

EQUITY ANALYSIS FOR BEGINNERS

WITH JATIN KHEMANI

JULY 11 - JULY 14, 2024

ABOUT THE FLAME INVESTMENT LAB

FLAME was founded with the concept of liberal education as its cornerstone. FLAME celebrates ideas, cherishes diversity, and strives to deliver an academic experience that fosters intellectual curiosity, a critical thought process, self-reflection, leadership and teamwork skills, a sense of commitment and professionalism and a heightened sensitivity to one's sociocultural environment. FLAME aims to provide an interdisciplinary platform of education by propagating different models and paradigms through, but not limited to, history, philosophy, political sciences, psychology, business, economics, mathematics and finance.

As part of its endeavor to constantly redefine education, FLAME inducted the FLAME Investment Lab (FIL), an initiative that strives to deliver the concepts and decipher

the art of value investing to interested students. FIL believes in the dictum "invest in yourself". It provides tools for self-learning and acquiring knowledge, constantly striving for intellectual stimulation and asking questions. FIL strives to widen your horizons, aiding you to connect the dots within seemingly disparate information. FIL truly believes that the best investment is investing in yourself. As Socrates has said, "I cannot teach anybody anything. I can only make them think."

After successfully hosting multiple FLAME Investment Lab programs, we are excited to announce the '**FLAME Investment Lab – Equity Analysis for Beginners**' program with Jatin Khemani, from July 11 – July 14, 2024.

PROGRAM DESCRIPTION

FIL has this entry-level program that will introduce participants to a step-by-step practical guide to equity investing. It will be jargon-free with lots of examples, illustrations and past case studies showing the company's actual accounts and financial journey. An attempt is being made to make it simple to understand and relatable even for a home maker or a student who is relatively new to the world of equity analysis.

The program would start with understanding the need to invest one's savings along with various investment avenues available in India and thereafter move to equity analysis. There will be dedicated sessions for basics of accounting, financial ratios, business analysis, screening businesses, management analysis and valuation methodologies.
