(Due to the ongoing COVID-19 situation, all dates may change)

ABOUT FLAME UNIVERSITY

FLAME was founded with the concept of liberal education as its cornerstone. FLAME celebrates ideas, cherishes diversity, and strives to deliver an academic experience that fosters intellectual curiosity, a critical thought process, self-reflection, leadership and teamwork skills, a sense of commitment and professionalism and a heightened sensitivity to one's sociocultural environment. FLAME aims to provide an interdisciplinary platform of education by propagating different models and paradigms through, but not limited to, history, philosophy, political sciences, psychology, business, economics, mathematics and finance.

As part of its endeavor to constantly redefine education, FLAME inducted the FLAME Investment Lab (FIL), an initiative that strives to deliver the concepts and decipher the art of value investing to interested students. FIL believes in the dictum "invest in yourself". It provides tools for self-learning and acquiring knowledge, constantly striving for intellectual stimulation and asking questions. FIL strives to widen your horizons, aiding you to connect the dots within seemingly disparate information. FIL truly believes that the best investment is investing in yourself. As Socrates has said, "I cannot teach anybody anything. I can only make them think."

After hosting multiple programs and FIL alumni meets that covered topics like valuation, accounting shenanigans, investment checklists, mental heuristics and negotiation amongst others, FIL is planning the, 'FLAME Investment Lab – Behavioral Finance and Value Investing with Sanjay Bakshi', program again from June 25th - 28th, 2020.

"They say a conversation with a wise man is like reading 'n' number of books. In this course, it was true. It takes a lot of a character, conviction and confidence to stand for 15 hrs everyday for 3 days teach everything he knows and answer all questions with his insights and not belittle anyone. He is a modern day confluence of Buddha and 'Renaissance polymath'."
