Outcomes for all courses A.Y. 2022-23

BUAN402	CO7	BUAN402CO7	Recognise the need for evolutionary algorithms in solving problems
BUAN402	CO8	BUAN402CO8	Understand the basic concept of genetic algorithm
BUAN402	CO9	BUAN402CO9	Application GA in solving single and multiple objectives
BUAN402	CO10	BUAN402CO10	Recognise the need for simulation in real life applications
BUAN402	CO11	BUAN402CO11	Understand discrete-event simulation and its implementation with Arena and Python
BUAN402	CO12	BUAN402CO12	Implementation of monte carlo simulation in spreadsheet
BUAN402	CO13	BUAN402CO13	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
BUAN402	CO14	BUAN402CO14	Demonstrate knowledge of relevant Business Analytics concepts and how this applies to practice to enhance employability in the Data analytics domain.
BUAN402	CO15	BUAN402CO15	Reflect critically upon own professional skills and employability prospects.
BUAN402	CO16	BUAN402CO16	Demonstrate ability to work in a team effectively
ENVS307	CO1	ENVS307CO1	Assess perspectives about cities as complex system
ENVS307	CO2	ENVS307CO2	Appraise dependency of urban areas on resources - food, water and energy
ENVS307	CO3	ENVS307CO3	Identify the land use planning of city, related data, plans and linkages with various urban processes
ENVS307	CO4	ENVS307CO4	Develop a lens of spatial justice to evaluate urban spaces and processes
ENVS307	CO5	ENVS307CO5	Synthesizing knowledge about recent developments in housing sector of urban areas and related issues
ENVS307	CO6	ENVS307CO6	Show an understanding of different urban communities and their interactions
ENVS307	CO7	ENVS307CO7	Relate and develop resilient city concepts
ENVS307	CO8	ENVS307CO8	Prepare a project or term paper based on the learning from this course
ENVS307	CO9	ENVS307CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
ENVS307	CO10	ENVS307CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.
ENVS307	CO11	ENVS307CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
ENVS307	CO12	ENVS307CO12	Demonstrate ability to work in a team effectively
DMAC313	CO1	DMAC313CO1	Core emergent tech knowledge
DMAC313	CO2	DMAC313CO2	Innovation with tech- incremental and disruptive- knowledge
DMAC313	CO3	DMAC313CO3	Knowledge of frameworks for business transformation through tech
DMAC313	CO4	DMAC313CO4	Planning for tech trends- skills
DMAC313	CO5	DMAC313CO5	Understand basics of RPA
DMAC313	CO6	DMAC313CO6	Make Sample RPA Bots
DMAC313	CO7	DMAC313CO7	Understand AR, VR and its use in industry
DMAC313	CO8	DMAC313CO8	Build a simple Blockchain
DMAC313	CO9	DMAC313CO9	Understand Cloud, top cloud technologies like GCP, AWS and Azure
DMAC313	CO10	DMAC313CO10	Build a simple Cloud Marketing Application in GCP
DMAC313	CO11	DMAC313CO11	Apply in realtime IoT example/Hands on exercise
DMAC313	CO12	DMAC313CO12	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC313	CO13	DMAC313CO13	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC313	CO14	DMAC313CO14	Demonstrate ability to work in a team effectively
DMAC313	CO15	DMAC313CO15	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC401	CO1	DMAC401CO1	Gain market ready competencies in managing cuttingedge products
DMAC401	CO2	DMAC401CO2	Employ agile and lean methods to design, build and take-to-market winning products
DMAC401	CO3	DMAC401CO3	Segment markets, identify opportunity arenas, and conceptualize value propositions

List of Course Outcomes for all courses A.Y. 2022-23

DMAC401	CO4	DMAC401CO4	Craft competitive product strategies to win in markets and generate profits
DMAC401	CO5	DMAC401CO5	Use data insights to delight users and constantly up value delivery
DMAC401	CO6	DMAC401CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC401	CO7	DMAC401CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC401	CO8	DMAC401CO8	Demonstrate ability to work in a team effectively
DMAC401	CO9	DMAC401CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC402	CO1	DMAC402CO1	Understand Personal branding techniques
DMAC402	CO2	DMAC402CO2	Understand the Creator Economy and various trending practices
DMAC402	CO3	DMAC402CO3	Evaluate Content strategy to content execution development
DMAC402	CO4	DMAC402CO4	Compare and contrast Media and content vehicles- deeper understanding
DMAC402	CO5	DMAC402CO5	Perspective: Assess podcasting
DMAC402	CO6	DMAC402CO6	Perspective: Assess Instagram
DMAC402	CO7	DMAC402CO7	Perspective: Assess Youtube
DMAC402	CO8	DMAC402CO8	Perspective: Assess LinkedIn, Pinterest, Twitter, Reels
DMAC402	CO9	DMAC402CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC402	CO10	DMAC402CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC402	CO11	DMAC402CO11	Demonstrate ability to work in a team effectively
DMAC402	CO12	DMAC402CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DMAC403	CO1	DMAC403CO1	Understand how the digital age has affected reputation management
DMAC403	CO2	DMAC403CO2	Understand how to utilise the audience as co-creator of the story and brand
DMAC403	CO3	DMAC403CO3	Apply the learning to manage the reputation of a brand online and various strategies to do the same
DMAC403	CO4	DMAC403CO4	Understand how to manage a crisis and respond appropriately across multiple online platforms
DMAC403	CO5	DMAC403CO5	Analyse how few brands have been authentic and manage to speak 'beyond the corporate voice'
DMAC403	CO6	DMAC403CO6	Apply the learning to use various ORM tools
DMAC403	CO7	DMAC403CO7	Create a strong participatory culture to engage your audience
DMAC403	CO8	DMAC403CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
DMAC403	CO9	DMAC403CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
DMAC403	CO10	DMAC403CO10	Demonstrate ability to work in a team effectively
DMAC403	CO11	DMAC403CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
INRS381	CO1	INRS381CO1	Describe major concepts, scopes and topics of international relations methods
INRS381	CO2	INRS381CO2	Compare different methods of IR with the understanding of the major theoretical differences and applications
INRS381	CO3	INRS381CO3	Explain the shifting focus of methods in different eras of IR
INRS381	CO4	INRS381CO4	Assess the importance of quantitative methods (econometrics and formal) in IR
INRS381	CO5	INRS381CO5	Evaluate the essence and limit of post-positivist methods of international politics
INRS381	CO6	INRS381CO6	Discuss the logics and historical evolution in the formation of IR methods and the political and social momentum behind
INRS381	CO7	INRS381CO7	Synthesise different methods and tools in IR and evaluate how to use them to learner's individual research project
INRS381	CO8	INRS381CO8	Recommend in the Indian perspective the feasible and viable IR methods for the study of in the Indian context
INRS381	CO9	INRS381CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
INRS381	CO10	INRS381CO10	Employ discipline knowledge and skills that facilitates working in the industry, government or think-tanks.

List of Course Outcomes for all courses A.Y. 2022-23

INRS381	CO11	INRS381CO11	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
INRS381	CO12	INRS381CO12	Demonstrate ability to work in a team effectively
ADBR401	CO1	ADBR401CO1	Identify marketing research problems
ADBR401	CO2	ADBR401CO2	Create Marketing Research Designs
ADBR401	CO3	ADBR401CO3	Identify methods and Tools for research designs
ADBR401	CO4	ADBR401CO4	Analyse data
ADBR401	CO5	ADBR401CO5	Report findings
ADBR401	CO6	ADBR401CO6	Synthesize marketing research and analytics for businesses
ADBR401	CO7	ADBR401CO7	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR401	CO8	ADBR401CO8	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR401	CO9	ADBR401CO9	Demonstrate ability to work in a team effectively
ADBR401	CO10	ADBR401CO10	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR402	CO1	ADBR402CO1	Identify what makes great campaigns great
ADBR402	CO2	ADBR402CO2	Internalize and imbue the principles of great campaigns
ADBR402	CO3	ADBR402CO3	Begin the practice of identifying ONE big idea and ideating its execution across imperative and innovative media
ADBR402	CO4	ADBR402CO4	Demonstrate beginner-level proficiency in producing ads using vector graphics software
ADBR402	CO5	ADBR402CO5	Generate one's own individual Creative Portfolio that will compete with the best in the industry
ADBR402	CO6	ADBR402CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR402	CO7	ADBR402CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR402	CO8	ADBR402CO8	Demonstrate ability to work in a team effectively
ADBR402	CO9	ADBR402CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
ADBR403	CO1	ADBR403CO1	Understand Media Planning Process
ADBR403	CO2	ADBR403CO2	Familiarise with concepts, terminologies and mathematical calculations applied in the process
ADBR403	CO3	ADBR403CO3	Categorize Media Budgeting, Briefing, Cross Channel Evaluation & Media Mix Decision Making
ADBR403	CO4	ADBR403CO4	Examine media measurement to evaluate media in terms of efficiency
ADBR403	CO5	ADBR403CO5	Investigate and explore consumers' media usage and attitudes towards media
ADBR403	CO6	ADBR403CO6	Develop contextual understanding of Indian media landscape
ADBR403	CO7	ADBR403CO7	Arrange and design media planning and buying strategies
ADBR403	CO8	ADBR403CO8	Apply a systematic approach to solve problems arising in classroom and professional settings
ADBR403	CO9	ADBR403CO9	Demonstrate knowledge of relevant concepts and its application in employment settings
ADBR403	CO10	ADBR403CO10	Demonstrate ability to work in a team effectively
ADBR403	CO11	ADBR403CO11	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
CSIT431	CO1	CSIT431CO1	Demonstrate knowledge of classical machine learning
CSIT431	CO2	CSIT431CO2	Familiarity with issues in image and video processing
CSIT431	CO3	CSIT431CO3	Use Deep Learning tools for standard problems
CSIT431	CO4	CSIT431CO4	Illustrate fair understanding of Bayesian approaches
CSIT431	CO5	CSIT431CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
CSIT431	CO6	CSIT431CO6	Demonstrate knowledge of solving real-world problems
CSIT431	CO7	CSIT431CO7	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
CSIT431	CO8	CSIT431CO8	Demonstrate ability to work in a team effectively
PHIL221	CO1	PHIL221CO1	Understand basic terms and concepts associated with Indian Philosophy
PHIL221	CO2	PHIL221CO2	Recognise conventions of philosophical and religious genres
PHIL221	CO3	PHIL221CO3	Identify important Indian philosophical voices
PHIL221	CO4	PHIL221CO4	Understand history of various philosophical developments
PHIL221	CO5	PHIL221CO5	Express philosophical ideas in writing

List of Course Outcomes for all courses A.Y. 2022-23

PHIL221	CO6	PHIL221CO6	Learn to review philosophical and religious texts
PHIL221	CO7	PHIL221CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PHIL221	CO8	PHIL221CO8	Demonstrate skills to conduct critical enquiry
PHIL321	CO1	PHIL321CO1	Understand basic terms and concepts associated with Indian Philosophy
PHIL321	CO2	PHIL321CO2	Recognise conventions of philosophical and religious genres
PHIL321	CO3	PHIL321CO3	Identify important Indian philosophical voices
PHIL321	CO4	PHIL321CO4	Understand history of various philosophical developments
PHIL321	CO5	PHIL321CO5	Express philosophical ideas in writing
PHIL321	CO6	PHIL321CO6	Learn to review philosophical and religious texts
PHIL321	CO7	PHIL321CO7	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
PHIL321	CO8	PHIL321CO8	Demonstrate skills to conduct critical enquiry
CULS431	CO1	CULS431CO1	Understand contemporary debates within the field
CULS431	CO2	CULS431CO2	Respond the contemporary debates
CULS431	CO3	CULS431CO3	understand the state of the discipline
CULS431	CO4	CULS431CO4	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
CULS431	CO5	CULS431CO5	Demonstrate skills to conduct critical enquiry
LITR401	CO1	LITR401CO1	Be able to speak in broad terms about literary history
LITR401	CO2	LITR401CO2	Deeply understand literary works within their contexts
LITR401	CO3	LITR401CO3	define the characteristics of a movement
LITR401	CO4	LITR401CO4	Communicate clearly, concisely and correctly using written, spoken, and visual mediums that helps in enhancing employment opportunities.
LITR401	CO5	LITR401CO5	Demonstrate skills to conduct critical enquiry
STAT332	CO1	STAT332CO1	Have a good understanding of the fundamental issues and challenges of machine learning: data, model selection, model complexity, etc.
STAT332	CO2	STAT332CO2	Have an understanding of the strengths and weaknesses of many popular machine learning approaches.
STAT332	CO3	STAT332CO3	Appreciate the underlying mathematical relationships within and across Machine Learning algorithms and the paradigms of supervised and un-supervised learning.
STAT332	CO4	STAT332CO4	Have a good understanding of traditional and ML based methods of forecasting including their strengths and weaknesses
STAT332	CO5	STAT332CO5	Be able to design and implement various machine learning algorithms in a range of real-world applications.
STAT332	CO6	STAT332CO6	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
STAT332	CO7	STAT332CO7	Demonstrate knowledge of solving real-world problems
STAT332	CO8	STAT332CO8	Demonstrate knowledge of relevant concepts and how this applies to practice and industrial settings.
STAT332	CO9	STAT332CO9	Demonstrate ability to work in a team effectively
FLTV401	CO1	FLTV401CO1	Identify patterns and changes in film style and narrative across its history
FLTV401	CO2	FLTV401CO2	Use appropriate critical frameworks for the purposes of film analysis
FLTV401	CO3	FLTV401CO3	Apply knowledge of film form and theory in film analysis
FLTV401	CO4	FLTV401CO4	Interpret implicit and explicit expressions of value systems in film representation
FLTV401	CO5	FLTV401CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV401	CO6	FLTV401CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV401	CO7	FLTV401CO7	Demonstrate ability to work in a team effectively
FLTV401	CO8	FLTV401CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV401	CO9	FLTV401CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV401	CO10	FLTV401CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV401	CO11	FLTV401CO11	Demonstrate ability to work in a team effectively
FLTV401	CO12	FLTV401CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV464	CO1	FLTV464CO1	Identify patterns and changes in film style and narrative across its history
FLTV464	CO2	FLTV464CO2	Use appropriate critical frameworks for the purposes of film analysis

List of Course Outcomes for all courses A.Y. 2022-23

FLTV464	CO3	FLTV464CO3	Apply knowledge of film form and theory in film analysis
FLTV464	CO4	FLTV464CO4	Interpret implicit and explicit expressions of value systems in film representation
FLTV464	CO5	FLTV464CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV464	CO6	FLTV464CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV464	CO7	FLTV464CO7	Demonstrate ability to work in a team effectively
FLTV464	CO8	FLTV464CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV464	CO9	FLTV464CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV464	CO10	FLTV464CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV464	CO11	FLTV464CO11	Demonstrate ability to work in a team effectively
FLTV464	CO12	FLTV464CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DESG107	CO1	DESG107CO1	Students will grasp the importance of low-fidelity making in the design process and recognize its role in the iterative design cycle.
DESG107	CO2	DESG107CO2	Familiarity with prototyping tools and materials
DESG107	CO3	DESG107CO3	Students will cultivate critical thinking and problem-solving skills through iterative prototyping
DESG107	CO4	DESG107CO4	Students will become proficient in using prototyping tools for design exploration and refinement.
DESG211	CO1	DESG211CO1	Understand the concepts of UI and UX and their scope of application
DESG211	CO2	DESG211CO2	Learn how to apply the design cycle and analyse any design problem
DESG211	CO3	DESG211CO3	Apply basic research tools and analyse the data
DESG211	CO4	DESG211CO4	Evaluate the data collected and generate themes for design
DESG211	CO5	DESG211CO5	Create prototypes and learn to evaluate them
DESG211	CO6	DESG211CO6	Understand and apply the principles of iterative design
DESG211	CO7	DESG211CO7	Apply HCI principles to analyse design problems and evaluate solutions
DESG211	CO8	DESG211CO8	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG211	CO9	DESG211CO9	Demonstrate ability to work in a team effectively
DESG211	CO10	DESG211CO10	Demonstrate knowledge of current professional practices and trends
DESG211	CO11	DESG211CO11	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG281	CO1	DESG281CO1	Understanding the concept and the dynamics of Design led research process
DESG281	CO2	DESG281CO2	Students will grasp the importance of low-fidelity making in the design process and recognize its role in the iterative design cycle.
DESG281	CO3	DESG281CO3	Familiarity with prototyping tools and materials
DESG281	CO4	DESG281CO4	Students will cultivate critical thinking and problem-solving skills through iterative prototyping
DESG281	CO5	DESG281CO5	Students will become proficient in using prototyping tools for design exploration and refinement.
DESG281	CO6	DESG281CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG281	CO7	DESG281CO7	Demonstrate ability to work in a team effectively
DESG281	CO8	DESG281CO8	Demonstrate knowledge of current professional practices and trends
DESG281	CO9	DESG281CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG231	CO1	DESG231CO1	Students will demonstrate a sound understanding of the principles of basic electronics, 3D printing, and laser cutting
DESG231	CO2	DESG231CO2	Students will display competence in using various tools and equipment within the Tinkering Lab, showcasing their ability to handle tasks independently and safely.
DESG231	CO3	DESG231CO3	Students will demonstrate strength in the idea of making and tinkering with various tools
DESG231	CO4	DESG231CO4	Students will showcase their tinkering skills through practical projects
DESG231	CO5	DESG231CO5	Students will develop fluency in design and fabrication technologies
DESG231	CO6	DESG231CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG231	CO7	DESG231CO7	Demonstrate ability to work in a team effectively
DESG231	CO8	DESG231CO8	Demonstrate knowledge of current professional practices and trends

List of Course Outcomes for all courses A.Y. 2022-23

DESG231	CO9	DESG231CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DESG317	CO1	DESG317CO1	Ability to generate insights from information
DESG317	CO2	DESG317CO2	Implement information for effective organisation
DESG317	CO3	DESG317CO3	Summarize information visually
DESG317	CO4	DESG317CO4	Assemble information for ideation
DESG317	CO5	DESG317CO5	Produce assets to communicate ideations
DESG317	CO6	DESG317CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG317	CO7	DESG317CO7	Demonstrate ability to work in a team effectively
DESG317	CO8	DESG317CO8	Demonstrate knowledge of current professional practices and trends
DESG317	CO9	DESG317CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
DANC301	CO1	DANC301CO1	To understand the concept of aesthetics and dance aesthetics
DANC301	CO2	DANC301CO2	To apply different aspects of aesthetics in student's own work
DANC301	CO3	DANC301CO3	To critically analyse dance and other art forms
THEA307	CO1	THEA307CO1	Understanding one's voice
THEA307	CO2	THEA307CO2	Listening and understanding voices around us
THEA307	CO3	THEA307CO3	Understanding effective use of one's voice
THEA307	CO4	THEA307CO4	Working on one's pitch and volume
THEA307	CO5	THEA307CO5	Use of effective breath
THEA307	CO6	THEA307CO6	Effective use and understanding of resonators
THEA307	CO7	THEA307CO7	Working on the strength and stamina for effective use of voice
THEA307	CO8	THEA307CO8	To be able to speak comfortably
THEA307	CO9	THEA307CO9	Understanding the importance of doing the voice exercises consistently
MUSC308	CO1	MUSC308CO1	Define and distinguish between different Localities/ communities in terms of Musical preferences using research methods.
MUSC308	CO2	MUSC308CO2	Understand and use the different research methods in Performing Arts.
MUSC308	CO3	MUSC308CO3	List, demonstrate and Analyse the data collected in terms of mapping of locality with reference to Music.
MUSC308	CO4	MUSC308CO4	Plan and prepare a 10 to 15 minutes Presentation based on the research.
MUSC308	CO5	MUSC308CO5	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
MUSC308	CO6	MUSC308CO6	Demonstrate ability to work in a team effectively
MUSC308	CO7	MUSC308CO7	Demonstrate knowledge of current professional practices and trends
MUSC308	CO8	MUSC308CO8	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
COMS381	CO1	COMS381CO1	Define and distinguish between different Localities/ communities in terms of Musical preferences using research methods.
COMS381	CO2	COMS381CO2	Understand and use the different research methods in Performing Arts.
COMS381	CO3	COMS381CO3	List, demonstrate and Analyse the data collected in terms of mapping of locality with reference to Music.
COMS381	CO4	COMS381CO4	Plan and prepare a 10 to 15 minutes Presentation based on the research.
COMS381	CO5	COMS381CO5	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
COMS381	CO6	COMS381CO6	Demonstrate ability to work in a team effectively
COMS381	CO7	COMS381CO7	Demonstrate knowledge of current professional practices and trends
COMS381	CO8	COMS381CO8	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
FINC306	CO1	FINC306CO1	Gain an understanding of relevant aspects relating to M&A and Corporate Restructuring.
FINC306	CO2	FINC306CO2	Understand M&A and Synergy
FINC306	CO3	FINC306CO3	Understand valuation in an M&A context
FINC306	CO4	FINC306CO4	Analyze the impact of an M & A Exercise on Key Financials
FINC306	CO5	FINC306CO5	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC306	CO6	FINC306CO6	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC306	CO7	FINC306CO7	Demonstrate ability to work in a team effectively

List of Course Outcomes for all courses A.Y. 2022-23

FINC306	CO8	FINC306CO8	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC401	CO1	FINC401CO1	To facilitate basic understanding of different concepts of fixed income markets
FINC401	CO2	FINC401CO2	To learn yield curve construction techniques, pricing bonds in the presence of credit risk and illiquidity
FINC401	CO3	FINC401CO3	To learn relative valuation of bonds and construct index-based bond portfolios
FINC401	CO4	FINC401CO4	To examine latest debt-financing trends in the Indian market
FINC401	CO5	FINC401CO5	To understand select interest rate based derivatives, their valuation and applications
FINC401	CO6	FINC401CO6	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC401	CO7	FINC401CO7	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC401	CO8	FINC401CO8	Demonstrate ability to work in a team effectively
FINC401	CO9	FINC401CO9	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FINC403	CO1	FINC403CO1	Understand explain different types of Contracts, Forward, Futures, Options
FINC403	CO2	FINC403CO2	Understand put call parity equation and estimate fair option prices and arbitrage
FINC403	CO3	FINC403CO3	Understand, Analyse and Estimate fair option prices Use Black Scholes, Binomial and other methods in Excel
FINC403	CO4	FINC403CO4	Understand, Analyse and Estimate impact of Greeks on call and put prices
FINC403	CO5	FINC403CO5	Understand, Analyse and Evaluate appropriate strategies for various market conditions for financial gains and / or for hedging
FINC403	CO6	FINC403CO6	Understand, analyse and Assess/ Quantify financial risks and their probabilities
FINC403	CO7	FINC403CO7	Understand, Analyse and Use Risk Management Strategies
FINC403	CO8	FINC403CO8	Understand, and Use derivatives for protecting values of Individual or Institutional portfolios
FINC403	CO9	FINC403CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
FINC403	CO10	FINC403CO10	Demonstrate knowledge of relevant concepts and its application in employment settings
FINC403	CO11	FINC403CO11	Demonstrate ability to work in a team effectively
FINC403	CO12	FINC403CO12	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
DANC321	CO1	DANC321CO1	To understand the concept of DMT
DANC321	CO2	DANC321CO2	To demonstrate an awareness of the development Dance as a therapeutic tool
DANC321	CO3	DANC321CO3	To explain the difference between the concepts of Dance and Dance in the context of therapy
DANC321	CO4	DANC321CO4	To understand, explain the Mind Body connection involved in DMT
DANC321	CO5	DANC321CO5	To identify the key theories and methodologies used in DMT
DANC321	CO6	DANC321CO6	To understand, explain the use of different DMT tools
DANC321	CO7	DANC321CO7	To demonstrate the understanding of the process of a DMT session
DANC321	CO8	DANC321CO8	To understand, explain, analyse the roles and responsibilities of a DMT facilitator
DANC321	CO9	DANC321CO9	To understand, discuss, explain, apply the moral and ethical considerations involved in DMT practice
DANC321	CO10	DANC321CO10	To understand, discuss, explain the effectiveness of DMT with different population groups and the integration of different art modalities
DESG321	CO1	DESG321CO1	Understand the fundamentals of entrepreneurship and how design can be used to create innovative products and services.
DESG321	CO2	DESG321CO2	Develop a business model canvas and conduct customer discovery to identify and evaluate potential business opportunities.
DESG321	CO3	DESG321CO3	Use design thinking methodologies to develop and refine a product or service concept.
DESG321	CO4	DESG321CO4	Develop a lean startup methodology and create a minimum viable product (MVP) to test and validate the business concept.
DESG321	CO5	DESG321CO5	Develop and deliver an effective pitch to potential investors and stakeholders.
DESG321	CO6	DESG321CO6	Understanding of key concepts underpinning design and its application in product/ service/ design opportunities
DESG321	CO7	DESG321CO7	Demonstrate ability to work in a team effectively
DESG321	CO8	DESG321CO8	Demonstrate knowledge of current professional practices and trends
DESG321	CO9	DESG321CO9	Communicate ideas and solutions clearly, concisely, and persuasively to the stakeholders.
GMGT251	CO1	GMGT251CO1	Identify, appraise, and understand enterprise risks

List of Course Outcomes for all courses A.Y. 2022-23

GMGT251	CO2	GMGT251CO2	Appraise, evaluate and explain cultural theory of risk, practical approach and changing risk culture
GMGT251	CO3	GMGT251CO3	Decoding ISO guidelines in risk context, complete understanding of COSO framework of risk management
GMGT251	CO4	GMGT251CO4	Analyze and evaluate risk management process , designing and implementing risk management strategies
GMGT251	CO5	GMGT251CO5	Appraise, evaluate, and explain risk management architecture
GMGT251	CO6	GMGT251CO6	Ability to manage risk in complex 21st century enterprises, extending risk management framework across the value chain, dealing with leadership and governance issues
ECON334	CO1	ECON334CO1	Introduction to Health Economics – i. What is health economics? ii. The four basic questions iii. Understanding Indian healthcare system iv. Economic models and empirical testing
ECON334	CO2	ECON334CO2	Health and Medical Care: An Economic Perspective – i. What is health? ii. Utility analysis of health iii. Production of health iv. Empirical evidence on the production of health v. Cost and benefit analysis
ECON334	CO3	ECON334CO3	Healthcare Systems and Institutions – i. Elements of a healthcare system ii. Financing health iii. The production of medical services iv. Physician choice and referral practices
ECON334	CO4	ECON334CO4	The Demand for Medical Care & Medical Insurance – i. Demand analysis of medical care ii. Elasticity of demand iii. Demand for health insurance iv. The health insurance products in India v. Adverse selection and moral hazard
ECON334	CO5	ECON334CO5	Medical Care Production and Costs – i. Short-run and long-run production functions ii. A production function of hospital admissions iii. Role of markets in medical care
ECON334	CO6	ECON334CO6	The Role of Government & Private Players – i. Government's spending on health insurance ii. Existing health infrastructure and quality of care iii. Government provided health insurance iv. The private health insurance industry v. Government health policies vi. Health policy implementation and outcome
JRLM320	CO1	JRLM320CO1	Get introduced to various tools employed in New Media production
JRLM320	CO2	JRLM320CO2	Have a strong knowledge of practical and efficient ways of producing New Media
JRLM320	CO3	JRLM320CO3	Produce & Deliver a New Media Project
JRLM320	CO4	JRLM320CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
JRLM320	CO5	JRLM320CO5	Demonstrate knowledge of relevant concepts and its application in employment settings
JRLM320	CO6	JRLM320CO6	Demonstrate ability to work in a team effectively
JRLM320	CO7	JRLM320CO7	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
FLTV402	CO1	FLTV402CO1	Get introduced to various tools employed in New Media production
FLTV402	CO2	FLTV402CO2	Have a strong knowledge of practical and efficient ways of producing New Media
FLTV402	CO3	FLTV402CO3	Produce & Deliver a New Media Project
FLTV402	CO4	FLTV402CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
FLTV402	CO5	FLTV402CO5	Demonstrate knowledge of relevant concepts and its application in employment settings
FLTV402	CO6	FLTV402CO6	Demonstrate ability to work in a team effectively
FLTV402	CO7	FLTV402CO7	Communicate effectively, simply, and accurately utilising written, oral, and visual mediums for professional development
SOCY151	CO1	SOCY151CO1	Understand the diverse nature of Indian society and its culture
SOCY151	CO2	SOCY151CO2	Reflect on the issues of integration and cultural identity

List of Course Outcomes for all courses A.Y. 2022-23

SOCY151	CO3	SOCY151CO3	Critically examine the processes of change and continuity in India
SOCY151	CO4	SOCY151CO4	Identify various social and cultural forces impacting contemporary Indian society
SOCY151	CO5	SOCY151CO5	Develop the skill to read researched articles and reflect on them
SOCY151	CO6	SOCY151CO6	Develop effective communication skills
FLTV307	CO1	FLTV307CO1	Use confidently different cameras available to students during the coursework
FLTV307	CO2	FLTV307CO2	Employ simple lighting techniques learnt during the course in the making of their films.
FLTV307	CO3	FLTV307CO3	Do a simple shot break-down and prepare a lighting plan for scenes/sequences and small scale films
FLTV307	CO4	FLTV307CO4	Shoot a small film as a Cinematographer (cinematography-centric)
FLTV307	CO5	FLTV307CO5	Analyse and understand noteworthy films from Cinematography perspective (fiction and non-fiction)
FLTV307	CO6	FLTV307CO6	Operate camera and pull focus on camera
FLTV307	CO7	FLTV307CO7	Demonstrate good control over exposures and tonal consistency in their films
FLTV307	CO8	FLTV307CO8	Demonstrate an eye for aesthetics and discover creative possibilities
BUAN304	CO1	BUAN304CO1	Assess univariate and multivariate normality
BUAN304	CO2	BUAN304CO2	Implement model discrimination strategies by hypothesis testing
BUAN304	CO3	BUAN304CO3	Interpret various factorial design techniques
BUAN304	CO4	BUAN304CO4	Apply advanced statistical techniques to real life business problems
BUAN304	CO5	BUAN304CO5	Understand design principles of data visualization
BUAN304	CO6	BUAN304CO6	Recall basic data visualization plots and tools required to generate them
BUAN304	CO7	BUAN304CO7	Apply scripting tools to generate interactive visualizations for web pages
BUAN304	CO8	BUAN304CO8	Understand how to process geomapped data and create interactive online maps
BUAN304	CO9	BUAN304CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
BUAN304	CO10	BUAN304CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings
BUAN304	CO11	BUAN304CO11	Demonstrate ability to work in a team effectively
BUAN304	CO12	BUAN304CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
BUAN305	CO1	BUAN305CO1	Understand AaaS models and applications
BUAN305	CO2	BUAN305CO2	apply appropriate frameworks for analysis and various AaaS systems
BUAN305	CO3	BUAN305CO3	demonstrate application and analysis of various AaaS systems
BUAN305	CO4	BUAN305CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
BUAN305	CO5	BUAN305CO5	Demonstrate knowledge of relevant concepts and how this applies in employment settings
BUAN305	CO6	BUAN305CO6	Demonstrate ability to work in a team effectively
BUAN305	CO7	BUAN305CO7	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
BUAN201	CO1	BUAN201CO1	understand meanings of common data mining and business intelligence terms and concepts
BUAN201	CO2	BUAN201CO2	apply appropriate data mining techniques on given datasets to solve specific business problems
BUAN201	CO3	BUAN201CO3	demonstrate basic hands-on knowledge of using Tableau, Excel and RStudio for analyzing and solving data mining problems
BUAN201	CO4	BUAN201CO4	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
BUAN201	CO5	BUAN201CO5	Demonstrate knowledge of relevant Business Analytics concepts and how this applies to practice to enhance employability in the Data analytics domain.
BUAN201	CO6	BUAN201CO6	Reflect critically upon own professional skills and employability prospects.
BUAN201	CO7	BUAN201CO7	Demonstrate ability to work in a team effectively
BUAN306	CO1	BUAN306CO1	Understand ecommerce business models and applications
BUAN306	CO2	BUAN306CO2	apply appropriate frameworks for analysis and various analytics techniques relevant to ecommerce
BUAN306	CO3	BUAN306CO3	demonstrate basic knowledge of recommender systems, blockchain technologies in ecommerce
BUAN306	CO4	BUAN306CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
BUAN306	CO5	BUAN306CO5	Demonstrate knowledge of relevant concepts and how this applies in employment settings

List of Course Outcomes for all courses A.Y. 2022-23

BUAN306	CO6	BUAN306CO6	Demonstrate ability to work in a team effectively
BUAN306	CO7	BUAN306CO7	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
BUAN307	CO1	BUAN307CO1	Remember and Understand EDM models and applications
BUAN307	CO2	BUAN307CO2	apply appropriate frameworks for analysis and various Database management systems using SQL
BUAN307	CO3	BUAN307CO3	demonstrate basic knowledge of RDBMS and SQL
BUAN307	CO4	BUAN307CO4	Apply a systematic approach to solve problems arising in classroom and professional settings
BUAN307	CO5	BUAN307CO5	Demonstrate knowledge of relevant concepts and how this applies in employment settings
BUAN307	CO6	BUAN307CO6	Demonstrate ability to work in a team effectively
BUAN307	CO7	BUAN307CO7	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
BUAN202	CO1	BUAN202CO1	understand meanings of common big data and cloud technology terms and concepts
BUAN202	CO2	BUAN202CO2	analyze and explain how big data and cloud technology can help managers in data management and analysis
BUAN202	CO3	BUAN202CO3	demonstrate basic hands-on knowledge of Hadoop, GCP and AWS platforms
BUAN202	CO4	BUAN202CO4	evaluate business scenarios and create appropriate big data and cloud strategy for migration/transformation
BUAN202	CO5	BUAN202CO5	Apply a systematic approach and employ latest computational technologies to solve problems arising in classroom and professional settings
BUAN202	CO6	BUAN202CO6	Demonstrate knowledge of relevant Business Analytics concepts and how this applies to practice to enhance employability in the Data analytics domain.
BUAN202	CO7	BUAN202CO7	Reflect critically upon own professional skills and employability prospects.
BUAN202	CO8	BUAN202CO8	Demonstrate ability to work in a team effectively
BUAN302	CO1	BUAN302CO1	Apply various data handling and visualization techniques to real life data
BUAN302	CO2	BUAN302CO2	Interpret learning methods
BUAN302	CO3	BUAN302CO3	Recognize and solve Different clustering techniques
BUAN302	CO4	BUAN302CO4	Analyse and test various Supervised Learning Techniques
BUAN302	CO5	BUAN302CO5	Interpret, various algorithm performance measures
BUAN302	CO6	BUAN302CO6	Compare and evaluate different classification algorithms
BUAN302	CO7	BUAN302CO7	Analyse and evaluate Dimensionality reduction techniques
BUAN302	CO8	BUAN302CO8	Understand and analyze regression techniques
BUAN302	CO9	BUAN302CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
BUAN302	CO10	BUAN302CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings
BUAN302	CO11	BUAN302CO11	Demonstrate ability to work in a team effectively
BUAN302	CO12	BUAN302CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
BUAN303	CO1	BUAN303CO1	compare and contrast shallow and deep learning architectures
BUAN303	CO2	BUAN303CO2	Analyze and apply Convolution Neural Networks to practical problems
BUAN303	CO3	BUAN303CO3	Be able to analyse and evaluate various oactivation functions and optimizers
BUAN303	CO4	BUAN303CO4	Understand basic concepts of LeNET and AlexNet
BUAN303	CO5	BUAN303CO5	Apply CNNs to business analytics
BUAN303	CO6	BUAN303CO6	Illustrate LSTM applications to text mining
BUAN303	CO7	BUAN303CO7	Compare, contrast and analyse various deep learning architectures
BUAN303	CO8	BUAN303CO8	Compare and contrast auto encoders and PCA
BUAN303	CO9	BUAN303CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
BUAN303	CO10	BUAN303CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings
BUAN303	CO11	BUAN303CO11	Demonstrate ability to work in a team effectively
BUAN303	CO12	BUAN303CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
BUAN301	CO1	BUAN301CO1	Assess univariate and multivariate normality
BUAN301	CO2	BUAN301CO2	Implement model discrimination strategies by hypothesis testing
BUAN301	CO3	BUAN301CO3	Interpret various factorial design techniques

List of Course Outcomes for all courses A.Y. 2022-23

BUAN301	CO4	BUAN301CO4	Apply advanced statistical techniques to real life business problems
BUAN301	CO5	BUAN301CO5	Understand design principles of data visualization
BUAN301	CO6	BUAN301CO6	Recall basic data visualization plots and tools required to generate them
BUAN301	CO7	BUAN301CO7	Apply scripting tools to generate interactive visualizations for web pages
BUAN301	CO8	BUAN301CO8	Understand how to process geomapped data and create interactive online maps
BUAN301	CO9	BUAN301CO9	Apply a systematic approach to solve problems arising in classroom and professional settings
BUAN301	CO10	BUAN301CO10	Demonstrate knowledge of relevant concepts and how this applies in employment settings
BUAN301	CO11	BUAN301CO11	Demonstrate ability to work in a team effectively
BUAN301	CO12	BUAN301CO12	Develop advanced knowledge of leadership and human resource management skills in business and management in industrial settings.
FLTV207	CO1	FLTV207CO1	Handle different cameras and use basic lighting skills.
FLTV207	CO2	FLTV207CO2	Shoot a 3 minute continuity film on his own.
FLTV208	CO1	FLTV208CO1	Adapt a short story for script for a short film
FLTV208	CO2	FLTV208CO2	Understand the basic structure of long form feature film
FLTV208	CO3	FLTV208CO3	Write script for an episode for a serial to be shown on TV or the Internet
FLTV208	CO4	FLTV208CO4	Write a proposal for making a program for TV or the Internet
